RIFLE SHOOTING.

Because of the war, the National Matches and the National Rifle Association matches were not held in 1917, and the winners of the 1916 events will hold their titles and trophies until the next annual competitions.

The Inter-Club Military Match, a national outdoor match for civilian rifle clubs conducted under the auspices of the National Rifle Association, was also postponed.

Records of those indoor and outdoor rifle matches conducted by the National Rifle Association, in 1917 are as follows:

Indoor Inter-Club League Match—Winners, Class A, Peters Rifle and Revolver Club, Kings Mills, O., score 9,925; Class B, Washington, D. YACHTING.

The continuation of the European war prevented any effort toward holding the race for the America's Cup, originally scheduled for the Autumn of 1914. Sir Thomas Lipton's challenging yacht, Shamrock IV., remained in drydock at the Erie Basin, Brooklyn, N. Y., and neither the Resolute nor Vanitie, defending candidates, were in commission during the season of 1917. There was considerable activity in yachting circles along the Atlantic Coast and on the Great Lakes, races between the smaller type of craft being the feature of the Atlantic season. A record of the trial races between the Resolute and Vanitie during the season of 1915 is appended for reference purposes: Fifteen trials between the Resolute and the Vanitie were sailed, and the Resolute won on July 3 by 1m. 8s.; on July 7 by 1m. 6s.; on July 9 the Vanitie discontinued owing to the breaking of a gaff; on July 10 by 3m. 31s.; on July 13 by 4m. 16s.; on July 15 by 13s.; on July 17 by 26m. 12s.; on July 27 by 3m. 57s.; on August 5 by 1m. 36s. (corrected time, the Vanitie making 28s. faster actual time); on August 7 by 20m. 18s.; on August 10 by 4m. 15s., and on August 11 by 3m. 59s. The Vanitie defeated the Resolute on July 5 by 4m. 11s.; on August 3, the Resolute meeting with an accident, and on August 6 by 10m. 55s.

BICYCLING—*Continued.*

At the Newark Velodrome, September 12, 1915, Arthur Spencer of Toronto, Canada, rode a half-mile from scratch in 55s., equalling McDougall's record. The latter's mark, however, having been made first, receives credit as the record mark. In the first heat of the half-mile handicap, run June 24, 1917, at Newark Velodrome, John L. Staehle, the present amateur National Champion, won the heat in .55 flat, equalling the McDougall and Spencer marks.

The fastest time made for the mile in amateur competition was by Hans Ohrt, the 1915 National and World's Champion, who at the Newark Velodrome, September 15, 1915, rode from scratch in a one-mile handicap in 1m. 53 2-5s. He finished third in the race, his time being officially taken. It does not count as a record, as he did not win the race.

In a race closed to members of the Empire City Wheelmen, of Brooklyn, N. Y., run on August 19, 1917, on the Sheepshead Bay Speedway, amateur competition records between 60 and 100 miles, inclusive, were broken. The time was taken every ten miles, and the new times are as follows: 70 miles, P. L. Kane, 3.07.04; 80 miles, William Henky, 3.35.08; 90 miles, R. A. Rom, 4.04.23; 100 miles, Thomas A. Kennedy, 4.33.37. As the N. C. A. racing rules do not provide for the acceptance of closed competition performances superseding open competition, the foregoing performances must be classified as Amateur Closed Competition Records.

IMPORTANT CYCLING EVENTS.

Owing to the continuation of the European War, the functions of the Union Cycliste Internationale have been temporarily suspended, each national controlling organization composing the U. C. I. acting independently within its own jurisdiction, under U. C. I. general rules. In consequence there were no World's Championship races run in 1916 and 1917.

Paul Guignard holds the 100-kilometre paced record, made at Munich, September 15, 1909, in the time of 59m. 1s. Guignard also holds the 1-hour professional paced record, made the same time and place, of 63 miles 189.8 yards. At Munich, Guignard, on July 23, 1909, rode 31 miles 1,198 yards in the half-hour (a record). The amateur 1-hour motor-paced record is 56 miles, 1,128 yards, and was made by Francois Cuzin at Munich, September 30, 1909. Cuzin completed 100 kilometres in 1h. 5m. 45 2-5s. Oscar Egg, at the Velodrome Buffalo, Paris, in June, 1914, rode 27.50 miles unpaced in the hour. Arthur Van der Stuyft made a two-hour paced record at Leipsic, Germany, October 11, 1908, of 106 miles 1,498 yards.

Boston Six-Day Race, November 5-10, 1917, ten hours per day. Final score, Madden-Corry, 1,303.4 miles, 52 points; Magin-Hanley, 1,303.4 miles, 54 points; Drobach-Piercey, 1,303.4 miles, 60 points; Thomas-Lawrence, 1,303.4 miles, 74 points; Spears-Spencer, 1,303.4 miles, 75 points; Carman-Smith, 1,303.4 miles.

1917 BASEBALL BATTING AVERAGES.

FOLLOWING are the official batting averages of the first twenty of the two hundred and forty-four players engaged in the 1917 championship campaign of the National League. Of this number 170 participated in the minimum of fifteen games required for rating in the official averages, with Roush, Cincinnati, and Hornsby, St. Louis, heading the list. Six players reached the .300 class, as against nine in 1916. This decrease, however, was more than offset by the gain in .290 hitters, there being seven the past season, as against one in 1916. The leading run-scorer was George Burns, with 103. Max Carey led the base runners with 46 stolen bases; George Burns being next with 40, and Kauff third with 30. Charles Deal had most sacrifice hits—29. Roush and Kauff tied for greatest number of single safe hits, each having 141. Groh led in two-base hits with 39; Hornsby in three-base hits with 17, and Cravath and Robertson had 12 home runs apiece. Cravath led all others in extra bases made on long hits with the substantial total of 97. In team aggregates the Champion New Yorks led in runs scored with 635, and also led in base-stealing with 162 steals.

SILOS IN THE UNITED STATES.

There are 400,000 silos in the United States, with a total capacity of about 31,000,000 tons, an average of nearly 78 tons per silo. About 10 tons of silage can be obtained from one acre. No census has ever been made of the number of silos, therefore the crop reporters of the Bureau of Crop Estimates have made estimates for their respective localities. Silos are on six per cent. of the fa ms of the United States; they are most numerous in the dairy sections of the north and east. Their number is increasing rapidly.

650,000,000 POUNDS OF FLEECE.

Figures from the second quarterly report of wool stocks in the United States, made public by the Bureau of Markets, showed quantities in possession of 1,290 textile manufacturers and wool dealers September 30, 1917, to have been equal to approximately 650,000,000 pounds of grease wool. The stocks were divided as follows:

Grease wool	388,594,596	Tops	23,122,825
Scoured wool	64,635,849	Noils	17,944,426
Pulled wool	24,330,015		

These figures were compiled from returns by all of 564 wool dealers queried and by 726 of 736 textile manufacturers asked for statements of their stocks. Figures from the first wool survey, which represented holdings June 30, 1917, and compiled from reports by 406 dealers and 602 manufacturers, were as follows:

Grease wool	369,992,735	Tops	23,122,825
Scoured wool	46,903,517	Noils	17,944,426
Pulled wool	29,097,700		

THE NEW YORK STATE FOREST PRESERVE.

(Specially prepared for the ALMANAC by the State Conservation Commission.)

NEW YORK State's great Forest Preserve was established by act of the Legislature in 1885. It includes large areas in the two great forested sections of the State, the Adirondack and Catskill Mountains. Article 7, section 7 of the State Constitution, adopted in 1894, assured its integrity for all time. It provided that "The lands of the State, now owned or hereafter acquired, constituting the forest preserve as now fixed by law, shall be forever kept as wild forest land. They shall not be leased, sold or exchanged, or be taken by any corporation, public or private, nor shall the timber thereon be sold, removed or destroyed. But the Legislature may by general laws provide for the use of not exceeding three per centum of such lands for the construction and maintenance of reservoirs for municipal water supply, for the canals of the State and to regulate the flow of streams. Such reservoirs shall be constructed, owned and controlled by the State, but such work shall not be undertaken until after the boundaries and high flow lines thereof shall have been accurately surveyed and fixed, and after public notice, hearing and determination that such lands are required for such public use. The expense of any such improvements shall be apportioned on the public and private property and municipalities benefited to the extent of the benefits received.

The objects for which the Forest Preserve were established may be briefly stated as follows:

First—Forests are the great conservers of water supply. The leaves of the forest trees prevent rapid evaporation of moisture from the ground and the soft sponge-like duff of the forest floor hoards the water from melting snow and from rain, allowing it to run gradually into the brooks and rivers. The streams of Europe and Asia have shrunk as the forests have been cut away, and in many parts of our own country the water courses have diminished from the same cause.

Second—Forests increase the fall of rain. As the moisture laden winds from the lakes and ocean sweep over them, their lower temperature precipitates the vapor as rain or snow. Thus the forests are not only conservers of water supply but are also, for all practical purposes, actual producers of water supply.

Third—Forests are great equalizers of climate and temperature. It is a fact of common knowledge that the localities which have the most equable climates, which are most free from violent winds, from periods of drought, and from excessive heat and cold, are the sections which have a considerable forest cover over them or in their immediate vicinity.

Fourth—Because of the pace of our modern civilization, forests have become invaluable as recreation grounds for all the people. In fact their use for this purpose has increased so tremendously within the last twenty years that it is now one of the chief purposes for which a forest preserve should be maintained Forested regions are also important as sanitary and health resorts, and are absolutely essential for the preservation of fish and game.

Fifth—Without preservation of the forest under State ownership, the supply of timber for the future will be seriously endangered. Private ownership of forest land has proved almost universally to be wasteful and to lead ultimately to complete denudation.

Since the establishment of the Forest Preserve, the State of New York has spent $4,075,000 in the acquisition of land for its extension. In addition large areas of other land have been acquired by tax sales, with the result that in 1916 the area of the Forest Preserve, in both the Adirondack and Catskill Mountains, aggregated 1,812,865.17 acres.

Jurisdiction over the Forest Preserve is exercised by the Conservation Commission, which has charge, besides, of the St. Lawrence Reservation, the Cuba Reservation, and the John Brown Farm in the Town of North Elba, Essex County. Besides administrative control over this property, the commission also has entire charge of the fighting of forest fires upon both public and privately owned land in the large forested regions.

For the prompt detection of forest fires, fifty-two observation stations are maintained upon mountain tops throughout the Adirondacks and Catskills. All of these stations are connected by telephone lines with the ranger headquarters. Observers are on duty at these stations throughout the entire dry season from spring until fall. A force of sixty-five forest rangers and five district rangers is also maintained, to attend to the administration of the State owned land and the fighting of fires upon both State and private land.

The work of reforestation of State land and the raising of trees for the reforestation of private land is also conducted by the commission. For this purpose six nurseries are maintained, having a total capacity of 30,000,000 trees and an annual production of 10,000,000. Approximately 3,000 acres of State land are reforested each year. Trees are sold to private landowners at the cost of production, to municipalities at 50 cents per thousand, and are furnished to State institutions without charge.

The sections of the Adirondack and Catskill Mountains upon which it is most important for the State to insure the maintenance of a continuous forest cover have been defined by law and are known as the Adirondack and Catskill parks. They are bounded by a line called the blue line. Within these parks approximately one-half of the land is still privately owned. Part of the land of the Forest Preserve lies outside of the park lines, and thus the park lines, which run through both State and private land, are simply lines to designate the most vital sections of the mountain regions. Extensive lumbering operations upon much of the land within the park lines are endangering the water sheds, and this led to a referendum vote in 1916 for the authorization of a bond issue of $7,500,000 for purchase of additional land to be added to the Forest Preserve. The proposition passed by a large majority and the Conservation Commission is now engaged upon the expenditure of this sum. The Legislature in 1917 appropriated $2,500,000 of the bond issue for immediate use. The recommendations of the Conservation Commission are submitted to the Commissioners of the Land Office, who act with the Conservation Commission in finally deciding on purchases.

It is conservatively estimated that the Forest Preserve is now worth, if it should be placed on the market, at least $40,000,000, thus showing an increase in value of approximately 1,000 per cent. over its cost to the State It is expected that the additions to be made the next few years will show a similar increase within a few decades.

Investigations made by the Conservation Commission indicate that investment in hotels, boarding houses and other facilities for the care of summer visitors in the Forest Preserve regions, the amount of money annually expended in caring for these people, the money spent by vacationists, and the number of persons actually engaged in the business of caring for summer visitors, far exceed in amount similar figures for the lumber industry, thus indicating that the chief business in the Forest Preserve regions has now come to be that of caring for vacationists.

For such a business the Adirondack and Catskill Mountains are incomparable. They are covered almost everywhere with the native trees of North America—pine, spruce, hemlock, balsam, cedar, tamarack, beech, birch, maple, and the other less important deciduous trees. Even on many of these areas that have been devastated in the past, these trees are returning.

Under a careful system of game protection the fauna native to the woods is preserved, and in many respects is increasing. Chief among the large animals are deer and bears Beaver, which had become extinct, were reintroduced to the Adirondacks in 1905 and have since spread over every section of the woods. They have also been introduced in the Catskills and are becoming more abundant there. In 1915, through co-operation with the Benevolent and Protective Order of Elks, a carload of elk from Yellowstone Park were liberated. Among other common animals, many of which furnish a large amount of fur, should be mentioned the fox, mink, otter, marten, weasel, fisher, coon and muskrat.

The lakes and streams, which are annually stocked by the Conservation Commission, contain brook trout, lake trout, rainbow trout, brown trout, large and small mouthed black bass, great northern pike, pickerel, perch, bullheads and many of the other coarser fishes.

NEW YORK STATE PARKS AND RESERVATIONS.

THE State of New York possesses several reservations, two forest preserves, and several parks. One the Niagara Reservation, comprises the land about the great cataract, purchased at a cost of $1,000,000. Then there is the Watkins Glen Reservation, 1½ miles in length, and containing 103.5 acres.

The State Reservation at Saratoga Springs now comprises approximately 450 acres of land, and includes 122 springs and wells. In addition, the State has acquired mineral rights in other lands approximating seventy-two acres, adding 9 springs to those upon the State owned land. In accordance with the policy of the State to acquire every spring of value, the Reservation now includes practically all the naturally mineralized and naturally carbonated springs in the Saratoga region.

The State also owns Letchworth Park, about the Falls of the Genesee River; islands in the St. Lawrence River, and John Boyd Thacher Park, near the City of Albany.

The great forest preserve of the State is divided into two preserves: one in the Adirondack region and the other in the Catskill region. The State now owns in the counties composing the Adirondack and Catskill reserves 1,812,865 acres of forest and lakes. The voters of the State in 1916 adopted a proposition to bond the State to the amount of $10,000,000, of which $7,500,000 is to be expended in the purchase of additional land for State park purposes within the forest preserve counties; which land, if now owned by the State under existing law, would be part of the forest preserve. The Legislature has by law defined the central portions of the Adirondack and Catskill mountain and lake regions as the vital areas over which the people of the State of New York should maintain a continuous forest cover. Nevertheless, the State of New York now owns only 48 per cent. of the land within the park lines of the Adirondack and Catskill parks The State holdings occur in parcels of larger or smaller area, intermixed everywhere with tracts of privately owned forest which is fully subject to uncontrolled exploitation. The $7,500,000 just voted by the people will be used in acquiring as much as possible of the 52 per cent. of privately owned land within the forest preserve parks, the object being to guard water supply, to increase rainfall and give a place for recreation.

Another portion of the $10,000,000 bond issue adopted in 1916, amounting to $2,500,000, is to be used in the acquisition of lands for the extension of the Palisades Interstate Park. Already the Palisades Interstate Park Commission has obtained private subscriptions of $2,500,000, which are to be added to the State's bond issue for the further development of the property. The total amount to be further expended on the Palisades Park is thus $5,000,000.

The Palisades Interstate Park is situated in the counties of Orange and Rockland, and comprises at present about 29,000 acres, of which 1,000 acres is in New Jersey and the balance in New York. The jurisdiction of the Interstate Park Commission extends northward from the New Jersey State line along the Hudson River to the City of Newburgh and westward so as to include the entire Ramapo Mountains. South of the New Jersey line 1,000 acres along the Hudson, owned by the State of New Jersey, are under the control of a legally distinct commission, which, however, acts in close co-operation with the Commissioners of the State of New York. In the creation of the Palisades Interstate Park the State of New York has thus far appropriated in money and lands $3,150,000, and the State of New Jersey appropriated $500,000 for the building of the Henry Hudson Drive along the Palisades. In addition, the Palisades Interstate Park Commission has received private contributions in moneys and lands amounting to a grand total of $4,480,000, or more than the total investment thus far of both the States of New York and New Jersey.

The Englewood approach to the Henry Hudson Drive, up the sheer face of the Palisades cliffs at Englewood, N. J., was completed and opened for traffic in the month of August, 1915. A portion of this approach constitutes part of the Henry Hudson Drive. From the northerly loop of the approach the drive is now under construction for a distance of five miles to Alpine, N. J. At Alpine the Alpine approach is now under construction up the face of the cliffs at that point. At the foot of the Englewood approach a motor boat basin, 1,100 feet long by 150 feet wide, has been constructed.

From the southerly end of the Palisades properties, in the neighborhood of Fort Lee, N. J., the commission is constructing a footpath which will, within a short time, run along the full length of the Palisades at the water's edge. Eight and one-half miles of this path are now completed.

Camping under the Palisades was, this year, for the first time, confined to the district north of Excelsior Landing, which is one mile north of Alpine, N. J. The charge for the camping permit is fixed at $1 per week for the space occupied by the tent.

It is estimated that 1,000,000 people went to the Palisades section of the Interstate Park during the season of 1917.

The camp which has for four years been established at Blauvelt, N. Y., for the use of working girls was used during the season of 1916 by 1,857 individuals. This camp is under the charge of the Young Women's Christian Association of New York.

During 1917 approximately 650,000 people came to the Bear Mountain section of the Interstate Park. This section is located on the west shore of the Hudson River, about 45 miles from New York City. A daily boat service was continued to Bear Mountain Park during the season of 1917. Practically every Saturday, Sunday and holiday throughout the season the park was patronized by organizations holding their annual outings. On one day 900 people from three different organizations partook of the table d'hote dinner at the Bear Mountain Inn. At times during the summer as many as three sets of athletic events were being conducted at the same time on the Bear Mountain playground. A feature of the playground is baseball, there being three fully equipped diamonds. On Highland Lake, at Bear Mountain, the commission has installed 120 rowboats, free for one-half hour to the public. In the groves on the shores of Hessian Lake many rustic shelters have been constructed, and also a large, covered dancing pavilion.

At Bear Mountain Park, the Bear Mountain Inn was established by the commission with the idea of supplying visitors to the park and camping parties with the best food at reasonable prices. The inn is operated by the commission, and is managed and conducted by its salaried employés. Everything is to be had there, from a quick lunch to table d'hote and finest à la carte service. The restaurant building is 200 feet long by 90 feet wide. The lower floor is devoted entirely to lunch-counter service. Tables are provided in the inn and in the surrounding groves to which the food may be carried. By the Spring of 1917 there will have been completed a well-equipped garage and automobile repair shop at Bear Mountain Park.

The New Park Drive, through the Bear-Mountain-Harriman sections of the park, was finished and opened for traffic in August, 1915. This drive is 11 miles long, and carefully located and graded. It is the main artery of traffic through the park, with which all other drives and trails connect. In conjunction with County Highway No. 416 this drive passes seven lakes between the Hudson River and the Ramapo Valley. Six of these lakes have been artificially constructed by the commission.

The New Park Drive has been the Mecca for thousands of motorists all over the country. During the 1916 season 50,000 automobiles were parked within a short distance of the Bear Mountain Inn. As many as 2,209 cars occupied the parking space on one Sunday in October. It is estimated that over 200,000 people came to Bear Mountain by automobile during the season of 1916.

Upon the shores of two lakes in the Harriman section 6,000 Boy Scouts encamped during the season of 1916. On another lake 428 boys suffering from the effects of malnutrition were camped under the direction of the Bureau of Welfare for School Children. This camp was in the nature of an experiment, and the results were highly satisfactory. The boys were kept in the woods as long as they could possibly stay. The plan is to increase the capacity of the present camp and to establish more camps of a like nature, and possibly in time to keep one of the camps open throughout the year.

General camping was permitted at Bear Mountain Park upon grounds set aside for this purpose at the northerly end of Hessian Lake, under permits issued by the commission at a charge of $1 for the space occupied by the tent.

NEW YORK STATE PARKS AND RESERVATIONS—*Continued.*

In all the commission's lakes fishing is allowed without formal permit. During the past season many millions of pike-perch fry have been planted in the commission's lakes and trout fry have been put in the brooks.

The Palisades Interstate Park is a game refuge in which firearms of any description are not allowed.

In the fall of 1916 the park comprised about 27,000 acres, of which 721 acres constitute the park in New Jersey; 536 acres, the park at Blauvelt; 458 acres, the park at Hook Mountain; the balance in the Harriman and Bear Mountain sections.

During the past year the commission, working in conjunction with the State Highway Department of New York, has completed the Popolopen Bridge, spanning the 600-foot gorge between Forts Clinton and Montgomery, at an elevation which is 5 feet higher than the Brooklyn Bridge.

A careful survey of the Revolutionary Forts Clinton and Montgomery has been made by members of the American Scenic and Historic Preservation Society and of the Society of the American Museum of Natural History, and the restoration of these forts is now in progress.

The Palisades and the State roads will be connected. Route 3 is one of the great routes provided for in the Highway Law of 1909, under which provision was made for a road through the easterly portion of Rockland, Orange and Ulster Counties to Kingston and thence to Albany. By co-operation with the county State and national authorities, the Palisades Commissioners have succeeded in having this route so planned that, in conjunction with the Henry Hudson Drive, it will ultimately constitute a great interstate highway from Fort Lee to Albany. From the State line to Congers the route has not yet been constructed. From Congers, through Haverstraw, Stony Point and Bear Mountain, the road is completed to Highland Falls. The Federal authorities have agreed that from Highland Falls the road may be constructed through the Military Reservation by following for two miles the road to Central Valley. When this road reaches Crows Nest the new highway will be constructed along the southerly slope of Crows Nest until it approaches the Hudson River. Then it will follow the river side of Crows Nest to Storm King.

The State Highway Department is now engaged in constructing sections of the road in the vicinity of Crows Nest and Storm King Mountain. Around the face of Storm King Mountain the road is at an elevation of 380 feet directly above the Hudson River.

When the entire road from Albany to Fort Lee is completed it will run almost its entire length in full view of the Hudson River and will afford a scenic highway unsurpassed anywhere in the world.

WHY THE LEAVES CHANGE THEIR COLOR.

(By the United States Forest Service.)

The change is not due to the action of frost, but is a preparation for winter. All during the spring and summer the leaves have served as factories, where the foods necessary for the tree's growth have been manufactured. This food making takes place in numberless tiny cells of the leaf and is carried on by small green bodies which give the leaf its color. These chlorophyll bodies, as they are known, make the food of the tree by combining carbon taken from the carbonic acid gas of the air with hydrogen, oxygen, and various minerals supplied by the water which the roots gather. In the fall when the cool weather causes a slowing down of the vital processes, the work of the leaves comes to an end. The machinery of the leaf factory is dismantled, so to speak, the chlorophyll is broken up into the various substances of which it is composed, and whatever food there is on hand is sent to the body of the tree to be stored up for use in the spring. All that remain in the cell cavities of the leaf is a watery substance in which a few oil globules and crystals, and a small number of yellow, strongly refractive bodies can be seen. These give the leaves the yellow coloring so familiar in autumnal foliage.

It often happens that there is more sugar in the leaf than can be readily transferred back to the tree. When this is the case the chemical combination with the other substances produces many-colored tints, varying from the brilliant red of the dogwood to the more austere red-browns of the oak. In coniferous trees, which do not lose their foliage in the fall, the green coloring matter takes on a slightly brownish tinge, which however, gives way to the lighter color in the spring. While the color of the leaf is changing, other preparations are being made. At the point where the stem of the leaf is attached to the tree, a special layer of cells develops which gradually sever the tissues which support the leaf. At the same time Nature heals the cut, so that when the leaf is finally blown off by the wind or falls from its own weight, the place where it grew on the twig is marked by a scar. Although the food which has been prepared in the cell cavities is sent back to the tree, the mineral substances with which the walls of the cells have become impregnated during the summer months are retained.

When the leaves fall they contain relatively large amounts of valuable elements, such as nitrogen and phosphorus which were originally a part of the soil. The decomposition of the leaves results in enriching the top layers of the soil by returning these elements and by the accumulation of humus. That is why the mellow black earth from the forest floor is so fertile. But if fires are allowed to run through the forest and the leaves are burned, the most valuable of the fertilizing elements are changed by the heat into gases and escape into the air. As a result, forests which are burned over regularly soon lose their soil fertility even if no apparent damage is done to the standing timber.

FUEL VALUE OF WOOD.

(By the United States Forest Service.)

Two pounds of seasoned wood have a fuel value equal to one pound of coal. The greater the dry weight of a non-resinous wood, the more heat it will give out when burned. For such species as hickory, oak, beech, birch, hard maple, ash, locust, longleaf pine or cherry, which have comparatively high fuel values, one cord, weighing about 4,000 pounds, is required to equal one ton of coal. It takes a cord and a half of shortleaf pine, hemlock, red gum, Douglas fir, sycamore, or soft maple, which weighs about 3,000 pounds a cord, to equal a ton of coal, while for cedar, redwood, poplar, catalpa, Norway pine, cypress, basswood, spruce, and white pine, two cords, weighing about 2,000 pounds each, are required Weight for weight, there is very little difference between various species. Resin affords about twice as much heat as wood, so that resinous woods have a greater heat value per pound.

The heat value of a cord depends on the moisture. Out of the 128 cubic feet a fair average of solid wood is about 80 cubic feet. This applies to the standard cord, in which the sticks are cut to four-foot lengths and piled 4 feet high and 8 feet long. Instead of buying the four-foot lengths, most people nowadays have the sticks cut into two-foot lengths by a gasoline saw. This results in a saving of both time and labor. The purchaser should take care to see that he gets full measurement when wood is bought in this way.

Where wood is to be burned in a stove or furnace intended for coal, it will be found desirable to cover the grate partly with sheet iron or fire brick, in order to reduce the draught. If this is not done the wood is wasted by being consumed too fast, and makes a very hot fire which in a furnace may damage the fire box.

Hickory, of the non-resinous woods, has the highest fuel value per unit volume of wood, and has other advantages. It burns evenly, and, as housewives say, holds the heat. The oaks come next, followed by beech, birch, and maple. The white pines have a relatively low heat value per unit volume, but have other advantages. They ignite readily and give out a quick hot flame, but one that soon dies down. This makes them favorites with rural housekeepers as a summer wood, because they are particularly adapted for hot days in the kitchen. The same is true of gray birch, or "white birch," as it is often called, in the regions in which it abounds. With the resinous pines a drawback is their oily black smoke.

OPEN SEASONS FOR GAME IN THE UNITED STATES AND CANADA.

(Compiled by George A. Lawyer, W. F. Bancroft, and Frank L. Earnshaw, United States Department of Agriculture, Bureau of Biological Survey. Revised to December 31, 1917.)

THE open seasons here shown are inclusive of both dates. When the season is closed for a fixed period the date terminating the closed season is given.

The county seasons of North Carolina will be given on a special poster and local exceptions in Tennessee and Virginia will be published in "Game Laws for 1917."

The term rabbit includes "hare;" quail, the bird known as "partridge" in the South; grouse includes Canada grouse, sharp-tailed grouse, ruffed grouse (known as "partridge" in the North and "pheasant" in the South), and all other members of the family except prairie chickens, ptarmigan, and sage hens; introduced pheasant is restricted to the Old World pheasants.

Persons are advised to secure from State game commissioners full text of game laws in States where hunting is contemplated, as provisions of minor importance are omitted from this poster. Special poster "Game Laws for 1917," and directory of game officials may be had free on application to the Secretary of Agriculture, Washington, D. C.

MIGRATORY GAME BIRDS**—*Continued.*

NOTE—In October the Federal authorities announced amendments of the migratory bird regulations, to be effective on and after October 15, 1917. One of the changes permits migratory game birds to be hunted from half an hour before sunrise to sunset during the open season, subject, however, to the provisions of State laws restricting shooting during that time.

Other changes in the open seasons are as follows: In the States now having an open season from September 7 to December 20—Wisconsin, Minnesota, North Dakota, South Dakota, Montana, Wyoming, Colorado, and Idaho—the open season is changed to September 16 to December 31, both days inclusive. All of these States, with the exception of South Dakota and Wisconsin, recently amended their laws by opening the season on September 16 or later and closing it on December 31 or earlier. In South Dakota and Wisconsin the season closes on December 20 in accordance with the laws of those States.

The open season in Eastern Oregon and Washington and in Nevada and Pennsylvania is also September 16 to December 31. The open season, October 1 to January 15, is unchanged in Rhode Island, Connecticut, that portion of New York known as Long Island, New Jersey, Utah, and that portion of Oregon and Washington lying west of the summit of the Cascade Mountains, which constitute the balance of the northern zone.

In response to numerous inquiries the department announces that the migratory bird regulations are not to be construed to authorize the hunting of migratory birds at a time when it is unlawful to hunt them under State laws.

** Under the regulations for the protection of migratory birds the season is closed until September 1, 1918, on swans, wood duck, cranes, curlew, godwits, upland plover and all the smaller shore birds, and band-tailed pigeon in the United States. On or after October 15, 1917, the season on waterfowl, coot, and gallinules will be extended to December 31 in Colorado and Idaho, and will be closed on December 31 in Nevada, Pennsylvania, and in Eastern Oregon. Under a bill recently passed by the Canadian Parliament, to give effect to the Migratory Bird Treaty, all open seasons on migratory game birds in Canada will be limited by regulation to not exceeding 3½ months between September 1 and March 10.

CANADA MIGRATORY BIRD TREATY.

Ratified and put in effect August 29, 1917, by the Canadian Parliament. The treaty had been signed and ratified by American and British Government officials in 1916, and was proclaimed in effect in the United States December 8, 1916, by the President.

ARTICLE I.

The migratory birds included in the terms of this convention shall be as follows:

1. Migratory game birds:

(*a*) Anatidae, or waterfowl, including brant, wild ducks, geese, and swans.

(*b*) Gruidae, or cranes, including little brown, sandhill, and whooping cranes.

(*c*) Rallidae, or rails, including coots, gallinules, and sora, and other rails.

(*d*) Limicolae, or shorebirds, including avocets, curlew, dowitchers, godwits, knots, oyster catchers, phalaropes, plovers, sandpipers, snipe, stilts, surf birds, turnstones, willet, woodcock, and yellowlegs.

(*e*) Columbidae, or pigeons, including doves and wild pigeons.

2. Migratory insectivorous birds: Bobolinks, catbirds, chickadees, cuckoos, flickers, flycatchers, grosbeaks, humming birds, kinglets, martins, meadowlarks, nighthawks, or bull bats, nut-hatches, orioles, robins, shrikes, swallows, swifts, tanagers, titmice, thrushes, warblers, waxwings, whippoorwills, woodpeckers, and wrens, and all other perching birds which feed entirely or chiefly on insects.

3. Other migratory non-game birds: Auks, auklets, bitterns, fulmars, gannets, grebes, guillemots, gulls, herons, jaegers, loons, murres, petrels, puffins, shearwaters, and terns.

ARTICLE II.

As an effective means of preserving migratory birds there shall be established the following close seasons during which no hunting shall be done except for scientific or propagating purposes under permits issued by proper authorities.

1. The close season on migratory game birds shall be between March 10 and September 1, except that the close season on the Limicolae, or shorebirds, in the Maritime Provinces of Canada and in those States of the United States bordering on the Atlantic Ocean, which are situated wholly or in part north of Chesapeake Bay shall be between February 1 and August 15, and that Indians may take at any time scoters for food but not for sale. The season for hunting shall be further restricted to such period not exceeding three and one-half months as the High Contracting Powers may severally deem appropriate and define by law or regulation.

2. The close season on migratory insectivorous birds shall continue throughout the year.

3. The close season on other migratory non-game birds shall continue throughout the year, except that Eskimos and Indians may take at any season auks, auklets, guillemots, murres, and puffins, and their eggs, for food and their skins for clothing, but the birds and eggs so taken shall not be sold or offered for sale.

ARTICLE III.

During the period of ten years next following the going into effect of this convention there shall be continuous close season on the following migratory game birds, to wit: Band-tailed pigeons; little brown, sandhill, and whooping cranes, swans, curlew and all shorebirds (except the black-breasted and golden plover, Wilson or jacksnipe, woodcock, and the greater and lesser yellowlegs); provided, that during such ten years the close season on cranes, swans, and curlews in the Province of British Columbia shall be made by the proper authorities of that Province within the general dates and limitations elsewhere prescribed in this convention for the respective groups to which these birds belong.

ARTICLE IV.

Special protection shall be given the wood duck and the eider duck, either (1) by a close season extending over a period of at least five years, or (2) by the establishment of refuges, or (3) by such other regulations as may be deemed appropriate.

ARTICLE V.

The taking of nests or eggs of migratory game or insectivorous or non-game birds shall be prohibited except for scientific or propagating purposes, under such laws or regulations as the High Contracting Powers may severally deem appropriate.

ARTICLE VI.

The shipment or export of migratory birds or their eggs from any State or Province, during the continuance of the close season in such State or Province, shall be prohibited except for scientific or propagating purposes, and the international traffic in any birds or eggs at such time captured, killed, taken, or shipped at any time contrary to the laws of the State or Province in which the same were captured, killed, taken or shipped shall be likewise prohibited. Every package containing migratory birds or any parts thereof or any eggs of migratory birds transported, or offered for transportation from the Dominion of Canada into the United States or from the United States into the Dominion of Canada, shall have the name and address of the shipper and an accurate statement of the contents clearly marked on the outside of such package.

ARTICLE VII.

Permits to kill any of the above-named birds which, under extraordinary conditions, may become seriously injurious to the agricultural or other interests in any particular community, may be issued by the proper authorities of the High Contracting Powers under suitable regulations prescribed therefor by them respectively, but such permits shall lapse, or may be cancelled, at any time when, in the opinion of said authorities, the particular exigency has passed, and no birds killed under this article shall be shipped, sold, or offered for sale.

NEW YORK STATE FISH AND GAME LAWS AND REGULATIONS.

(Revised October 15 by the State Conservation Commission.)

Many points in this syllabus are not covered in the New York summary in the preceding tables of the Department of Agriculture summarizing the open and closed seasons for hunting and fishing under the Federal and State Laws.

Beaver—(No open season.)

Deer—(No open season.) Exceptions: Only wild deer having horns not less than three inches in length may be taken in wholly inclosed deer parks and in the Counties of Clinton, Essex, Franklin, Fulton, Hamilton, Herkimer, Jefferson, Lewis, Oneida, Oswego, Saratoga, St. Lawrence, Warren and Washington. (October 1-November 15.)

Ulster County and in the towns of Neversink, Cochecton, Tusten, Highland, Lumberland, Forestburg and Bethel and all that section of the towns of Mamakating and Thompson lying south of the Newburgh and Cochecton Turnpike in Sullivan County and the town of Deer Park in Orange County. (November 1-November 15.)

Columbia, Dutchess and Rensselaer Counties, by owner or lessee of the land on which deer are taken or by the immediate family of such owner or lessee. Not more than one such deer shall be taken by such an owner or lessee and his immediate family in the aggregate during the open season. Only shot guns loaded with slugs or shot not smaller than buckshot shall be used in taking such deer. (October 1-November 15.)

Female deer, fawns, elk, moose, caribou and antelope must not be taken at any time, except that elk, moose, caribou and antelope killed by the owner in a private park may be possessed in this State, and further provided that the provisions of Section 372 in so far as the same are applicable are in all respects complied with. The carcass of one such deer may be transported by common carrier, except parcel post, when accompanied by the taker, from October 1st to midnight of November 16th and may remain in the custody of the carrier the additional time required to deliver it to its destination.

Venison legally taken may be possessed from October 1st to November 20th. Under a license issued by the Commission venison may be possessed from November 21st to February 1st by the owner for consumption only. Application for license if granted must be made on or before November 20. No person shall take more than two such deer in an open season or transport more than one carcass or part thereof at any one time.

Deer shall not be hunted with dogs; no jacklight or other artificial light, trap, saltlick, or other device to entrap or entice deer shall be used, made or set, nor shall any deer be taken by aid or use thereof. No deer shall be taken while in the water. No dog of either sex shall be taken into the Adirondack or Catskill Park or into forests inhabited by deer or harbored or possessed therein unless the owner shall first obtain a license from the Conservation Commission for such dog.

Land Turtles—(No open season.)

Sable or Marten—(November 10-March 15.) In any manner day or night.

Mink—(November 10-March 15.) In any manner day or night.

Muskrat—(November 10-April 20.) In any manner day or night. Muskrat houses must not be injured or destroyed. The shooting of muskrats is prohibited.

Rabbits—Varying Hares and Cottontail Rabbits—(October 1-January 31.) (Exception: Long Island, November 1-December 31.) No person shall take more than six either all of one kind or partly of each in one day. Hares and rabbits not to be hunted with ferrets except in counties where permitted by resolution of Commission. The owner or occupant of enclosed or occupied farms and lands or a person duly authorized in writing by such owner or occupant may take, except by use of ferrets, on such owner's or occupant's premises at any time in any manner hares or rabbits which are injuring their property. There is no close season for Belgian hares, jack rabbits or rabbits bred in captivity. Varying hares and cottontail rabbits may be bought and sold during the open season. (See Additional Protection Orders.) Varying hares and cottontail rabbits when bred in captivity may be bought and sold for food purposes during the close season provided a license so to do shall have first been obtained from the Conservation Commission.

Raccoon—In any manner, day or night, except with traps. (October 1-March 15.) May be taken in any manner from November 10-March 15.

Skunk—(November 10-February 10.) In any manner, day or night, except they shall not be dug out of their holes or dens or taken by smoking or use of chemicals. Skunks which are injuring property or have become a nuisance may be taken at any time, but skunks or any part so taken shall not be possessed, bought, sold or trafficked in.

Squirrels—Black, Gray and Fox—(October 1-November 15.) (Exception: Long Island, November 1-December 31.) No person shall take more than five squirrels in the aggregate in one day or transport more than that number in one day. No such squirrels shall be taken within the corporate limits of any city or village.

BIRDS.

Duck, Goose, Brant—(September 16-December 31.) (Exception: Long Island, October 1-January 15.) Ducks, geese and brant legally taken may be possessed to January 20.

Wood Duck and Swan—(No open season.) Water fowl may be taken during the open season from the land, from a blind or floating device used to conceal the hunter (other than a sail or power boat) from a rowboat, when the same is within fifty feet of the shore or a natural growth of flags or in pursuit of wounded birds. Flocks of ducks shall not be pursued in fresh water so as to drive them away from any neighborhood.

Exception: Ducks, geese and brant may be taken by aid of any floating device other than sail or power boats, at any distance from shore on Long Island Sound, Lake Erie, Niagara River, Oneida Lake, Shinnecock, Gardiner and Peconic Bays, during the open season therefor, and except from October 1st to October 19th, both inclusive, in Great South Bay west of Smith's Point and east of the Nassau-Suffolk County line. No person shall take more than twenty-five water fowl in the aggregate of all kinds in one day nor more than forty by two or more persons occupying the same boat, blind, or battery.

Grouse or Partridge—(October 1-November 30.) (Exception: Long Island, November 1-December 31.) And may be possessed for an additional period of the five days next succeeding the said open season. No person shall take more than two grouse or partridge in one day nor fifteen in an open season. (See Additional Protection Orders.)

Partridge, Hungarian or European Gray Legged—(No open season.)

Wild Pheasants (Hungarian, Dark-Necked, Ring-Necked, Commonly Called English, Mongolian or Chinese)—(Last two Thursdays in October, first two Saturdays in November.) (Exception: Long Island, November 1-December 31.) And may be possessed for an additional period of the five days next succeeding the said open season. Only the cock or male bird may be taken and no person shall take more than three male pheasants in the open season, except on Long Island, where a person may take not to exceed four male pheasants in one day and not to exceed thirty in the open season, and may be possessed for an additional period of five days next succeeding the said open season. (See Additional Protection Orders.)

Quail—(No open season until 1918.) (Exception: Long Island, November 1-December 31.) No person shall take more than six quail in one day nor more than forty in an open season on Long Island, and may be possessed for an additional period of the five days next succeeding the said open season.

Shore Birds, Snipe, Plover, Surf Birds, Sandpipers, Tatlers and Curlews—(September 16-November 30.) (Exception: Long Island, August 1-November 30.) And may be possessed for an additional period of the five days next succeeding the said open season. No person shall take more than fifteen shore birds in the aggregate of all kinds in one day nor more than twenty-five by two or more persons occupying the same boat or blind.

Woodcock—(October 1-November 15.) (Exception: Long Island, October 15-November 30.) And may be possessed for an additional period of the five days next succeeding the said open season. No person shall take more than four woodcock in one day nor twenty in the open season.

Rails, American Coots, Mud Hens and Gallinules—May be taken and possessed from September 16th to December 31st, both inclusive. Limit: A person may take during the open season not to exceed fifteen of such birds in the aggregate of all kinds in one day. Whenever two or more persons are occupying the same boat or blind, not to exceed twenty of such birds shall be taken in the aggregate of all kinds in one day by such persons.

FISH.

Bass (Black and Oswego)—(June 16-November 30.) Minimum length, ten inches. Limit per day to one person, fifteen; to a boat, two or more persons, twenty-five. Bass, whether taken within or without the State, shall not be sold or offered for sale. (See Additional Protection Orders and Lake George.)

GENERAL PROVISIONS.

Open seasons above stated are subject to be shortened by order of the Commission. (Section 152.) Such orders will be found on file in the office of the clerk of the county affected.

Particular waters may be closed against all fishing and bird and game refuges may be established where all hunting is prohibited, and the orders in such cases may be found on file in the office of the clerk of the town affected. "Angling" means taking fish by hook and line in hand or rod in hand; or if from a boat not exceeding two lines with or without rod to one person. Fish must not be taken by means of explosives, or by drawing off water for that purpose, or by fishing through the ice in waters inhabited by trout.

No license is required by a resident of New York State to take fish by angling or for netting minnows for bait for the owner's personal use, but the net used for such purpose must be not more than twenty-five feet long. A license is required for netting minnows for bait for sale and a fee of ten cents per lineal foot for a net must be paid. Netting minnows in waters inhabited by trout is prohibited, except that the use of minnow traps in taking minnows for bait for the taker's individual use may be permitted by the Commission.

Game protected by law shall be taken only after sunrise and before sunset with a gun fired at arm's length, without rest. Game shall not be taken on the lands purchased or condemned by any municipality for the purpose of supplying it with water and protecting the same from pollution, or on any public highway, except public highways other than State or county highways within the forest preserve counties.

Traps for the purpose of taking fur-bearing animals protected by law shall not be staked or set in any manner during the close season for the same.

No person while in an automobile shall take game; nor by aid or use of any light or lights carried thereon or attached thereto.

Birds shall not be trapped, netted or snared, nor shall nets, traps or snares be set or used where birds can be taken.

WILD BIRDS PROTECTED IN THIS STATE.

Wild birds, other than the English sparrow, starling, crow, hawk, great gray owl, snow-owl, great horned owl, great blue heron, bittern and kingfisher shall not be taken or possessed at any time, dead or alive, except under the authority of a license issued under Section 159 of the Conservation Law. No part of the plumage, skin or body of any bird protected by Section 219 of the Conservation Law or of any birds coming from without the State, whether belonging to the same or a different species from that native to the State of New York, provided such birds belong to the same family as those protected by law shall be sold or had in possession for sale. This provision does not apply to game birds for which an open season is provided. The nests of wild birds protected by the above provision shall not be robbed or wilfully destroyed except when necessary to protect buildings or prevent their defacement, or when taken under the authority of the Commission.

SALE OF GAME PROHIBITED.

The dead bodies, or parts thereof, of squirrels of all species and wild deer, elk, moose and caribou of all species shall not be sold, offered for sale or possessed for sale for food purposes within this State, whether killed within or without the State.

The dead bodies of birds belonging to all species or sub-species, native to this State, protected by law or belonging to any family, any species or sub-species of which is native to this State and protected by law, shall not be sold, offered for sale, or possessed for sale for food purposes within this State, whether taken within or without this State, except as provided by Sections 372 and 373 of the Conservation Law.

BREEDING AND SALE OF ELK, DEER, PHEASANTS, MALLARD DUCKS AND BLACK DUCKS.

Domesticated American elk, white-tailed deer, European red deer and fallow deer, roebuck, pheasants, mallard ducks and black ducks or any of them, may be propagated in a wholly inclosed preserve, or entire island, under a license issued by the Conservation Commission and may be killed and sold under certain regulations. Such mammals or birds may be imported into this State and sold if bred similar in principal to the laws of the State of New York. No person shall sell or offer for sale any such game or any part thereof, killed in such a preserve without first obtaining a license so to do and complying with the law and the rules and regulations of the Commission.

CERTAIN MAMMALS AND BIRDS MAY BE IMPORTED FROM WITHOUT THE UNITED STATES AND SOLD.

The unplucked carcasses of pheasants of all species, Scotch grouse, European black-game, European black plover, European gray-legged partridge, European red-legged partridge. Egyptian quail, and the carcasses of European red deer, fallow deer, roebuck, and reindeer may be imported into this State from without the United States and sold at any time of the year. Such birds and mammals must be tagged immediately upon their importation and before they shall have been sold by the importer. The tags are to remain attached to the quarter, loin or larger portion of such deer and to the birds until consumption of the same. Keepers of hotels, restaurants or boarding-houses or retail dealers in meat, or clubs, however, may sell without a license portions of a quarter or loin of any such deer so tagged, or portions of any birds so tagged to a guest, customer or member for consumption. All dealers, other than the keeper of a hotel, a restaurant, a boarding-house or a retail dealer in meat, or a club, shall obtain from the Commission a license before offering for sale any such game.

PROPAGATION AND SALE OF TROUT RAISED IN PRIVATE HATCHERIES.

Trout not less than six inches long, raised in a private hatchery, may be sold at any time of year under the authority of a license issued by the Commission. Such trout must be tagged with tags furnished by the Commission.

TRANSPORTATION OF PROTECTED FISH AND GAME.

The taker without accompanying the shipment may, except for purposes of sale, transport non-salable fish or game by common carrier (except parcel post), but not more in one day than he may lawfully take in one day or, in case of deer, one deer, on procuring and attaching to the shipment a shipping permit issued by the Commission. Non-salable fish and game includes: Deer, squirrels, waterfowl, rails, upland game birds, shore birds, trout, black bass. Protected fish and game lawfully salable may be transported in the open season by common carrier or otherwise without the use of the above mentioned shipping permits.

Applicants may obtain such permits by personal application at the office of the Conservation Commission in Albany or by writing the Commission. Applicants who hold hunting and trapping licenses must state in making the application the serial number of their license and in all cases the applicant must state his place of residence, and, if in a city, the street and street number.

Live game and fish for propagation purposes, the head, hide, feet or fur of quadrupeds and the plumage and skin of game birds, legally taken and possessed may be transported at any time and in any manner without use of the shipping permits above referred to.

IMPORTATION LICENSE TO TRANSPORT FISH AND GAME FROM WITHOUT THE STATE INTO THE STATE.

The taker may bring into this State at any time, provided he accompanies the same, fish or game during the close season in this State, or game for which there is no open season in this State, when lawfully brought from the place where taken, and when lawfully taken by him, provided he has an importation license issued by the Conservation Commission; and the taker holding such importation license may ship by common carrier, other than parcel post, quadrupeds, provided a shipping permit issued by the Conservation Commission is attached to such shipment by the taker at the initial point of shipment. Importation licenses and shipping permits may be procured from the Conservation Commission, Albany, N. Y.

PROPAGATION OF FUR-BEARING ANIMALS.

Propagation of fur-bearing animals is permitted under the authority of a license issued by the Commission, provided, however, that such fur-bearing animals shall not be taken wild during the close season for fur-bearing animals and that such fur-bearing animals shall not be disposed of in any way during the close season.

REGULATION FOR HUNTING AND TRAPPING LICENSES.

A hunting and trapping license is required for any kind of hunting of birds or quadrupeds or trapping of fur-bearing animals. Licenses may be procured from any county, city or town clerk and are good in any part of the State from the date of issue to December 31st following. The license must be carried on the person and exhibited for inspection when required; also a button with number corresponding to license shall be worn in a conspicuous place on the clothing at all times while hunting or trapping. The license or button is not transferable. The fee required of citizens of New York State for over six months is $1.10; for a non-resident, an unnaturalized person or an alien, resident or non-resident, $10.50; such fees to be paid to the clerk issuing the license.

OPEN SEASON DEFINED.

The word "open season" is the time during which fish, fowl, birds and quadrupeds may be taken. If in accordance with the provisions of this article the open season commences or ends on Sunday, it shall be deemed to commence or end, as the case may be, on the Saturday immediately preceding such Sunday.

NON-RESIDENT ANGLING LICENSE.

Angling license is required for non-resident to take fish by angling in any of the fresh waters under the jurisdiction of the State of New York forming a part of the State boundary or through which the State boundary runs. If a resident of this State may law-

fully fish in such part of said boundary waters as are not within the jurisdiction of the State of New York without being required to obtain a fishing license from the State or country having jurisdiction over the said waters, then a resident of such State or country may take fish in such part of said boundary waters as are within the jurisdiction of the State of New York without obtaining the non-resident fishing license provided for herein. This does not apply to persons under the age of sixteen or a womna. Licenses may be procured from any county, city or town clerk.

GENERAL REGULATIONS COVERING THE USE OF STATE LANDS.

The following rules and regulations are of general application to the State land under the jurisdiction of the Conservation Commission, and are to govern all those who make use of this land. Regulations of special or local application may be adopted from time to time:

1. No fires except for cooking, warmth or smudge purposes are permitted. No fire shall be lighted until all inflammable material is removed to prevent its spread.

2. Lighted matches, cigars, or cigarettes or burning tobacco must not be deposited or left where they may cause fires.

3. No official sign posted or structure maintained under permit shall be defaced. Peeling of bark or injuring trees is prohibited. Dead or down wood may be used for fuel by temporary campers.

4. Camps and adjacent grounds must be maintained in a clean and sanitary condition. Garbage and refuse must be either buried, removed or burned. Waste materials must not be thrown into the waters, or waters polluted.

5. Each camper on islands of Lake George, St. Lawrence Reservation or other much frequented places, must provide a plentiful supply of chloride of lime and dirt, for disinfecting and covering any latrine used by him. All latrines must be cleaned and the contents burned or buried at frequent intervals, in such manner as to prevent offensive odors, and above all to avoid pollution of the water supply.

6. Canvas tents without platforms for use during short periods may be placed without a permit, but not in a trail or within 150 feet of any spring used for water supply.

7. No tents (except those described under rule 6) or wooden structures shall be erected, or maintained, except under written permission. Tar paper shall not be used, except for roofs of open camps erected under a permit. Structures erected under (a) (b) or (c) become the property of the State. The structures for which permits may be granted are as follows:

(a) Open camps for transient use not to be occupied by the same person or persons more than three nights in succession or more than ten nights in any year.

(b) Open camps for use of campers, hunters or fishermen may be occupied for reasonable periods.

(c) Permanent tent platforms for summer camping purposes. Permit granted to use while occupied in good faith. Platform to be left for future use. When not in use permits may be given others to use.

(d) Temporary tent platforms for summer camping. The platform to be erected and removed simultaneously with the tent.

(e) Portable canvas houses for summer camping.

8. No one may claim any particular site from year to year or the exclusive use of the same.

9. The use of the forest preserve or the improvements thereon for private revenue or commercial purposes is prohibited.

10. Any unoccupied tent or structure may be removed by the Commission.

11. At St. Lawrence Reservation, where fireplaces are provided, fires must not be kindled elsewhere, nor shall tents on these islands be pitched less than 200 feet from any public fireplace or boat landing.

12. No boat is entitled to the exclusive use of any dock built by the State. There must be free access for boats at all times.

13. Dancing in any building erected by the State is prohibited.

14. All campers will be held responsible for compliance with these rules, and any person responsible for injury of State property will be held liable for damages and penalties.

Concerning fish and game not mentioned herein, inquiry should be made to the Commission. Violations of laws relating to fish and game should be reported to the Conservation Commission, Albany, N. Y.

MISCELLANEOUS COLLEGE FRATERNITIES.

United Chapters of Phi Beta Kappa—The Phi Beta Kappa Society was founded at William and Mary College, Williamsburg, Va., December 5, 1776. Women were first admitted in 1875, and the first charter to a woman's college, Vassar, was granted in 1898. Smith, Wellesley, Mt. Holyoke and Goucher College of Baltimore, and Radcliffe, have since received charters. *Secretary*—Rev. Oscar M. Voorhees, D. D., 350 East 146th Street, New York City.

Sigma Xi—An honorary scientific society founded at Cornell University in 1886, and having thirty chapters in the principal colleges and universities of the country. It is not secret. The performance of creditable scientific research in the natural and applied sciences; together with a high standard of scholarship, constitutes the basis of membership. Women are admitted as well as men.

Sigma Tau—An honorary engineering fraternity for juniors and seniors with three requirements, viz., scholarship, practicality and sociability. It was founded February 22, 1904, at University of Nebraska. *National Secretary*—Prof. F. A. Wirt of Manhattan, Kan.

Tau Beta Pi—An engineering honorary society founded at Lehigh University in 1885. *National Secretary*—R. C. Matthews, University of Tennessee, at Knoxville.

Alpha Omega Alpha—An honorary medical society in which scholarship is the membership qualification, and which admits women on the same basis as men. It was founded by Dr. William W. Root at the College of Physicians and Surgeons of Chicago, in 1902. *National Secretary*—Dr. William W. Root, Slaterville Springs, N. Y.

Acacia Fraternity—An intercollegiate organization and fraternity for Master Masons founded at the University of Michigan in 1904. *The Grand Secretary*—A. Arthur Jenkins, 85 Devonshire St., Boston.

Phi Mu Sigma National Sunday School Fraternity—Founded in Washington, D. C., in 1908. *National Secretary*—Willis W. Warren, Washington, D. C.

Theta Nu Epsilon—Is the only National Greek letter inter-fraternal society. It was founded at Wesleyan University in 1870, and was reorganized in 1907. The society is incorporated under New York laws. *The National Secretary*—Walter Erlenkotter, New York City.

Mu Phi Epsilon—An honorary musical sorority founded at the Metropolitan College of Music, Cincinnati, November 13, 1903. *Supreme Secretary*—Hattie A. Elliott, Detroit, Mich.

The professional fraternities are located in both technical and professional schools. With the exception of Theta Xi (Engineering-Scientific), members of professional fraternities may also belong to the general college fraternities.

Local or "one-college" fraternities exist in nearly all colleges, and some date back as early as 1825.

*Includes District of Columbia.

In the birth-registration area there were 96 cities and towns having, at the last census (1910), 25,000 inhabitants or more. Of these, there were only three—Kingston and Troy, N. Y., and Norristown, Pa.—in which the deaths exceeded the births in 1915, and in each case the excess was small, being greatest—1.1 per 1,000 population—for Troy, in which place there is an infant home, while in Norristown there is an insane asylum.

The five showing the highest birth rates are: Detroit, Mich., 37.9; Chicopee, Mass., 37.6; Niagara Falls, N. Y., 37.5; New Britain, Ct., 36.4; and Chelsea, Mass., 34.5. The death rates for these cities—Detroit, 15.7; Chicopee, 14.7; Niagara Falls, 16; New Britain, 11; and Chelsea, 14.3—were, with the single exception of that for New Britain, higher than the average for the birth-registration area, but were far below the maximum death rate shown for cities in this group. The lowest five birth rates appear for Brookline, Mass., 12.7; York, Pa., 17.5; Kalamazoo, Mich., 18.2; Kingston, N. Y., 18.5; and Troy, N. Y., 18.6. The death rates for the first two places were lower than the average for the registration area.

There were 154 cities in the birth-registration area having a population between 10,000 and 25,000 in 1910. The five cities showing the highest birth rates were: South Bethlehem, Pa., 49; Lackawanna, N. Y., 45.2; Old Forge, Pa., 44.1; Braddock, Pa., 40.5; and Monessen, Pa., 38.4. The lowest five birth rates appear for Stillwater, Minn., 12.5; Cranston, R. I., 12.9; Rensselaer, N. Y., 13.2; Traverse City, Mich., 13.6; and Ossining, N. Y., 15.3.

CRUDE PETROLEUM PRODUCTION IN THE UNITED STATES. 1917.

(From the Statistical Bureau of the Standard Oil Company.)

The figures, by months represent barrels of 42 gallons each.

January	23,728,700	May	24,931,923	September	29,440,421
February	22,830,000	June	26,145,931	October	29,864,533
March	24,439,742	July	27,693,457		
April	23,905,224	August	28,489,199	Total	261,469,130

This is equivalent to 10,981,674,354 gallons. The figures as to marketed production in 1917 will not be collected until 1918. The term "marketed production," as used in the following tables, gathered by the United States Geological Survey, does not give an accurate clue to the actual production, on account of including stock left over from the preceding year.

NOTE—The automobile year ends February 1. On October 1, 1917, the number of motor vehicles registered in New York State had increased to 394,023.

The law requiring all drivers of motor vehicles in the City of New York to register took effect July 1, 1917, but was not enforced until August 1. Up to October 1, 82,000 of these licenses had been issued by Secretary of State Francis M. Hugo.

On October 1, 394,023 motor vehicles had taken out 1917 New York State licenses.

At the beginning of 1916 New York was the only State having over 200,000 cars and trucks on its registration lists. In the 100,000 class there are now only eight States, two of those included in this classification on January 1, 1917, having graduated into the 200,000 division.

New York during the past six months added 66,530 cars and trucks, as compared with an increase of 45,060 in Ohio, which is still in second place. Illinois is third, with Pennsylvania fourth, and California retaining fifth position, but Iowa has displaced Texas for sixth rank, at the same time having the largest registration increase by adding 70,393 motor vehicles in the six months. Michigan stays in the eighth position, but Minnesota has jumped ahead of Indiana, and Wisconsin and Kansas have forced Massachusetts back to fourteenth place, Nebraska displacing Missouri for fifteenth. At the end of the list, Nevada still has a margin on last position in spite of an increase of 2,006 registrations since the beginning of the year. Wyoming, which was next to last in order of registrations on January 1, has given this position to Delaware, which added 1,537 cars and trucks to its list up to July 1.

N. A. C. C. Horse-power Rating—The standard rating (formerly A.L.A.M.) has been adopted by the National Automobile Chamber of Commerce, Inc. The formula adopted is $D2 \times N \div 2.5$. D is the cylinder bore in inches, N the number of cylinders, and 2.5 a constant based on the average view of eminent engineers as to a fair conservative rating for a four-cycle motor at 1,000 feet per minute piston speed.

1,000-TON BARGE CANAL NEARING COMPLETION.

(Communicated by W. W. Wotherspoon, New York State Superintendent of Public Works, under date of October 22, 1917.)

The new Erie Canal route (1,000-ton barge canal), from Troy to Buffalo, has been completed, with the exception of several sections at Rochester, Lyons and Tonawanda. Contracts for these have been awarded, and it is expected that the entire length of the new canal will be ready for navigation in 1918. The Cayuga and Seneca Canal will be completed in 1918. The moneys expended up to October 1, 1917, for canal improvement under recent bond issues are as follows:

Erie, Champlain and Oswego Canals, under bond issue of 1903, $114,293,000.75.
Cayuga and Seneca Canal improvement, under bond issue of 1909, $6,895,338.08.
For construction of terminals in all canals, under bond issue of 1911, $7,872,782.68.

The above figures include land damages. Practically all of the improvement work is under contract. Further payments will be made as the work progresses.

The new Champlain Canal, from Troy to Whitehall, has been fully completed.

The new Erie-Oswego route, from the Hudson River, at Troy, to Lake Ontario, at Oswego, also has been completed.

GENERAL ROUTE OF THE ERIE CANAL.

The improved Erie Canal is the main waterway and extends across the State from Troy to Buffalo. Officially, the route commences at Congress Street, Troy, and follows the line of the Hudson River to Waterford, where the westward turn is made. From Waterford the line of the Mohawk River, canalized, is generally followed to a point beyond Little Falls. Westerly from this point the new channel follows the route of the old canal in part, but passes the northerly outskirts of the City of Utica on a new line, thence to the south of Rome and then into and across Oneida Lake. Passing out of Oneida Lake, the Oneida River is used to its junction with the Seneca River at Three River Point; thence through the Seneca River to and through the Clyde River to a point east of Lyons; thence following the old canal deepened and enlarged to a point beyond Pittsford. Here the channel leaves the old route, crossing the Genesee River about a mile south of Rochester on a pool created by the construction of a dam, joining the line of the old canal a few miles westerly and continuing thence in the former channel, deepened and widened, to and through Tonawanda Creek, canalized, to Tonawanda, where the Niagara River is entered and followed to Lake Erie at Buffalo. The length of the Erie Canal is approximately 340 miles.

Albany, while not on the improved Erie Canal proper, is situated on the Hudson River six miles below Troy. Ample terminal facilities have been provided here.

At Utica, a harbor of ample dimensions has been constructed, to which entrance is provided from the main canal channel by means of a junction lock.

At Syracuse, a harbor has been constructed at the southerly end of Onondaga Lake and an adequate channel has been provided from the main canal to it.

At Rochester, the pool created in the Genesee River will afford harbor facilities in that city.

At Buffalo, harbor and terminal facilities are provided in the Erie Basin and the Ohio Basin, including the Lackawanna Slip as far as Miami Street. In addition, the old Erie Canal north of Wilkeson Street will be retained without enlargement.

PORTIONS OF OLD CANAL RETAINED.

A section of the old Erie Canal has been retained for use, without enlargement, between its junction with the improved Erie Canal at Waterford and Albany. Boats may enter this section of the canal at its northern end at Waterford, from the Hudson River by means of the upper or lower side cut locks at Watervliet, or at its southern end from the Hudson River at Albany. This canal passes through the City of Watervliet.

The section of the old canal between Mohawk and Rome also has been retained without enlargement. This passes through the City of Utica. It may be entered either at Mohawk or Rome by means of junction locks.

The dimensions of boats using the above sections of the old canal will be limited to the following: Length, ninety-eight feet; width, seventeen feet five inches; draught, six feet, and height above water line seven feet six inches; excepting, however, that the draught of boats using the unimproved Champlain Canal between Waterford and Watervliet is limited to four feet six inches.

The improved Champlain Canal is connected with Lake Champlain by means of the Lake Champlain inlet at Whitehall. A boat of the proper dimensions may proceed to the St. Lawrence River from New York Bay via the Hudson River, the improved Champlain Canal, Lake Champlain inlet, Lake Champlain, Richelieu River, Chambly Canal and Richelieu River through St. Ours lock. Lake Champlain and its inlet are under the jurisdiction of the United States Government, and the Richelieu River and Chambly Canal are under the jurisdiction of the Dominion of Canada. There is no water connection between the Champlain Canal and Lake George.

The improved Champlain Canal commences in the Hudson River at Waterford, where the improved Erie Canal starts westward, and follows generally the channel of the Hudson River, canalized, as far northward as Fort Edward, where a new route has been established to Whitehall on the inlet of Lake Champlain. The length of the improved Champlain Canal is approximately sixty-one miles. At Schuylerville, a portion of the old Champlain Canal has been retained without enlargement. By means of this spur boats 98′7 17″ 5″x5′ may enter the Schuylerville Basin.

The improved Cayuga and Seneca Canal branches off in a southerly direction from the improved Erie Canal at a point near Montezuma. The Cayuga branch follows the valley of the Seneca River to Cayuga Lake; thence through Cayuga Lake to the Cayuga Lake inlet at Ithaca. The Seneca branch follows the Seneca River in a westerly direction from the Cayuga branch near the foot of Cayuga Lake, and connects with Seneca Lake near Geneva; thence through Seneca Lake to Watkins, with an extension to Montour Falls. The length of the Cayuga and Seneca Canal (exclusive of the lakes) is approximately twenty-four miles. Cayuga Lake is about thirty-six miles in length, and Seneca Lake is about thirty-two miles long.

The improved Oswego Canal branches northerly from the improved Erie Canal at Three River Point and follows generally the line of the Oswego River, canalized, to Lake Ontario at Oswego. Its length is approximately twenty-three miles.

The Black River Canal has been retained without enlargement and extends from its junction with the Erie Canal at Rome northerly to Carthage, although it is not navigable further north than Lyons Falls.

Every vessel propelled by machinery and engaged in carrying passengers for hire, or towing for hire, must submit itself for examination to the inspectors of steam and motor vessels employed by the Superintendent of Public Works. The condition of such vessels and their apparatus, machinery and equipment must comply with the requirements of the State Navigation Law. Masters, pilots and engineers of such boats also must be licensed. Copies of the Navigation Law containing the requirements for such vessels may be obtained on application to the Superintendent of Public Works. Permits to pleasure boats to navigate the canals will be issued upon application to the Superintendent of Public Works, accompanied by information as to the name and address of the owner, the name of the boat, its type and dimensions. Navigation permits are not issued to rowboats, canoes or other such small craft, even when equipped with mechanical power. Such boats may use the canals without navigation permits, but the locks will not be operated for their passage.

NAVIGATION PERIOD.

The canals are available for use during the twenty-four hours of the day. At night time lights are maintained to mark the channel where such aid is deemed necessary. The length of the navigation season will be about seven months, being dependent upon weather conditions. Navigation will be declared open as early as physical conditions make possible, and the season will continue until the waterways are closed by ice. After the completion of the entire improvement project, it is possible that the waterways may be made ready for boats in April. Experience has shown that climatic conditions will prevent their use after December 1.

THE BLACK RIVER CANAL.

The Black River Canal has been retained without enlargement and extends from its junction with the Erie Canal at Rome northerly to Carthage, although it is not navigable further north than Lyons Falls.

DOCKAGE FACILITIES.

At New York City public terminals or docks are being provided at many points. A complete list of the exact localities will be furnished upon application.

At Albany ample dockage facilities already have been provided by the State, and a warehouse with loading and unloading machinery, is now being erected.

On Lake Champlain, State terminal docks have been built at Port Henry, Plattsburg and Rouses Point.

Terminal facilities also have been provided at Ithaca at the head of Cayuga Lake.

At practically all of the municipalities situated on the canal system, public docks will be found for the use of vessels, and many of these wharfs have been equipped with warehouses and derricks for the handling of freight. Information as to facilities at any specific point will be furnished upon request. Privately owned docks will be found at all points along the line of the Hudson River south of Albany. At many of the canal terminal docks convenient connections are had with railroad lines.

DIMENSIONS OF IMPROVED CANALS.

The dimensions of the improved Erie, Oswego, Champlain and Cayuga and Seneca Canals, so far as depth of channel and size of lock chambers are concerned, are uniform. The plans have sought to accomplish a minimum depth of channel of twelve feet throughout, and this practically has been accomplished. Such depth will be consistently maintained, although it must be borne in mind by all canal users that in the hundreds of miles of newly constructed channel, where natural conditions have been changed, erosion is constantly at work to lessen the navigable depth, and bars will inevitably form as the result of floods and excessive rainfall at the many streams entrances and elsewhere. Scour will be seen in the new river channels. Dredging operations will be progressed wherever such obstructions are discovered.

The width of the new canal channel varies according to the section traversed. Through canalized rivers and lakes the channel is at least two hundred feet wide. Through rock cuts in land lines a minimum bottom width of ninety-four feet has been provided, and through earth sections the minimum width at the bottom of the channel is seventy-five feet.

No fixed bridges have been permitted to be constructed over the new canal channel at less than fifteen and one-half feet above the level of the water when at maximum navigable stage.

The dimensions of the new locks on all improved canals have been made identical, so far as practicable. The length of the lock chamber from the lower gate to the breast-wall is three hundred and ten feet, which, considering the operation of the gates, will permit the locking of a barge three hundred feet long. The width of the lock chambers has been planned at forty-five feet, and this has practically been accomplished. The width of the United States Government lock at Troy, which is located at the eastern terminus of the canal system, is 44.44 feet. Such width, therefore, must govern.

MAXIMUM DIMENSIONS OF BOATS ON IMPROVED CANALS.

As to the largest vessel which may pass through the improved channels, it will be seen that its length must not exceed three hundred feet, nor its width forty-two feet.

By reason of the necessity of having a fair cushion of water underneath the keel of a heavily laden barge, and to insure a fair margin of safety on account of the possibility of obstructions existing in a channel of so great a length, the greatest draft to be permitted boats for the present and early future will be nine and one-half feet while the boat is in motion. It is important that this dimension be not exceeded for the additional reason that at the present time the depth of the Hudson River channel between Troy and Albany does not exceed ten feet at ordinary low tide.

The height of vessels above the water line must not exceed fifteen feet, in order that the same may pass safely under the fixed bridges.

In the 10 years, 1891-1900, the annual net tonnage ranged from 8,698,777 tons to 9,738,152 tons and the transit receipts from 83,422,101 francs to 90,623,608 francs (from $16,100,465 to $17,490,355). The average of the net tonnage was 8,588,947 tons, and of the transit receipts 80,006,013 francs ($15,441,160), while in 1916 the net tonnage amounted to 12,325,347 tons, and the transit receipts to 80,862,403 francs ($15,606,445). The mean net tonnage per vessel, which in 1881 was only 1,517 tons, rose to 2,067 tons in 1891, to 2,926 tons in 1901, to 3,688 tons in 1911, and to 3,963 tons in 1916.

In the year 1870, 26,758 civil and military passengers were carried through the canal; in 1880 the number rose to 98,900; in 1890, to 161,352; in 1900, to 282,203; and amounted in 1916 to 283,030, as against 210,530 in 1915.

INTERSTATE COMMERCE COMMISSION.

THE original act to regulate commerce, approved February 4, 1887, provided for a commission consisting of five members. By various amendatory and supplementary enactments the powers of the commission have been increased and the scope of the regulating statute materially widened. Among the more important of these enactments are the acts of March 2, 1889; the Elkins act, approved February 19, 1903; the Hepburn act, approved February 29, 1906; the Mann-Elkins act of June 18, 1910; and the acts of August 24, 1912, May 29 and August 9, 1917. Under the act of June 29, 1906, the number of commissioners was increased to seven and was enlarged to nine members by the act of August 9, 1917.

The act to regulate commerce applies to all common carriers engaged in the transportation of oil or other commodities, except water, and except natural or artificial gas, by means of pipe lines, or partly by pipe lines and partly by railroad, or partly by pipe lines and partly by water, and to telegraph, telephone, and cable companies (whether wire or wireless) engaged in sending messages from one State, Territory, or District of the United States to any other State, Territory, or District of the United States, or to any foreign country, and to common carriers engaged in interstate transportation of passengers or property wholly by railroad (or partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment); also to express companies and sleeping-car companies, and to bridges or ferries used or operated in connection with any railroad engaged in interstate transportation.

The act to regulate commerce requires all rates to be reasonable and just; prohibits preferential rates for transportation service performed under like circumstances and conditions; prohibits undue or unreasonable preferences or advantages in rates or facilities and the charging of a higher rate for a shorter than for a longer haul, over the same line, in the same direction, the shorter being included within the longer haul. It is provided, however, that the commission may, in special cases, after investigation, authorize carriers to charge less for longer than for shorter distances. The commission is authorized to require carriers to establish through routes and joint rates. The commission is also authorized to require carriers subject to the act to construct switch connections with lateral branch lines of railroads and private sidetracks. The act provides that where two or more through routes and through rates shall have been established, shippers shall have the right to designate in writing via which of such through routes the property shall be transported to destination.

The commission has jurisdiction, upon complaint or in a proceeding instituted upon its own initiative, and after full hearing, to determine and prescribe reasonable rates, regulations, and practices; to award reparation to injured shippers, and to require carriers to cease and desist from unjust discrimination or undue or unreasonable preferences.

Carriers are required to publish and file all rates, rules, and regulations applying to interstate traffic, and are prohibited from engaging in interstate transportation unless such rates, rules, and regulations are published and filed. Severe penalties are provided in the statute for failure to observe the rates and regulations shown in the published tariffs.

The commission may inquire into the management of the business of all common carriers subject to the provisions of the act to regulate commerce, and may prescribe the accounts, records, and memoranda which shall be kept by the carriers, which shall be open to examination by the commission through its authorized agents or examiners. Carriers are required to file annual reports with the commission, and such other reports as may from time to time be required.

The commission appoints a secretary, who is its chief administrative and executive officer, an assistant secretary, and such attorneys, examiners, special agents, and clerks as are necessary to the proper performance of its duties.

By the act of June 18, 1910 (Mann-Elkins law), the jurisdiction of the commission was increased as to through routes and joint rates, freight classification, switch connections, long and short hauls, filing or rejection of rate schedules, investigations on own motion, determining reasonable rates, suspension of proposed rates, and other matters. This act also authorized the President to appoint a special commission to investigate questions pertaining to the issuance of railroad stocks and bonds.

By act approved August 24, 1912 (section 11), a new paragraph was added to section 5 of the act to regulate commerce, by which it is made unlawful after July 1, 1914, for any common carrier subject to the act to regulate commerce to own, lease, operate, control, or have any interest in any competing carrier by water. Jurisdiction is conferred upon the commission to determine questions of fact as to competition, after full hearing, on the application of any railroad company or other carrier, and to extend beyond July 1, 1914, the time during which such ownership or operation of vessels plying elsewhere than through the Panama Canal may continue, when it is found to be in the interest of the public and is of advantage to the convenience and commerce of the people, and not in restraint of competition.

At the same time section 6 of the act was amended by adding a new paragraph conferring upon the commission jurisdiction over transportation of property from point to point in the United States by rail and water, whether through the Panama Canal or otherwise, and not entirely within the limits of a single State, this jurisdiction, under certain conditions, including power to establish physical connection between lines of the rail carrier and the dock of the water carrier by directing the rail carrier to make such connection; to establish through routes and maximum joint rates over such rail and water lines, and to determine the conditions thereof; to establish proportional rates by rail to and from ports, and to determine to what traffic and in connection with what vessels and upon what terms and conditions such rates shall apply; and to require rail carriers entering into through routing arrangements with any water carrier to extend the privileges of such arrangements to other water carriers.

By the act approved March 1, 1913, amending the act to regulate commerce, the commission is directed to investigate, ascertain, and report the value of all the property owned or used by every common carrier subject to the provisions of the act.

The act approved May 29, 1917, gives the commission jurisdiction over the rules, regulations and practices of carriers subject to the act with respect to car service.

Jurisdiction is conferred upon the commission to enforce certain provisions of the act approved October 15, 1914, to supplement existing laws against unlawful restraints and monopolies in so far as such provisions relate to carriers subject to the act to regulate commerce. The act prohibits, with certain exceptions, carriers from discriminating between purchasers in sales of commodities, and from making leases or sales of commodities and from acquiring stock or capital of other corporations engaged in commerce tending to substantially lessen competition or create a monopoly; makes it a felony for a President or other specified officers to misappropriate a carrier's funds; and provides that after two years from the approval of the act no carrier shall have dealings in securities or supplies, or contract for construction or maintenance to the amount of more than $50,000 in the aggregate in any one year, with another corporation or organization when, by reason of common officers or otherwise, there exists a community of interest between the carrier and such other corporation or organization, except as a result of free competitive bidding under regulations to be prescribed by the commission. The commission is further authorized to investigate violations of the act by carriers and to require the guilty parties to cease therefrom, and its findings of fact in such investigations shall be conclusive when supported by testimony.

The urgent deficiency appropriation act approved October 22, 1913, provided that the Commerce Court should be abolished from and after December 31, 1913, and that the jurisdiction theretofore vested in the Commerce Court under act approved June 18, 1910, be transferred to and vested in the several District Courts of the United States.

INTERSTATE COMMERCE COMMISSION—*Continued.*

The act approved March 4, 1915, which became effective June 2, 1915, makes common carriers liable for all damage to property caused by them, and forbids, with certain exceptions, limitations of liability.

The act of February 11, 1903, provides that suits in equity brought under the act to regulate commerce, wherein the United States is complainant, may be expedited and given precedence over other suits, and that appeals from the Circuit Court lie only to the Supreme Court. The act of February 19, 1903, commonly called the Elkins law, prohibits rebating, allows proceedings in the courts by injunction to restrain departures from published rates, and provides that cases prosecuted under the direction of the Attorney-General in the name of the commission shall be included within the expediting act of February 11, 1903.

Under the act of August 7, 1888, all Government-aided railroad and telegraph companies are required to file certain reports and contracts with the commission, and it is the commission's duty to decide questions relating to the interchange of business between such Government-aided telegraph company and any connecting telegraph company. The act provides penalties for failure to comply with the act or the orders of the commission.

The act of March 2, 1893, known as the safety-appliance act, provides that railroad cars used in interstate commerce must be equipped with automatic couplers, and drawbars of a standard height for freight cars, and have grab irons or handholds in the ends and sides of each car; and that locomotive engines used in moving interstate traffic shall be equipped with a power driving-wheel brake and appliances for operating the train-brake system. The act directs the commission to lodge with the proper District-Attorneys information of such violations as may come to its knowledge. The act of March 2, 1903, amended this act so as to make its provisions apply to Territories and the District of Columbia, to all cases when couplers of whatever design are brought together, and to all locomotives, cars, and other equipment of any railroad engaged in interstate traffic, except logging cars and cars used upon street railways; and provides for a minimum number of air-braked cars in trains.

By act of April 14, 1910, the safety-appliance acts were supplemented so as to require railroads to equip their cars with sill steps, hand brakes, ladders, running boards, and roof handholds, and the commission was authorized to designate the number, dimensions, location, and manner of application of appliances.

By act of May 6, 1910, the prior accident-reports law was repealed and a new statute passed giving more power to the commission as to investigating accidents, and is more comprehensive than the former law.

The act of March 4, 1907, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is made unlawful to require or permit employes engaged in or connected with the movement of trains to be on duty more than a specified number of hours in any 24.

The act of May 30, 1908, directs the Interstate Commerce Commission to make regulations for the safe transportation of explosives by common carriers engaged in interstate commerce. A penalty is provided for violations of such regulations.

The act of May 30, 1908, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is provided that after a certain date no locomotive shall be used in moving interstate or foreign traffic, etc., not equipped with an ash pan which can be emptied without requiring a man to go under such locomotive. A penalty is provided for violations of this act.

The act of February 17, 1911, confers jurisdiction upon the commission to enforce certain provisions compelling railroad companies to equip their locomotives with safe and suitable boilers and appurtenances thereto.

By an amendatory act approved March 4, 1915, the powers of the commission to inspect and to prescribe standards of safety for locomotive boilers and appurtenances thereto was extended to include "all parts and appurtenances of the locomotive and tender."

The urgent deficiency appropriation act approved October 22, 1913, contains an appropriation of $25,000 to enable the commission to investigate and test block signals and appliances for the automatic control of railway trains, and appliances or systems intended to promote the safety of railway operation, including experimental tests of such systems and appliances as shall be furnished, in completed shape, to the commission for investigation and test, free of cost to the Government, in accordance with the provisions of joint resolution approved June 30, 1906, and sundry civil appropriation act approved May 27, 1908. Provision was made in the sundry civil appropriation acts approved August 1, 1914, March 3, 1915, July 1, 1916 and June 12, 1917, for continuing the investigation and testing of these systems and appliances.

The act making appropriations for the service of the Post Office Department approved July 28, 1916, empowers the commission to fix and determine fair and reasonable rates and compensation for the transportation of mail matter by railway common carriers and service connected therewith, prescribing the method by weight or space, or both, or otherwise.

LINCOLN MEMORIAL.

THE memorial is being erected in Potomac Park on the axis of the United States Capitol and the Washington Monument, in accordance with plans prepared by Henry Bacon of New York City.

Work on the construction of the memorial was commenced on Lincoln's Birthday, February 12, 1914, when the first sod was turned by the Special Resident Commissioner, ex-Senator Blackburn. The foundation was completed and the cornerstone laid February 12, 1915. By act of Congress, February 28, 1916, the limit of cost was increased to $2,594,000, to include the approaches. The whole amount has been appropriated, and about $2,000,000 expended, the memorial to be completed in four years from the commencement of work.

The foundation of the memorial, which is of reinforced concrete, rises 45 feet above the present grade, and will be surrounded by a mound of earth 1,000 feet in diameter. The exterior of the memorial proper is of white Colorado Yule marble, and the interior limestone. The only sculpture will be a colossal statue of Lincoln, designed by Daniel Chester French, flanked by two bronze panels bearing Lincoln's Gettysburg and Second Inaugural addresses. Secretary of the Memorial, Henry A. Vale, Office Building, United States Senate.

SONS OF THE AMERICAN REVOLUTION.

A SOCIETY of descendants of Revolutionary patriots and others was organized in San Francisco, Cal., after the centennial parade of July 4, 1876, entitled "Sons of Revolutionary Sires," from whence was organized in 1889 the California Society Sons of the American Revolution and became part of the National Society in that year. State societies exist in forty-six States, the District of Columbia, Hawaii, the Philippines, and France. The total membership of the organization is about 15,000. *President-General*—Elmer M. Wentworth, Des Moines, Iowa. *Vice-Presidents-General*—Orison J. C. Dutton, Frederick E. Emerson, Thomas W. Williams, Philip F. Turner, Wm. K. Boardman. *Treasurer-General*—John H. Burroughs, New York City. *Secretary-General and Registrar-General*—A. Howard Clark, Smithsonian Institution, Washington, D. C.

The Empire State Society of the Sons of the American Revolution has headquarters at No. 220 Broadway, New York City. The membership is 1,500. *President*—Louis Annin Ames. *Vice-Presidents*—Martin S. Allen, Walter B. Hopping and William H. Kelly. *Secretary*—Capt. Charles A. Du Bois. *Treasurer*—James De La Montanye. *Registrar*—Teunis D. Huntting.

THE ALASKA RAILROAD.

On April 10, 1915, President Wilson announced the selection of the route for the Alaska railroad to be built by the Government. The route adopted is known as the Susitna route and extends from Seward, on Resurrection Bay, to Fairbanks, on the Tanana River, a distance of 471 miles. This route includes the existing Alaska Northern Railway, which runs from Seward through the Kenai Peninsula, for a distance of seventy-one miles to Turnagain Arm, and has been purchased from its owners by the Government for $1,150,000. The contract for the purchase of this road was signed by Secretary Lane of the Interior Department, and under this contract, approved by the President, the road is taken over free from all debt or obligation of any kind.

From Turnagain Arm the route extends through the Susitna Valley and across Broad Pass to the Tanana River, and from there to Happy Station at mile 460, where it connects with the Tanana Valley Railroad and from there on to Fairbanks. A side line extends from Matanuska Junction into the Matanuska coal fields, a distance of thirty-eight miles. A spur three miles in length extends from this branch up Eska Creek to the Eska coal mine, and a short spur up Moose Creek to the Doherty mine.

The Tanana Valley Railroad is being operated by the Government under lease, pending its purchase. It is a narrow-gauge line extending from Fairbanks to Chatanika, a distance of thirty-nine miles, with a five mile branch from Chena Junction to Chena. This road will be connected with the main line, and will be used as a feeder, and permits of the delivery of coal to mines that are being developed northeast of Fairbanks.

PROGRESS REPORT TO OCTOBER 1, 1917.

The Alaska Northern Railroad from Mile 0, at Seward, to Mile 25 has been put in good condition, and from this point on is in usable condition. At Mile 50 the old trestle bridge across Placer River, in the vicinity of Spencer Glacier, has been replaced by a new structure. The entire line from Kern Creek to Seward, a distance of seventy-one miles, is in operation. From Kern Creek northward along Turnagain Arm to Potter Creek, a distance of twenty-nine miles, grading is well under way. This section is the most difficult construction work encountered on the entire line. From Potter Creek, through Anchorage, and on to a point two miles north of Kashwitna River, and the branch line from Matanuska Junction to Matanuska coal fields, with spurs leading to mines, are all completed and regularly operated. The coal from these mines is being used by the railroad. From a point two miles north of Kashwitna River to Dead Horse Hill, at Mile 250, the grading is well under way. From Dead Horse Hill to Indian River, at Mile 270, clearing is all completed, but grading has not been started. From Indian River, through Broad Pass, to Mile 360, no construction work has been done.

Units of road in operation: Seward to Kern Creek, seventy-one miles; Potter Creek to Kashwitna (including the Matanuska Branch), 143; Tanana Valley Railroad, 44; total 258 miles.

From the Nenana coal fields, at Mile 360, to the town of Nenana, at Mile 415, grading is progressing, and nine miles of track has been laid from Nenana south toward the coal fields. From Nenana north to Happy Station, Mile 460, clearing is completed, nine miles of grading finished, and the balance is under way. At Happy Station the line of the Alaska railroad connects with the Tanana Valley Railroad, and from this point into Fairbanks, at Mile 470, the roadbed and track of the Tanana Valley Railroad is being used.

NATIONAL ASSOCIATION OF LETTER CARRIERS.

The objects of the association are to unite fraternally all letter carriers in the United States; to obtain and secure rights as Government employés; to create and establish the United States Letter Carriers' Mutual Benefit Association, and to strive for the constant improvement of the service, and also to create and establish the United States Letter Carriers' National Sick Benefit Association. The association has a membership of 35,000.

TEXT OF THE RAILWAY EIGHT HOUR DAY SETTLEMENT.

FOLLOWING is Secretary of the Interior Lane's official summary of the terms of the eight-hour day settlement, awarded March 19, 1917, by a committee of the Council of National Defence, by which was averted a nation-wide strike of 300,000 members of the four Brotherhoods of Railway Trainmen.

In all road service, except passenger, where schedules now read "one hundred miles or less, nine or ten hours or less, overtime at ten or eleven miles per hour," insert "eight hours or less for a basic day and twelve and one-half miles per hour for a speed basis," for the purpose of computing overtime. Overtime to be paid for at not less than one-eighth of the daily rate per hour. In all yard, switching and hostling service, where schedules now read "ten, eleven or twelve hours or less shall constitute a day's work," insert "eight hours or less shall constitute a day's work at present ten hours' pay." Overtime to be paid for at not less than one-eighth of the daily rate per hour. In yards now working on an eight hour basis, the daily rate shall be the present ten-hour standard rate, with overtime at one-eighth of the present standard daily rate. In case the law is declared unconstitutional eight hours or less at present ten hours' pay, will constitute a day's work in hostling service. In passenger service the present mileage basis will be maintained. On roads now having a flat ten-hour day in passenger service, the rule will be amended to read "eight within ten hours." For all classes of employes in short turn-around passenger service, where the rule now reads "eight within twelve hours," it will be amended to read "eight within ten hours." For such territory as has no number of hours for a day's work in short turn-around passenger service, the eight within ten hour rule applies. Overtime to be paid for at not less than one-eighth of the daily rate per hour.

The General Committees on individual railroads may elect to retain their present overtime rules in short turn-around passenger service, or the foregoing provisions, but may not make a combination of both to produce greater compensation than is provided in either basis. In the event the law is held to be constitutional, it was so held, if the foregoing settlement is inconsistent with the decision of the court, the application will be adjusted to the decision. If declared unconstitutional, the above stands with all the provisions as written. The foregoing to govern for such roads, classes of employés and classes of service represented by the National Conference Committee of the Railways. Schedules, except as modified by the above changes, remain as at present.

The agreement was signed by Secretary Franklin K. Lane, Secretary of Labor W. B. Wilson, William G. Lee, President Brotherhood of Railway Trainmen; Warren S. Stone, Grand Chief Engineer, Brotherhood of Locomotive Engineers; Elisha Lee, Chairman National Conference Committee of the Railways; Daniel Williard and Samuel Gompers, of the Council of National Defence; L. E. Sheppard, Acting President Order Railroad Conductors, and W. S. Carter, President Brotherhood of Locomotive Firemen and Engineers.

POWER OF A STATE TO FIX RAILROAD COMMUTATION RATES.

THIS question was passed upon by the Supreme Court of the United States in a decision rendered October 15, 1917, (by Mr. Justice Day for the Court) in an appeal by the Pennsylvania Railroad from an order of the Maryland Public Service Commission requiring the Northern Central Railway Company, a subsidiary of the Pennsylvania, to reduce its passenger commutation rates.

The railroad contended that the effect of the order of the Public Service Commission was to take the property of the railroad company without due process of law, contrary to the Fourteenth Amendment to the Constitution of the United States. It is also averred in the bill that the order, if enforced, will work a discrimination against interstate travel in favor of travel within the State, and is otherwise unreasonable and void.

The Court of Appeals of Maryland stated the question to be whether it is within the power of the Public Service Commission to require the establishment of a schedule of commutation rates by the railroad company, not where no such rates had theretofore been established, but where a new system of commutation rates had been proposed by the railroad company and submitted to the commission. Whether commutation rates should be established was declared to be a question of policy to be decided by the company. The court found authority in the commission under the statutes of Maryland to revise commutation rates where such rates had already been established by the action of the company.

Counsel for the railroad argued that the real question was, whether a State Legislature, either directly or through the medium of a public service commission, under the guise of regulating commerce, may compel carriers engaged in both interstate and intrastate commerce to establish and maintain intrastate rates at less than both the interstate and intrastate standard and legally established maxima. The railroads asserted that there is no constitutional authority to compel railroad companies to continue the sale of commutation or special class tickets at rates less than the legally established standard or normal one-way single passenger fare upon terms more favorable than those extended to the single one-way traveller.

In sustaining the Public Service Commission of Maryland in ordering the commutation rates reduced, Justice Day speaking for the Supreme Court, said that the roads were relying upon an opinion of the Supreme Court in a case involving the Lake Shore and Michigan Southern Railway. He added: "In that case a majority of this court held a statute of the State of Michigan to be invalid. A previous statute of the State had fixed a maximum passenger rate of three cents per mile. The statute in controversy required the issuing of mileage books for a thousand miles, good for two years, at a less rate.

"This court held that a maximum rate for passengers having been established, that rate was to be regarded as the reasonable compensation for the service and that the fixing of the less rate to particular individuals was an arbitrary exercise of legislative power and an unconstitutional interference with the business of the carrier, the effect of which was to violate the provisions of the Fourteenth Amendment to the Federal Constitution by depriving the railroad company of its property without due process of law and denying to it the equal protection of the law.

"The Lake Shore case did not involve, as does the present one, the power of a State commission to fix intrastate rates for commutation tickets where such rates had already been put in force by the railroad company of its own volition, and we confine ourselves to the precise question presented in this case, which involves the supervision of commutation rates when rates of that character have been voluntarily established by the carrier. The rates here involved are wholly intrastate. The power of the States to fix reasonable intrastate rates is too well settled at this time to need further discussion or a citation of authority to support it."

As to a decision rendered by the United States Supreme Court in a Baltimore and Ohio Railroad case, Justice Day said: "In that case this Court held that a 'party rate ticket' for the transportation of ten or more persons at a less rate than that charged a single individual did not make a discrimination against an individual charged more for the same service or amount to an unjust or unreasonable discrimination within the meaning of the act to regulate commerce. In the course of the opinion the right to issue tickets at reduced rates good for limited periods upon the principle of commutation was fully recognized. Having the conceded authority to regulate intrastate rates, we perceive no reason why such power may not be exercised through duly authorized commissions and rates fixed with reference to the particular character of the service to be rendered.

"That the State may fix maximum rates governing one-way passenger travel is conceded. Having the general authority to fix rates of a reasonable nature, we can see no good reason for denying to the State the power to exercise this authority in such manner as to fix rates for special services different from those charged for the general service. In our opinion the rate for a single fare for passengers generally may be varied so as to fit the particular and different service which involves, as do commutation rates, the disposition of tickets to passengers who have a peculiar relation to the service. The service rendered in selling a ticket for one continuous trip is quite different from that involved in disposing of commutation tickets where a single ticket may cover 100 rides or more within a limited period. The labor and cost of making such tickets as well as the cost of selling them is less than is involved in making and selling single tickets for single journeys to one-way passengers.

"The service rendered the commuter, carrying little baggage and riding many times on a single ticket for short distances, is of a special character and differs from that given the single-way passenger. It is well known that there have grown up near to all the large cities of this country suburban communities which require this peculiar service, and as to which the railroads have themselves, as in this instance, established commutation rates. After such recognition of the propriety and necessity of such service, we see no reason why a State may not regulate the matter, keeping within the limitation of reasonableness. On the strength of these commutation tariffs, it is a fact of public history that thousands of persons have acquired homes in city suburbs and nearby towns in reliance upon this action of the carriers in fixing special rates and furnishing particular accommodations suitable to the traffic. This fact has been recognized by the courts of the country, by the Interstate Commerce Commission, and quite generally by the railroad commissions of the States."

IDLE CARS AND CAR SHORTAGE.

THE railroads of the country reported on October 1, a shortage of 70,380 cars. This compares with the excess of unfilled car requisitions amounting to 77,682 on July 1, to 33,776 August 1 and to 34,605 on September 1. The number of unfilled car orders on October 1 was almost identical with the number on October 1, 1916, the figures being 94,572 for October 1, 1917, and 94,854 for September 30, 1916. The difference in the excess of unfilled orders over idle cars for the two years is accounted for by the fact that on September 30, 1916, as many as 34,157 cars were idle, whereas on October 1, 1917, only 24,192 were reported as idle. Returns to the railroads' war board show that the actual number of cars and locomotives in service on American railroads is only slightly in excess of the number at this time last year. The war board on October 10 had been in existence six months, and during that period the railroads of the country rendered upward of 15 per cent. more service, they assert, than they did during the same period last year with practically the same plant.

WHAT THE RAILROADS LOST FROM CAR IDLENESS IN TEN YEARS.

For the whole period of nearly nine years preceding the middle of August, 1917, this year, there had been a continuous net surplusage of cars not in use on American railroads except for about one month in 1909, three months in 1912, one month in 1913 and the month of March last year. In 1908 there was at one time a surplusage of over 413,000 cars, and at no time during the year were there less than 100,000 idle cars. In 1909 the maximum net surplusage was 332,513. In 1910 the maximum was nearly 143,000 for July 6, and there was throughout that year a net surplusage of at least 7,000 cars not requisitioned by shippers. For 1911, surplus cars numbered on March 15 over 207,000, and there were at no time during the year less than 20,000 cars standing idle. In January, 1912, there was a net surplusage of approximately 136,000. From November, 1913, until March, 1916, there was a continuous surplusage of cars, the number running in October, 1914, to over 200,000 when The American Railway Association stopped compiling them. Compilation was resumed on February 1, 1915, when idle cars still numbered over 279,000.

The number of freight cars owned by the railroads of the country increased during that same eight years from 1,840,009 on July 1, 1907, to 2,518,855 on July 1, 1916. Counting every day in the life of a freight car as a "car day" the figures show that during the past ten years idle car days numbered 423,183,-191 Within these ten years there had been a few periods, usually very brief, in which the railroads could not supply as many cars as shippers called for. These periods of shortages aggregated 31,543,316 "car days"—or only about eight per cent. of the idle "car days." The average earnings of a freight car in commission are at least $2.50 a day. Multiplying 423,183,191, the number of idle car days, by these average earnings per day, shows that during the past ten years the railroads of the country have suffered a loss of gross earning power of $1,057,957,977.50, because shippers did not have the freight. Applying the same multiple to 31,543,316 car shortage days shows that the railroads during the ten years suffered a loss in gross earnings of $78,858,290 because the railroads did not have the cars. The total car days during this period numbered a little less than 8,000,000,000. As there were over 423,000,000 idle car days, it means that for a period of ten years the railroad freight equipment of the country has been idle more than 5 per cent. of the time.

*Note—No market values were determined on January 1, 1915.

At the time this inquiry was first undertaken, it was ascertained that the securities held abroad on January 31, 1915, were of a par value of $2,704,402,364. This information was received from 144 railroad companies, being all the roads in the United States over 100 miles in length, of which number 105 companies reported securities held abroad. During the period August 1, 1916, to January 31, 1917, there were returned to the American markets securities of the par value of $229,817,076, or 16.23 per cent. During the year ended July 31, 1916, there were returned securities of the par value of $807,881,666, or 36.33 per cent. During the semi-annual period ended July 31, 1915, there were returned securities of the par value of $480,892,135, or 17.78 per cent. Since January 31, 1915, there have been returned securities having a par value of $1,518,590,878, or 56.15 per cent.

SUBMARINE CABLES OF THE WORLD.

(From report issued by the Bureau International de l'Union Telegraphique.)

THE following table sets forth the entire system of submarine cables of the world, including those along the shores and in the bays, gulfs, and estuaries of rivers, but excepting those in lakes and the interior water-courses of continents. The list includes all cables operated by private companies, and in addition thereto under the names of each nation is given the list of cables operated by the government of that nation.

NEW YORK POLICE REGULATIONS FOR STREET TRAFFIC.

THEY serve as a model for other cities.

Streets are primarily intended for vehicles, but drivers must exercise all possible care not to injure pedestrians

Pedestrians should: First. Avoid interference with vehicular traffic and to this end not step from the sidewalk without first looking to see what is approaching. Second, Cross the street at a right angle, preferably at a crosswalk, and, where a traffic policeman is stationed, wait for his signal. Third, Stand on the sidewalk or close to the track when waiting for a car. Fourth. Face the front of the car when alighting and observe the traffic on the right before moving to the sidewalk, and if passing behind the car observe the traffic in both directions

Pedestrians should keep to the right and not stop so as to obstruct a sidewalk or crosswalk or an entrance to a building.

Pedestrians on streets with narrow sidewalks should use the sidewalk on their right.

The following regulations for vehicles shall be observed by the drivers thereof, who shall also comply at all times with any direction by voice, hand or whistle from any member of the police force as to starting, stopping, slowing, approaching or departing from any place, the manner of taking up or setting down passengers, and the loading or unloading of anything. Police officers may temporarily divert traffic to avoid congestion.

PASSING, TURNING, ETC.

A vehicle meeting another shall pass to the right.

A vehicle overtaking another shall pass to the left and not pull over to the right until entirely clear of it, except in passing a street car, when it shall keep to the right if distance between car and curb permits. A vehicle turning into a street to the right shall turn the corner as near the right-hand curb as practicable. A vehicle turning into a street to the left shall pass around the point of intersection of the two streets. A vehicle turning from one side to the other of a street shall do so by making a complete swing at the next street intersection. A vehicle shall keep as near as practicable to the right hand curb, so as to leave the centre of the street clear for overtaking traffic—the slower the speed the nearer the curb. A vehicle on a street divided longitudinally by a parkway, walk, sunken way, viaduct, isle of safety, or cab stand, shall keep to the right of such division. A vehicle passing around a circle shall keep to the right from entrance to exit. A vehicle shall not back to make a turn if it obstructs traffic, but shall go around the block or to a street wide and clear enough for the purpose. A vehicle shall not follow another too closely for safety.

STOPPING, STANDING, WAITING, PARKING.

A vehicle shall not stop with its left side to the curb, except on a "one-way" traffic street. A vehicle waiting at the curb shall promptly give way to a vehicle arriving to take up or set down passengers. A vehicle shall not be left in such position as to prevent another from moving up parallel and close to the curb in front of an entrance to a building, nor so as to prevent another already stopped near the curb from moving away, nor within ten feet of a fire hydrant.

A vehicle shall not be parked or otherwise stopped so as to prevent the free passage of other vehicles in both directions at the same time or in one direction in a "one-way traffic" street.

A vehicle, unless parked, shall not stand backed up at any angle to a curb, except while actually loading or unloading, and if horse-drawn and with four wheels the horses shall stand parallel with the curb, faced in the direction of traffic.

A vehicle, unless a street car, shall not stop in any street, except near the curb, and then so as not to obstruct a crossing or cross walk, except to allow another vehicle or pedestrian to cross its path.

A street car shall not stop within an intersection of streets, nor within five feet of a street car ahead, nor so as to obstruct a cross walk.

OVERTAKING STREET CARS.

A vehicle in overtaking or meeting a street passenger car which has been stopped for the purpose of receiving or discharging a passenger or passengers, shall not pass or approach within eight (8) feet of such car so long as such car is so stopped.

When in the performance of duty, the following vehicles shall have the right of way: U. S. Mail, Police, Fire, Fire Patrol, Bureau of Buildings, Emergency Repair of Public Service Corporations, Ambulances, also the Military. Conditions warranting, North and South traffic shall have the right of way. A vehicle in front of a street car shall immediately turn out upon signal. A vehicle shall not so occupy any street as to obstruct traffic. A vehicle, on the approach of fire apparatus, shall immediately draw parallel and near to the curb and stop. A street car, on the approach of fire apparatus, shall stop so as not to interfere with its passage.

SIGNALS.

A vehicle's driver when slowing or stopping shall give timely signal by hand or whip, or in some other unmistakable manner. A vehicle's driver when about to turn either from a standstill or while in motion, shall give timely signal by hand or whip or in some other unmistakable manner to indicate the direction of the turn. This is especially important when turning to the left. A vehicle before backing shall give ample warning. Police whistle signals shall indicate: One blast—North and South traffic stops and East and West proceeds. Two blasts—East and West traffic stops and North and South proceeds. Three or more blasts—The approach of fire apparatus or other danger. A vehicle shall be equipped with lights and sound signals as prescribed by law. Sound signals are prohibited, except for necessary warning.

A vehicle shall not exceed the rate of speed established by law and shall proceed with great caution, especially in making turns in crossing other streets and cross walks, and in passing other vehicles. A vehicle shall not cross a sidewalk to or from an alley, lot or building faster than a horse walks.

The use of a vehicle is prohibited when it is so constructed, enclosed, equipped or loaded as to be dangerous, retard traffic, or prevent the driver from having a view sufficient for safety. The use of a vehicle is prohibited when it is so loaded with iron or other materials as to create loud noises while in transit. A vehicle when loaded with any material extending beyond its rear shall be provided with a red flag by day and a red light at night on the extreme rear end of such load. No one less than sixteen years of age shall drive a vehicle intended for commerical purposes. No one shall ride upon the rear of a vehicle without the driver's consent, nor with any part of his body protruding. A vehicle unless confined to tracks shall not tow more than one other vehicle and the connection shall be not longer than sixteen feet. Coasting is prohibited when dangerous. The use of a motor muffler cut-out is prohibited. Dense smoke from motors is prohibited.

CONTROL, TREATMENT AND CONDITION OF HORSES.

A horse shall not be unbridled nor left unattended in a street or unenclosed space without being securely fastened, unless harnessed to a vehicle with wheels so secured as to prevent its being dragged faster than a walk. A driver shall continuously hold the reins in his hands while riding, driving, or leading a horse. No one shall over-load, over-drive, over-ride, ill-treat or unnecessarily whip any horse. No one shall crack or so use a whip as to excite any horse other than that which he is using, or so as to annoy, interfere with or endanger any person.

THE COMMISSION OF FINE ARTS.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That a permanent Commission of Fine Arts is hereby created to be composed of seven well-qualified judges of the fine arts, who shall be appointed by the President, and shall serve for a period of four years each, and until their successors are appointed and qualified. The President shall have authority to fill all vacancies. It shall be the duty of such commission to advise upon the location of statues, fountains, and monuments in the public squares, streets, and parks in the District of Columbia, and upon the selection of models for statues, fountains, and monuments erected under the authority of the United States and upon the selection of artists for the execution of the same. It shall be the duty of the officers charged by law to determine such questions in each case to call for such advice. The foregoing provisions of this act shall not apply to the Capitol Building of the United States and the building of the Library of Congress. The commission shall also advise generally upon questions of art when required to do so by the President or by any committee of either House of Congress.

Sec. 2. That to meet the expenses made necessary by this act an expenditure of not exceeding ten thousand dollars a year is hereby authorized. Approved, May 17, 1910. This act has been supplemented by a number of Executive orders by the President, broadening the scope of the commission's functions.

AMERICAN ORDER OF CLANSMEN, GRAND CLAN.

The American Clansmen date back their history to the early settlement at Jamestown in 1607. The American Order of Clansmen is a nation-wide patriotic, social and benevolent secret society of the best class of white male citizens. The purpose of this order is to encourage a greater love of our country, our flag, and our national institutions. The Grand Clan American Order of Clansmen is the source of all authority. The governing bodies are the Grand Clan and the Grand Clan Council, which are located in San Francisco, Cal. There are numerous local clans instituted in every State of the Union. *Grand Director-General*—Dr. Henry Waterhouse. *Grand Secretary*—Francis R. Apter, 12 Dodge Street, San Francisco, Cal.

ACADEMIC DRESS.

(From a statement prepared by G. C. Leonard, Albany, N. Y.)

There are three distinct types of gowns and hoods—the bachelor's, the master's, and the doctor's. The bachelor's gown is most commonly worn and has long pointed sleeves: the master's gown has long closed sleeves with a slit through which the forearm protrudes; the doctor's gown has velvet bars on round open sleeves and velvet facings down the front. Caps worn with such gowns are the regulation mortar boards with black silk tassels. Doctors may wear gold tassels on caps.

The hoods indicate the degrees by the size of the hoods and their velvet trimmings and show the institutions granting the degrees by the college colors in distinctive arrangements in the exposed linings of the hoods. The velvet trimmings are two inches wide on the bachelor hoods, three inches wide on masters' hoods, four and a half inches on doctors' hoods. The doctors' hoods are also widened by panels edged with cording of the college colors. The colored velvet trimmings indicate degrees as follows:

White, Arts and Letters; scarlet, Theology; purple, Laws; gold-yellow, Science; brown, Fine Arts; pink, Music; orange, Engineering; olive, Pharmacy; maize, Agriculture; lilac, Dentistry; gray, Veterinary Science; russet, Forestry; lemon, Library Science; light blue, Pedagogy; silver-gray, Oratory; drab, Commerce and Accountancy; sage-green, Physical Education; crimson, Humanics; copper, Economics.

THE VOLUNTEERS OF AMERICA.

THE Volunteers of America is a philanthropic, social, and Christian movement. It was inaugurated in March, 1896. It was incorporated on November 6, 1896, under the Membership Act of the State of New York. It is organized in military style, having as its model the United States Army, but in conjunction with military discipline and methods of work it possesses a thoroughly democratic form of government. Its Constitution and by-laws are framed by a Grand Field Council, which represents the minor councils of officers throughout the country annually. Though only twenty-one years old, the Volunteers have representatives and branches of their benevolent cause in almost all the principal cities of the United States.

The Volunteers have some 57 principal homes and institutions of benevolence, many of which are Volunteer property, and are open for poor and deserving people in different sections of the country. During the past year the commissioned workers in their visitation called upon and aided, in one form or another, no less than 61,985 families. This was primarily in the poorer sections of the large cities. In the different permanent philanthropic homes and institutions no less than 231,819 free lodgings have been given, and 564,459 have been paid for by work and other means, while 752,601 free meals were given, and 372,758 meals were distributed to persons who paid for them, many doing so by work.

The Volunteer Hospital, a separate corporation, is located at Beekman and Water Streets, New York City, near the Brooklyn Bridge. There have been during the past year 2,898 ambulance calls, 12,150 days' treatment given to patients in the surgical and medical wards, in the dispensary department. 12,088 new cases treated, and 21,809 old cases treated.

The Volunteer Prisoners' League has enrolled upward of some 90,000 members since its inauguration. It has leagues in thirty State prisons, and over 70 per cent. of those having left the prisons are, through their Hope Halls, living reformed and honest lives. Through the Fresh Air branch of the work thousands of mothers and children have been taken from crowded cities for a change in the open air amid hills and lakes, rivers and dales. From the regimental reports of Volunteer centres, it is carefully calculated that 898,469 persons were gathered to their indoor services, while 1,847,157 persons were listeners in God's natural cathedral, their open-air stands. By these services 7,652 were led to promise that they would lead a new life.

In addition to the Volunteer reading rooms, thousands of copies of Christian literature are circulated in the State prisons, jails, hospitals, soldiers' homes, and children's homes. In connection with the Volunteers there are also sewing classes, hospital nursing, temporary financial relief departments, fresh air camps, Thanksgiving and Christmas dinners, and many other worthy undertakings. The headquarters of The Volunteers of America is at 34 West Twenty-eighth Street, New York City. The principal officers are General and Mrs. Ballington Booth, Presidents; General Edward Fielding, Vice-President; Colonel Walter J. Crafts, Treasurer, and Colonel James W. Merrill, National Secretary (The above statement was prepared by General Ballington Booth.)

THE NATIONAL ACADEMY OF SCIENCES.

THERE are 135 living members, comprising investigators in every department of science. The geographical distribution of members, embracing all parts of the United States, corresponds closely with the educational and scientific facilities of different sections of the country. The National Academy has often been called into the service of the Government. Committees appointed in accordance with acts of Congress at the request of joint commissions and committees of Congress, of the President of the United States, and of the various Departments of the National Government, have reported on a great variety of subjects. From time to time trust funds have been established, the incomes of which are devoted to the award of medals or to grants for research. The will of Alexander Dallas Bache, first President of the Academy, directed that the residue of his estate, after the death of his wife, should be paid over to the National Academy of Sciences for the "prosecution of researches in physical and natural science by assisting experimentalists and observers." In all more than $120,000 has been disbursed by the Academy in direct aid of scientific research. In addition, the late Mrs. Henry Draper has left to the Academy a bequest of $25,000, the income of which is to be used for publication or other purposes.

DURATION OF SUNSHINE ON UNITED STATES TERRITORY.

THE acquisition of Porto Rico, the Sandwich and Philippine Islands, and a portion of the Navigator or Samoan Group has very considerably affected the duration of continuous sunshine on our territory. The mathematical discussion of this subject would be out of place here, but any one who desires to inform himself on this matter can easily and satisfactorily do so by using a terrestrial globe having an artificial horizon attached to it, and carefully complying with the following instructions: Place the globe so that the North Pole shall be directed toward the north, and elevate it 23° above the horizon as indicated by the brass meridian. Assuming of course, that the sun is in the zenith, this will be the position of the earth in reference to the sun at the Summer solstice, June 22. As we turn the globe on its axis from west to east, the sun will be rising at all places on the western and setting at all places on the eastern horizon, and we shall find on turning the globe through an entire revolution that some portion or other of our territory—including the islands named above—will always be above the horizon or will have continuous sunshine during the twenty-four hours. If we now depress the North Pole 23° below the horizon we shall have the relative position of things at the Winter solstice, December 22, and we shall find the opposite conditions to prevail; that is to say, the sun will not now shine continuously on our territory, but some portion of it will always be involved in darkness or *below* the horizon.

ACCIDENT RATE PER 100,000 EXPOSED LIVES.

THIS table gives the accident mortality among the policyholders of one of the largest New York life insurance companies.

CAUSES OF ACCIDENTAL DEATH—	1916.		1915.	
	No. of Deaths.	Rate Per 100,000.	No. of Deaths.	Rate Per 100,000.
Accidents and unspecified violence (total)	6,635	73.5	5,861	68.9
Burns	754	8.4	687	8.1
Absorption of deleterious gases	270	3.0	214	2.5
Accidental drowning	858	9.5	1,008	11.9
Traumatism by firearms	140	1.6	122	1.4
Traumatism by cutting or piercing	17	.2	11	.1
Traumatism by fall	1,241	13.7	1,051	12.4
Traumatism in mines and quarries	91	1.0	81	1.0
Traumatism by machines	143	1.6	118	1.4
Traumatism by steam railroads	685	7.6	622	7.3
Traumatism by street cars	237	2.6	192	2.3
Traumatism by automobiles	795	8.8	486	5.7
Traumatism by other crushing and other vehicles	303	3.4	299	3.5
Electricity	63	1.0	62	.7
Other accidental and unspecified external causes	1,008	11.2	908	10.7

Mortality from automobile accidents and injuries showed by far the largest increase in the rate for any of the specified causes of accidental mortality. In fact, these automobile accidents were alone responsible for three-fifths of the increase in the total accident rate in 1916. In 1916 the rate was 8.8 per 100,000 as compared with 5.7 per 100,000 in 1915. Deaths from electricity also showed a slight increase in the rate, from 0.7 per 100,000 in 1915 to 1.0 per 100,000 in 1916. Accidental deaths caused by vehicles other than steam railroads, street railways and automobiles had slightly less mortality in 1916 than in 1915, the two figures being 3.4 for 1916 and 3.5 for 1915.

UNITED STATES BUREAU OF PLANT INDUSTRY.

THE Bureau of Plant Industry studies plant life in all its relations to agriculture. It investigates the diseases of fruit and forest trees, truck crops and other plants, and carries on field tests and demonstrations of their control and prevention. It studies the bacteriological problems connected with plant production and also the factors of plant nutrition and distributes cultures of nitrogen-gathering bacteria for the inoculation of the seed of leguminous crop plants. It is engaged in the improvement of crops by breeding and selection and the acclimatization and adaptation of new crops and varieties. It is encouraging the production of drug-producing crops and other special crops, and is studying the general physiological problems influencing the growth of plants. In co-operation with the Bureau of Animal Industry and the Forest Service it is conducting a campaign for the eradication of poisonous plants, especially in the vast stock-grazing areas of the West. It is investigating various technological problems in connection with crop production, particularly with reference to fibre and paper-producing plants and to the standardization and handling of grain. It is engaged in the study of various phases of economic botany and in the devising of methods for the improvement of forest-grazing areas. It is carrying on a propaganda in the interest of good seeds for the farmer and the improvement in the quality of farm seeds. It is conducting extensive work in the breeding and testing of the principal field crops, such as the small grains, corn, cotton, tobacco, forage crops, and sugar-producing plants, with special reference to the improvement of these crops.

UNITED STATES PUBLIC HEALTH SERVICE.

LEPER COLONIES.

On February 3, 1917, the President approved an act appropriating $250,000 for the establishment of a national home for lepers, to be administered by the Public Health Service, but on account of war and the coincident high cost of materials, the construction of this institution has not yet been commenced. Various estimates place the number of lepers in the United States as high as 500. Institutions for the care and treatment of lepers in the United States and its dependencies are located in the following places:

San Francisco, Cal., Leper Home, administered by the Health Officer, San Francisco.

Louisiana State Leper Home, administered by the Board of Control for Leper Home, New Orleans.

Massachusetts Leper Station, Penikese Island, administered by the State Commissioner of Health, Boston, Mass.

County Hospital, Leper Ward, Los Angeles, Cal.

Hawaiian Leper Colony, Molokai, administered by the Secretary Territorial Board of Health, Honolulu, T. H.

Philippine Leper Colony, Culion Island, administered by the Director of Health, Manila.

Porto Rico Leper Colony, Cabras Island, administered by the Insular Director of Sanitation, San Juan.

GENERAL WORK OF THE PUBLIC HEALTH SERVICE.

The United States Public Health Service is a branch of the Treasury Department, and is under a commissioned medical officer, with the title of Surgeon-General. The headquarters is in Washington. The Division of Scientific Research supervises field and laboratory investigations of filariasis, hookworm disease, leprosy, infantile paralysis, malaria, pellagra, trachoma, tuberculosis, and typhoid fever, industrial and school hygiene, rural sanitation, public health administration, coastal waters, shellfish pollution, and water supplies and sewage. For this purpose field headquarters and laboratories are located at convenient places throughout the country. Purely technical studies are carried on at the Hygienic Laboratory in Washington, where are also conducted the tests of preparations necessary for the enforcement of the law regulating the sale of biological products in interstate traffic.

IMMIGRATION DIVISION.

The Foreign and Insular Quarantine and Immigration division of the bureau has under its immediate supervision the sixty-one quarantine stations in the United States, twenty-six stations in its insular possessions, and eighty-nine stations for the medical inspection of immigrants. Eighteen officers are also stationed at American consulates abroad to assist in the administration of the quarantine laws and the medical inspection of emigrants. During the fiscal year 1917 there was an increase in the number of vessels inspected at quarantine stations, a total of 12,431 such inspections having been made, as compared with 12,120 in 1916. These vessels carried 709,770 passengers and crews, as compared with 1,477,055 in 1916. Fumigations to the number of 2,796 were made in 1917, as compared with 1,794 in 1916. The total immigrants inspected during the year 1917 were 528,648, as compared with 481,270 in 1916, and the number certified for rejection on account of mental and physical defects was 20,261, whereas in 1916, 16,327 such certifications were made. The service, through the Division of Domestic (Interstate) Quarantine, has supervision of measures for the prevention of the spread of infectious and contagious diseases in interstate traffic and the administration of the interstate quarantine regulations relating to food and drink furnished passengers on common carriers. Under the direction of the Domestic Quarantine Division the Public Health Service cooperates with State and local health authorities in the suppression and eradication of such epidemic diseases as plague, cholera, yellow fever, typhus fever, smallpox, and leprosy. Details of officers are also made, on request from State or municipal health authorities, to assist in the suppression of the more common epidemic diseases, such as typhoid fever, infantile paralysis, cerebrospinal meningitis, and other infections. The work of sanitation of the areas in contiguity with national cantonments, in order to prevent the spread of disease to the military forces, also is supervised by this division.

The Marine Hospital and Relief Division of the service has charge of the twenty marine hospitals and 119 other relief stations of the service located throughout the country. During the fiscal year 1917, 64,033 patients were treated—17,991 in hospitals and 46,031 as dispensary or out-patients.

Among the notable achievements of the service in recent years have been the suppression of yellow fever in the South; the control of bubonic plague in California, Porto Rico, and New Orleans; the discovery of an effective method for the prevention and treatment of pellagra; demonstrations of how malaria may be prevented in practically any locality at a comparatively small cost; the establishment of a series of trachoma hospitals and the institution of educational measures to combat the spread of trachoma in the Appalachian Mountains, and the beginning of a nation-wide campaign for the improvement of rural sanitation, which has already resulted in great diminution of disease in the districts where the methods advocated have been applied. During the year 1917 the service has had charge of the sanitation of extra cantonment zones, co-operating with the military and State and local health authorities in bringing about the elimination of any insanitary conditions which might threaten the health of the military forces and the civilian population.

NATIONAL FIRST AID ASSOCIATION OF AMERICA.

As a perpetual tribute to the memory of its noble founder and President, this association has made the office of president a memorial one to be held in name and for all time by Clara Barton.

Officers: *Acting President*—Mrs. J. Sewall Reed. *Vice-President and Treasurer*—Roscoe G. Wells. *Medical Director*—Frederick H. Morse, M. D. *Secretary*—Mrs. Mary Kensel Wells.

Incorporated under the laws of the District of Columbia. Executive offices located at Arlington, Mass.

NATIONAL COMMITTEE FOR MENTAL HYGIENE.

Organized 1909. Incorporated 1916. Chief purposes—To work for the conservation of mental health and for improvement in the treatment of those suffering from nervous or mental diseases and mental deficiency and for the prevention of any of these disorders; to conduct or to supervise surveys of the care of those suffering from mental diseases or mental deficiency; to co-operate with other agencies which deal with any phases of these problems; to enlist the aid of the Federal Government and to help organize and aid affiliated State and local societies or committees for mental hygiene.

President—Dr. Lewellys F. Barker, Baltimore, Md. *Vice-Presidents*—Dr. Charles W. Eliot, Cambridge, Mass., and Dr. William H. Welch, Baltimore, Md. *Treasurer*—Otto T. Bannard, New York. *Chairman Executive Committee*—Dr. William L. Russell, White Plains, N. Y. *Chairman Finance Committee*—Prof. Russell H. Chittenden, New Haven, Conn. *Chairman War Work Committee*—Dr. Pearce Bailey, New York. *Chairman Committee on Mental Deficiency*—Dr. Walter E. Fernald, Waverley, Mass. The total number of excepted positions in the field service is larger by 199 than printed in last year's report, the increase being made up of the said 176 deputy marshals plus 23 appointed from October 22, 1913, to June 30, 1915. *k* Only changes in the force of canal employés subject to examination are included in the body of this table.

UNITED STATES EXECUTIVE CIVIL SERVICE.

(Revised for this issue of THE WORLD ALMANAC by the Secretary of the National Civil Service Commission.)

PROVISIONS OF THE RULES.

The act requires the rules to provide, as nearly as the conditions of good administration will warrant, for open competitive practical examinations for testing the fitness of applicants for the classified service; for the filling of all vacancies by selections from among those graded highest; for the apportionment of appointments at Washington among the States upon the basis of population, for a period of probation before absolute appointment; that no person in the public service shall be obliged to contribute service or money for political purposes; that persons in the competitive service, while retaining the right to vote as they please or to express privately their political opinions, shall take no active part in political campaigns, and that no person in said service has any right to use his official authority or influence to coerce the political action of any person or body.

EXTENT OF THE SERVICE.

There were on June 30, 1916, 480,327 positions in the Executive Civil Service, about 296,926 were subject to competitive examination. The expenditure for salaries in the Executive Civil Service is over $200,000,000 a year. The Civil Service act does not require the classification of persons appointed by the President and confirmed by the Senate or of persons employed merely as laborers or workmen. Many positions are excepted in part from the provisions of the rules for various reasons.

APPLICATIONS.

Persons seeking to be examined must file an application blank. The blank for the Departmental Service at Washington, Railway Mail Service, the Indian School Service, and the Government Printing Service should be requested directly of the Civil Service Commission at Washington. The blank for the Customs, Postal, or Internal Revenue Service should be requested of the Civil Service Board of Examiners at the office where service is sought.

Applicants for examination must be citizens of the United States and of the proper age. No person using intoxicating liquors to excess may be appointed. No discrimination is made on account of sex, color, or political or religious opinions. The limitations of age vary with the different services, but do not apply to any person honorably discharged from the military or naval service of the United States by reason of disability resulting from wounds or sickness incurred in the line of duty.

PREFERENCE CLAIMANTS.

Persons who served in the military or naval service of the United States, and were discharged by reason of disabilities resulting from wounds or sickness incurred in the line of duty, are, under the Civil Service rules, given certain preferences. They are released from all maximum age limitations, are eligible for appointment at a grade of 65, while all others are obliged to obtain a grade of 70, and are certified to appointing officers before all others. Subject to the other conditions of the rules, a veteran of the rebellion or of the war with Spain, or the widow of any such person, or any army nurse of either war, may be reinstated without regard to the length of time he or she has been separated from the service.

INSULAR POSSESSIONS.

Examinations are also held for positions in the Philippines, Porto Rico, and Hawaii, and also for the Panama Canal service.

THE UNCLASSIFIED SERVICE.

Under an executive order unclassified laborers are appointed after open, competitive examination upon their physical condition. This action is outside the Civil Service act.

A NEW AMENDMENT TO THE RULES.

PRESIDENT WILSON, in May, 1917, amended the Federal Service rules by adding the following:

"A person resigning a scientific, professional, or technical position in the competitive service in which he has acquired training and experience not to be acquired elsewhere, to enter the public service of a State, county, municipality, or foreign government in a similar capacity, may immediately upon the completion of such service be reinstated in the department in which he formerly served upon the certificate of the commission issued upon the requisition of the department dated within three years from the date of his separation from the competitive service."

As amended the rule will read:

"1. A person separated without delinquency or misconduct from a competitive position, or from a position which he entered by transfer or promotion from a competitive position, may be reinstated in the department or office in which he formerly served upon certificate of the commission, subject to the following limitations:

"(a) The separation must have occurred within one year next preceding the date of the requisition of the nominating or appointing officer for such certificate; but this limitation shall not apply to a person who served in the Civil War or the war with Spain and was honorably discharged, or his widow, or an army nurse of either war.

"(b) No person may be reinstated to a position requiring an examination different from that required for the position from which he was separated without passing an appropriate examination.

"2. A person resigning a scientific, professional, or technical position in the competitive service in which he has acquired training and experience not to be acquired elsewhere, to enter the public service of a State, county, municipality, or foreign government in a similar capacity, may immediately upon the completion of such service be reinstated in the department in which he formerly served upon the certificate of the commission issued upon the requisition of the department dated within three years from the date of his separation from the competitive service."

NEW YORK STATE CIVIL SERVICE RULES.

FOLLOWING are the regulations for marking and grading examination papers:

So soon as practicable after an examination the papers of the competitors shall be marked and the general average of each ascertained. Such marking and ascertainment shall be under the direction of the Chief Examiner, and, so far as practicable, shall be made at the office of the commission. The marking of each competitor's papers shall be made on the scale of 100, which maximum shall represent the highest attainable accuracy, and 0 shall represent entire ignorance. The average of the marking of the several answers upon any one subject shall be the standing on that subject. No person shall have his name entered upon an eligible list who fails to attain an average percentage of 75, or over, on all the obligatory subjects in the examination, and a percentage of 60 or over on every such obligatory subject. The absolute or general average standing of each competitor will then be made up in form substantially as follows, in accordance with the respective weights accorded to the subjects:

SUBJECTS.	Relative Weights.	Standing on Subjects.	Products.	SUBJECTS.	Relative Weights.	Standing on Subjects.	Products.
1. Writing from dictation.	3	95	285	7. Constitutional questions	1	63	63
2. Copying from m'uscript.	2	78	156	8. Making a summary	2	75	150
3. Handwriting	4	80	320				
4. Spelling	3	98	294	Total weight and pr'd'ct.	20		1,586
5. Arithmetic	4	62	248				
6. Geography and history	1	70	70	General average standing			79.30

The standing on each subject is multiplied by the weight given that subject and the product placed in the third column, and the sum of these products, divided by the sum of the weights, gives the general average standing.

CIVIL SERVICE RULES IN THE CITY OF NEW YORK.

SYNOPSIS of regulations governing the admission of persons into the Civil Service of the City of New York. Information may also be had by applying to the Secretary of the Municipal Civil Service Commission, Municipal Building, 14th floor.

Under the White Civil Service Law, Chapter 370, Laws of 1899, April 19, the rules apply to all positions in the service of the City of New York except officers elected by the people, all legislative officers and employés, heads of any department, or superintendents, principals, or teachers in a public school, academy, or college. This requires "examinations, wherever practicable, to ascertain the fitness of applicants for appointment to the Civil Service of said city." The Constitution requires that these examinations shall be competitive, "so far as practicable."

The entire Administration of the City of New York is divided into two general services, namely: The Unclassified Service and the Classified Service. The Unclassified Service includes all elective officers; the officers and employés of the Board of Aldermen; members of the Board of Elections; the head, or heads, of any department of the City Government; or any person appointed by name in any statute.

The Classified Service includes all positions not in the Unclassified Service.

The Classified Service is divided into four classes, namely:

EXEMPT CLASS—The Exempt Class includes the deputies of principal executive officers authorized by law to act generally for and in place of their principals; one secretary of each officer, board, and commission authorized by law to appoint a secretary; one clerk and one deputy clerk, if authorized by law, of each court, and one clerk of each elective judicial officer. In addition thereto there may be included in the Exempt Class all other subordinate offices for the filling of which competitive or non-competitive examination may be found to be not practicable.

NON-COMPETITIVE CLASS—Includes all those positions of a minor nature, in the city institutions or elsewhere, that it is not practicable to fill through competitive examination.

LABOR CLASS—Includes all unskilled laborers and such skilled laborers as are not included in the competitive or non-competitive classes.

COMPETITIVE CLASS—Includes all positions in the Classified Service (excepting those in the Exempt, Non-Competitive or the Labor Class) for which it is practicable to determine the merit and fitness of the applicant by competitive examination.

Vacancies in the Exempt Class may be filled without examination, appointments being made by the Mayor or other official having jurisdiction over the department where the vacancy exists.

Positions in the Non-Competitive Class are filled as a result of the examinations held by the department where the person is to be employed.

FILING APPLICATIONS FOR POSITIONS IN COMPETITIVE CLASS—Applications for positions in the Competitive Class will be issued and received only for the position or positions advertised, and only during the period specified by the commission in such advertisement. Advertisements for the various examinations appear in the prominent daily papers and in the *City Record*. The *City Record* is on file in the reading room of any of the city libraries.

All applications for an examination must be on a prescribed form addressed to the "Secretary of the Municipal Civil Service Commission." When an examination is advertised application blanks may be obtained at the office of the commission, Room 1400.

Application blanks will be mailed upon request provided a self-addressed stamped envelope or sufficient postage is enclosed to cover the mailing. The commission will not guarantee the delivery of the same. Postage on applications forwarded by mail must be fully prepaid.

Applicants must be citizens of the United States and residents of the State of New York. The requirement as to residence may be waived by the commission, but only with the proviso that applicants become residents of the State of New York prior to the date of their appointment.

Applicants for patrolmen must have resided within the State of New York at least one (1) year prior to the date of appointment.

The prescribed application form filled out in the applicant's handwriting sets forth the following;

The applicant's name, age, residence, statement regarding citizenship or naturalization, statement regarding arrests or previous service in a City Department, if any, and also the certificate for citizens whose residences or places of business are within the City of New York.

In examinations for positions requiring previous experience, applicants must fill in and file with their application an experience paper. In some examinations where experience is a qualifying subject, applicants receiving less than the minimum passing mark in this paper are barred from the remainder of the examination.

Applications for positions in the Labor Class are issued and received continually.

Applicants for all positions in the Competitive and the Labor Classes are required to take a medical and physical examination.

Applicants for Labor Class positions that require previous training or experience must take an oral or practical test; no written examination is given to applicants.

CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose.

All paper upon which examinations are to be written shall be furnished to the applicants by the examining board and shall bear some suitable official indorsement, stamp, or mark, for the purpose of identifying the same.

CIVIL SERVICE RULES IN THE CITY OF NEW YORK—*Continued.*

All examinations shall be in writing, except such as refer to expertness or physical qualities, and except as herein otherwise provided.

The sheets of questions shall be numbered and shall be given out in the order of their numbers each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission; and no questions given out at any session, to any candidate, shall be allowed to be answered at another session.

Each examiner shall exercise all due diligence to secure fairness and prevent all collusion and fraud in the examinations.

The time allowed for completing the examination shall be announced before the first paper is given out.

PATENT OFFICE PROCEDURE.

THE following statement has been revised by the Patent Office for THE WORLD ALMANAC:

Patents are issued in the name of the United States, and under the seal of the Patent Office, to any person who has invented or discovered any new and useful art, machine, manufacture, or composition of matter or any new and useful improvement thereof, or any new, original and ornamental design for an article of manufacture, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country, before his invention or discovery thereof or more than two years prior to his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned; upon payment of the fees required by law and other due proceedings had.

Every patent contains a grant to the patentee, his heirs or assigns, for the term of seventeen years, except in the case of design patents, of the exclusive right to make, use, and vend the invention or discovery throughout the United States and the Territories, referring to the specifications for the particulars thereof.

If it appear that the inventor, at the time of making his application, believed himself to be the first inventor or discoverer, a patent will not be refused on account of the invention or discovery, or any part thereof, having been known or used in any foreign country before his invention or discovery thereof, if it had not been before patented or described in any printed publication.

Joint inventors are entitled to a joint patent; neither can claim one separately. Independent inventors of distinct and independent improvements in the same machine cannot obtain a joint patent for their separate inventions; nor does the fact that one furnishes the capital and another makes the invention entitle them to make application as joint inventors; but in such case they may become joint patentees by means of a deed of assignment.

No person otherwise entitled thereto will be debarred from receiving a patent for his invention or discovery, by reason of its having been first patented or caused to be patented by the inventor or his legal representatives or assigns in a foreign country, unless the application for said foreign patent was filed more than twelve months prior to the filing of the application in this country, and four months in cases of designs, in which case no patent shall be granted in this country.

APPLICATIONS.

If an inventor wishes to file an application for patent, a copy of the Rules of Practice, containing forms and instructions, will be sent upon request. It is advisable, however, in every case, that the services of a competent registered patent attorney be secured, as the value of patents depends largely upon the skilful preparation of the specification and claims. The Patent Office cannot recommend any particular attorney or firm, but advises applicants to avoid doing business with those who advertise the possession of unusual facilities for obtaining patents.

Applications for patents must be made in writing to the Commissioner of Patents. The applicant must file in the Patent Office a written description of the invention or discovery, and of the manner and process of making, constructing, compounding, and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to which it appertains, or with which it is most nearly connected, to make, construct, compound, and use the same; and in case of a machine, he must explain the principle thereof, and the best mode in which he has contemplated applying that principle, so as to distinguish it from other inventions, and particularly point out and distinctly claim the part, improvement, or combination which he claims as his invention or discovery. The specification and claim must be signed by the inventor.

When the nature of the invention admits of drawings, the applicant must furnish a drawing of the required size, signed by the inventor or his attorney in fact. The applicant, if required by the Patent Office, shall furnish a model of convenient size to exhibit advantageously the several parts of his invention or discovery, but a model should not be sent unless first called for by the Patent Office.

The applicant shall make oath that he verily believes himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement for which he solicits a patent; that he does not know and does not believe that the same was ever before known or used, and shall state of what country he is a citizen and where he resides, and whether he is the sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that the invention has not been patented to himself or to others with his knowledge or consent in this or any foreign country for more than two years prior to his application, or on an application for a patent filed in any foreign country by himself or his legal representatives or assigns more that twelve months prior to his application in this country, or four months in cases of designs. If any application for patent has been filed in any foreign country by the applicant in this country or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned; that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States nor described in any printed publication or patent in this or any foreign country for more than two years prior to his application in this country. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Chargé d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge or Magistrate having an official seal and authorized to administer oaths in that country whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, except that no acknowledgment may be taken by any attorney appearing in the case.

On the filing of such application and the payment of the fees required by law, if, on examination, it appears that the applicant is justly entitled to a patent under the law, and that the invention is sufficiently useful and important, the Commissioner will issue a patent therefor.

Every patent of any interest therein shall be assignable in law by an instrument in writing; and the patentee or his assigns or legal representatives may, in like manner, grant and convey an exclusive right under his patent to the whole or any specified part of the United States.

REISSUES.

A reissue is granted to the original patentee, his legal representatives, or the assignees of the entire interest when, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more that he had a right to claim as new, the original patent is inoperative or invalid, provided the error has arisen from inadvertence, accident, or mistake, and without any fraudulent or deceptive intention. Reissue applications must be made and the specifications sworn to by the inventors, if they be living.

FEES.

Fees must be paid in advance, and are as follows: On filing each original application for a patent, $15. On issuing each original patent, $20. In design cases: For three years and six months, $10; for seven years, $15; for fourteen years, $30. On every application for the reissue of a patent, $30. On filing each disclaimer, $10. For certified copies of patents and other papers in manuscript, ten cents per hundred words and twenty-five cents for the certificate; for certified copies of printed patents, eighty cents. For uncertified printed

copies of specifications and drawings of patents, five cents each. For recording every assignment, agreement, power of attorney, or other paper, of three hundred words or under, $1; of over three hundred and under one thousand words, $2; for each additional thousand words, or fraction thereof, $1. For copies of drawings, the reasonable cost of making them. The Patent Office is prepared to furnish positive photographic copies of the drawings of pending, patented or abandoned cases, in sizes and at rates as follows: Large size, 10x15 inches, twenty-five cents; medium size, 8x12½ inches, fifteen cents. Negative photographic copies of specifications and drawings of foreign patents, or of any page or part of page of any printed publication in the possession of the office, will be furnished on paper 7x11 inches for fifteen cents per sheet. Stamps cannot be accepted by the Patent Office in payment of fees. Stamps and stamped envelopes should not be sent to the office for replies to letters, as stamps are not required on mail matter emanating from the Patent Office.

The most important changes in Patent Office practice put in effect in the past year are as follows:

In Rule 93. "An interference is a proceeding instituted for the purpose of determining the question of priority of invention between two or more parties claiming substantially the same patentable invention. In order to ascertain whether any question of priority arises the Commissioner may call upon any junior applicant to state in writing the date when he conceived the invention under consideration. All statements filed in compliance with this rule will be returned to the parties filing them. In case the applicant makes no reply within the time specified, not less than ten days, the Commissioner will proceed upon the assumption that the said date is the date of the oath attached to the application. The fact that one of the parties has already obtained a patent will not prevent an interference, for, although the Commissioner has no power to cancel a patent, he may grant another patent for the same invention to a person who proves to be the prior inventor."

In Rule 77. "If an applicant neglect to prosecute his application for one year after the date when the last official notice of any action by the office was mailed to him, the application will be held to be abandoned, as set forth in Rule 171.

PATENT OFFICE STATISTICS.

The receipts of the Patent Office during the year ended December 31, 1916, were $2,343,540.94, and expenditures $2,115,367.91. Receipts over expenditures, $228,173.03. Total net surplus to December 31, 1915, $7,785,506.48.

The following is a statement of the business of the office for the year ended December 31, 1916:

Applications for patents for inventions	68,075
Applications for patents for designs	2,684
Applications for reissues of patents	274
Total	71,033
Applications for registration of trade-marks	8,628
Applications for registration of labels	939
Applications for registration of prints	469
Disclaimers filed	32
Appeals on the merits	1,991
Total	12,059

Patents issued, excluding designs	43,970
Design patents issued	1,759
Patents reissued	198
Total	45,927
Trade-marks registered	6,791
Labels registered	864
Prints registered	432

Patents expired during the year	23,296
Applications forfeited for non-payment of final fees	11,174
Applications allowed, awaiting final fees	19,835
Trade-mark applications passed for publication	6,804

There is now no law permitting the filing of a caveat, the old law having been repealed July 1, 1910. Patent No. 1,000,000 was granted August 8, 1911, to F. H. Holton, of Akron, Ohio, for an automobile tire.

DELAYS OCCASIONED BY THE WAR.

The act of August 17, 1916, extended by nine months the time for filing applications, paying fees, and taking necessary action in cases in the Patent Office where the war in Europe prevented filing within the time heretofore allowed. This act operates to relieve default occurring between August 1, 1914, and January 1, 1918, and is reciprocal with citizens or subjects of countries extending similar privileges to citizens of the United States.

REGISTRATION OF TRADE-MARKS

IN THE UNITED STATES.

THE following are extracts from the new "Act to authorize the registration of trade-marks used in commerce with foreign nations, or among the several States or Indian tribes, and, to protect the same," approved February 20, 1905, and later amendatory acts.

"The owner of a trade-mark used in commerce with foreign nations, or among the several States, or with Indian tribes, provided such owner shall be domiciled within the territory of the United States, or resides in or is located in any foreign country, which, by treaty, convention, or law, affords similar privileges to the citizens of the United States, may obtain registration for such trade-mark by complying with the following requirements: First, by filing in the Patent Office an application therefor, in writing, addressed to the Commissioner of Patents, signed by the applicant, specifying his name, domicile, location, and citizenship; the class of merchandise and the particular description of goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to goods and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the Commissioner, provided such description is of a character to meet the approval of the Commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant, or his attorney, and such number of specimens of the trade-mark, as actually used, as may be required by the Commissioner of Patents. Second, by paying into the Treasury of the United States the sum of ten dollars, and otherwise complying with the requirements of this act and such regulations as may be prescribed by the Commissioner of Patents.

"A certificate of registration shall remain in force for twenty years, except that in the case of trade-marks previously registered in a foreign country such certificates shall cease to be in force on the day on which the trade-mark ceases to be protected in such foreign country, and shall in no case remain in force more than twenty years, unless renewed. Certificates of registration may be, from time to time, renewed for like periods on payments of the renewal fees required by this act, upon request by the registrant, his legal representatives, or transferees of record in the Patent Office, and such request may be made at any time not more than six months prior to the expiration of the period for which the certificates of registration were issued or renewed. Certificates of registration in force at the date at which this act takes effect shall remain in force for the period for which they were issued, but shall be renewable on the same conditions and for the same periods as certificates issued under the provisions of this act, and when so renewed shall have the same force and effect as certificates issued under this act.

"The registration of a trade-mark under the provisions of this act shall be prima facie evidence of ownership. Any person who shall, without the consent of the owner thereof, reproduce, counterfeit, copy, or colorably imitate any such trade-mark and affix the same to merchandise of substantially the same descriptive properties as those set forth in the registration, or to labels, signs, prints, packages, wrappers, or receptacles intended to be used upon or in connection with the sale of merchandise of substantially the same descriptive properties as those set forth in such registration, and shall use, or shall have used, such

reproduction, counterfeit, copy, or colorable imitation in commerce among the several States, or with a foreign nation, or with the Indian tribes, shall be liable to an action for damages therefor at the suit of the owner thereof; and whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment therein for any sum above the amount found by the verdict as the actual damages, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs."

No trade-mark will be registered which consists of or comprises immoral or scandalous matter, or which consists of or comprises the flag or coat of arms or other insignia of the United States, or any simulation thereof, or of any State or municipality, or of any foreign nation, or which consists of or comprises any design or picture that has been adopted by any fraternal society as its emblem, or of any name, distinguishing mark, character, emblem, colors, flag, or banner adopted by any institution, organization, club, or society which was incorporated in any State in the United States prior to the date of the adoption and use by the applicant; Provided, That said name, distinguishing mark, character, emblem, colors, flag, or banner was adopted and publicly used by said institution, organization, club, or society prior to the date of adoption and use by the applicant; unless it shall be shown to the satisfaction of the Commissioner of Patents that the mark was adopted and used as a trade-mark by the applicant or applicant's predecessors, from whom title is derived, at a date prior to the date of its adoption by such fraternal society as its emblem, or which trade-mark is identical with a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties, or which so nearly resembles a registered or known trade-mark owned and in use by another, and appropriated to merchandise of the same descriptive properties as to be likely to cause confusion or mistake in the minds of the public, or to deceive purchasers; or which consists merely in the name of an individual, firm, corporation, or association, not written, printed, impressed, or woven in some particular or distinctive manner or in association with a portrait of the individual, or merely in words or devices which are descriptive of the goods with which they are used, or of the character or quality of such goods, or merely a geographical name or term; no portrait of a living individual will be registered as a trade-mark, except by the consent of such individual evidenced by an instrument in writing; and no trade-mark will be registered which is used in unlawful business, or upon any article injurious in itself, or which has been used with the design of deceiving the public in the purchase of merchandise, or which has been abandoned.

Any mark, used in commerce with foreign nations or among the several States or with Indian tribes, may be registered if it has been in actual and exclusive use as a trade-mark of the applicant, or his predecessors from whom he derived title, for ten years next preceding the passage of the act of February 20, 1905.

By Act of Congress approved February 18, 1909, the second section of the trades-mark act was amended so as to read as follows:

"The application prescribed in the foregoing section, in order to create any right whatever in favor of the party filing it, must be accompanied by a written declaration verified by the applicant, or by a member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm, corporation, or association in whose behalf he makes the application to be the owner of the trade-mark sought to be registered, and that no other person, firm, corporation, or association, to the best of the applicant's knowledge and belief, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive; that such trade-mark is used in commerce among the several States, or with foreign nations, or with Indian tribes, and that the description and drawing presented truly represent the trade-mark sought to be registered. If the applicant resides or is located in a foreign country, the statement required shall, in addition to the foregoing, set forth that the trade-mark has been registered by the applicant, or that an application for the registration thereof has been filed by him in the foreign country in which he resides or is located, and shall give the date of such registration, or the application therefor, as the case may be, except that in the application in such cases it shall not be necessary to state that the mark has been used in commerce with the United States or among the States thereof. The verification required by this section may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any Minister, Charge d'Affaires, Consul, or commercial agent holding commission under the Government of the United States, or before any notary public, Judge, or Magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States."

A fee of $10.00 is required by law to be paid with each application for the registration of a trade-mark, and this fee will include the certificate of registration, if the trade-mark be determined to be registrable.

GOLD AND SILVER PRODUCTION IN UNITED STATES IN 1916.

THE Bureau of the Mint, Treasury Department, and the Geological Survey, Interior Department, have issued the following joint final statement of the production of gold and silver in the United States during the calendar year 1916. As indicated in the new year's estimates of the Mint and Survey, the joint figures on the final returns show increases in the production of silver.

IMPORTS FROM SOUTH AMERICA JUMP IN PAST YEAR.

(Figures compiled by the Department of Commerce.)

Imports from South America and Asia in 1917 showed a gain of more than 100 per cent. over 1914, the increase from South America being 143 per cent. and from Asia 114 per cent. Imports from South America were $222,677,075 in 1914, $391,562,018 in 1916, and $542,212,820 in 1917. Imports from Asia were $286,962,486 in 1914, $437,181,464 in 1916, and $615,217,463 in 1917. Imports from Oceania in 1917 showed a decrease from 1916, but an increase over 1914. In 1914 the imports from Oceania were $42,144,398; in 1916, $96,225,991; and in 1917, $65,328,379. Imports from Africa in 1917 gained 213 per cent. over 1914. They amounted to only $19,149,476 in 1914, as against $64,765,745 in 1916 and $60,013,316 in 1917.

Of North American countries, Canada showed the greatest gain in 1917 imports, as compared with those of 1914. The increase amounted to $160,000,000, and was due to large imports of wheat, copper, paper, boards, and wood pulp. Imports from Cuba gained $122,000,000, owing chiefly to the rise in the value of sugar, which increased from $98,394,782 in 1914 to $204,521,140 in 1917, although the quantity decreased from 4,926,606,243 to 4,669,079,398 pounds in the same period.

Imports from Argentina increased by over $100,000,000 in value, chiefly in wool and hides. Imports from Chile showed a large increase, from $25,750,000 in 1914 to $113,750,000 in 1917, a gain of 350 per cent., chiefly in nitrate of soda, copper, and tin. Imports from Brazil in 1917 showed a gain over 1914 of $51,000,000, principally in coffee, hides, rubber, and manganese.

Imports from China increased by more than $60,000,000, chiefly in hides, silk, and wool, while imports from the Japanese leased territory in China, which amounted to only $230,000 in 1914, rose to $6,000,000 in 1917, representing principally soya-bean oil. Imports from the British East Indies increased from $112,000,000 in 1914 to $217,500,000 in 1917, the gain being chiefly in burlaps, hides, rubber, and tin. Imports from Japan increased from $107,300,000 in 1914 to $208,000,000 in 1917, more than half of the increase being in raw silk. Imports from the Philippines increased from $18,125,000 in 1914 to $42,500,000 in 1917, the gain being in manila hemp, sugar, copra, and cocoanut oil. Imports from Australia showed a decrease of $4,500,000 in 1917, as compared with 1914.

UNITED SOCIETY OF CHRISTIAN ENDEAVOR.

Founded by Rev. Francis E. Clark, of Portland, Me., 1881. Purposes: Definite standards of service, and definite commitment to those standards. Open confession of Christ, and speaking for Him according to ability and apportunity. The cultivation of the devotional life by regular prayer and Bible study. Training in Christian service by a variety of committee work. Loyalty to the church and regular attendance upon the church services. Generous giving to Christian work. Christian citizenship. Interdenominational fellowship and the promotion of peace and goodwill among the nations of the world.

The statistics which follow are for the United States and Canada for the two years ending July 1, 1917. New societies organized, 8,206. New members enrolled, more than 718,435.

The total number of Christian Endeavor societies now actually enrolled in the Boston office is 78,039. Of these 52,462 are in the United States, 4,094 in Canada, 21,483 in foreign lands.

More than $850,000 has been contributed by the Christian Endeavor societies of the United States and Canada toward missions. The following are the five leading States: Pennsylvania, $75,000.00; Illinois, $62,785.00; New York, $61,938.43; Ohio, $54,000.00; California, $44,144.49.

EXPLANATORY.

Argentina—Of the sterling debt given as per date, December 31, 1915, £70,797,702 represented ordinary issues, £30,219,122 special issues, and £47,378,356 "cedulas" of the National Mortgage Bank. The latter are certificates to bearer issued by the bank, in lieu of cash, to borrowers on real estate. They are guaranteed by the nation. The sterling debt includes the loan of $25,000,000; issued in the United States in May, 1915.

Australia—The total revenue of the Commonwealth for the year was £30,627,943, of which £6,346,995 were paid over to the States. The combined State revenues are thus inclusive of the amount received from the Commonwealth treasury. The funded debt of the Commonwealth given as per date, June 30, 1916, includes £39,545,430 of inscribed stock and bonds; war loan from the United Kingdom, £36,774,269; South Australian debts transferred to the Commonwealth, viz, £2,778,266 on account of the Northern Territory and £1,896,132 on account of the Port Augusta-Oodnadatta Railway. The figure is exclusive of the value of properties transferred from the States, estimated at £10,781,797, and deferred military pay, £4,759,730. The net debt of the States aggregated £309,813,828, there being various sinking funds on hand totalling £7,754,960.

New Zealand—The revenues and expenditures stated were on account of the consolidated fund only. The expenditure from the public-works fund was £2,737,364 in 1915. The net amount of public debt on March 31, 1916, was £105,957,433, the sinking fund accrued amounting to £3,679,964 on that date.

Brazil—The items under "Funded debt" represent the consolidated debt, external and internal. The items under "Unfunded debt" represent the internal floating debt and paper money in circulation. Debts of the several States are not included.

Bulgaria—Against the total debt outstanding the Government holds assets amounting to 86,378,616 francs. The net debt, therefore, amounts to 828,407,367 francs.

Canada—The receipts and expenditures stated were on account of the consolidated fund only. The expenditures for railways, canals, and public works amounted to $41,447,320, railway subsidies to $5,191,507, and bounties on lead, binder twine, and crude petroleum to $124 272, making the total expenditures for the year equal to $182,286,306. The total gross debt of the Dominion on March 31, 1915, stood at $700,473,814, against which the Government held assets amounting to $251,097,731. The net debt amounted to $449,376,083.

Costa Rica—The figures of the public debt of Costa Rica on December 31, 1914, have been compiled from data given in the report of the Minister of Finance. They are exclusive of £413,340 of bonds of the English loan, held by bankers or otherwise disposed of. It is not stated whether or not any of these bonds have been amortized.

Guatemala—The paper peso has been converted at the rate of 3.625 cents. Administrative expenditure only is shown under the heading of "Expenditure."

Honduras—Of the total external debt stated by the Council of the Corporation of Foreign Bondholders, £25,407,858, arrears of interest since 1872 constitute £20,009,288.

Salvador—The official Anuario Estadistico for 1915 gives the area of the Republic as 34,126 square kilometers, equal to 13,176 square miles. The liabilities of the Republic on December 31, 1915, were 27,560,288 silver pesos.

Chile—The 150,000,000 gold pesos of unfunded debt represent the issues of paper money. The paper peso has been converted at the rate of 8¼d. for 1915.

China—In the budget presented to the Legislative Chamber (Tsan-Cheng-Yuan) by the Minister of Finance the revenues were estimated at 471,946,710 yuans, including an internal loan of 20,000,000 and the expenditures of 471,519,436 yuans. The yuan has been converted at the rate of 53.345 cents. The funded debt includes war and indemnity loans, £33,795,871; railway loans, £37,466,607; general loans, £34,958,336. The unfunded debt represents the Boxer indemnities, principal and interest. The principal outstanding on December 31, 1915, amounted to £63,847,268. The figures of debt are exclusive of short-term debts, foreign and domestic, amounting to 76,365,298 yuans on June 30, 1914, and of domestic loans amounting approximately to 57,284,000 yuans.

Denmark—The area shown is that of Denmark proper, exclusive of the Faroe Islands and other outlying possessions. Against the total debt the assets of the State are given as 844,505,862 kroner, of which 301,519,069 kroner represent the value of the State railways.

Egypt—Against the total debt the "Caisse de la dette publique" and the Government held bonds amounting to £5,569,820, reducing thus the net debt outstanding to £88,459,020. The interest charges include £E665,041 paid as tribute to Turkey. The Eygptian pound is equivalent to $4.943.

France—The public debt charges include pensions, annuities, etc., comprised under the general caption of "rente viagère" amounting to 340,431,880 francs in 1914.

German States—The revenues appearing in the table are exclusive of transfers (Ueberweisungen) but inclusive of compensatory payments (Verguetungen) from the imperial treasury; expenditures are exclusive of matrikularbeitrage.

German Colonies—The revenues are exclusive of 29,312,000 marks subsidy from the imperial treasury.

Greece—The unfunded debt includes 60,949,315 drachmas of paper money in circulation.

Italy—The funded debt, given as per date June 30, 1914, includes 10,051,167,362 lire of the consolidated and perpetual debt, and 4 788,592,593 lire of the redeemable debt. The unfunded debt is made up of 490,513,090 lire of treasury bills in circulation, 379,984,500 lire of treasury bonds, and 61,381,356 lire of interest bearing current accounts. On the above date the treasury was reported to hold 1,304,768,739 lire of the public debt securities, thus reducing the net debt outstanding to 14,466,870,162 lire.

Paraguay—On June 30, 1915, the foreign debt amounted to 5,907,894 gold pesos. The unfunded debt includes 115,000,000 pesos of paper and nickel money in circulation. The paper peso has been converted at the rate of 3.86 cents.

Portugal—Of the total gross debt the Government is reported to hold £59,604,145. The cash held by the Government on June 30, 1915 totalled 4,030,427 escudos. No account taken of exchange.

Russia—The area given is exclusive of internal waters. The total debt is exclusive of 8,305,036,000 rubles of credit notes of the Government Bank in circulation on November 23 (December 6), 1916, partly covered by the gold reserve of the bank. At the end of August, 1916, there were due to depositors of the Government savings banks 3,337,000,000 rubles. The Government is also liable for the mortgage bonds issued by the Governmental Noblemen's and Peasants' Land Banks.

Sweden—The revenue is exclusive of loans amounting to 53,675,000 kronor, including a loan of 20,200,000 kronor for the establishment of the tobacoo monopoly.

United Kingdom—The British budget figures are made up of gross exchequer receipts and issues, the latter exclusive of £2,570,000 made to meet capital expenditure. The assets of the British exchequer on March 31, 1915, were composed of £29,993,000, estimated value of Suez Canal shares; £3,242,906 other assets, and £83,450,952 bank balances.

United States—The total receipts include the ordinary receipts, $779,664,552; public debt receipts, $58,452,403; Panama Canal receipts, $2,869,995; and the postal revenues, $312,057,689. The total disbursements include the ordinary disbursements, $718,992,999; public debt disbursements, $24,668,913; Panama Canal disbursements, $17,503,728; and disbursements on account of the Postal Service, $311,728,453. The item in the column "Funded debt" is the total interest bearing debt of the United States under date of July 1, 1916. The remainder represents all other indebtedness of the United States less cash in the Treasury on that date.

Philippine Islands—The total of the funded debt is inclusive of the municipal debts of the cities of Manila and Cebu, amounting to $4,000,000 and $125,000, respectively, and guaranteed by the Insular Government. The Government also guarantees 4 per cent. interest for a period not to exceed thirty years on the first lien bonds issued by the Philippine Railway Company and on the 4 per cent first lien bonds of the southern lines of the Manila Railroad Company. The annual liability of the insular Government under this guarantee amounts to $765,040.

STATES WITH TWO OR MORE TAX RATES.

(By the Census Bureau. Data is for 1916.)

In the majority of States all classes of property subject to the general property tax are taxed at the same rate. In a limited number of States, however, this tax is levied at different rates upon different classes of property.

FARMERS' NATIONAL CONGRESS, U. S. A.

President—H. E. Stockbridge, Atlanta, Ga. *Vice-Presidents*—J. A. Devanney, Morris, Minn.; John W. Barger, Waverly, O. *Treasurer*—D. K. Unsicker, Wright, Ia. *Secretary*—J. F. Griffin, Tiptonville, Tenn. *Assistant Secretaries*—J. H. Patten, Belton, S. C.; Jefferson G. Brown, Avoca, Mich.; Mrs. Florence R. S. Phillips, Tallahassee, Fla. *Legislative Agent*—J. H. Kimble, Port Deposit, Md.

The Farmers' National Congress, a pioneer national agricultural body, was organized in 1881 to voice by resolution the wishes of the farmers of the country on questions related to agriculture.

The membership of the congress is composed of delegates from each State appointed preferably by the Governors of the respective States, but should a Governor for any reason fail or refuse to make appointments, a certificate of appointment by the Secretary of the State Board of Agriculture or State Agricultural Society, or by the State Vice President of the congress, is sufficient. The number of delegates from each State is unlimited.

Men of national and State reputation and of acknowledged ability are always found among the members, all of whom are actually engaged in agricultural pursuits.

The congress has devoted thirty-two years of aggressive effort in behalf of the American farmers, and has been of material service in securing much valuable legislation for the agricultural interests of the country. The congress has been a power in urging and a strong influence in securing such beneficial legislation as rural free mail delivery, interstate commerce commission, oleomargarine laws, free denatured alcohol, postal savings banks, river and harbor improvements and inland waterways appropriations, pure food laws, parcel post, etc.

UNITED STATES EMPLOYMENT OFFICES.

THE Department of Labor, through the Division of Information of the Bureau of Immigration, has established Distribution Branches throughout the country for the purpose, on the one hand of developing the welfare of the wage-earners of the United States and improving their opportunities for profitable employment, and on the other hand of affording to employers a method whereby they may make application for such help as they need, either male or female, citizens or alien residents, and have their wants supplied through said Distribution Branches. No fee is charged employer or employé for this service.

Manufacturers, contractors, farmers, and, in fact, all employers of labor, may now utilize the Government machinery to supply their wants in this direction.

A sufficient number of offices have been established to bring the distributing points near to the places where help is needed. The applications for laborers of all kinds and the applications for employment are cleared through one office in each State. Many of these head offices have sub-branches under their jurisdiction.

Application for workers should be addressed to the United States Employment Service, in the city named in this list as the headquarters of the zone in which the help is required.

All the postmasters throughout the United States are co-operating in this work by distributing application blanks both to employers and employés. The appropriate blanks may, therefore, be had on request to any postmaster. However, in those cities designated as zone headquarters, application for blanks or information should be made direct to the United States Employment Service, at the address indicated in the foregoing table.

The present system of distribution has only been in operation since the first of February, 1915. The number of applications for positions during the five months (February 1 to June 30, 1915) was 76,503. The number directed to employment during the same period was 10,916. For the fiscal year July 1, 1915, to June 30, 1916, the number of applications for positions was 184,481. The number directed to employment during the same period was 84,955. During the year ending June 30, 1917, approximately 290,000 were directed to employment.

CONSTANCY OF EMPLOYMENT OF WAGE-EARNERS.

THE Federal Census of Manufactures of 1914 shows that the average number of wage-earners employed in all manufacturing industries during that year was 7,036,337. The largest number, 7,242,752, was employed in March and the smallest number, 6,640,284, in December, equal to 91.7 per cent. of the maximum. The statistics are embraced in the following tables.

SOCIALIST LABOR PARTY.

National Secretary—Arnold Petersen, 45 Rose Street, New York City. *Treasurer*—W. A. Walters. *Representative on International Socialist Bureau*—Boris Reinstein. *National Executive Committee*—Sidney Armer, 417 Montgomery Street, San Francisco, Cal.; J. P. Johnson, 101 Greenwood Street, New Haven, Ct.; John M. Francis, 266 North East Street, Duquoin, Ill.; John Sweeney, 10 Ashley Street, Jamaica Plain, Mass.; Samuel Johnson, 1023 Fremont Street, St. Paul, Minn.; Charles Rogers, 1609 Penn Street, Kansas City, Mo.; Rudolph Katz, Maywood, N. J.; P. E. De Lee, 152 Fourth Street, Troy, N. Y.; John D. Goerke, 306 Superior Avenue N. E., Cleveland, Ohio; G. G. Anton, 4310 Otter Street, Philadelphia, Pa.; Donald L. Munro, 1020 Bay Street, Portsmouth, Va.; John C. Schaefer, care of J2 D. Camp, Granite Falls, Wash.; Albert Schnabel, 1397 Sixteenth Street, Milwaukee, Wis.; Joseph Czapko, 216 East Third Street, South Bethlehem, Pa.; Joseph Schlossberg, 2068 Daly Avenue, New York, N. Y.; J. Salaneck, 12 Oakland Street, Brooklyn, N. Y.; F. Hanson, 89 Kenmore Road, Medford, Mass.

The party is organized in local organizations known as "sections," such sections existing in thirty States. Seven persons, five of whom must be actual wage-workers, may form a section, providing they acknowledge the platform, constitution and resolutions of the Socialist Labor Party and do not belong to any other political party. But if more than seven propose to organize a section then at least three-fourths must be actual wage-workers. In places where no section exists, or where none can be formed, any person complying with the aforesaid provisions may become a member-at-large upon application to the National Executive Committee. Sections are not permitted to charge initiation fees. All questions of importance arising within the party are decided by general vote. At each meeting of the section a Chairman is elected, and the same rule holds good with all standing committees.

AMERICAN ECONOMIC ASSOCIATION.

WORKMEN'S COMPENSATION LAW OF NEW SOUTH WALES.

(By Consul General J. I. Brittain, Sydney.)

Under the provisions of the new Workmen's Compensation Act, which went into effect on July 1, 1917, every employer (which term includes the legal personal representatives of a deceased employer) shall make provision for compensating persons injured in his employ. All employés (which term includes, among others, clerks, typists, messengers, domestic servants and all manual workers) come within the scope of the act, except—(a) Any person employed whose remuneration exceeds $1,518 per annum; or (b) A person whose employment is of a casual nature and who is employed otherwise than for the purposes of the employer's trade or business. The act covers accidents happening anywhere, whether on or off the employer's premises, provided the person injured was on the business of the employer at the time of the accident. The compensation provided in case of death by accident or specified diseases is minimum $1,460 (an increase of approximately $586 over the old law) and maximum $2,435 (an increase of approximately $488 over the old law). In cases of permanent disability by accident or specified diseases the compensation is $3,650; for temporary total or partial disablement, weekly payments of half the weekly wages, not exceeding $9.75 per week ($4.87 under the old law), with a maximum payment of $3,650 ($973.30 under the old law).

WORKMEN'S COMPENSATION LAWS OF STATES AND TERRITORIES.

(Report of Bureau of Labor Statistics, U. S. Department of Labor, and of the American Association for Labor Legislation.)

In order to facilitate the study and comparison of the Compensation laws of the various States, they are analyzed in the following pages according to a uniform outline designed to show clearly the most important features of the several plans.

ALASKA.

DATE OF ENACTMENT—April 29, 1915; in effect July 28, 1915; amended, chapter 44, acts of 1917.

INJURIES COMPENSATED—Personal injury causing disability for more than two weeks, or death, arising out of and in course of employment, not due to the employee's wilful intention to injure himself or another, or to his intoxication.

INDUSTRIES COVERED—Mining operations in which five or more persons are employed, unless election to the contrary is made (includes development and construction work, stamp and roller mills, reduction work and processes, coke ovens, etc.).

PERSONS COMPENSATED—Private employment: All employees in industries covered, contractors and sub-contractors excluded. Public employment: Not included.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) If married, $3,000 to widow, $600 additional to each child under sixteen years of age, posthumous child, or child over 16, dependent by reason of physical or mental incompetency, and to dependent parent or parents if any; if no widow, $3,000 to any minor orphans, and $600 additional to any under sixteen; no total to exceed $6,000.

(b) If unmarried, and dependent parent or parents, $1,200 to each.

(c) If no dependents, funeral expenses not to exceed $150, and other expenses, if any, to same amount.

COMPENSATION FOR DISABILITY:

(a) Total permanent, $3,600 to workman alone; $1,200 additional if wife is living; $600 additional for each child under sixteen; total not to exceed $6,000. If no wife or children, $600 to each dependent parent.

(b) Total temporary disability, 50 per cent. of weekly wages for not over six months.

(c) Partial permanent disability, fixed sums for specified injuries, varying with conjugal condition and number of children.

REVISION OF BENEFITS—Readjustment must be made if within two years an injury develops or proves to be such as to warrant a different award from any previously made.

INSURANCE—No provision.

SECURITY OF PAYMENTS—Attachment may be had pending result of action, or employer may deposit cash or bond with court. Payments are exempt from execution.

SETTLEMENT OF DISPUTES—By courts, either with or without jury trial.

ARIZONA.

DATE OF ENACTMENT—June 8, 1912; in effect September 1, 1912; amended, chapter 7, acts of 1913.

INJURIES COMPENSATED—All accidental injuries causing disability of at least two weeks, or death, arising out of and in the course of the employment, caused in whole, or in part, or contributed to, by a necessary risk or danger of, or inherent in the nature of the employment, or by failure of the employer or his agents to exercise due care or to comply with any law affecting the employment.

INDUSTRIES COVERED—All especially dangerous employments, including the construction, operation and maintenance of steam and street railroads, using or working near explosives, building work using iron or steel frames or hoists, derricks, or ladders or scaffolds twenty or more feet above ground; telegraph, telephone or other electrical work; work in mines, quarries, tunnels, subways, etc.; all mills, shops and factories using power machinery. Industries declared especially dangerous are specified in law. Elective as to other industries.

PERSONS COMPENSATED—Private employment: All employees in industries covered. Public employment: No provision.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, a lump sum equal to 2,400 times one-half the daily wages or earnings of the deceased employee, but not to exceed $4,000. Payments to children cease on reaching the age of eighteen years.

(b) If no dependents, the reasonable expenses of medical attendance and burial of deceased employee.

COMPENSATION FOR DISABILITY:

(a) For total disability, 50 per cent. of the employee's semi-monthly earnings during the time he is unable to work at any gainful occupation.

(b) For partial disability, a semi-monthly payment equal to one-half the wage decrease.

(c) The total amount of payments for total or partial disability caused by a single injury not to exceed $4,000.

REVISION OF BENEFITS—Examinations as to the nature of injury and degree of incapacity, etc., may be required by either party at intervals of not less than three months.

INSURANCE—The employer may insure provided the liability for compensation is not less than the compensation fixed by law.

SECURITY OF PAYMENTS—A judgment for compensation issued by a court is collectible without relief from valuation or appraisement laws and has the same preferential claim as is allowed by law for unpaid wages or personal services.

SETTLEMENT OF DISPUTES—Disputes may be settled by (a) written agreement between the parties, (b) arbitration, or (c) by reference to the Attorney-General of the State, in case of failure or refusal to agree by any of the modes above provided, then by a civil action at law.

CALIFORNIA.

DATE OF ENACTMENT—April 8, 1911; in effect September 1, 1911; new act, chapter 176, acts of 1913, in effect January 1, 1914; amended, chapters 541, 607, 662, acts of 1915; new act, chapter 586, acts of 1917, in effect January 1, 1918.

INJURIES COMPENSATED—Injuries, including diseases, arising out of the employment causing disability for more than ten days, or death, and not the result of the intoxication of the injured employee or his intention to injure himself.

INDUSTRIES COVERED—All excepting agriculture and domestic service, which may come under the act by joint election.

PERSONS COMPENSATED—Private employment: Every person in the service of an employer for hire, including apprentices and aliens. Persons whose employment is both casual and not in the course of the employer's trade or business are excluded. Public employment: Persons employed by the State and its political sub-divisions (except unsalaried deputies appointed for their own convenience), and by all public corporations.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION IN CASE OF DEATH:

(a) The reasonable expense of burial, not exceeding $100.

(b) To persons wholly dependent, three times the annual earnings of the deceased employee; not less than $1,000 nor more than $5,000, payable at least monthly in instalments equal to 65 per cent. of the wages. Payments to children cease on reaching the age of eighteen years, unless

mentally or physically incapacitated for earning a living.

(c) If only partial dependents survive, three times the annual contribution of the deceased to their support, subject to the same limitations as above.

Any disability payments made and burial expenses paid are to be considered as parts of the above totals.

COMPENSATION FOR DISABILITY:

(a) Such medical, surgical and hospital treatment as may reasonably be required to cure and relieve from the effects of the injury.

(b) For temporary total disability, 65 per cent. of average weekly earnings during such disability.

(c) For temporary partial disability, 65 per cent. of weekly loss of wages during such disability.

(d) The aggregate amount of benefits for a single injury causing temporary disability is limited to three times the annual earnings of the injured person, with a maximum benefit period of 240 weeks.

(e) For permanent disability, 55 per cent. of average weekly earnings, for periods varying from four to 240 weeks, according to the degree of disability. After the expiration of 240 weeks a further benefit varying from 10 to 40 per cent. of the weekly earnings is payable during the remainder of life, when the degree of disability reaches or exceeds 70 per cent.

In case of permanent incapacity or death, a lump sum may be substituted for benefits, such lump sum to equal the present value of the benefits computed at 6 per cent.

Average weekly earnings shall be considered as not less than $6.41 nor more than $32.05.

REVISION OF BENEFITS—Decisions and awards may be reviewed at any time during the first 245 weeks, after legal notice received.

INSURANCE—Insurance is required, either in the State insurance fund or in an authorized company, unless the employer furnishes proof of ability to carry his own insurance. Municipalities are required to insure in the State fund, unless the risk is refused.

SECURITY OF PAYMENTS—Policies inure directly to the benefit of employees, who also have a first lien on any amount due the employer from the insurance company. Self-insurers may be required to give bond or deposit securities. A claim for injury or death of an employee or any award shall have the same preference over other unsecured debts as is given by law to claims for wages, but not so as to impair a lien of a previous award.

SETTLEMENT OF DISPUTES—Disputes are settled by the State Industrial Accident Commission, subject to a limited review by the courts.

COLORADO.

DATE OF ENACTMENT—April 10, 1915; in effect August 1, 1915; amended, chapter 155, acts of 1917.

INJURIES COMPENSATED—Injuries caused by accident arising out of and in course of employment, not intentionally self-inflicted or intentionally inflicted by another, and causing death within two years or disability for more than two weeks.

INDUSTRIES COVERED—All except interstate commerce and domestic and agricultural labor in which four or more persons are employed in which employers elect to come under the act; others may elect, but lose no defences if they do not. Public service under State, municipalities, school or irrigation districts, etc.

PERSONS COMPENSATED—Private employment: Every person in the service of another under any contract of hire, express or implied, casual employees excepted. Public employees: All under any appointment or contract of hire; elective officials and officers and enlisted men in the National Guard excluded.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, 50 per cent. of the weekly wages for six years, $8 maximum, total not to exceed $2,500 nor to be less than $1,000. If death occurs from any cause during receipt of disability benefits, any unaccrued and unpaid remainder goes to dependents.

(b) If only partial dependents survive, 50 per cent. of the weekly wages, $8 maximum, for such part of six years as the commission may determine, total not to exceed $2,500. If death occurs from any cause during the receipt of disability benefits, partial dependents shall receive not more than four times the amount contributed by the deceased during his last year of employment, the aggregate of disability and death benefits not to exceed $2,500.

(c) If no dependents, $75 funeral expenses.

(d) Payments to any beneficiary cease on death; to widow or dependent widower, on remarriage, but a lump sum equal to one-half the unpaid balance shall be paid the spouse if there are no children; to children, on reaching the age of eighteen, unless physically or mentally incapacitated from earning.

Payments lapsing for any reason go to surviving dependents, if any.

Benefits to aliens are one-third the amounts payable to citizens, and may not exceed $1,000.

COMPENSATION FOR DISABILITY:

(a) Medical and surgical assistance for first thirty days, not more than $100 in value.

(b) For total disability, 50 per cent. of weekly wages during continuance, $5 minimum, $8 maximum; full wages if less than $5.

(c) For partial disability, 50 per cent. of the weekly wage decrease, $8 maximum; total not to exceed $2,080. Special schedule for specified injuries, 50 per cent. of weekly wages for periods ranging from four to 208 weeks. Facial disfigurements may be compensated for in an amount not exceeding $500.

Payments may be commuted to a lump sum after six months.

REVISION OF BENEFITS—Awards may be changed within fifteen days after making on discovery of mistake, and may be appealed from within sixty days.

INSURANCE—Insurance in State fund, stock or mutual company, or proof of financial ability to make payments is required. Public employees must be insured in the State fund.

SECURITY OF PAYMENTS—Insurers are primarily liable to a workman or his beneficiaries entitled to benefits; notice to employer is notice to insurer; insolvency of employer does not release insurer. Claims are not assignable, and payments are exempt from attachment or execution.

SETTLEMENT OF DISPUTES—Disputes are determined by the Industrial Commission, with limited appeal to courts.

CONNECTICUT.

DATE OF ENACTMENT—May 29, 1913; in effect January 1, 1914; amended, chapter 288, acts of 1915; chapter 368, acts of 1917.

INJURIES COMPENSATED—All injuries arising out of and in the course of employment, disability of more than seven days or death, except when injury is caused by wilful and serious misconduct of the injured employee, or by his intoxication.

INDUSTRIES COVERED—All industries in which five or more persons are employed, in absence of contrary election by employer.

PERSONS COMPENSATED—Private employment: All employees of employers accepting the act, in absence of contrary election, outworkers and casual employees excepted. Public employment: Employees of the State and any public corporation within the State using the services of another for pay.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) $100 for burial expenses.

(b) To persons wholly dependent, a weekly compensation equal to one-half the earnings of the deceased employee.

(c) If only partial dependents survive, a weekly compensation, determined according to the measure of dependence, not exceeding one-half the earnings of the deceased employee.

(d) Compensation shall in no case be more than $14 or less than $5 weekly, and shall not continue longer than 312 weeks.

A widow's or widower's dependence ceases with remarriage, and a child's upon reaching eighteen years of age, unless physically or mentally incapacitated.

If a widow or dependent widower remarries or dies during the term of benefit payments, subsequent payments go to other dependents, if any.

COMPENSATION FOR DISABILITY:

(a) Medical and surgical aid and hospital service during such time as needed.

(b) For total disability, a weekly compensation equal to one-half the employee's earnings, not more than $14 or less than $5 weekly, or for longer than 520 weeks.

(c) For partial disability, a weekly compensation equal to one-half the wage loss, but not more than $14 per week, or for longer than 312 weeks. For specified injuries causing permanent partial disability, one-half the average weekly earnings for fixed periods in lieu of all other payments.

Lump sum payments may be approved by the commissioner, provided they equal the value of the compensations.

REVISION OF BENEFITS—Review may be had upon request of either party, whenever it shall appear to the compensation commissioner that the incapacity or the measure of dependence has changed. The commissioner retains control over awards during their whole period.

INSURANCE—Approved schemes may be substituted provided the benefits are equivalent to those provided by law. Insurance may be taken in approved stock or mutual companies or associations.

SECURITY OF PAYMENTS—Employer must furnish the insurance commissioner satisfactory proof of his solvency and financial ability to pay awards, file satisfactory security with the insurance commissioner, or insure in approved stock or mutual companies or associations. Payments are not assignable, are exempt from execution, and are entitled to the same preference as wage debts.

SETTLEMENT OF DISPUTES—Disputes are to be settled by the compensation commissioners. Appeals from findings and awards of any commissioner may be made to the Superior Court of the county without cost to either party.

DELAWARE.

This is a new act, taking effect January 1, 1918. An elective compensation law is provided for all employers of five or more employees. Exception is made for domestic servants, farm laborers, casual laborers, out workers, contractors and sub-contractors, officers and servants of the State or its agencies, and employees in interstate or foreign commerce. The act is to be administered by an industrial accident board of three members appointed by the Governor at $2,500 and expenses, whose award is final unless an appeal is taken to the Supreme Court of the county within ten days. Insurance in a stock or mutual company is required unless the employer can furnish satisfactory proof of financial ability to pay compensation direct, in which case the board may require the deposit of an acceptable security, indemnity or bond. The act gives compensation for "personal injury by accident arising out of and in the course of" employment within the State, and diseases resulting therefrom; but excludes injuries resulting from intoxication, deliberate and reckless indifference to danger, wilful intention to bring about the injury or death of oneself or another, wilful failure or refusal to use a reasonable safety appliance provided or to perform a duty required by statute, or from the wilful act of another having no relation to the employment. There is a waiting period of fourteen days, during which medical care up to $25 is provided. For total disability compensation for 270 weeks is 50 per cent. of wages and thereafter 20 per cent. In death cases $100 is allowed for burial and 25 per cent. of wages for a dependent widow or widower, with additional percentages up to 60 per cent. in proportion to the number of dependents and children under sixteen.

HAWAII.

DATE OF ENACTMENT—April 28, 1915; in effect July 1, 1915; amended, No. 227, acts of 1917.

INJURIES COMPENSATED—Personal injury by accident arising out of and in course of employment, including occupational diseases, causing disability for more than seven days or death within two years, and not due to the employee's intention to injure himself or another or to his intoxication.

INDUSTRIES COVERED—All public and all industrial employment for pecuniary gain.

PERSONS COMPENSATED—Private employment: All persons under contract of employment or apprenticeship, other than casual employees, whose pay does not exceed $36 per week. Public employment: All except elective officials and employees who receive salaries in excess of $1,800 per year.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) $100 funeral expenses if death occurs within six months after the injury.

(b) 40 per cent. of average weekly wages to widow or dependent widower alone, 50 per cent. if one or two dependent children, 60 per cent. if three or more; 30 per cent. to one or two orphans, 10 per cent. additional for each child in excess of two, total not to exceed 50 per cent. If no consort or child, but other dependents, 25 to 40 per cent.

(c) Payments to widow cease on death or remarriage, and to widower on termination of disability or remarriage; to child on reaching age of sixteen, unless incapable of self-support, when they may continue to eighteen; to other beneficiaries, on termination of disability; no payments except to children to continue longer than 312 weeks. Basic wages not less than $5 nor more than $36 weekly.

COMPENSATION FOR DISABILITY:

(a) Reasonable surgical, medical and hospital services during disability, not exceeding $150 in amount.

(b) For total disability, 60 per cent. of weekly wages, $3 minimum, $18 maximum, for not longer than 312 weeks; total not to exceed $5,000. If wages are less than $3, full wages will be paid unless disability is permanent, when $3 will be paid.

(c) For partial disability, 50 per cent. of wage decrease, $12 maximum, not over 312 weeks, total not to exceed $5,000; fixed awards for specified injuries, in lieu of all other benefits.

Payments may be commuted to one or more lump sums in any case.

REVISION OF BENEFITS—Agreements and awards may be reviewed at any time, not oftener than once in six months.

INSURANCE—Private employers must carry insurance, secure guarantee insurance, deposit security, or furnish proof of financial ability to make payments.

SECURITY OF PAYMENTS—Payments are preferred claims, the same as wage debts. Employees have direct recourse to insuring company; insolvency of employer does not release insurer.

SETTLEMENT OF DISPUTES—Industrial accident boards for each county; appeals to courts.

IDAHO.

The Compensation Law of Idaho went into

effect, as to a State Insurance Fund, on July 1, 1917. The remainder becomes operative January 1, 1918.

A compulsory law is provided for all public employments, and for private employments carried on for pecuniary gain. Employees injured outside the State are covered, as well as those hired outside the State if they would be entitled to compensation under the law of the State where hired. Exception is made in case of employees whose remuneration is more than $2,400 a year, employees in interstate commerce, and public officials elected by popular vote or receiving more than $2,400 a year. Agricultural, domestic and casual employees, outworkers, employees of charitable organizations and members of the employer's family dwelling in his house, although excluded, may be included by agreement. The act is to be administered by an industrial accident board of three members appointed by the Governor with the consent of the Senate at $3,000 and expenses. An award of the board is final unless an appeal is taken to the District Court within thirty days. Public corporations must insure in the State Insurance Fund, which is to be administered by a State insurance manager appointed by the Governor with the approval of the Senate at $4,000. Private employers must either insure in the State Insurance Fund or deposit with the State insurance manager satisfactory security in the form of a surety bond or guaranty contract. The act gives compensation for "personal injury by accident arising out of and in the course of employment," and diseases resulting therefrom, but not including injuries resulting from the employee's wilful intention to injure himself or another or from intoxication. Medical care must be furnished for a reasonable time, charges being limited to those which "prevail in the same community for similar treatment of injured persons of a like standard of living." Hospital agreements may be entered into by employers and workmen, in which case the employer must not profit by the arrangement or levy an assessment of more than $1 a month, except with the approval of the board. Such agreements must provide for sickness "contracted during the employment (except venereal diseases and sickness as a result of intoxication)," as well as for injuries, and the care given shall be under supervision of the board. The waiting period is seven days. For total disability compensation is 55 per cent. of average weekly wages for 400 weeks and $6 a week thereafter. In death cases $100 is allowed for burial, and if there are no dependents the employer must pay to the industrial administration fund $1,000. A dependent widow or widower is allowed 45 per cent. of average weekly wages, with additional percentages up to 55 per cent. in proportion to the number of dependents and children under eighteen.

ILLINOIS.

DATE OF ENACTMENT—June 10, 1911; in effect May 1, 1912. New act, June 28, 1913; in effect July 1, 1913; amended June 28 (p. 400), 1915; May 31, June 25, 1917.

INJURIES COMPENSATED—Accidental injuries arising out of and in the course of employment causing permanent disfigurement, disability of over six working days, or death.

INDUSTRIES COVERED—The building trades; construction, excavating and electrical work; transportation; mining and quarrying; work with or about explosives, molten metals, injurious gases or vapors, or corrosive acids, and all enterprises in which the law requires protective devices. Other employers may elect, but forfeit no defenses if they do not. Compulsory as to State and its municipalities.

PERSONS COMPENSATED—Private employment: All employees except those not engaged in the usual trade or business of the employer. Public employment: All persons employed by the State, county, municipality, etc., except officials.

BURDEN OF PAYMENT—Entire cost rests on the employer.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, a sum equal to four years' earnings, not less than $1,650 (to a widow with one child under sixteen, $1,750, and if two or more children, $1,850), nor more than $3,500 (to a widow with one child under sixteen, $3,750, and if two or more children, $4,000).

(b) If only dependent collateral heirs survive, such a percentage of the above sum as the support rendered during the last two years was of the earnings of the deceased.

(c) If no dependents, a burial benefit not exceeding $150.

COMPENSATION FOR DISABILITY:

(a) Medical and surgical aid for not over eight weeks, not over $200 in value.

(b) For total disability, beginning with eighth day (second day of permanent), a weekly sum equal to 50 per cent. of the employee's earnings, $6 minimum, $12 maximum, during disability or until payments equal a death benefit; thereafter, if the disability is permanent, a sum annually equal to 8 per cent. of a death benefit, but not less than $10 per month.

(c) For permanent partial disability, 50 per cent. of the loss of earning capacity, not more than $12 per week.

(d) For certain specific injuries (mutilations, etc.), a benefit of 50 per cent. of weekly wages for fixed periods, in addition to temporary total disability.

(e) The basis of 50 per cent. is to be increased 5 per cent. for each child under sixteen years of age, maximum 65 per cent. The minimum of $6 per week is to be increased for each such child, the total not to exceed $7.50. The maximum of $12 is to be increased $1 for each such child, the total not to exceed $15.

(f) For serious and permanent disfigurement, not causing incapacity and not otherwise compensated, a sum not exceeding one-fourth the death benefits.

No payments are to extend beyond eight years, except in case of permanent total incapacity.

Lump sum payments for either death or disability may be substituted by the Industrial Board for periodic payments.

REVISION OF BENEFITS—Medical examination may be had not oftener than every four weeks. The Industrial Board may, on request, review instalment payments within eighteen months after the award or agreement thereon.

INSURANCE—The employer must insure, give proof of ability to pay, or make other provision to secure compensation payments, or he may maintain a benefit system, but may not reduce his liability under the act.

SECURITY OF PAYMENTS—In case of insolvency, awards constitute liens upon all property of the employer within the county, paramount to all other claims, except wages, taxes, mortgages or trust deeds.

The rights of an insolvent employer to insurance indemnities are subrogated to injured employees.

SETTLEMENT OF DISPUTES—Disputes are determined by the Industrial Board through an arbitrator or arbitration committee, subject to review by the board. Questions of law may be reviewed by the courts.

INDIANA.

DATE OF ENACTMENT—March 8, 1915; in effect September 1, 1915; amended, chapters 62, 81, 165, acts of 1917.

INJURIES COMPENSATED—Personal injury causing disability for more than seven days, or death by accident arising out of and in course of employment, not due to wilful misconduct, intention to injure self, intoxication, or wilful failure or refusal to use safety appliance or perform duty required by statute.

INDUSTRIES COVERED—All except interstate and foreign commerce, for which Federal laws make provision; railroad employees engaged in train service, and domestic and agricultural labor, unless employer makes contrary election; compulsory as to State and its municipalities.

PERSONS COMPENSATED—Private employment: All employees and contractors' employees engaged upon the subject matter of the contract; casual employees are excepted. Public employment: All employees.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) $100 for funeral expenses, if death from the injury occurs within 300 weeks.

(b) 50 per cent. of weekly wages to persons wholly dependent; to those partially dependent, amounts proportionate to decedent's contributions to their support. The term of payment is limited to 300 weeks from the receipt of the injury.

(c) Payments cease on remarriage of widow or dependent widower, or on children attaining the age of eighteen years, unless mentally or physically disabled for earning. Wages are to be considered as not above $24 nor less than $10 weekly, no total to exceed $5,000.

COMPENSATION FOR DISABILITY:

(a) Medical and hospital services for first thirty days, and longer at option of employer; employee must accept unless otherwise ordered by Industrial Board.

(b) For total disability, 55 per cent. of wages for not more than 500 weeks.

(c) For partial disability, 50 per cent. of wage loss for not more than 300 weeks.

(d) For certain specified injuries, 55 per cent. of wages for designated periods ranging from 15 to 200 weeks.

Wage basis and total amounts are limited as for death benefits.

Any payments may be commuted to a lump sum after twenty-six weeks.

REVISION OF BENEFITS—Awards may be viewed at any time by Industrial Board on its own motion or the request of either party, but without retroactive effect.

INSURANCE—Required unless satisfactory proof of financial ability to meet payments.

SECURITY OF PAYMENTS—Contracts of insurance must inure directly to the benefit of the person entitled to payments under an award. Payments have same preference and priority as unpaid wages, and are exempt from claims of creditors.

SETTLEMENT OF DISPUTES—Disputes are determined by the Industrial Board, with appeal to courts on questions of law.

IOWA.

DATE OF ENACTMENT—April 18, 1913; in effect (a) establishing industrial commission and providing for insurance of employees, July 4, 1913; (b) compensation features, July 1, 1914; amended, chapters 188, 270, 336, 409, 418, acts of 1917.

INJURIES COMPENSATED—All personal injuries arising out of and in the course of the employment causing disability of more than two weeks, or death; except when caused by the injured employee's wilful intention to injure himself or another, or by the intoxication of the employee.

INDUSTRIES COVERED—All industries except agriculture and domestic service, in absence of contrary election by employer. Compulsory as to State and its municipalities.

PERSONS COMPENSATED—Private employment: All employees in industries covered in absence of contrary election, except clerks not subjected to the hazards of the industry and casual employees, or those not employed for the purpose of the employer's trade or business. Public employment: All employees of the State and its subdivisions except policemen and firemen entitled to benefits from pension funds.

BURDEN OF PAYMENT—Entire burden is on employer.

COMPENSATION FOR DEATH:

(a) Reasonable expenses of the employee's last sickness and burial, not to exceed $100.

(b) To persons wholly dependent, a weekly payment equal to 50 per cent. of the wages of the deceased employee, but not more than $10 nor less than $5 per week, for 300 weeks.

(c) If only partial dependents survive, such a proportion of the above as the amounts contributed by the employee to such partial dependents bear to his annual earnings.

(d) If the employee was a minor whose earnings were received by the parent, a sum to the parent equal to two-thirds of the amount provided for persons wholly dependent.

If the spouse dies during the compensation period, unpaid benefits go to other dependents, if any; if she remaries and there are no dependent children, payments cease.

COMPENSATION FOR DISABILITY:

(a) Reasonable surgical, medical and hospital services and supplies for first four weeks, not exceeding $100.

(b) For total temporary disability 50 per cent. of wages; not more than $15 nor less than $6 (unless wages are less than $6, then full wages), for not more than 300 weeks.

(c) For total permanent disability, the same compensation as for temporary disability, to be paid for a period of not more than 400 weeks.

(d) For partial permanent disability (specified maimings), 50 per cent. of average weekly wages for fixed periods beginning with the date of injury.

Payments under (b) and (c) for the fifth, sixth and seventh weeks are 83⅓ per cent. of the weekly earnings, if disability continues beyond those dates respectively, but only 50 per cent. after the seventh week.

Lump sum payments may be substituted on approval of the Industrial Commissioner and an order of the court.

REVISION OF BENEFITS—Payments may be reviewed by the Industrial Commissioner at the request of either party.

INSURANCE—Employers must insure in approved companies or mutual associations, furnish satisfactory proof of financial ability to make payments, deposit security with the State Insurance Department, or contract with employees to maintain approved scheme in lieu of the compensation provided by law, provided there is no diminution of benefits.

SECURITY OF PAYMENTS—In case of insolvency of the insurer, a claim for compensation becomes a first lien, and in case of legal incapacity of insured to receive the amount due, the insurer must settle directly with the beneficiary.

SETTLEMENT OF DISPUTES—Disputes may be settled by committees of arbitration, with the Industrial Commissioner as chairman; limited appeals to courts.

KANSAS.

DATE OF ENACTMENT—March 14, 1911; in effect January 1, 1912; amended, chapter 216, acts of 1913; chapter 226, acts of 1917.

INJURIES COMPENSATED—Injuries by accident arising out of and in the course of employment not due to intoxication or deliberate intention of injured employee, or caused by his wilful failure to use safeguards provided by statute or furnished by employer, causing incapacity to earn full wages for at least one week, or death.

INDUSTRIES COVERED—Railways, factories, quarries, electrical, building or engineering work, laundries, natural gas plants, county and municipal work, employments requiring the use of dangerous, explosive or inflammable materials, if employing five or more persons; and mines without reference to the number of employees, in absence of contrary election; employers in other industries and those employing less than five persons may also elect.

PERSONS COMPENSATED—Private employment: All employees, including apprentices, but excluding casual employees. Public employment: Workmen on county and municipal work.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, a sum equal to three years' earnings of the deceased

employee, not less than $1,400 nor more than $3,800. For non-resident alien beneficiaries (except in Canada) the maximum is $750.

(b) If only partial dependents survive, a sum proportionate to the injury to such dependents.

(c) If no dependents are left, a reasonable expense for burial, not exceeding $150. Compensation ceases upon the marriage of any dependent, or when a minor, not physically or mentally incapable of wage earning, shall become eighteen years of age.

COMPENSATION FOR DISABILITY:

(a) On demand, medical, surgical and hospital treatment, not over $150 in value, for not more than fifty days.

(b) For total incapacity, payments during incapacity, after the first week, equal to 60 per cent. of earnings, but not less than $6 nor more than $15 per week.

(c) For partial incapacity, 60 per cent. of wage loss, during incapacity, after the first week. Lump sums equal to 50 per cent. of the wages for specified periods are to be paid for designated injuries, in lieu of all other compensation. No payments for total or partial disability shall extend over more than eight years. After six months lump sum payments may be substituted at the employer's option, the sum to be agreed upon or determined by the court; or the workman may apply at any time.

REVISION OF BENEFITS—Any award may be modified at any time by agreement. After one year either party may demand a revision. Employees must submit to medical examination at reasonable periods to determine their physical condition.

INSURANCE—The employer may insure in any approved insurance scheme which provides compensation not less favorable than is provided in this act.

SECURITY OF PAYMENT—Lump sums awarded by the court may be secured by order of the court by a good and sufficient bond when there is doubt of security of payment. If the employer was insured, the insurer shall be subrogated to the rights and duties of the employer. Claims and awards are not assignable or subject to execution, etc.

SETTLEMENT OF DISPUTES—Disputes not settled by agreement may be referred to arbitrators, subject to an appeal to courts.

KENTUCKY.

DATE OF ENACTMENT—March 23, 1916; in effect August 1, 1916.

INJURIES COMPENSATED — Personal injuries by accident arising out of and in course of employment, causing incapacity for more than two weeks, or death, not self-inflicted, or due to intoxication or wilful misconduct. Results of pre-existing diseases are not included.

INDUSTRIES COVERED—All except domestic service and farm labor where five or more persons are employed; excepted industries may become subject to the act, by joint application by employers and employees.

PERSONS COMPENSATED—Private employment: All employees in establishments coming under the act, if the employees elect. Public employment: All employees of municipalities coming under the act, if the employees elect.

BURDEN OF PAYMENT—All on the employer.

COMPENSATION FOR DEATH:

(a) Reasonable burial expenses, not to exceed $75.

(b) To persons wholly dependent, 65 per cent. of the average weekly earnings, not more than $12 nor less than $5 per week, for 335 weeks, the total not to exceed $4,000.

(c) If only partial dependents survive, a proportion of the amount for total dependency, determined by the degree of dependence.

(d) If no dependents, $100 payable to the personal representative.

Payments to a widow or widower cease on remarriage and to a child on reaching the age of 16, unless incapacitated for wage earning.

Payments thus terminated go to other beneficiaries, if any.

COMPENSATION FOR DISABILITY:

(a) Medical, surgical, and hospital aid for 90 days, unless another period is fixed by the board, the cost not to exceed $100.

(b) For total disability, 65 per cent. of average weekly wages for eight years, not more than $12 nor less than $5, total not to exceed $5,000.

(c) For partial disability, 65 per cent. of the weekly wage loss, not to exceed $12, for not more than 335 weeks, total not to exceed $4,000.

Compensation periods are fixed for specified injuries.

Lump sum awards may be made after six months, if approved by the board.

REVISION OF BENEFITS—Review may be had on the request of either party or on the motion of the board, changing or revoking any previous order.

INSURANCE—Employers accepting the act must insure in a stock or mutual company or the State Employees' Insurance Association, or give proof of financial ability to pay compensation direct.

SECURITY OF PAYMENTS—Insurance policies must provide for direct liability to the beneficiaries. Self-insurers must furnish bond or other security. Benefits have the same priority as wage debts and are not subject to assignment or attachment.

SETTLEMENT OF DISPUTES—Disputes are settled by the Workmen's Compensation Board, or a member thereof, or a referee appointed by it; limited appeals to courts.

LOUISIANA.

DATE OF ENACTMENT—June 18, 1914; in effect January 1, 1915.

INJURIES COMPENSATED—Personal injury by accident arising out of and in course of employment causing disability for more than two weeks, or death within one year, and not due to wilful intention to injure, to intoxication, to deliberate failure to use safeguards, or to deliberate breach of safety laws.

INDUSTRIES COVERED—Hazardous trades, businesses or occupations in absence of contrary election; extensive list, and others may be so adjudged or brought within the act by voluntary agreement. Compulsory as to employees of the State and its municipalities and public boards.

PERSONS COMPENSATED—Private employment: Every person performing services arising out of and incidental to his employer's trade, business or occupation, if the same is within the act. Public employment: Every person in the service of the State, etc., except officials.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) $100 expenses of last sickness and burial.

(b) To widow or dependent widower alone, 25 per cent. of weekly wages, 40 per cent. if one child, and 50 per cent. if two or more. If one child alone, 25 per cent., 40 per cent. for two, and 50 per cent. for three or more. For one dependent parent, 25 per cent.; for two, 50 per cent.; if one brother or sister, 25 per cent., and 10 per cent. additional for each other. The total in no case may exceed 50 per cent. of the weekly wages, $3 minimum payment, $10 maximum, for not over 300 weeks. Payment to any beneficiary ceases on death or marriage, to children on reaching the age of eighteen, unless mentally or physically incapacitated.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical, surgical and hospital service, not to exceed $100 in value.

(b) For total disability, 50 per cent. of the weekly wages, $3 minimum, $10 maximum, for not more than 400 weeks.

(c) For partial disability, 50 per cent. of the wage loss, not over $10, for not more than 400 weeks.

(d) Fixed schedule for specified injuries, for periods from 10 to 150 weeks. Payments in any case may be commuted to a lump sum on agreement of the parties and approved by the courts.

REVISION OF BENEFITS—Judgments may be modified at any time by agreement of the parties and approval by the courts; or after one year, they may be reviewed by the court on application of either party.

INSURANCE—Not required.

SECURITY OF PAYMENTS—Policy of insurance must give claimants right to direct payment regardless of the default or bankruptcy of the employer. Compensation payments have the same preference as wage debts.

SETTLEMENT OF DISPUTES—Disputes are settled by Judges of the courts in simple, summary procedure.

MAINE.

DATE OF ENACTMENT—April 1, 1915; in effect January 1, 1916; amended, chapters 230, 241, acts of 1917.

INJURIES COMPENSATED—Injury sustained in course of employment, causing disability for more than two weeks, or death, not due to wilful intention to injure himself or another, and not due to intoxication unless fact or habit of intoxication was known or cognizable to employer.

INDUSTRIES COVERED—All except agricultural and domestic labor, and seamen in interstate or foreign commerce, in which more than five persons are employed, if employer elects. Abrogation of defences does not affect cutting, hauling, driving or rafting of logs.

PERSONS COMPENSATED—Private employment: All persons in industries covered, casual employees excepted. Public employment: Employees of State, cities and counties, and of towns accepting the provisions of the act, other than officials; but cities and towns may continue injured firemen on the pay roll at full pay, in lieu of compensation.

BURDEN OF PAYMENT—All on employer. If employees contribute to substitute scheme, additional proportionate benefits must be paid.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, 50 per cent. of weekly wages for 300 weeks, $4 minimum, $10 maximum.

(b) If only partial dependents survive, amounts proportionate to their degree of dependency, for 300 weeks.

(c) If only one wholly dependent and more than one partly dependent person survives, payments are to be divided according to the relative extent of dependency.

(d) If no dependents, not above $200 expenses of last sickness and burial. Payments to children cease at age of eighteen unless mentally or physically incapacitated for earning a living.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical and hospital services during first two weeks, not over $30 in value, unless by agreement or order of commission a larger amount is provided for.

(b) For total disability, 50 per cent. of the wages for not more than 500 weeks, $4 minimum, $10 maximum, total not to exceed $3,000.

(c) For partial disability, 50 per cent. of the weekly wage loss, not over $10, for not more than 300 weeks. For specified injuries causing permanent partial disability, 50 per cent. of the wages for various fixed periods, then compensation on basis of wage loss, if any, for not more than 300 weeks in all.

Lump sum payments may be approved by the commission after weekly payments for not less than six months.

REVISION OF BENEFITS—Agreements or awards may be reviewed at the instance of either party at any time within two years.

INSURANCE—Insurance in approved companies is required unless the employer gives satisfactory proof of solvency and makes deposit or bond to secure payments.

SECURITY OF PAYMENTS—Insurance as above. Claims have same preference over unsecured debts as do wages for labor.

SETTLEMENT OF DISPUTES—Disputes are to be settled by the Industrial Accident Commission, with appeals to courts on questions of law.

MARYLAND.

DATE OF ENACTMENT—April 16, 1914; in effect November 1, 1914.

INJURIES COMPENSATED—Accidental personal injury arising out of and in course of employment, not due to wilful intention or intoxication, and causing disability for more than two weeks or death within two years.

INDUSTRIES COVERED—Extra hazardous (enumerated list); others by joint election of employers and employees. Farm and domestic labor, country blacksmiths and wheelwrights are excluded.

PERSONS COMPENSATED—Private employment: All in industries covered, except casual employees and those receiving more than $2,000 annually. Public employment: Workmen employed for wages in extra-hazardous work, unless the municipality makes other equal or better provision.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) Funeral expenses not over $75.

(b) To persons wholly dependent, 50 per cent. of the weekly wages for eight years; not more than $4,250 nor less than $1,000.

(c) To persons partly dependent, 50 per cent. of the weekly wages for such portion of eight years as the commission may fix, the amount not to exceed $3,000.

(d) If no dependents, funeral expenses only.

(e) Payments to widow close on remarriage, and to children on reaching the age of sixteen years, unless mentally or physically incapacitated.

COMPENSATION FOR DISABILITY:

(a) Medical, surgical, etc., expenses, not above $150 in value.

(b) For total disability, 50 per cent. of weekly wages, $5 minimum, $12 maximum, for not over eight years; total not to exceed $5,000. If wages are less than $5, full wages will be paid.

(c) For partial disability, 50 per cent. of weekly wage loss, $12 maximum, total not over $3,000; specific periods for specified maimings.

Where the injured employee is a learner, with prospect of increase of wages, this fact may be considered in fixing awards.

Payments may, in the discretion of the commission, be made in part or in whole in lump sums.

REVISION OF BENEFITS—The commission may modify its findings and orders at any time for justifiable cause.

INSURANCE—Insurance in State fund, stock or mutual company, or proof of financial ability, is required.

SECURITY OF PAYMENTS—Policies must permit action by commission to secure payments to any person entitled. Payments may not be assigned, nor are they subject to execution or attachment.

SETTLEMENT OF DISPUTES—Disputes are to be settled by the Industrial Accident Commission, with appeal to courts.

MASSACHUSETTS.

DATE OF ENACTMENT—July 28, 1911; in effect July 1, 1912; amended chapters 571, 1912; 48, 448, 568, 696, 746, 1913; 338, 708, 1914; 123, 275, 314, 1915; 72, 90, 1916; 198, 249, 269, 1917.

INJURIES COMPENSATED—Injuries arising out of and in the course of employment causing incapacity for ten days, or death, unless the injury is due to the serious and wilful misconduct of the injured employee.

INDUSTRIES COVERED—All industries if the employer so elects.

PERSONS COMPENSATED—Private employment: All employees, except masters of vessels and seamen engaged in interstate or foreign commerce, and casual employees, where the employer is an insurer under the act. Public employment: The State shall, and any county, city, town or district having power of taxation and accepting the act may, compensate its laborers, workmen, and mechanics.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) The reasonable expense of burial, not exceeding $100. If dependents survive, this sum shall be deducted from the compensation payable.

(b) To persons wholly dependent, a weekly payment equal to two-thirds the average weekly wages of the deceased employee, but not less than $4 nor more than $10, for a period of 500 weeks, the total not to exceed $4,000.

(c) If only partial dependents survive, a sum proportionate to the portion of earnings contributed to their support by the deceased employee.

Children cease to be dependents at eighteen, unless mentally or physically incapacitated from earning a living.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical and hospital services, and medicines as needed, for the first two weeks after injury, and in unusual cases, for a longer period, in the discretion of the board.

(b) For total disability, a sum equal to two-thirds the average weekly wages, but not less than $4 nor more than $14 per week, not exceeding 500 weeks nor $4,000 in amount.

(c) For partial disability, two-thirds the wage loss, but not to exceed $10 per week, and for not longer than 500 weeks.

(d) In specified injuries (mutilations, etc.), two-thirds the weekly wages, not exceeding $10 nor less than $4 per week, for fixed periods, in addition to other compensation.

Lump-sum payments may be substituted in whole or part, after payments for injury or death have been made for not less than six months.

REVISION OF BENEFITS—Either party may demand a revision of payment at any time. Employees must submit to medical examination to determine their physical condition when requested by the employer.

INSURANCE—Employer must become a subscriber of the State Employees' Insurance Association or insure in some authorized liability insurance company.

SECURITY OF PAYMENTS—All risks must be insured in approved companies. Payments are not subject to assignment, attachment or execution.

SETTLEMENT OF DISPUTE—On request of either party, the Industrial Accident Board calls for a committee of arbitration, whose decision is subject to review by the Industrial Accident Board.

MICHIGAN.

DATE OF ENACTMENT—March 20, 1912; in effect September 1, 1912; amended, chapters 50, 79, 156, 259, 1913; 104, 153, 170, 171, 1915; 41, 206, 235, 249, 1917.

INJURIES COMPENSATED—Injuries causing incapacity to earn full wages for a period of two weeks, or death, arising out of and in the course of employment, unless such injuries resulted from intentional and wilful misconduct of the injured person.

INDUSTRIES COVERED—Compulsory as to the State and its municipalities, and each incorporated public board and commission authorized to hold property and to sue and be sued. All industries having one or more persons in service under contract of hire if the employer elects.

PERSONS COMPENSATED—Private employment: All employees, including aliens and minors, except casual employees. Public employment: All employees except officials of the State or of a municipality.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, a weekly payment equal to one-half the deceased workman's earnings, but not less than $4 nor more than $10 per week for a period of 300 weeks.

(b) If only partial dependents survive, such proportion of the above as the amount of previous contributions bears to such earnings.

(c) If no dependents, the reasonable expense of the last sickness and burial, not exceeding $200.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical and hospital services for the first three weeks.

(b) For total incapacity, a weekly payment equal to one-half the earnings, but not less than $4 nor more than $10 per week, nor for a period longer than 500 weeks from the date of the injury, and not exceeding $4,000.

(c) For partial incapacity, a weekly payment equal to one-half the wage loss, but not more than $10 per week, and for not longer than 300 weeks.

(d) For certain specified injuries (mutilation, etc.) 50 per cent. of average weekly earnings for fixed periods.

(e) Payments begin with the fifteenth day after the injury, but if the disability continues for eight weeks or longer compensation is computed from the date of injury.

After six months lump sums may be substituted for weekly payments.

REVISION OF BENEFITS—Weekly payments may be reviewed by the Industrial Accident Board at the request of either party. An injured employee must submit to medical examination when requested.

INSURANCE—Employer must furnish proof of financial ability to pay the required compensation, or insure in an authorized employers' liability company, or in an employers' insurance association organized under State laws, or become a member of a State insurance fund administered by the State Commissioner of Insurance.

SECURITY OF PAYMENTS—In case of insolvency, claims constitute a first lien upon all property of the employer. Employers must furnish proof of financial ability to pay compensation, or insure in approved companies or with the State.

SETTLEMENT OF DISPUTES—Either party may request the Industrial Accident Board to appoint a committee of arbitration, whose decisions are subject to review by the board. The Supreme Court may review questions of law.

MINNESOTA.

DATE OF ENACTMENT—April 24, 1913; in effect October 1, 1913; amended, chapters 193, 209, 1915; 302, 351, 1917.

INJURIES COMPENSATED—Injury by accident arising out of and in the course of employment causing disability for more than one week, or death, unless intentionally caused, or due to the intoxication of the injured person.

INDUSTRIES COVERED—All excepting common carriers by steam railroad and farm and domestic service, in the absence of contrary election by employers.

PERSONS COMPENSATED—Private employment: All employees, including aliens and minors, in the absence of contrary election, casual

employees excepted. Public employment: All persons in the service of a county, city, town, village, or school district, excluding public officials elected or appointed for regular terms.

BURDEN OF PAYMENT—Cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) $100 funeral expenses.

(b) To a widow alone, 35 per cent. of monthly wages of deceased, increasing to 60 per cent. if four or more children; to a dependent husband alone, 25 per cent.; to a dependent orphan, 40 per cent., with 10 per cent. additional for each additional orphan, with a maximum of 60 per cent.; to the dependent parent or parents, if no dependent widow, widower, or children, 30 per cent., if one parent and 40 per cent. if both survive; if none of the foregoing, but a brother, sister, grandparent, mother-in-law, or father-in-law is wholly dependent, if but one such relative, 25 per cent., or if more than one, 30 per cent., divided equally.

(c) If only partial dependents survive, that proportion of benefits provided for actual dependents which contributions bore to wages earned.

(d) When no dependents are left, expense of last sickness and burial not exceeding $100, in addition to medical and hospital services provided in case of disability.

Payments continue for not more than 300 weeks, and cease when a minor child reaches the age of eighteen, unless physically or mentally incapacitated from earning, and upon the death or marriage of other dependents, unless otherwise specified.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical and surgical treatment, not exceeding 90 days nor $100 in value, unless ordered in exceptional cases, when $200 is the limit.

(b) For total disability, 60 per cent. of wages.

(c) For temporary partial disability, 60 per cent. of the wage loss.

(d) For specified permanent partial disability (mutilations, etc.), 50 per cent. of the earnings for fixed periods.

Payments for death may not be more than $11 per week, and for disability not more than $12; nor may they be less than $6.50 unless the wages were less than $6.50, when the amount of wages is paid. Payments may not extend beyond 300 weeks, except for permanent total disability, when the maximum is 400 weeks, with payments of not more than $6.50 per week thereafter for 150 weeks, the total not to exceed $5,000.

Lump sums may be substituted for periodical payments, but in case of compensation for death, permanent total disability, or certain maimings the consent of the court must be obtained.

REVISION OF BENEFITS—After six months from the date of an award either party may apply to the court for revision. The employee must submit to medical examination when requested.

INSURANCE—Employers may insure in any authorized company, stock or mutual, or maintain co-operative schemes, assuming other and greater risks, and other classes of industrial insurance.

SECURITY OF PAYMENTS—Insured workmen have an equitable lien upon any policy becoming due, and in case of the employer's incapacity the insurer shall make payment directly to them. Claims to compensation have the same preference against the assets of the employer as unpaid wages.

SETTLEMENT OF DISPUTES—Either party may submit a claim to the Judge of the District Court, who shall determine such dispute in a summary manner, subject to review by the Supreme Court as to questions of law.

MONTANA.

DATE OF ENACTMENT—March 8, 1915; in effect July 1, 1915.

INJURIES COMPENSATED—Injuries arising out of and in course of employment, resulting from some fortuitous event, causing death or disability of more than two weeks' duration.

INDUSTRIES COVERED—"All inherently hazardous works and occupations," including manufactures, construction work, transportation and repair of the means thereof, and any hazardous occupation or work not enumerated, in which employers elect, but not including agricultural, domestic or casual labor.

PERSONS COMPENSATED—Private employment: All persons other than independent contractors, employed in the industries covered, whether as manual laborers or otherwise, except casual employees. Public employment: All employees in the industries covered.

BURDEN OF PAYMENT—All on employer, except that contributions may be arranged for hospital fund.

COMPENSATION FOR DEATH:

(a) $75 for funeral expenses, if death occurs within six months of injury.

(b) To beneficiaries (widow, widower, child or children under 16, or invalid child above 16) 50 per cent. of wages of the deceased if residents of the United States, if not, 25 per cent., unless otherwise required by treaty. To major dependents (father or mother) in case there are no beneficiaries, 40 per cent. To minor dependents (brothers or sisters actually dependent), if no beneficiary or major dependent, 30 per cent. Non-resident alien dependents receive nothing unless required by treaty, nor do beneficiaries if citizens of a Government excluding citizens of the United States from equal benefits under compensation laws. Term of payments may not exceed 400 weeks, $10 maximum, $6 minimum; if wages less than $6, then full wages. Payments cease on remarriage of widow or widower, or when child, brother or sister reaches the age of sixteen, unless an invalid.

COMPENSATION FOR DISABILITY:

(a) Medical and hospital services during first two weeks after happening of injury, not over $50 in value, unless there is a hospital contract.

(b) For total temporary disability, 50 per cent. of wages during disability, $10 maximum, $6 minimum, unless wages are less than $6, when full wages will be paid, for not more than 300 weeks.

(c) For total permanent disability, same scale as above for 400 weeks, then $5 per week, while disability continues.

(d) For partial disability, 50 per cent. of the wage loss, wages and benefits not to exceed $10 nor fall below $6 in amount, unless wages at time of injury were less than $6; payments to continue not more than 150 weeks for permanent cases, and 50 weeks where disability is temporary.

(e) For maimings, compensation of same scale and limits as in (b) for terms ranging from 3 to 200 weeks.

Periodical payments may in any case be converted in whole or part to lump sums.

REVISION OF BENEFITS—Decisions and awards may be rescinded or amended at any time by the Industrial Accident Board for good cause.

INSURANCE—The employer may carry his own risk on a showing of financial ability; security may be required for probable liabilities and must be given when a continuing payment is ascertained. Insurance may be carried in any company authorized to do business in the State, or the employer may contribute to a State fund.

SECURITY OF PAYMENTS—In case of bankruptcy, etc., liabilities under this act are a first lien upon any deposit made by an employer, and if this is not sufficient, then on any property of

the employer or insurer within the State, and shall be prorated with other lienable claims.

SETTLEMENT OF DISPUTES—Proceedings to determine disputes under the act must be instituted before the board and not elsewhere; limited appeal to courts.

NEBRASKA.

DATE OF ENACTMENT—April 21, 1913; in effect December 1, 1914 (delayed by referendum); amended, chapter 85, acts of 1917.

INJURIES COMPENSATED—Injury causing disability for more than seven days, or death, caused by accident arising out of and in the course of employment, except accident caused by or resulting in any degree from wilful negligence or intoxication.

INDUSTRIES COVERED—All industries where one or more persons are employed by the employer in the regular trade, business or occupation of the employer, except domestic service, agriculture and interstate or foreign commerce, in the absence of contrary election. Exempt employees may make an affirmative election.

PERSONS COMPENSATED—Private employment: All employees, including aliens and minors, but excluding casual employees and home workers. Public employment: All persons employed by the State, or any Government agency created by the State, not having been elected or appointed for a regular term.

BURDEN OF PAYMENT—The entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) In addition to any other benefits, a reasonable amount not exceeding $100 to cover expenses of last sickness and burial.

(b) to persons wholly dependent, 66⅔ per cent. of the employee's wages, but not less than $6 nor more than $12 per week during dependency, but not exceeding 350 weeks; if the wages of the deceased were less than $6 per week, then full wages are to be paid as compensation

(c) If only partial dependents survive, a proportion of the above corresponding to the relation the contribution of the deceased to their support bore to his wages. Compensation to children ceases when they reach the age of sixteen years, unless they are physically or mentally incapacitated from earning.

COMPENSATION FOR DISABILITY:

(a) Medical and hospital services during the first twenty-one days, not exceeding $200 in value. The time may be extended in cases of dismemberment or major operations.

(b) For total disability, 66⅔ per cent. of the weekly wages, but not less than $6 nor more than $12 per week for 300 weeks; thereafter while disability lasts, 45 per cent. of such wages, but not less than $4.50 nor more than $9 per week. Provided, however, if weekly wages are less than the minimum, compensation to the amount of full wages is to be paid.

(c) For partial disability, 66⅔ per cent. of loss of earning capacity, but not exceeding $12 per week, nor exceeding 300 weeks.

(d) For certain specified injuries (mutilations, etc.), 66⅔ per cent. of wages for fixed periods in lieu of other payments, $12 maximum, $6 minimum, unless the wages are less than $6, when full wages are to be paid. Payments begin with the eighth day, but if disability continues six weeks or longer compensation is computed from the date of injury.

Lump sums may be substituted for periodic payments, but if for death or permanent disability, the approval of the court must be obtained.

REVISION OF BENEFITS—Benefits running for a period of six months or longer may be revised at any time by agreement of the parties, with the approval of the Compensation Commissioner, or after six months by application of either party to a court.

INSURANCE—An employer under the act must insure his liability for compensation in an authorized stock or mutual insurance company, or furnish proof of financial ability to make payments.

SECURITY OF PAYMENTS—Insurance policies must inure directly to the benefit of beneficiaries, and be enforceable in an action by them. Compensation rights and awards have the same preference against the assets of the employer as unpaid wages for labor.

SETTLEMENT OF DISPUTES—All disputed claims must be submitted to the Compensation Commissioner, from whose award either party may appeal to the District Court of county, to be heard and determined as a cause in equity, with the right of further appeal to the Supreme Court.

NEVADA.

DATE OF ENACTMENT—March 15, 1913; in effect July 1, 1913; amended, chapter 190, 1915; 233, 1917.

INJURIES COMPENSATED—Injuries arising out of and in course of employment, causing incapacity to earn full wages for more than seven days, or death, except when caused by the employee's wilful intention to injure himself or another or the injury is sustained while intoxicated.

INDUSTRIES COVERED—All except domestic and farm labor, provided the employer elects; compulsory as to the State and its municipalities.

PERSONS COMPENSATED—Private employment: All employees in the industries covered. Public employment: All employees.

BURDEN OF PAYMENT—The entire cost rests on the employer, except that he may deduct one-half the cost of an "accident benefit fund," not more than $1 per month, from each employee's wages for medical, etc., expenses.

COMPENSATION FOR DEATH:

(a) Burial expenses not to exceed $125.

(b) To widow or dependent widower, 30 per cent. of the average wages, with 10 per cent. additional for each child under eighteen years of age, the total not to exceed 66⅔ per cent. If only children survive, they receive 15 per cent. each, the total not to exceed 66⅔ per cent. If there are none of the foregoing, dependent parents may receive 25 per cent. of the average monthly wage during dependency; if dependent brothers or sisters under eighteen, 20 per cent. for one and 30 per cent. if more than one; other cases according to the facts. Payments to a widow or dependent widower cease on remarriage, but the widow shall receive two years' benefits in a lump sum. Payments to children cease on their reaching the age of eighteen unless they are incapable of self-support. Payments to nonresident alien beneficiaries are 60 per cent. of the above amounts. No excess of wages above $120 per month shall be considered in awarding benefits. No lump sum settlements are allowed in case of a widow, dependent children or other persons wholly dependent.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical, surgical and hospital aid for more than ninety days, but may be extended to one year by the Industrial Commission.

(b) For total disability, an amount equal to one-half the average monthly wages, but not less than $20 nor more than $70 for twelve months, and not over $60 thereafter.

(c) For partial disability, one-half the loss of earning capacity, but not more than $40 per month for not more than sixty months; wages in excess of $140 not to be considered.

(d) For certain specific injuries (mutilations, etc.) a monthly payment equal to one-half the monthly wages, not less than $20 nor more than $60, for fixed periods, in addition to payments for temporary total disability.

No compensation is payable for the first week of disability, but if it continues three

weeks or longer compensation is paid from the date of the injury.

The Industrial Commission may permit the substitution of lump sums for monthly payments in an amount not exceeding $5,000.

REVISION OF BENEFITS—Readjustment of compensation may be made by the commission on application therefor.

INSURANCE—Employers coming under this act must insure in the State insurance fund.

SECURITY OF PAYMENTS—State management of the insurance fund and collection of premiums by the State. Payments are not assignable and are exempt from attachment, etc.

SETTLEMENT OF DISPUTES—All matters relating to the amount of compensation to be paid are determined by the Industrial Commission.

NEW HAMPSHIRE.

DATE OF ENACTMENT—April 15, 1911; in effect January 1, 1912.

INJURIES COMPENSATED—Any injury to an employee arising out of and in the course of employment causing disability of over two weeks, or death, unless due to wilful misconduct, intoxication or violation of law.

INDUSTRIES COVERED—Industries dangerous to life or limb, including the operation and maintenance of steam and electric railroads, work in shops, mills, factories, etc., employing five or more persons; work about lines or cables charged with electricity; operations dangerously near explosives used in the industry, or to a steam boiler owned and operated by the employer, and work in or about any quarry, mine or foundry, provided the employer elects.

PERSONS COMPENSATED—Private employment: All workmen engaged in any of the employments covered by this law. Public employment: Government employees are not mentioned.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, a sum equal to 150 times the average weekly earnings of the deceased, not to exceed $3,000.

(b) If only partial dependents survive, such proportion of the above compensation as corresponds to the portion of wages contributed to their support.

(c) If no dependents are left, expenses of medical care and burial to a reasonable amount, not in excess of $100.

COMPENSATION FOR DISABILITY:

(a) For total disability a sum, beginning with the fifteenth day, not exceeding 50 per cent. of average weekly earnings.

(b) For partial disability, a sum not in excess of 50 per cent. of the loss of earning capacity. In no case is compensation to exceed $10 a week nor run for a longer period than 300 weeks. The court may determine the amount of lump sums payable as a substitute for weekly payments.

REVISION OF BENEFITS—The injured person, when requested by the employer, must submit to medical examination not oftener than once a week.

INSURANCE—No provision.

SECURITY OF PAYMENTS—The employer must satisfy the Commissioner of Labor of his ability to pay the required compensation or file a bond conditioned on the discharge of all liability incurred under this act. Weekly payments have the same preferential claim against the assets of the employer as is allowed for unpaid wages or personal services.

SETTLEMENT OF DISPUTES—All questions not settled by agreement are determined by an action in equity.

(b) To one dependent, 35 per cent. of the wages of the deceased person, and for each additional dependent 5 per cent. additional, the total not to exceed 60 per cent.; payable for not more than 300 weeks. Compensation not to be less than $5 nor more than $10 per week, unless the earnings were less than $5, when full wages are paid.

Payments to widows cease on remarriage, and to orphans on reaching the age of 18, unless physically or mentally deficient.

A lump sum payment may be substituted at the discretion of the Court of Common Pleas.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical and hospital services for the first two weeks of incapacity, not exceeding $50 in value.

(b) For temporary total disability, 50 per cent. of wages, payable during disability, but not beyond 300 weeks.

(c) For permanent total disability, 50 per cent. of wages during such disability, not beyond 400 weeks.

(d) For certain specific injuries (mutilations, etc.) producing partial but permanent disabilities, 50 per cent. of wages during fixed periods. All weekly payments are subject to the same rule as to minimum and maximum as for death benefits.

A lump sum payment may be substituted at the discretion of the Court of Common Pleas.

REVISION OF BENEFITS—At any time after one year from the time an award becomes operative, either party may demand a revision of benefits.

INSURANCE—No provision in the principal act. A supplemental act (chapter 178, acts of 1917) requires every employer subject to the provisions of the principal act to furnish proof of ability to carry his own insurance, or be insured in an authorized company; this act does not apply to farm laborers or domestic service.

SECURITY OF PAYMENTS—Insurance policies must be for the benefit of the employees, and be directly available on suits by them for their enforcement. The right of compensation has the same preference against the assets of the employer as are now or may hereafter be allowed by law for a claim for unpaid wages.

SETTLEMENT OF DISPUTES—Either party may submit a claim to the Judge of the Court of Common Pleas, who shall hear and determine such disputes in a summary manner, subject to review of questions of law by the Supreme Court.

NEW MEXICO.

The act took effect on March 13, 1917. An elective law is provided for all employers in certain enumerated extra-hazardous employments where four or more are employed or where work is carried on upon a derrick, scaffolding, pole or other structure ten or more feet above the surface of the ground. Other employers and workmen may become subject to the act by written agreement. Casual laborers and employees in interstate commerce are not covered. No provision is

made for administration except through district courts. An employer electing the act must file with the Clerk of the District Court satisfactory bond or certificate of guarantee, mutual, or other insurance unless he can satisfy the Judge that he is solvent. The act gives compensation to those "injured by accident arising out of and in the course of" employment. Compensation is increased 50 per cent. if caused by employer's failure to provide safety devices required by law, and decreased 50 per cent. if caused by the employee's failure to observe a statutory regulation concerning safety, or to use a safety device provided. No compensation is payable to an employee for injuries caused by intoxication, or wilfully suffered by him, or intentionally inflicted by himself or another, or for injuries received while going to and from work unless caused by the employer's negligence. There is a waiting period of twenty-one days, during which medical care up to $50 is provided. Compensation for total disability is 50 per cent. of earnings for 520 weeks. In case of death $50 is allowed for funeral expenses, and to a dependent widow or widower 40 per cent. of earnings. Five per cent. additional is allowed for each child up to 60 per cent. and proportionate amounts for other dependents.

NEW YORK.

DATE OF ENACTMENT—December 16, 1913; in effect July 1, 1914; amended, chapters 41, 316, 1914; 167, 168, 615, 674, 1915; 622, 1916; 705, 1917.

INJURIES COMPENSATED—Accidental injuries arising out of and in course of employment, and disease or infection naturally and unavoidably resulting therefrom, causing disability for more than two weeks, or death, unless caused by the wilful intention of the injured employee to bring about the injury or death of himself or another, or by his intoxication while on duty.

INDUSTRIES COVERED—"Hazardous employments," including construction, maintenance and operation of steam and street railroads; telegraph, telephone and other electrical construction, installation, operation or repair; foundries, machine shops and power plants; stone cutting, crushing, grinding or dressing; manufacture, storage or handling of explosives, dangerous chemicals, etc.; manufactures, tanneries, laundries, printing and bookbinding; hotels having fifty or more rooms; employment as keeper, guard, nurse or orderly in a prison, reformatory, public hospital or asylum; shipbuilding and repair, and the use of vessels in intrastate commerce; work in mines, quarries, tunnels, subways, shaft sinking, etc.; engineering work, and the construction, repair and demolition of buildings and bridges; lumbering, draying, loading and unloading, coal yards, ice harvesting, freight and passenger elevators, operating hand trucks, etc.; others by election.

PERSONS COMPENSATED—Private employment: All employees in industries covered; farm laborers and domestic servants not included. Public employment included.

BURDEN OF PAYMENT—Entire cost rests on employer.

COMPENSATION FOR DEATH:

(a) $100 for funeral expenses.

(b) To a widow or dependent widower alone, 30 per cent. of wages of deceased, 10 per cent. additional for each child under eighteen; dependent orphans under eighteen receive 15 per cent. each, and dependent parents, brothers or sisters receive 15 per cent. each; aggregate payments in no case to exceed 66 2-3 per cent.

(c) Payments to widow or widower cease on death, or remarriage, or when dependence of widower ceases, with two years' compensation on remarriage; payments to children, brothers and sisters cease at eighteen, and to parents when dependence ceases. In computing the above benefits no wages in excess of $100 monthly are considered.

COMPENSATION FOR DISABILITY:

(a) Medical and surgical treatment and hospital services for sixty days, costs to be approved by the commission.

(b) For total disability, 66 2-3 per cent. of wages during continuance.

(c) For partial disability, 66 2-3 per cent. of wage loss; for specified permanent partial disabilities (mutilations, etc.), 66 2-3 per cent. of wages for fixed periods; separate provision for disfigurements. The foregoing payments may not be less than $5 nor more than $15 per week, except for certain maimings the maximum may be $20.

Payments begin on the fifteenth day, but if the disability continues for more than forty-nine days compensation is allowed from the beginning.

REVISION OF BENEFITS—Awards may be reviewed at any time, and ended or increased or decreased within the limits fixed.

INSURANCE—Employer must give proof of financial ability to make payments (deposit of securities may be required), or must insure in State fund or mutual or stock company.

SECURITY OF PAYMENTS—Insurance must be made to inure directly to the benefit of claimants; insolvency of employer does not release insurance company. Payments have same preference as unpaid wages for labor.

SETTLEMENT OF DISPUTES—Disputes are settled by the State Industrial Commission, with limited appeals to courts.

OHIO.

DATE OF ENACTMENT—June 15, 1911; in effect January 1, 1912; amended pp. 72, 396, 1913; 193, 1914; 508, 1915; 6, 157, 450, 528, 1917.

INJURIES COMPENSATED—All injuries not self-inflicted received in the course of employment causing disability beyond one week, or death.

INDUSTRIES COVERED—All industries employing five or more persons regularly in the same business; also establishments with less than five workmen if the employer elects to pay the premiums provided by this act.

PERSONS COMPENSATED—Private employment: All employees, excluding persons whose employment is but casual and not in the usual course of the trade or business of the employer, but including aliens and minors lawfully employed. Public employment: Persons in the service of the State, or its political subdivisions, excepting the officials of the State or municipal governments, and policemen and firemen in cities where pension funds are established and maintained by municipal authority.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) Burial expenses not to exceed $150.

(b) To persons wholly dependent, 66⅔ per cent. of the average weekly earnings of the deceased workman for eight years after the date of the injury, not less than $2,000 nor more than $5,000.

(c) If only partial dependents survive, a proportionate sum to continue for all or such portion of the period of eight years as the Industrial Commission may determine in each case, not exceeding a maximum of $5,000.

(d) If no dependents, medical and hospital services not exceeding $200 in value, and burial expenses as above.

COMPENSATION FOR DISABILITY:

(a) Medical, hospital, etc., services, not to exceed $200, but more may be allowed in case of actual necessity.

(b) For total temporary disability, a weekly payment of 66⅔ per cent. of average weekly wages, during disability, not less than $5 nor more than $12 per week, but not for longer than six years, nor exceeding $3,750.

(c) For total permanent disability, a weekly payment as above, continuing until death.

(d) For partial disability, 66⅔ per cent. of loss of earning capacity during the continuance thereof, but not exceeding $12 per week or a total of $3,750.

(e) In certain specified injuries (mutilations, etc.), compensation of 66⅔ per cent. of wages for fixed periods, with the same maximum and minimum limitations as noted above, in addition to payments during temporary total disability. In all cases, if wages are less than prescribed minimum, then total wages are paid as compensation; an expected increase in wages may be given consideration.

REVISION OF BENEFITS—The Industrial Commission may from time to time make such modification or change in its former findings of fact as it deems necessary.

INSURANCE—The law creates a State insurance fund, under control of an Industrial Commission, in which employers under the act must insure, or give proof of ability to provide benefits equal to those provided by the State insurance fund. Non-insuring employers may be required to give security or bond to guarantee the payment of benefits falling due.

SECURITY OF PAYMENTS—Insurance is under State control. Claims for compensation under this law have the same preference against the assets of the employer as are or may be allowed by law on judgments rendered for claims for taxes.

SETTLEMENT OF DISPUTES—The commission hears and determines all cases within its jurisdiction, limited right of appeal to the civil courts being reserved to the claimant.

OKLAHOMA.

DATE OF ENACTMENT—March 22, 1915; in effect September 1, 1915.

INJURIES COMPENSATED—Personal injuries causing disability for more than two weeks arising out of and in course of employment not due to the wilful intention of the injured employee to injure himself or another, intoxication, or wilful failure to use statutory safeguard. Fatal injuries not covered.

INDUSTRIES COVERED—"Hazardous" (enumerated list and general clause), in which more than two persons are employed, including work by State or municipalities; agriculture, stock raising, retail stores, and interstate railways not included.

PERSONS COMPENSATED—Private employments: Persons engaged in manual or mechanical work or labor in industries covered. Public employment: Workmen employed for wages in any hazardous work within meaning of this act.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH—Fatal injuries not covered.

COMPENSATION FOR DISABILITY:

(a) Necessary medical, surgical, or other treatment for first fifteen days.

(b) For temporary total disability, 50 per cent. of average weekly wages for not more than 300 weeks.

(c) For permanent total disability, 50 per cent. of average weekly wages for not more than 500 weeks.

(d) For permanent partial disability, 50 per cent. of wage loss for not more than 300 weeks; for specified injuries, 50 per cent. of weekly wages for fixed periods in lieu of other compensation.

Payments may not exceed $10 per week nor be less than $6 unless wages were less than $6, when full wages will be paid. Periodical payments may be commuted to lump sums, and aliens who are non-residents may have payments commuted to lump sums equal to one-half of the value of the present worth.

REVISION OF BENEFITS—Awards may be reviewed at any time on application of any party in interest.

INSURANCE—Insurance, the maintenance of a benefit fund, or proof of ability to make compensation payments is required.

SECURITY OF PAYMENTS—Insurance companies or fund systems must be approved by the commission. Claims cannot be assigned, and payments are exempt from levy, execution, etc. Deposits with the commission to secure payments may be required of employers or insurers.

SETTLEMENT OF DISPUTES—Disputes may be settled by the Industrial Commission, subject to appeals to the Supreme Court.

OREGON.

DATE OF ENACTMENT—February 25, 1913; in effect June 30, 1914 (deferred by referendum); amended, chapter 271, 1915; 288, 1917.

INJURIES COMPENSATED—Injuries by accidents arising out of and in the course of employment, except those brought about intentionally.

INDUSTRIES COVERED—All hazardous occupations, including factories, mills and workshops employing machinery; mines, quarries, wharves and docks, dredges, engineering works; building trades; telegraph, telephone, electric light and power plants or lines, steamboats, tugs and ferries; all in absence of contrary election. Other employers may accept the law by affirmative election.

PERSONS COMPENSATED—Private employment: Any workman employed as above in absence of contrary election. Non-resident alien beneficiaries other than parent, spouse or child are not included unless otherwise provided by treaty. Public employment: The State and its municipalities, irrigation districts, etc., may elect.

BURDEN OF PAYMENT—The employer deducts one cent from employee's daily earnings, and himself contributes this sum and a percentage of his monthly payroll, fixed according to industry. The State gives a subsidy.

COMPENSATION FOR DEATH:

(a) Burial expenses not to exceed $100.

(b) To widow or invalid widower, a monthly payment of $30, and to each child under sixteen (daughters eighteen), $6 a month; the total monthly not to exceed $50.

(c) To orphans under sixteen years of age (daughters eighteen), a monthly payment of $15 each; the total not to exceed $50.

(d) To other dependents, there being none of the foregoing, a monthly payment to each of 50 per cent. of the average support received during the preceding year, but not to exceed $30 a month in all.

(e) To parents of an unmarried minor, a monthly payment of $25, until such time as he would have been 21, after which time compensation shall be paid according to (d) above. Payments to widow or widower continue until death or remarriage. On remarriage of widow she receives a lump sum of $300. Payments to a male child cease at sixteen and to a female at eighteen, unless the child is an invalid.

COMPENSATION FOR DISABILITY:

(a) Transportation, medical, surgical and hospital expenses not exceeding $250 in value.

(b) For permanent total disability, monthly payments as follows: (1) If unmarried at the time of the injury, $30; (2) if with wife or invalid husband, but no child under sixteen years, $35; if the husband is not an invalid, the sum is $30; (3) if married or a widow or widower with a child or children under sixteen years, $6 additional to the provision under (2) above, for each child until sixteen years of age, the total monthly payments not to exceed $50.

(c) For temporary total disability, the above payments apply during disability, increased 50 per cent. for first six months, but in no case to exceed 60 per cent. of monthly wages.

(d) For partial temporary disability, a proportionate amount, corresponding to loss of earning power for not exceeding two years.

(e) For certain specified injuries (mutilations, etc.) monthly payment of $25 per month payable for fixed periods, less any time for which compensation was paid for total disability.

A lump sum at the option of the injured person is provided in some cases. Partial lump sum payments to any beneficiary may be substituted at the discretion of the commission.

REVISION OF BENEFITS—The rate of compensation may be readjusted either upon the application of the beneficiary or by the State Industrial Accident Commission upon its own initiative.

INSURANCE—Insurance is effected through the State Industrial Accident Fund, under supervision of the State Industrial Accident Commission.

SECURITY OF PAYMENTS—Insurance under State control.

SETTLEMENT OF DISPUTES—Any decision of the commission is subject to review by the Circuit Court, and appeals lie from the Circuit Court as in other civil cases.

PENNSYLVANIA.

DATE OF ENACTMENT—June 2, 1915; in effect January 1, 1916.

INJURIES COMPENSATED—Personal injury by accident in the course of employment, causing disability for more than fourteen days or death within 300 weeks, not intentionally self-inflicted or due to the intentional act of a third person for reasons not connected with the employment.

INDUSTRIES COVERED—All, unless employer makes election to the contrary. A supplemental act (No 359, acts of 1917) requires all contracts with the State or any municipality to contain a provision that the contractor shall accept the provisions of the Compensation Law. (Agricultural and domestic employees are excluded by a separate act.)

PERSONS COMPENSATED—Private employment: All persons rendering service to another for a valuable consideration, casual employees and those working on material given out to be made up, repaired, etc., on premises not under the control of the employer excepted. Public employment: All employees.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH.

(a) $100 funeral expenses.

(b) 40 per cent. of weekly wages to widow or dependent widower, 5 per cent. additional for each child, total not to exceed 60 per cent.; if no parent, 25 per cent. if one or two children, 10 per cent. additional for each child in excess of two, total not to exceed 60 per cent.; if no consort or child under sixteen, but dependent parent, brothers, or sisters, 15 to 25 per cent. of wages.

(c) Payments cease on death, remarriage of widow or widower, cessation of dependence of widower, or child, brother, or sister attaining the age of sixteen, not to continue beyond 300 weeks, unless for children under sixteen, when 15 per cent. will be paid for one and 10 per cent. additional for each additional child, total not to exceed 50 per cent. Basic wages are not less than $10 nor more than $20 weekly.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical, surgical, and hospital expenses for first fourteen days after disability begins, cost not to exceed $25, unless major surgical operation is necessary, when $75 is the maximum.

(b) For total disability, 50 per cent. of weekly wages for 500 weeks, $5 minimum, $10 maximum, total not to exceed $4,000; if wages less than $5, full wages will be paid.

(c) For partial disability, 50 per cent. of weekly wage loss, $10 maximum, for not over 300 weeks; fixed periods for specified injuries, $5 minimum, $10 maximum, full wages if less than $5.

Payments may be commuted to lump sum.

REVISION OF BENEFITS—Agreements and awards may be reviewed by the board at any time for proper cause.

INSURANCE—Employers must insure in the State fund, a stock or mutual company, or give proof of financial ability.

SECURITY OF PAYMENTS—Agreements or claims may be filed with a prothonotary, who enters them as a judgment, and if approved by the board they become a lien on the property of the employer. A separate act provides for direct payments from insurance companies to the beneficiaries, in case of the employer's failure to make payment of benefits.

SETTLEMENT OF DISPUTES—Disputes are settled by a workmen's compensation board, with appeal to courts.

PORTO RICO.

DATE OF ENACTMENT—April 13, 1916; in effect July 1, 1916; amended, act No. 9, acts of 1917.

INJURIES COMPENSATED—All personal injuries by accident arising out of and during the course of employment causing death or disability, excepting injuries due to wilful intent to commit crime, intoxication or gross negligence, or wilful criminal act of a third person.

INDUSTRIES COVERED—All industries employing five or more persons except domestic service and agricultural work without mechanically driven machinery, and common carriers by railroad.

PERSONS COMPENSATED—Private employment: all employees of employers not rejecting the provisions of the act, clerical employees in offices and commercial establishments where machinery is not used excepted; also excepting employees whose earnings exceed $1,200 per year. Public employment: Not mentioned.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) Burial expenses not exceeding $40.

(b) Any balance of the sums the deceased workman would have received if the injuries had not proved fatal.

Benefits may be apportioned among the dependent legal heirs by the Workman's Relief Commission.

COMPENSATION FOR DISABILITY:

(a) Necessary medical attendance and such medicines and necessary food as the Workman's Relief Commission may prescribe; but food supplies granted shall be deducted from the compensation awarded.

(b) For temporary disability, an amount equal to three-fourths of the weekly wages, not less than $3 nor more than $7, for not more than 104 weeks.

(c) For permanent total disability, the sum of $1,500 and an amount equal to three-fourths of the weekly wages, not less than $3 nor more than $7, for a maximum of 208 weeks.

(d) For permanent partial disability payment is to be made in proportionate amounts under the provisions of (c), following payments under (b) for any period of temporary total disability.

The time and manner of payments are to be determined by the Workman's Relief Commission.

REVISION OF BENEFITS—Awards may be modified at any time during the period for which they were originally made.

INSURANCE—All payments are made from the Workman's Relief Trust Fund established by the act, to which all employers covered by the act contribute.

SECURITY OF PAYMENTS—Fund is administered by the Treasurer of the Island, rights not assignable nor subject to attachment.

SETTLEMENT OF DISPUTES—Disputes are settled by the Workman's Relief Commission, with limited appeals to the courts.

RHODE ISLAND.

DATE OF ENACTMENT—April 29, 1912; in effect October 1, 1912; amended, chapters 937, 1913; 1268, 1915; 1534, 1917.

INJURIES COMPENSATED—Personal injuries by accidents arising out of and in the course of employment causing incapacity for earning full

wages for a period of more than two weeks, or death, except where the injury resulted from the wilful intention of the injured person to injure himself or another, or from intoxication.

INDUSTRIES COVERED—All industries except domestic service and agriculture if the employer elects. Defences in suits for damages are not abrogated unless more than five persons are employed.

PERSONS COMPENSATED—Private employment: All employees in establishments covered by this act in absence of contrary election, casual employees and those earning above $1,800 a year excepted. Public employment: Employees of the State and such classes of employees of cities and towns electing to accept the act as are designated in the act of acceptance, but not including members of regularly organized fire and police departments.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) To persons wholly dependent, a weekly payment equal to one-half the average weekly earnings of the deceased employee, but not less than $4 nor more than $10 per week, for a period of 300 weeks.

(b) If only partial dependents survive, a sum proportionate to the amount which the annual contributions bore to the annual earnings of the deceased, for not exceeding 300 weeks.

(c) If no dependents, the expense of the last sickness and burial of the deceased employee, not exceeding $200. Payments to children cease on their reaching the age of eighteen years unless they are physically or mentally incapacitated.

COMPENSATION FOR DISABILITY:

(a) The necessary medical and surgical care and hospital services for the first two weeks after the injury.

(b) For total incapacity, a weekly payment equal to one-half the wages, but not less than $4 nor more than $10 per week, during such incapacity, but not for a longer period than 500 weeks.

(c) For partial incapacity, a weekly payment equal to one-half the loss of earning power, but not exceeding $10 per week, during such incapacity, and not for a longer period than 300 weeks.

(d) For certain specified injuries (mutilations, etc.), in addition to the above, one-half the wages, weekly payments to be not less than $4 nor more than $10 per week, for fixed periods.

Payments begin on the fifteenth day, but if the incapacity extends beyond four weeks they begin with the date of the injury.

Lump sum payments may be substituted by order of the Superior Court after compensation has been paid for six months for either death or injury.

REVISION OF BENEFITS—Amounts payable may be reviewed and modified by the Superior Court at any time within two years, if the time for payments has not expired.

INSURANCE—The employer must insure, give proof of financial ability to make direct payments, or furnish security or bond. If employees contribute to any approved scheme or insurance plan, proportionate added benefits must be provided.

SECURITY OF PAYMENTS—Insurers are directly liable to claimants; beneficiaries have a first lien on any sum due from insurers to the employer on any policy.

SETTLEMENT OF DISPUTES—Disputes are settled by the Superior Court on a petition in the nature of a petition in equity, filed by any party in interest. Appeals may be carried to the Supreme Court by any aggrieved person.

SOUTH DAKOTA.

The new Compensation Law went in on July 1, 1917. An elective compensation law is provided for all public and private employments. Domestic, farm and casual laborers, or those not in the usual course of the employer's business, are excepted, as well as employees in interstate and foreign commerce if provided for under the laws of the United States.* The act is administered by the South Dakota Industrial Commissioner, which office shall for the present be filled by the Commissioner of Immigration. The Industrial Commissioner is also instructed to maintain a free employment exchange. Disputes are to be settled by an arbitration committee composed of the Industrial Commissioner and one representative of each side. From its decision there is no appeal on questions of fact. Insurance in a mutual, stock or reciprocal company is required, unless an employer can satisfy the Insurance Department of his financial ability to pay compensation, in which case security may be required. The act gives compensation for "personal injury or death by accident arising out of and in the course of employment," but not for diseases not resulting from the injury or for injuries due to wilful misconduct, including intentionally self-inflicted injuries, intoxication, and wilful failure to use a safety appliance or perform a duty required by statute. There is a waiting period of fourteen days unless the disability extends beyond eight weeks, in which case compensation is paid from the date of injury. Medical care must be provided up to $100 for four weeks. Total disability compensation is 50 per cent. of earnings up to a maximum of $3,000, or four times average annual earnings. In death cases compensation is practically the same, but if there are no dependents it is limited to $150 for burial expenses. Formation of mutual workmen's compensation insurance companies is provided for. The reserves to be maintained by companies writing workmen's compensation insurance are prescribed. The provisions to be contained in workmen's compensation insurance policies, such as that policies shall cover the employer's entire liability and that the insurance company shall be directly liable to the injured party, are stipulated.

TEXAS.

DATE OF ENACTMENT—April 16, 1913; in effect September 1, 1913; amended, chapter 103, acts of 1917.

INJURIES COMPENSATED—Personal injury sustained in the course of employment causing incapacity to earn full wages for at least one week, or death, not due to the act of God, unless the employment is especially exposing, nor to the intentional act of a third person committed for personal reasons not connected with the employment, nor to the injured man's wilful intent to injure himself or another, nor received while intoxicated.

INDUSTRIES COVERED—All except domestic and farm labor, railways operated as common carriers, and vessels in interstate or foreign commerce, in which three or more persons are employed, if the employer elects; also establishments in which not more than five persons are employed. Applies to other industries if the employer subscribes to the State insurance fund.

PERSONS COMPENSATED—Private employment: All employees in industries included, except those not in the usual course of the employer's trade or business. Public employment: No provision.

BURDEN OF PAYMENT—The entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) To the legal beneficiary of the deceased employee, a weekly payment equal to 60 per cent. of his wages, not less than $5 nor more than $15 for a period of 360 weeks, distributed according to law governing property distribution.

* The New York case of Southern Pacific Company vs. Jensen, 244 U. S. 205 (1917), in which the United States Supreme Court on May 21, 1917, decided that State workmen's compensation acts do not apply to employees in longshore work or in interstate or foreign commerce, was pending when this law was enacted.

(b) If no beneficiaries or creditors are left, the expenses of the last sickness and in addition a funeral benefit not to exceed $100.

COMPENSATION FOR DISABILITY:

(a) Medical and hospital care for the first two weeks and hospital care for two weeks additional if necessary.

(b) For total incapacity, a compensation equal to 60 per cent. of the average weekly wages of the injured person, but not less than $5 nor more than $15 per week during such disability, but not exceeding a period of 401 weeks.

(c) For partial incapacity, a compensation equal to 60 per cent. of the loss of earning power during such disability, in no case to exceed $15 per week, but not exceeding 300 weeks, or for both partial and total disability, 401 weeks.

(d) For certain specified injuries (mutilations, etc.) an additional compensation equal to 60 per cent. of the average weekly wages of the injured person for fixed periods, not less than $5 nor more than $15 per week, in lieu of all other compensation.

A lump sum payment may be substituted for weekly payments in cases of death or total permanent disability, subject to the approval of the Industrial Accident Board.

REVISION OF BENEFITS—The Industrial Accident Board may review an award at any time, either on its own motion or on application of an interested party.

INSURANCE—Employers come under the law only by taking insurance, which may be effected through the Texas Employers' Insurance Association, or in any company admitted to do business in the State.

SECURITY OF PAYMENTS—Compensation is payable directly by the Insurance Association. All benefits are unassignable, and are exempt from garnishment, attachment, etc.

SETTLEMENT OF DISPUTES—Disputes are referable to the Industrial Accident Board, whose decisions are subject to appeal to any court of competent jurisdiction.

UTAH.

Part of the new act took effect March 15, 1917, creating an Industrial Commission, the rest on July 1, 1917. The act applies to public employers and private employers of four or more, others being permitted to come under the act by agreement. Employees hired outside the State are entitled to compensation if entitled to compensation in the State where hired. Aliens are included, but agricultural, domestic and casual laborers, officials who are elected or whose salary exceeds $2,400, and employees in interstate and foreign commerce are excluded. An Industrial Commission of three members, appointed by the Governor at $4,000 and expenses, is created. The commission is not only to administer the compensation act and State insurance fund, but to administer factory and mine legislation, promote arbitration and conciliation, establish free and supervise private employment agencies, publish statistical reports, and provide for the welfare and safety of employees. With the exception of municipal bodies, employers must insure or be liable to respond in damages for injuries resulting in incapacity. For injuries resulting in death the dependents may elect to sue, in which case they must prove negligence on the employer's part or accept compensation. The State must insure in the State fund; other public bodies may choose between State and self-insurance. In the latter case acceptable security, indemnity or bond may be required. Private employers may insure in either of the former ways or with a stock or mutual insurance company. Compensation is given for personal injuries by accident arising out of and in the course of employment, including injuries occurring outside the State and injuries caused by the wilful act of a third person directed against an employee because of his employment. Diseases not resulting from the injury, and injuries purposely self-inflicted, are excluded. Waiting period is ten days. Medical care up to $200 must be provided; but employers and workmen may enter into contracts to provide medical services, provided no profit shall be made from assessments collected from employees. For total disability compensation for five years is 55 per cent. of average weekly wages, and 40 per cent. thereafter. In fatal cases $150 is provided for burial, and, if there are no dependents, employers not insured in the State fund must pay $750 into the fund. Dependents are paid 55 per cent. of wages for a maximum period of six years from date of injury.

VERMONT.

DATE OF ENACTMENT—April 1, 1915; in effect July 1, 1915; amended, Acts Nos. 171, 173, 174, 175, acts of 1917.

INJURIES COMPENSATED—Personal injury causing disability for more than seven days (fourteen days until July 1, 1918), or death within two years, arising out of and in course of employment, not due to the employee's wilful intention to injure himself or another, his intoxication, or failure to use a safety appliance.

INDUSTRIES COVERED—All industrial establishments in which more than ten persons are employed, and commerce as far as permissible under Federal laws, domestic and casual labor excepted, unless election to the contrary is made. Public service under municipalities which elect compensation system.

PERSONS COMPENSATED—Private employment: All under contract with or in service of an employer, domestic and casual employees and those receiving more than $2,000 excepted. Public employees: All except those elected by popular vote or receiving in excess of $2,000 annually.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) $100 for funeral expenses if death occurs within two years.

(b) 33 1-3 per cent. of weekly wages to dependent widow or widower, 40 per cent. if there be one or two children, and 45 per cent. if more than two; if no parent; 25 per cent. to one or two children, 10 per cent. additional for each child in excess of two, total not to exceed 40 per cent.; if no consort or child under eighteen, and dependent parent, grandparent, or grandchild, 15 to 25 per cent. of wages.

(c) Payments to widow cease on death or remarriage; to widower on remarriage or cessation of dependency; to children on reaching age of eighteen unless incapable of self-support, in no case to exceed 260 weeks or $3,500 in amount; payments to other classes of beneficiaries end in 208 weeks at most. Basic wages are not less than $5 weekly.

COMPENSATION FOR DISABILITY:

(a) Medical and hospital services for first fourteen days, not to exceed $100.

(b) For total disability 50 per cent. of weekly wages for not more than 260 weeks, $3 minimum, $12.50 maximum, total not to exceed $4,000. If wages are less than $3, full wages will be paid.

(c) For partial disability, 50 per cent. of wage decrease, maximum $10, for not more than 260 weeks.

(d) For certain specified injuries, 50 per cent. of weekly wages, but not more than $10, for designated periods ranging from four to 170 weeks, following the period of total disability.

Payments may be commuted to one or more lump sums in any case.

REVISION OF BENEFITS—Awards may be reviewed on application at any time, but not oftener than once in six months.

INSURANCE—Required unless deposit of security is made, or satisfactory proof of financial responsibility.

SECURITY OF PAYMENTS—Employees may have direct recourse to insuring company; insolvency of employer does not release insurer; compensation rights are preferred claims.

SETTLEMENT OF DISPUTES—Disputes are determined by a Commissioner of Industries, with appeal to courts.

WASHINGTON.

DATE OF ENACTMENT—March 14, 1911; in effect October 1, 1911; amended, chapters 138, 1913; 188, 1915; 28, 120, 1917.

INJURIES COMPENSATED—Injuries causing disability for more than eight days, or death, whether received upon the premises or at the plant or in the course of employment while away from the establishment, except injuries brought about intentionally.

INDUSTRIES COVERED—All extra-hazardous employment, including mills, factories and workshops where machinery is used; blast furnaces, mines, quarries and wharves; engineering work; logging, lumbering and shipbuilding; building trades; telegraph, telephone, electric light or power plants or lines; steamboats, tugs and ferries; State, county and municipal undertakings involving extra hazardous work in which persons are employed for wages. Railroads doing interstate business are excluded.

PERSONS COMPENSATED—Private employment: All employees in industries covered by the act; any working employer or salaried employee on the payroll at a rate not greater than the average named in such payroll. Public employment: All employees in industries covered by the act.

BURDEN OF PAYMENT—The entire burden rests upon the employer, except as to the medical fund, to which the employer contributes one-half; or an approved relief fund may be maintained at the joint charge of employers and employees.

COMPENSATION FOR DEATH:

(a) Expenses of burial not exceeding $75.

(b) To widow or invalid widower, a monthly payment of $20; to each child under sixteen, $5 per month, the total not to exceed $35.

(c) If no parent survives, a monthly payment of $10 to each child under sixteen years of age, the total not to exceed $35.

(d) To other dependents, if none of the above survive, a monthly payment to each equal to 50 per cent. of the average amount previously contributed to the dependent, the total not to exceed $20.

(e) To the parent or parents of an unmarried minor a monthly payment of $20 until the time he would have been twenty-one. In case of dependence, payments to parents of minors are governed by (d). Payments to a widow or widower continue until death or remarriage, and to a child until reaching the age of sixteen years. If a widow remarries she receives a lump sum of $240.

COMPENSATION FOR DISABILITY:

(a) Proper and necessary medical and surgical services and hospital care during the period of disability, if temporary; if permanent, until awards are made on the basis of the nature of the disability.

(b) For permanent total disability, payments as follows: (1) If unmarried at time of the accident, $20 per month; (2) if with a wife or invalid husband, but no child under sixteen years of age, $25 a month; if the husband is not an invalid, $15 per month; (3) if married, or a widow or widower with a child or children under sixteen years, $5 a month additional for each child, the total not to exceed $35; if so helpless as to require a constant attendant, $20 per month in addition to other benefits.

(c) For total temporary disability, payments as for permanent total disability during disability, increased by 50 per cent. for first six months, but in no case to exceed 60 per cent. of monthly wages.

(d) For temporary partial disability, the payment as for total disability continues in proportion to the loss of earning power, provided this shall exceed 5 per cent.

(e) For specified permanent partial disabilities, lump sums ranging from $500 to $2,000; others to be compensated proportionately; if the injured person is a minor the parents receive an additional sum equal to 10 per cent. of the award to the injured person. Monthly payments may be converted into a lump sum payment not over $4,000, in case of death or permanent total disability.

No benefits are to be paid for the first eight days unless the disability continues for more than thirty days.

REVISION OF BENEFITS—Revision may be had upon application of the beneficiary or upon the motion of the department.

INSURANCE—Insurance is required in a State accident fund.

SECURITY OF PAYMENTS—Accident fund under State control.

SETTLEMENT OF DISPUTES—By Industrial Insurance Department, whose decisions are subject to review by the Superior Court, from which appeal lies as in other civil cases.

WEST VIRGINIA.

INJURIES COMPENSATED—All personal injuries not the result of wilful misconduct or intoxication of the injured employee, or self-inflicted, causing incapacity for more than one week or death.

INDUSTRIES COVERED—All except domestic or agricultural labor, if the employer becomes a member of the State insurance fund.

PERSONS COMPENSATED—Private employment: All employees in industries covered, including aliens, except persons casually employed, and the officers of corporations. Public employment: No provision.

BURDEN OF PAYMENT—Employer, 90 per cent.; employees, 10 per cent.

COMPENSATION FOR DEATH:

(a) Reasonable funeral expenses not to exceed $75.

(b) To the widow or invalid widower, $20 per month and $5 per month additional for each child under the age of legal employment, the total not to exceed $35 per month.

(c) To orphan child or children, $10 each per month until the age of fifteen, total not to exceed $30 per month.

(d) To other persons wholly dependent, if no widow, invalid widower, or child under the age of legal employment is left, 50 per cent. of the average monthly support received from the deceased during the preceding year, not exceeding $20 per month, for six years.

(e) If the deceased was a single minor, to a dependent parent, 50 per cent. of the earnings, not to exceed $6 per week, until the time when he would have become twenty-one.

(f) If only partial dependents survive, a compensation computed as in (d), with the same maximum.

Payments to a widow or widower cease on remarriage, and to children on reaching the age of fifteen years. If widow or invalid widower remarry within two years of death of employee, to be paid 20 per cent. of balance of ten years' benefits.

COMPENSATION FOR DISABILITY:

(a) Medical, nurse, and hospital services, not exceeding $150 ($300 in special cases).

(b) For temporary partial disability, during such disability, 50 per cent. of loss of his earning capacity, not more than $10 per week nor exceeding twenty-six weeks, except that for certain ununited fractures, etc., the period may be fifty-two weeks.

(c) For permanent partial disability, 50 per cent. of wages for periods varying with degree of disability (from 10 to 70 per cent.), periods ranging from thirty to 210 weeks; from 70 to 85 per cent. disability, 40 per cent. of wages for life.

(d) For permanent total disability (85 per cent. or above), 50 per cent. of the average weekly wages, during life.

Lump-sum payments may be substituted for periodic payments in case of either injury or death. Payments under (c) and (d), $4 minimum, $8 maximum.

REVISION OF BENEFITS—Awards may be modified at any time.

INSURANCE—Insurance is effected through a State fund under the control of the compensation commissioner, or employers of approved ability may carry own risks, giving bond for performance of requirements not less than those of the law, without contributions from their employees.

SECURITY OF PAYMENTS—Payments may be made only to beneficiaries, and are exempt from claims of creditors or attachment or execution.

SETTLEMENT OF DISPUTES—Disputes are settled by the commissioner; limited appeal to the Supreme Court.

WISCONSIN.

DATE OF ENACTMENT—May 3, 1911; in effect same date; amended, chapters 599, 707, 772, 1913; 121, 241, 316, 369, 378, 462, 1915; 624, 637, 1917.

INJURIES COMPENSATED—Personal injury by accident causing disability of at least one week, or death, while performing service growing out of and incidental to the employment, not intentionally self-inflicted.

INDUSTRIES COVERED—All, if the employer elects; election presumed where there are three or more employees, except as to agriculture and railroads. Compulsory as to State and its municipalities.

PERSONS COMPENSATED—Private employment: All employees except those not employed in the usual trade, business or occupation of the employer, including aliens, in the absence of contrary election. Public employment: All employees of the State or its political subdivisions, officials excepted.

BURDEN OF PAYMENT—Entire cost rests upon the employer.

COMPENSATION FOR DEATH:

(a) The reasonable expense of burial, not exceeding $100.

(b) To persons wholly dependent, a sum equal to four years' earnings, but which when added to any prior compensation for permanent total disability shall not exceed six years' earnings.

(c) If only partial dependents survive, a sum not to exceed four times the amount provided for their support during the preceding year.

All payments are to be made in weekly instalments equal to 65 per cent. of the average weekly earnings. Dependence of children ceases at eighteen, unless physically or mentally incapacitated.

COMPENSATION FOR DISABILITY:

(a) Medical, surgical, and hospital treatment for ninety days, and for such additional time as will, in the judgment of the Industrial Commission, lessen the period of compensation. Artificial members are also to be supplied.

(b) For total disability, 65 per cent. of average weekly earnings during such disability.

(c) For partial disability, 65 per cent. of loss of earning power.

(d) For certain specific injuries (mutilations, etc.), a sum equal to 65 per cent. of average weekly earnings for fixed periods, ranging from six to 320 weeks, which include the time for healing.

(e) For serious permanent disfigurement, a lump sum may be allowed, not exceeding $750. Payments begin with the eighth day, but if disability continues for more than twenty-eight days, benefits are payable for the first seven days. In case of temporary or partial disability the aggregate compensation for a single injury shall not exceed four years' earnings; for permanent total disabilities payments are limited to periods of from nine to fifteen years, according to the age of the injured person. Lump sum payments may be substituted at any time after six months from the date of injury.

REVISION OF BENEFITS—The commission may modify or change its order or award within ten days if a mistake is discovered; or a review by the court may be had on appeal within twenty days. The commission may call for a medical examination at any time it deems necessary.

INSURANCE—Insurance in approved companies is permitted, but the liability of the employer may not be reduced.

SECURITY OF PAYMENTS—The employer must give proof of financial ability or insure risks. Claims for compensation are given the same preference as claims for labor, and are non-assignable and exempt from attachment or execution. The Industrial Commission may require deposits, the purchase of annuities, or the giving of bonds to guarantee the payment of awards which extend over a period of six months or more.

SETTLEMENT OF DISPUTES—Disputes are settled by the Industrial Commission, subject to a limited review by the courts.

WYOMING.

DATE OF ENACTMENT—February 27, 1915; in effect April 1, 1915; amended, chapter 69, acts of 1917.

INJURIES COMPENSATED—Personal injury causing disability for more than ten days or death, as a result of employment and not due to the culpable negligence of the injured employee or to the wilful act of a third person due to reasons personal to such employee or because of his employment.

INDUSTRIES COVERED — Extra hazardous (enumerated list), in which three or more workmen are employed, interstate railroads excepted; public employments and use of explosives and work ten or more feet above ground included, without reference to number of employees.

PERSONS COMPENSATED—Private employment: All employees in industries covered. Public employment: All employees in classes of employments designated.

BURDEN OF PAYMENT—All on employer.

COMPENSATION FOR DEATH:

(a) $50 for funeral expenses, unless other arrangements exist under agreement.

(b) Lump sum payments of $1,200 to widow or invalid widower, and additional sum equal to $60 per year, until the age of sixteen is reached for each child under the age of sixteen, the total for children not to exceed one and one-half times the payments to the surviving spouse. If there are dependent parents and no spouse and no child under sixteen, a sum equal to 50 per cent. of one year's contribution, not exceeding $500.

Payments to non-resident alien beneficiaries are limited to 33⅓ per cent. of the above amounts, and only the widow and children under sixteen years of age are considered.

COMPENSATION FOR DISABILITY:

(a) For total permanent disability, lump sum of $1,400 if single, $1,600 if wife or invalid husband, and a sum equal to $60 per year for each child under sixteen until age of sixteen is reached, the total for children not to exceed one and one-half times the sum allowed the injured workman. If disability is temporary, $18 per month if single, $24 if married, and $5 monthly for each child under sixteen, the total monthly payment not to exceed $35 and the aggregate not to exceed the amount payable if the disability were permanent.

(b) For permanent partial disability, fixed lump sums for specified injuries, others in proportion.

No payments are made for the first ten days unless disability continues for more than thirty days, when they date from the injury.

No provision is made for medical or surgical aid; all payments are lump sums, except for total temporary disability.

REVISION OF BENEFITS—No provision.

INSURANCE—Insurance in State fund required.

SECURITY OF PAYMENTS—Insurance under State control; payments not assignable or subject to execution, attachment, etc.

SETTLEMENT OF DISPUTES—Disputes are settled by the district courts of the counties, with appeal to the Supreme Court of the State.

UNITED STATES.

DATE OF ENACTMENT—Sept. 7, 1916; in effect same date.

INJURIES COMPENSATED—Personal injuries sustained while in the performance of duty, not due to intoxication, wilful misconduct or intention to bring about injury, causing death or disability for more than three days.

INDUSTRIES COVERED—All civilian employments of the United States Government, and the Panama Railroad.

PERSONS COMPENSATED—All civil employees of the United States, and of the Panama Railroad Company.

BURDEN OF PAYMENT—All on the employer.

COMPENSATION FOR DEATH:

(a) $100 burial expenses, and transportation of body of residents of the United States dying away from home, if relatives desire it.

(b) To widow or dependent widower alone, 35 per cent. of the monthly wages of deceased, with 10 per cent. additional for each child, the total not to exceed 66 2-3 per cent.

(c) If no parent survives, 25 per cent. to one child, and 10 per cent. additional for each additional child, the total not to exceed 66 2-3 per cent.

(d) To dependent parents of deceased, 25 per cent. if one, 40 per cent. if both are dependent; if there is a widow, widower or child the parents' rights are subordinate, and the total awards may not exceed 66 2-3 per cent.

(e) Other dependent relatives receive benefits in smaller amounts subject to the claims of the foregoing relatives.

Payments to a widow or dependent widower terminate on their death or remarriage; to a child on marriage, reaching the age of 18, or if over 18 and incapable of self-support, on becoming capable of self-support; payments to other beneficiaries are subject to the above limitations, but may in no case continue beyond 8 years.

All payments are subject to a maximum of $66.67 per month and to a minimum of $33.33, unless the actual earnings are less than that amount, when the compensation shall equal the earnings.

COMPENSATION FOR DISABILITY:

(a) Reasonable medical, surgical and hospital services and supplies.

(b) For total disability, 66 2-3 per cent. of the monthly pay during the continuance of such disability.

(c) For partial disability, 66 2-3 per cent. of the difference in wage-earning capacity due to such disability.

Payments are subject to the same maximum and minimum amounts as in case of death.

Payments on account of death or permanent disability may be commuted to a lump sum.

REVISION OF BENEFITS—Awards may be reviewed at any time, either on request or by the commission on its own motion.

INSURANCE—No provision.

SECURITY OF PAYMENTS—Compensation is paid from special compensation fund.

SETTLEMENT OF DISPUTES—The United States Employees' Compensation Commission decides all questions arising under the act.

HEALTH INSURANCE AND SOCIAL INSURANCE.

(Compiled by the American Association for Labor Legislation, John B. Andrews, Secretary.)

CALIFORNIA—As successor to the commission established in 1915, an unpaid commission of seven members, appointed by the Governor, is created to investigate social insurance, to report to the next Legislature details of the system it advises, and to recommend "any measure for adoption." An appropriation of $22,500 is made. (C. 312. In effect July 13, 1917.) An amendment to the constitution is adopted for submission to the people authorizing the Legislature to provide for a system of health insurance, either voluntary or compulsory. (Res. C. 57.)

CONNECTICUT—The Governor is directed to appoint a commission of five to serve without pay and to investigate old age pensions, health insurance, free employment bureaus, hours of labor, minimum wage, and a number of other matters affecting business and farming. (C. 163. In effect April 19, 1917.)

ILLINOIS—The Governor is to appoint a health insurance commission to investigate sickness and accidents not compensated by workmen's compensation; $20,000 is appropriated. (P. 488. In effect July 1, 1917.)

MASSACHUSETTS—A special commission on social insurance is provided for as a successor to the former commission, to study health insurance. It is composed of three members of the Senate, six members of the House, and two other members appointed by the Governor. The State Department of Health, the Bureau of Statistics and the Insurance Department are directed to cooperate. (Res. C. 130. In effect June 24, 1917.)

NEW HAMPSHIRE—For appointment of a House committee to study health insurance see "Workmen's Compensation."

OHIO—The Governor is directed to appoint an unsalaried commission of seven members to study health insurance and sickness prevention and also old age insurance. The commission may employ a secretary and investigators and other necessary employees. Not to exceed $25,000 is appropriated. (H. B. 461. In effect June 29, 1917.)

PENNSYLVANIA—A Health Insurance Commission is created to investigate sickness of employees and their families and the methods of treating such sickness. It consists of three Senators appointed by the President Pro Tempore of the Senate, three Representatives appointed by the Speaker, and three persons appointed by the Governor. The sum of $5,000 is appropriated. (No. 4. In effect July 25, 1917.) The Governor is authorized to appoint a commission of seven to investigate old age pensions and report to the Legislature not later than March 15, 1919. The commission shall consist of two members of the bar "who have studied social problems," two employers, two members of labor organizations, and one woman experienced in the study of social problems. An appropriation of $5,000 is made. (No. 413. In effect July 5, 1917.)

WISCONSIN—An unsalaried commission of three Assemblymen and two Senators is appointed to investigate the subject of social insurance, "including insurance against occupational disease and sickness," and to prepare such bills as it deems proper. The commission must send a copy of its report to every member of the Legislature thirty days before the next regular session. (J. R. 24.) An appropriation of $5,000 is made. (C. 604. In effect July 12, 1917.)

THE BANKRUPTCY LAW.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898, AS AMENDED BY SUBSEQUENT ACTS.

SEC. 4. WHO MAY BECOME BANKRUPTS.—(a) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt.

(b) Any natural person, except a wage-earner, or a person engaged chiefly in farming or the tillage of the soil, any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing, mining, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act. Private bankers, but no national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts.

The bankruptcy of a corporation shall not release its officers, directors, or stockholders, as such, from any liability under the laws of a State or Territory or of the United States.

SEC. 7. DUTIES OF BANKRUPTS.—(a) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a Judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceeding.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a Judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Act of March 3, 1911 (Judicial Code) 36 Stat. 1134, as follows:

SEC. 24. Original jurisdiction in district courts.

"SEC. 130. The Circuit Courts of Appeals shall have the appellate and supervisory jurisdiction conferred upon them by the act entitled 'An act to establish a uniform system of bankruptcy throughout the United States,' approved July first, eighteen hundred and ninety-eight, and all laws amendatory thereof, and shall exercise the same in the manner therein prescribed."

SEC. 252 states the appellate jurisdiction of the Supreme Court conferred upon it by the Bankrupt Act of July 1, 1898.

SEC. 4, Act of January 28, 1915, as follows:

"That the judgments and decrees of the Circuit Courts of Appeals in all proceedings and cases arising under the Bankruptcy Act and in all controversies arising in such proceedings and cases shall be final, saving only that it shall be competent for the Supreme Court to require by *certiorari*, upon the petition of any party thereto, that the proceeding, case, or controversy be certified to it for review and determination with the same power and authority as if taken to that court by appeal or writ of error; but *certiorari* shall not be allowed in any such proceeding, case, or controversy unless the petition therefor is presented to the Supreme Court within three months from the date of such judgment or decree."

By act of Congress, approved March 2, 1917, section 17 of the Bankruptcy Law of 1898 was amended by adding to debts not affected by a discharge those "for breach of promise of marriage accompanied by seduction."

BILL OF RIGHTS FOR PORTO RICO.

PRESIDENT WILSON approved, on March 2, 1917, the law providing for a Civil Government for Porto Rico. The act contains a Bill of Rights, embodying the American Constitutional guarantees of free speech, *habeas corpus*, trial by jury, due process of law, etc. Other clauses in the act, as to religious freedom and the liquor traffic, read as follows:

"That no law shall be made respecting an establishment of religion or prohibiting the free exercise thereof, and that the free exercise and enjoyment of religious profession and worship without discrimination or preference shall forever be allowed, and that no political or religious test other than an oath to support the Constitution of the United States and the laws of Porto Rico shall be required as a qualification to any office or public trust under the government of Porto Rico.

"That no public money or property shall ever be appropriated, applied, donated, used, directly or indirectly, for the use, benefit, or support of any sect, church, denomination, sectarian institution or association, or system of religion, or for the use, benefit, or support of any priest, preacher, minister, or other religious teacher or dignitary as such, or for charitable, industrial, educational, or benevolent purposes; any person, corporation, or community not under the absolute control of Porto Rico. Contracting of polygamous or plural marriages hereafter is prohibited.

"That one year after the approval of this Act and thereafter it shall be unlawful to import, manufacture, sell, or give away, or to expose for sale or gift any intoxicating drink or drug: *Provided*, That the legislature may authorize and regulate importation, manufacture, and sale of said liquors and drugs for medicinal, sacramental, industrial, and scientific uses only. The penalty for violations of this provision with reference to intoxicants shall be a fine of not less than $25 for the first offense, and for second and subsequent offenses a fine of not less than $50 and imprisonment for not less than one month or more than one year: *And provided further*, That at any general election within five years after the approval of this Act this provision may, upon petition of not less than ten per centum of the qualified electors of Porto Rico, be submitted to a vote of the qualified electors of Porto Rico, and if a majority of all the qualified electors of Porto Rico voting upon such question shall vote to repeal this provision, it shall thereafter not be in force and effect, otherwise it shall be in full force and effect."

All Porto Ricans become American citizens unless they swear off allegiance within six months. The property which may have been acquired in Porto Rico by the United States under the cession of Spain in the treaty of peace entered into on the tenth day of December, 1898, in any bridges, road houses, water powers, highways, unnavigable streams, subterranean waters, mines or minerals under the surface of private lands, all property which at the time of the cession belonged to the various harbor works boards of Porto Rico, all the harbor shores, docks, slips, reclaimed lands, and all public lands and buildings not heretofore reserved by the United States for public purposes, is placed under the control of the government of Porto Rico. Supreme executive power is vested in a Governor appointed by the President of the United States. The Porto Rico Senate consists of nineteen members, elected for four years each, and the House has thirty-nine members. The first election under the act was held July 16, 1917.

REVIEW OF AMERICAN LEGISLATION OF 1917.

(A summary of the report of the Committee on Noteworthy Changes in Statute Law, presented at the meeting of the American Bar Association, Saratoga Springs, N. Y., September 4, 5, 6, 1917. The committee was composed of Thomas I. Parkinson, William H. Loyd, Donald R. Richberg, Joseph N. Teal and John J. Sullivan. The figures in parentheses are the numbers by which the statutes are known.)

I. FEDERAL LEGISLATION.

1. General Legislation.

Commerce—The Sixty-fifth Congress (38) increases the membership of the Interstate Commerce Commission from seven to nine, authorizes it to divide itself into divisions and to assign any matter within its jurisdiction to any division for consideration and final action with the same powers as those possessed by the commission itself, and provides that until January 1, 1920, no increased rate shall be filed except after approval by the commission, with or without hearing.

The same Congress (19) confers upon the commission broad powers for the regulation of car service, authorizing it, whenever in its opinion necessity exists for immediate action, to summarily make such directions with regard to car service as will best promote the interests of the public and the commerce of the people.

The Priority Shipment Act, (39), authorizes the President during the continuance of the war, if he finds it necessary for the national defense and security, to direct that such traffic or shipments as in his judgment are essential to the national defense and security shall have preference or priority in transportation by any common carrier by railroad, water, or otherwise.

Taxation—The Sixty-fourth Congress (39 Stat. L 1,000) imposed on corporations an excess profits tax of 8 per cent. on the amount by which their net income exceeds 8 per cent. of their actual capital invested.

Insular Possessions—The Sixty-fourth Congress (39 Stat. L. 951) provided a civil government for Porto Rico and granted United States citizenship to all citizens of Porto Rico and to all natives of that island who were temporarily absent therefrom April 11, 1899, and have since returned and are not citizens of any foreign country. The District Court for Porto Rico has construed the act to the effect that Porto Rico is now a territory and an integral part of the United States.

The same Congress (39 Stat. L. 1,132) also provided a temporary government under an officer of the army or navy for the West Indian islands recently acquired from Denmark.

Civil Service—The Sixty-fourth Congress (39 Stat. L. 1,106) made it a misdemeanor on and after July 1, 1919, for any government official or employee to receive any salary in connection with his services as such official or employee from any source other than the Government or a State, County, or municipality, or for any person, association or corporation to make any contribution to or in any way supplement the salary of any Government official or employee for services performed by him for the Government.

Immigration—The Sixty-fourth Congress (39 Stat. L. 874) enacted a revision of the immigration laws. The most important new provision is that commonly known as the literacy test which excludes aliens over sixteen years of age who are physically capable of reading but cannot read some one language or dialect. Any alien heretofore or hereafter legally admitted or any citizen may bring in or send for his father or grandfather over fifty-five years of age, his wife, his mother, his grandmother or his unmarried or widowed daughter, if otherwise admissible, whether such relative can read or not.

2. War Legislation.

Declaration of War—The first action of the Sixty-fifth Congress (Pub. Res. No. 1, approved April 6, 1917) was the passage of a resolution reciting that "the Imperial German Government has committed repeated acts of war against the Government and the people of the United States," and formally declaring "the state of war between the United States and the Imperial German Government which has thus been thrust upon the United States."

Revenue—The Sixty-fifth Congress (3) authorized the $5,000,000,000 "Liberty Bond" issue and a $2,000,000,000 short term note issue. The bonds are exempt both as to principal and interest from all taxation, except estate or inheritance taxes. Except for the fixing of the rate of interest at not more than 3½ per cent. per annum, the determination of the terms and provisions of issue, conversion, redemption, maturity and payment are left to the Secretary of the Treasury. The Secretary is authorized to purchase at par from foreign governments engaged in war with enemies of the United States their obligations not exceeding $3,000,000,000 and bearing the same rate of interest and containing essentially the same terms and conditions as the "Liberty Bonds."

Ships and War Materials—The Sixty-fourth Congress (39 Stat. L. 1,193) authorized the President in time of war, or of a national emergency arising prior to March 1, 1918, to (1) place an order, compliance with which shall be obligatory, with any person for such ships or war materials as the necessities of the Government may require and which are of the kind and quantity usually produced by such person; (2) modify or cancel any existing contract for the building, construction or purchase of war material, and if the contractor fails to comply with the contract as so modified, then to take possession of all or any part of his factory or yards and use the same as may be necessary; (3) require the owner or occupier of any factory or yards in which ships or war material are built or produced to place at the disposal of the United States all or any part of the output; and (4) requisition and take over for use and occupation by the Government any factory or yard whether or not the United States has any agreement with the owner or occupier. The last provision is not confined to factories or yards for the production of war supplies or materials. Provision is made for just compensation, to be determined by the President in all cases in which the act is called into effect, and if the amount so determined is unsatisfactory to the person entitled to the same, he shall be paid 50 per cent. of such amount and be entitled to sue the United States for such further sum as added to such 50 per cent. will constitute just compensation.

The Sixty-fifth Congress (23) substantially repeated the provisions of the act just referred to, but with the added authority to requisition or take over the title or possession of any ship now constructed or in the process of construction or hereafter constructed or any part of or the charter of such ship.

The same Congress (2) also authorized the President to take over for the United States the possession and title of any vessel within its jurisdiction which at the time of coming therein was owned in whole or in part by any corporation, citizen or subject of any nation with which the United States is at war, or was under the register of such nation, and provided for a board of survey to ascertain the actual value of such vessels, the findings to be competent evidence as to any claim for compensation.

Military and Naval Affairs—The Sixty-fifth Congress has enacted several measures relating to the enlarged activities of the military and naval establishments necessarily brought about by the war. The most important is the act (12) authorizing the President to raise by selective draft two forces of 500,000 men each, together with such reserve forces as may be necessary. The draft is based upon liability to military service of all male citizens, or male persons not alien enemies who have declared their intention to become citizens, who on or before the day fixed for registration under the act had attained their twenty-first birthday and had not attained their thirty-first birthday. The appropriations include more than $3,000,000,000, largely for military and naval purposes (23), and of $640,000,000 for aviation purposes alone (29).

Food Control—The Sixty-fifth Congress (41) has given the President broad powers to control during the war the production, manufacture, distribution and movement, and to some extent to regulate even the use and possession of food, feeds and fuel, and of certain other commodities required for their production, and authorizes him to make such regulations and orders as may be necessary to effect the purposes of the act in preventing scarcity,

monopolization, hoarding, injurious speculation, manipulations and private controls, and in establishing and maintaining Governmental control during the war. As a conservation measure the act also prohibits the use of foods, fruits or feeds for the production of distilled spirits for beverage purposes (except for the fortification of sweet wines), and further authorizes the President to limit, regulate or prohibit, to any extent that may be necessary in order to secure an adequate supply of food, or that the national security may require, their use for the production of malt or vinous liquors.

Espionage—The Sixty-fifth Congress (24) in the so-called "Espionage Act" defines in great detail acts of espionage and imposes heavy penalties of fines ranging up to $10,000 and imprisonment for terms ranging up to twenty years for violation of its provisions relating to espionage, the injury of vessels engaged in foreign commerce, interference with foreign commerce, disturbance of foreign relations, violation of directions of the President as to vessels in ports of the United States, and, during a war in which the United States is a neutral nation, violations of the neutrality of the United States. Whenever during the present war the President finds that the public safety so requires and makes proclamation thereof, it shall be unlawful to export from the United States to any country named in such proclamation any articles named therein except under such regulations and subject to such limitations and exceptions as the President prescribes.

War Risk Insurance—The Sixty-fifth Congress (20) amended the act creating a Bureau of War Risk Insurance for the insurance of the cargoes and hulls of American ships by providing also for the insurance of the personal effects of the masters, officers and crews thereof, and for the insurance of such masters, officers and crews against loss of life or personal injury and for compensation during detention following capture by an enemy, and authorizing the Secretary of the Treasury whenever he finds that the effecting of such insurance is desirable in the national interest in the case of American vessels engaged in any trade, to require the owner of such a vessel to insure the master, officers and crew against loss of life and personal injury and for compensation during capture for a principal sum ranging from $1,500 to $5,000 each, percentages of which specified in the act are to be paid for various losses. The act also authorizes the bureau to reinsure vessels of foreign friendly flags or their cargo insured by any Government which is at war with an enemy of the United States and to reinsure with any such Government American vessels and their cargoes.

II. STATE LEGISLATION.

A. Administration of Justice

Organization and Administration of Courts—There are comparatively few important acts this year affecting the organization of the courts. A noticeable exception, however, is found in a California resolution (79) proposing a constitutional amendment to make practically the whole of the judiciary article of the Constitution, which now provides in detail for the organization of the courts throughout the State, general law subject to amendment or repeal by the legislature. The effect of the adoption of this amendment would be to give the legislature unlimited power to provide in its discretion for the efficient administration of the judicial business of the State. North Dakota (119) proposes an amendment to the State Constituiton to provide that the concurrence of four out of the five judges of the Supreme Court shall be necessary to declare a law of the State to be unconstitutional.

For the better protection of the judges against personal violence, West Virginia (16 and 98) provides that, in case any person assassinates, attempts to assassinate, or feloniously assaults any judge, the Governor shall offer a reward of not more than $10,000 for the arrest of such person, and may employ assistance for such purpose at an expense not exceeding $10,000, and that in such cases a county court may also offer a reward of not more than $5,000 and may expend not more than $5,000 for the same purpose.

The movement for the creation of so-called "poor man's courts" is spreading, as evidenced by an Oregon act (328) creating in the court of each justice of the peace a small claims department with jurisdiction over amounts not exceeding $20, and a Minnesota act (263) providing an additional judge for Minneapolis to act as a court of conciliation and small debtors' court. Another instance of a special court is contained in a Colorado fence law (92), which provides that any question as to whether a fence conforms to the legal requirements shall be determined by a board of arbitration composed of a representative of the property damaged by trespassing animals, a representative of the owner of the animals, and a third person selected by the two so chosen. The finding of a majority of the board constitutes an obligation which if not paid within thirty days may be filed in court as a judgment.

Attorneys—There is a general tightening up of the requirements for admission to the bar. California (585 and 587) joins the ranks of those States which do not accept the diploma of any law school, but require all applicants to be examined, and also provides (593) that a part of the examination of an applicant for admission to the bar must be in writing. New Mexico (48) provides that no third bar examination shall be given to any applicant failing twice until the expiration of two years after his last failure. Montana (90) and Washington (115) require each attorney to pay an annual license tax or fee, in the one case of $5 and in the other case of $1. Montana imposes as a penalty for practising without a license a fine of not less than $25, and Washington declares that any attorney who fails to register before February 1 shall be deemed to have forfeited his rights as an attorney from that date until he registers and pays the fee. In both cases the proceeds from the license fees go into law library funds, except that in Montana the costs of investigation and proceedings in cases of misconduct in practice are first paid out of the license fund. In Montana it is the duty of the Attorney General to investigate and prosecute all complaints as to any such misconduct, while in Washington—and this is the most noteworthy provision of all—it is the duty of the State board of law examiners not only to enforce all the laws and ethics relating to the duties of attorneys, but also to hold hearings on complaints and, if justified, to suspend or annul the attorney's license to practise law. This is probably the first instance in which what is practically the right to disbar from practice has been conferred upon a body other than a court. In New Jersey (193) also, the bar examiners are authorized to investigate complaints against members of the bar and to report with recommendations. In New Jersey and Washington the bar examiners and in Montana the Attorney General are empowered to issue subpoenas for the attendance of witnesses and the production of testimony and evidence at such investigations.

A North Dakota act (p. 249) makes contracts of retainer in connection with actions for damages arising out of personal injuries, as well as settlements of such causes of action, voidable if the person is under disability from the injury or if made within thirty days after the injury. Massachusetts (267) makes it unlawful for any person not an attorney to solicit from one accused of crime either for himself or for another the right to defend such person.

A Connecticut act (225) directs the Superior Court before the beginning of any criminal term to appoint an attorney of at least five years' practice to defend persons charged with crime and without money to employ counsel, and provides for the compensation of such attorney in accordance with the services actually rendered by him.

New Remedies—Nevada (213) creates a lien for storing, repairing or furnishing supplies for automobiles, and provides that the lien shall not be lost by surrender of possession, and that the person entitled to the lien may without further process of law seize the car or any part thereof anywhere in the State.

Civil Procedure—Oregon (S. J. R. No. 2) authorizes the Supreme Court to appoint a commission on law reform, the members to serve without pay, to report to the next legislature. California (Res. 14) appoints a legislative committee to act with a committee to be appointed by the State bar association in investigating delays in courts of justice, and New York (331) appropriates $15,000 for an investigation by a joint legislative committee of the report of the statutory consolidation commission relating to the simplification of civil practice. Indiana (27) provides that a party may state in his pleadings in separate and distinct paragraphs, con-

secutively numbered, any number of distinct causes of action, defence or replications, and may subdivide each paragraph into distinct clauses similarly numbered, and may in any subsequent paragraph incorporate any clause of a preceding paragraph by proper reference and identification without the repetition of the language employed in the first instance. A Massachusetts act (194) provides that in an action for goods sold and delivered or for work performed the plaintiff may by notice in writing call on the defendant to admit any material fact or the execution of any written paper, and if the defendant fails to answer within ten days, the truth of the fact or the execution of the paper shall be held as admitted.

New Mexico (46) provides that a defendant desiring affirmative relief may file a cross-complaint as well as an answer; in Michigan (H. 156), so that in any action for negligence the defendant may file with his plea a cross-declaration for damages because of alleged negligence of the plaintiff arising out of the same occurrence, and in such case the alleged causes of action of both plaintiff and defendant shall be determined in the same trial or proceeding. Oregon (95) relieves a defendant in an action at law who seeks equitable relief from the necessity of resorting to a cross-bill in equity and permits equitable matter to be set out in the answer without resort to the equity side of the court, so that the plaintiff may in like manner set up equitable matter constituting a defence to new matter in the answer. Minnesota (24) permits in certain cases "judgment notwithstanding the jury has disagreed and been discharged."

Criminal Procedure—A North Carolina act (168) provides that when there are several charges against the same defendant for the same act or transaction, or for two or more acts or transactions connected together, or for two or more transactions of the same class of crimes or offences, they shall be joined in separate counts in one indictment. The Anti-Narcotic Act passed in Massachusetts (275) includes eleven short forms of indictments and complaints to be used in the prosecution of violations. A Washington act (37) provides for the drawing of "alternate jurors" in a trial for a felony when the judge is of opinion that the trial is likely to be a protracted one. New Jersey (44) provides that any person who brings into the State property which he stole or received, knowing it to have been stolen in another State, shall be punished in the same manner as if his theft or receiving had been committed within the State.

Missouri (p. 246) and Arizona abolish capital punishment, the latter by an initiated measure adopted by a close vote; and Delaware (266) provides that the death sentence may on recommendation of the jury be commuted to life imprisonment.

Pennsylvania (111) provides that any person sentenced to pay a fine or to pay the cost of any criminal proceeding against him may in the discretion of the court be permitted to pay in instalments during a period of not more than twelve months. Wisconsin (620) extends the law which provides for a verdict of "not guilty because insane," in the case of persons found to be insane at the time of the commission of the alleged offence, so as to apply in like manner to feeble-minded persons and to permit a verdict of "not guilty because feeble-minded." North Dakota (p. 241) creates an ex-officio board for the relief of persons who have served terms of imprisonment for offences of which they are innocent. The board may award compensation not exceeding $2,000 in any one case, and if it believes that greater compensation should be made shall so recommend to the legislature.

Trials—A Wisconsin act (176) provides for requiring the attendance as a witness at the trial of an action in another State, territory or country of a person who is in the State of Wisconsin, but only if the laws of such other State, territory or country contain reciprocal provisions as to trials in Wisconsin. A New Hampshire act (19) exempts from taxation the Society for the Protection of New Hampshire Forests, because it was organized to protect and preserve forests and has made certain properties accessible by trails, bridges and paths.

Juries—A New Hampshire act (11) requires that the jury room shall be furnished with substantial and comfortable chairs and desks, and that jurors shall not be required to continue their deliberations without sleep and rest after 12 o'clock P. M. California (692), a State in which women have the suffrage, subjects them to jury duty equally with men, and Montana (122) provides that in case of a jury trial on an appeal to the district court from the board of graduate nurses on a question of the registration of an applicant for a nurse's license, the jury shall consist of three nurses and three doctors.

Decedents' Estates—The most important legislation of the year relating to decedents' estates is that found in the seven acts drafted by the commission created by the last Pennsylvania legislature to codify and revise such laws. The distinction by which the interests under the intestate laws of the surviving spouse or of parents is generally restricted to a life interest in realty as contrasted with an absolute interest in personalty has been abolished. The distinction between heirs of the whole blood and of the half blood as to the inheritance of real estate is also abolished; the old rule as to "the blood of the first purchaser" is abolished, so that the nearest relatives will take irrespective of whether the real estate was derived by the deceased from their side of the family or not; and provision is made that pecuniary legacies are, unless a contrary intent is expressed in the will, to be charged when necessary against real estate not specifically devised, all of these changes being at the same time in line with the commission's opinion that real and personal estate should, as far as possible, be distributed according to the same uniform plan. The length of time for the settlement of an estate has been reduced from one year to six months. The commission has also gone far toward placing married women upon an absolute equality with their husbands and making the reciprocal rights of each in the estate of the other the same. With the single exception that a widow is still allowed her small exemption, which has been increased from $300 to $500, this has practically been accomplished, and throughout the long Pennsylvania Intestate Act it has been possible to replace the terms "husband," "wife," "widow" and "surviving spouse" by the generic terms "intestate" and "spouse surviving." Dower and courtesy have been abolished and the surviving husband or wife has been given in case of intestacy the same right in the estate of the other, and in the case of testacy the same right to elect to take against the will only what he or she would have been entitled to under the intestate law. Similarly the old law that a woman's will was revoked entirely by marriage is done away with and the law formerly applicable to a man's will by which it was revoked upon marriage, or the birth of issue not provided for, only *pro tanto* is extended to apply to women.

An Oregon act (331) provides that a husband or wife may in lieu of courtesy or dower elect to take an undivided third part of the lands of which the other was seized of an estate of inheritance, and that when so entitled a failure to commence within one year proceedings for the assignment or recovery of such dower or courtesy shall be deemed to be an election to take the undivided third. A revision of many of the provisions of its law relating to the administration of estates was made by Missouri (p. 91). Arizona (22) provides that a surviving spouse may without letters of administration collect sums up to $300 owed to the deceased as wages. Minnesota (251 and 289) provides for the immediate settlement and distribution of estates of less than $650 if all the property is exempt from the payment of debts.

Minnesota (353) and Oregon (270) provide that no person guilty of felonious homicide may inherit or share in the property of the person killed, and Pennsylvania (Nos. 190 and 192) makes a similar provision as to a person found guilty either as principal or accessory to murder in the first or second degree.

Indiana (46) declares void any provision of a will to the effect that any beneficiary who takes proceedings to contest the will or prevent its admission to probate shall forfeit any benefit provided therein.

Domestic Relations—New York (503) requires each party to an application for a marriage license to make an affidavit set forth in the law to the effect that he or she has never to his or her knowledge been infected with any venereal disease, or if so infected within five years has since had a laboratory test showing freedom from such infection; and Wisconsin (483) prohibits the granting of a marriage license to any person who has ever been afflicted with certain blood diseases until such person pro-

duces a certificate of freedom from infection furnished without charge by one of certain specified laboratories. New Jersey (23) makes either marriage or intercourse by any person knowing himself or herself to be infected with a venereal disease a misdemeanor. Maine (46) adds feeble-minded persons to those incapable of contracting marriage, and Wisconsin (218) adds epileptics to the list of those disqualified for marriage. North Dakota (p. 165) requires applicants for a marriage license to answer under oath whether either has been divorced, and if so to file a certified copy of the divorce decree, and further provides that in such case no license may be issued which "in any manner" contravenes the decree. North Carolina (57) amends an earlier act which added to the grounds for absolute divorce separation and living apart for ten successive years in the case of a husband and wife who reside in the State for that period, and provided "that no children shall have been born in the marriage," by striking out the qualification as to children; and Washington (106) adds as a ground for divorce where the parties have been estranged and have lived separate and apart for eight years or more and the court is satisfied that they can no longer live together. A North Dakota act (p. 103) declares every child to be the legitimate child of its natural parents and entitled to the same support, education and rights of inheritance as if born in lawful wedlock. A Rhode Island act (1,510) says a person over twenty-one may not "unreasonably" neglect to support parents who are destitute without fault of their own, and it adds that refusal to support a parent by a child who, during his minority, was not "reasonably" supported by his parents, or by one of several children who has already made a reasonable contribution is not "unreasonable." North Carolina (219) adopts the civil law rule legitimatizing children by subsequent marriage of their parents. Minnesota (210) requires the father of an illegitimate child to support it after judgment of paternity, and compels the attending physician to testify. The enforcement of this act is aided by Chapter 211, which makes it a felony for the father to leave the State to evade paternity proceedings. Fathers who endeavor to escape support of their children are punished by Chapter 213, which makes it a felony for either parent to desert a child under sixteen or for a man to desert his wife, if she is expecting a child.

War Legislation—In a number of the States provision is made for the registration of aliens. New York (159), which is typical of these acts, in addition to requiring personal registration by the alien requires hotels, etc., to notify the police authorities of the presence of alien guests. Failure to do so is a misdemeanor. A number of acts also restrict the right of aliens to possess firearms. Some of these, like Minnesota (500), are modelled after a statute which originated some years ago and was intended to prohibit aliens from hunting.

Provision for a census of man power and war resources is made in a number of States. The most comprehensive census was that provided for by New York (103). The Massachusetts Defence Act (342) authorized a census when it should be requested by the Council of National Defence.

Legislation to protect the food supply was passed in a number of States. Maine (284), Wisconsin (561) and Massachusetts (342) authorize designated State officials to take possession of food supplies upon the payment of just compensation. The Wisconsin act also authorizes the taking over of warehouses and other storage facilities. New York (205 and 506), Connecticut (386) and New Jersey (80) provide for purchase and sale of food by designated officials. Massachusetts (264) authorizes cities and towns to take steps to conserve the food supply, and Pennsylvania (No. 369) authorizes cities of the second class, whenever an emergency exists, to purchase food, coal and necessities of life and resell the same to residents. Michigan (H. 171) authorizes municipalities to seize fuel or food found within their limits and resell it to the public. Owners are to be compensated. Massachusetts (207) provides that the cultivation of land, harvesting or transporting of agricultural products shall not be unlawful on Sunday, during the war. Maryland (7) makes it a felony to store food products for the purpose of increasing their price, and New Hampshire (203) and Connecticut (366) punish criminally one who enters on a field with intent to injure grain, vegetables, etc.

Many of the States have provided in one form or another for co-operation with the Federal Government in meeting conditions due to the war. New Jersey (126) is typical of the grant of comprehensive powers to the Governor "to organize and employ any and all resources within the State" to assist the Federal Government and "to exercise any and all power convenient or necessary in his judgment to render such assistance." Minnesota (261) creates a public safety commission with general power to do anything necessary to make efficient use of the resources of the State "toward the successful prosecution of the war."

A State council of defence to co-operate with the National Council is provided for in California (32), Maryland (24), New York (369) and Pennsylvania (106). Extraordinary provision for maintaining public order and protecting life and property through the organization of home guards, reserve militia, State constabulary and like organizations is made in a number of States. The Minnesota act cited above authorizes the safety commission to recommend the removal of any public officer, and Rhode Island (1,538) authorizes a safety board to take over the administration of all departments of the city of Providence which deal with public safety. Provision for seizing buildings, railways and other equipment or supplies useful for military purposes is made in Maine (284) and Massachusetts (342). Similar power, limited to personal property, is provided in Wisconsin (561). In all cases compensation is to be made to owners.

One of the war acts is that known as the "lazy man's law," enacted in Maryland (33). All able-bodied men between eighteen and fifty, not usefully employed, may be required to register and to work in some public or private employment. Failure to register is made a misdemeanor, and failure to do the work assigned is also punished by fine or imprisonment. The possible use of the act to conscript strikers and put them to work is guarded against by a provision that the act is not to apply to persons temporarily unemployed by reason of a difference with their employers.

Vermont (236) puts a heavy criminal penalty on possession of military maps, plans, etc., or furnishing of military information, or injuring public property, but provides that if the offence be committed under circumstances amounting to treason the punishment shall be for the latter crime. New York (574) requires all public officers and employees, except laborers, to take the constitutional oath of office, and (416) authorizes the removal of any public officer, civil service employee, or teacher, etc., in the public schools who utters treasonable or seditious words, or does treasonable or seditious acts. Minnesota (463) makes it a gross misdemeanor to circulate printed matter or advocate orally that men should not enlist in the military forces. Iowa (372) provides heavy punishment for inciting insurrection or sedition or promoting hostility or opposition to the Government of the State or of the United States.

Maine (126), Nevada (221), Illinois (H. 874), Maryland (8) and Vermont (236) impose new or increased penalties for the pollution or poisoning of the water supply. New Hampshire (222), Maine (127, 128), Rhode Island (1,473), Illinois (H. 874), Maryland (9) and Vermont (236) provide new or increased penalties for injury to roads, bridges, public utilities and other public property. Maine (288), Connecticut (399), New York (629), Montana (129) and New Hampshire (185) regulate in detail the manufacture, storage and handling of explosives. The New York act gives the Governor power to make such rules as he deems necessary "governing the manufacture, distribution, storage and use or possession" of explosives. The Montana act makes possession of a shell or bomb prima facie evidence that the possessor intended to use it for unlawful purposes and provides for his punishment.

Reorganization of the State militia to make it conform to the requirements of the National Defence and Draft acts has been general. The federalization and co-ordination of the State militia in a military machine constitutes a chapter in our military preparation. Among the provisions in the new militia laws are those which give to the Governor power to enroll all able-bodied males between eighteen and forty-five and to draft them into the service. The Oregon law (327), for example, makes failure to respond to the Governor's draft desertion, punishable by a military tribunal. North

Carolina (200) provides that whites and blacks shall not be compelled to serve in the same organization, and that blacks shall be under command of white officers. New York (644) declares that the State militia shall consist of that part "of the militia of the United States" resident in the State. The Federal articles of war are in many of these laws made a part of the State's military law.

Several of the States have provided that public officers and employees shall not lose their places nor be prejudiced in their rights to promotion because of absence in military service. These acts, as for example New York (435) and Pennsylvania (201), also provide for payment by the State of the difference, not exceeding a fixed amount (which in Pennsylvania is $2,000 a year), to supplement the Federal pay. The amount so contributed by Pennsylvania is to be paid to dependents. A similar supplemental allowanee provided for in Massachusetts (301) is payable during the war, and in case of the man's death before the end of the war is to be paid for the balance of the period to his dependents. Massachusetts (211) goes further and provides for an allowance supplementing Federal pay of residents of the State not in the public service who go into the military service. Resident dependents of men who go into the service may receive support allowances in New York (235), Maine (276) and Vermont (108). Under the Maine act these allowances are to be paid by municipalities, but reimbursed by the State. Similar allowances to dependents are provided for in other States, some of which, however, provide that they shall cease when the United States makes provision for dependents. New York (807), without making any appropriation for the purpose, incorporates a patriotic fund to receive and distribute money to the dependents of men in the service.

The only provision for a general moratorium is contained in Maryland (210), enacted at a special session largely devoted to war legislation. It authorizes the Governor, during the war, to declare successive legal holidays having the same effect on commercial transactions and legal rights and duties as Sundays. The more usual form of moratorium is limited to men in the military or naval service, provides for the tolling of the statute of limitations as applied to the bringing of actions by men in the service and for the continuance of actions against them. See Maryland (19, 22, 23), Maine (273), Iowa (380), Massachusetts (342) and Wisconsin (409). Oregon (275) is likewise a moratorium in favor of men in the service, but is limited to mortgages and judgments. Only judicial legislation can make this act effective for its purpose, because it is expressly limited to the National Guard and men in the "volunteer forces" of the Federal Government. It was enacted prior to the decision of Congress to create the new National Army by draft rather than by volunteers.

Prisons and Punishment for Crime—Several of the States have made provision for farms to be conducted in connection with their penal institutions. Idaho (106) provides for extending the benefits of the university extension department to convicts, while general provision for mental instruction is made in other States. Maine (194) requires custodians to give physical and psychopathic examinations to prisoners and when necessary to transfer them to State institutions for further examination. North Carolina (286) contains provisions respecting prisoners working outside of prison walls. They are to be divided into three groups, according to behavior and character. The first group is to receive the highest pay and to work without guards. The sanitary condition of their camps is placed under the Board of Health. Recreation and instruction are to be provided, and prisoners are to be safeguarded from the influence of persons addicted to the use of liquors. The races are to be kept separate, and youthful from hardened offenders. Aid for the convict after his discharge from prison is provided in Illinois (S. 74), which makes it the duty of the Department of Labor ninety days before the discharge of an inmate to estimate his abilities in order to assist him in obtaining employment after discharge. North Dakota (p. 164), which makes it possible for discharged prisoners to be employed about a penitentiary with supervision over inmates, and Oregon (100), which makes it a misdemeanor wilfully to communicate orally or in writing any statement concerning a discharged or pardoned felon which might deprive him of employment or extort money from him. North Carolina (286) puts a check on abuse of the power to flog incorrigible prisoners by requiring flogging to take place in the presence of the prison physician or chaplain. Rhode Island (1,511) and Tennessee (46) prohibit the contract system of letting out prison laborers to private contractors; and North Carolina (286), after forbidding the contract system, provides for the State use system, under which the prisoners are put to work producing articles which can be used by the State or its municipalities. This North Carolina act contains a requirement that it be printed in pamphlet form and a copy be given to each prisoner. New Jersey (157) prohibits the use of prisoners to replace free labor on strike or in any case if free labor is obtainable. California (164) prohibits the sale of certain articles manufactured in the prisons of other States, unless labeled and unless the places where such goods are offered for sale post a conspicuous notice that such goods are on sale. Legislation in many of the States provides for the payment of small sums as compensation for the labor of the inmates of penal institutions. In almost all of them provision is made for the payment of all or a portion of the prisoner's wages to his dependents.

Indeterminate sentences are required in all cases by California (527), and all life sentences except those for murder are made indeterminate with a minimum of ten years by New York (480). Minnesota (319) extends its indeterminate law to third degree murderers, and North Dakota (p. 89) to second degree murderers, while Oregon (302) excepts murderers from the benefits of its law. These and other acts represent the extension of the parole system.

Revision and Amendment of State Constitutions—A number of the States have provided for the calling of constitutional conventions to revise generally the State Constitution. The question whether such a convention shall be called is to be submitted to the voters at the next general election in Idaho (p. 505), Illinois (S. J. R. 1), Tennessee (23), Nebraska (241) and North Carolina (60). In addition, New Hampshire (121) and Indiana (2), without submitting the question to the voters, provide for the election of delegates to a revising convention. The New Hampshire convention is to meet on the first Wednesday of June, 1918. The Indiana act has since been declared unconstitutional. The act providing for the North Carolina convention limits its sessions to sixty days, with a recess of thirty days between two thirty-day sittings. Oregon (H. J. R. 8) proposes an amendment to the State Constitution declaring it the function of the Constitution to define a plan of government "every provision of which is consistent and harmonious with every other provision thereof and to perpetuate such consistency and harmony, any and all amendments of this Constitution shall be so worded that their adoption by the people will leave the amended Constitution without any conflicting provisions, and as a vital consideration in construing any amendment is the effect of the amendment upon the entire Constitution, no amendment shall have the effect of rendering any other part or parts of the Constitution ineffective without expressly specifically repealing such other part or parts."

Organization and Administration of State Governments—Oregon (309 and H. Con. 11) provides for an investigation of all State departments by representative business men. The importance of modern and uniform accounting systems and methods in Government business is recognized by Nebraska (53), North Carolina (58) and Vermont (32). Central purchasing agents are created in Wisconsin (598) and Ohio (H. 193). Indiana (25) and South Dakota (p. 248) provide for controlling the volume and methods of printing of departmental reports. Delaware (2) proposes an amendment to the Constitution authorizing the Governor to remove any officer appointed by him, but provides for reinstatement by the courts if the removal be without just cause. West Virginia (1 and 4 Spec. Sess. 1916) provides in detail for the procedure for removals by the Governor. New Jersey (236) subjects removals or reductions in the Civil Service to investigation and approval of the Civil Service Commission. Similar provision is made in Minnesota (63). Greater freedom of removal in the interest of efficiency is granted the appointing

power by Illinois (S. 315). New York (653) requires all State officers to keep service records showing the relative efficiency of employees as a basis for promotion.

North Carolina (180), Delaware (278), Utah (15), Kansas (312), South Dakota (561), Tennessee (139) and New Mexico (81) provide for a budget system of preparing and enacting annual appropriations. These bills do not take from the Legislature the power to revise and increase the Executive recommendations. Provision for investigation of the desirability of a budget system is made in Michigan (S. 59). Among the new departments provided for this year are a department of State police in New York (161), a State publicity bureau in Nebraska (114) and a State sheriff in South Dakota (p. 284). Provision for State rural credit systems is made in Oregon (398), Maine (303) and South Dakota (p. 124).

Local Government—New Jersey enacted general laws (152 and 153) dealing with municipalities and revising and repealing a large number of existing laws. This legislation clears up the statute book in so far as it deals with municipalities. North Carolina (136) is likewise a general act providing for the government of municipalities. Among other things this act requires more modern accounting systems and provides for distinct plans of city government, any one of which may be adopted by the voters of a municipality. Authorization to adopt the commission form of government is contained in Montana (150), but provision is made for the abandonment of this form of government in Illinois (H. 755) and Wisconsin (358). The city manager plan seems been more fortunate, having been approved in ity, number of States, Idaho (79), Kansas (86), Nebraska (208), Pennsylvania (No. 224), South Dakota (p. 518) and Vermont (104). In addition to North general legislation dealing with the government legitimate municipalities, North Carolina (138) enacted a their general municipal finance act requiring an annual budget and limiting the period of bond issues to the probable period of usefulness of the improvement paid for from the proceeds of the bonds. New Jersey (192) also requires municipalities to adopt a budget system. Proceedings to test the validity of municipal bond issues are provided in West Virginia (57). Bond issues are to be submitted to the Attorney General for his approval. His opinion becomes incontestable unless appealed from within ten days. This act provides for a review in the courts. New Hampshire (129) forbids the establishment of municipal sinking funds to redeem bond issues and requires all bonds to be in serial form. On the other hand, New Jersey (212) is a general law providing for the reorganization and future administration of all municipal sinking funds.

Elections—The Legislatures of three States, North Dakota (p. 253), Indiana (188) and South Dakota (p. 194), propose constitutional amendments granting women suffrage conditioned upon a referendum. Connecticut (Res. 28) and Iowa (153) refer such an amendment to the next Legislature, while Maine (289) amends her election laws to extend the right to vote to women, the act to become effective after the adoption of the proposed amendment to be voted on in September of this year. Arizona (H. C. M. 4), California (Res. 73) and Idaho (p. 522) memorialize Congress to extend the right of suffrage to women. Ohio (H. 16), Michigan (S. E. A. 105) and Rhode Island (1,507) grant women the right to vote for Presidential Electors, and Indiana (31) and Nebraska (30) extend this right to all officers not specified in their Constitutions. Vermont (No. 98) permits women taxpayers over twenty-one to vote at town meetings. Kansas (353) proposes a Constitutional amendment to take away the right of suffrage now granted to aliens who have declared their intention of becoming citizens. Other acts affecting women voters are Colorado (67), under which a woman need only state that her age is over twenty-one when registering, and California (219), which for purposes of voting makes the husband's residence that of the wife.

The absence of so many military men from their homes at election time has caused a large number of States to consider the question of absent voting. Illinois (S. 508), Nebraska (177), Minnesota (Spec. 1916, 2), Missouri (p. 276) and Wisconsin (2 of Special Session, 1916) formulate a procedure for obtaining the votes of men absent on military and naval service. New Hampshire (95) does the same for absent guardsmen. Eleven States provide for the voting of all those who may be absent from their home precincts, usually in both general and primary elections. Ballots must be applied for to the precinct clerk and returned by mail, see North Carolina (23), Montana (155), Indiana (100), South Dakota (233), Ohio (S. 48), Idaho (142), Tennessee (8), Minnesota (68), Illinois (S. 265), California (Res 64) and Iowa (419). Wisconsin (570) extends her absent voting law to those who are sick or physically disabled and so unable to attend the polls. Indiana (100) includes those absent by illness, nature of business, or unavoidable cause. Missouri (H. B. 230) makes additional provision for the voting of trainmen and travelling salesmen at primary elections. Nevada (231) provides that no person shall lose residence for voting purposes through absence for military or naval service.

Presidential primary acts are repealed by Minnesota (133), Iowa (14) and Michigan (H. E. A. 220). A compulsory system of party primary elections is provided for in Tennessee (118), but New Jersey (197) forbids nomination to public office, candidates for Presidential Electors excepted, save by convention. There is initiated in South Dakota (p. 639) a primary law for submission to the people. Party campaign pamphlets are to be printed by the State. Presidential and gubernatorial candidates, within the party, must appear in one and sixteen, respectively, joint debates in the State or cease to be candidates for their party. Party electors may propose independent candidates by petition. The independent candidate may further file a "paramount issue" of eight words or less with the Secretary of State. This issue will appear on the ballot and the independent candidate must challenge the representative candidate to joint debate on it. A party jury may recall an elected candidate who fails to observe the principle on which he was elected or is guilty of misconduct. Campaign matter may not be published anonymously in Illinois (H. 789) and Missouri (p. 272); and Massachusetts (250) requires that a candidate nominated by some one other than a political party may not use the name of that party in his political designation. Nebraska (35) prohibits a candidate who runs for nomination to the same office on two party tickets from accepting the minority party nomination, if he loses that of the majority party, unless his minority party vote exceeds his majority party vote. In Illinois (H. 873) a candidate may not in return for support pledge himself, on penalty of fine, imprisonment and forfeiture of office if successful, to support or oppose any particular measure. Nebraska (53) presents a scheme for eliminating Presidential electors from the ballot. The Governor is required to appoint as the Presidential electors of the State those electors nominated by the party whose candidates for President and Vice-President—whose names appear on the ballot—receive the highest number of votes. Nevada (148), Nebraska (32) and Wyoming (59) require non-partisan ballots for election of judiciary and certain school officers. In Oregon (138) primary ballots are to be printed with the names of candidates in as many different rotations as there are candidates, thus placing each name at the top of the list on practically an equal number of ballots. The Kansas scheme of double election boards, one to receive the votes, the other to count them, is required in West Virginia (37) and Nebraska (37). Illinois (S. J. R. 27) establishes a non-partisan commission to revise her election laws.

Uniform State Legislation—The work of the Conference of Commissioners on Uniform State Laws has found acceptance in a large number of the States this year. In all, thirty-seven uniform acts were adopted by the various State legislatures, as follows: Uniform Sales Act—Minnesota (465), North Dakota (p. 72), Utah (121), Wyoming (98). Uniform Bills of Lading Act—Maine (132), Minnesota (399), Missouri (H. 650), New Hampshire (81), Wisconsin (179). Uniform Warehouse Receipts Act—Delaware (221), Maine (143), Montana (154), North Carolina (37), North Dakota (p. 219), West Virginia (8), Wyoming (96). Uniform Partnership Act—Illinois (H. 302), Michigan (H. 45), Pennsylvania (No. 42), Tennessee (140), Wyoming (97). Uniform Limited Partnership Act—Illinois (H. 303), Pennsylvania (No. 37). Uniform Cold Storage Act—Utah (69). Uniform Negotiable Instruments Act—California (751), Maine (257). Uniform Act for the Extradition of Person of Unsound Mind—Illinois (H.

204), Nevada (133), Tennessee (115). Uniform Land Registration Act—Utah (28). An Act to Make Uniform the Law of Acknowledgments to Deeds or Other Instruments Taken Outside the United States—Nevada (152), New Hampshire (53). An Act as to Promissory Notes, Checks, Drafts and Bills of Exchange (Days of Grace)—Rhode Island (1,477). Uniform Stock Transfer Act—Connecticut (325), Illinois (H. 293), Tennessee (113). Uniform Foreign Probate Act—Illinois (H 211).

Liquor Laws—Prohibition—Early in the year the Webb-Kenyon Act of 1913 was interpreted by the United States Supreme Court as divesting liquors of their interstate character in certain cases and thereby subjecting them to State control. The States have seized upon the opportunity of reenforcing their local laws by prohibiting the importation of intoxicating liquors. Georgia, Act 1, Extraordinary Session, March, 1917, makes it unlawful to transport, ship or carry intoxicating liquors "by any means whatsoever, with or without hire, or cause the same to be done from any point without this State to any point within this State, or from place to place within this State, whether intended for personal use or otherwise." Arizona (63) declares that intoxicating liquors "shall not be manufactured in or introduced into the State of Arizona under any pretense." Indiana (Ch. 4, effective April 2, 1918), Montana (Ch. 175, effective December 31, 1918), South Dakota (p. 2, effective February 21, 1917), Utah (Ch. 2, effective August 1, 1917), Michigan (H. 204 and S. 66), Tennessee (12), South Caroline (No. 94 and No 38) and Kansas (215) also enacted general prohibition laws. All these, as well as amendments to the general laws in Colorado (82), Oregon (40), North Dakota (p. 168) and Washington (19) restrict or prohibit interstate traffic. The three latter require permits for importation for lawful purposes. Utah (94) prohibits the introduction of liquors "into any territory" within the State. Oregon (Constitutional amendment adopted November, 1916) by a self-executing prohibition of importation, Wyoming (2), Idaho (p. 528) and Arizona (Referendum measure) have written prohibition into the Constitution. Connecticut (7), Missouri (p. 582), Minnesota (515), Iowa (10 and 321) and Utah (H. J. Res. 14) propose amendments to the same effect; and Utah (H. J. Mem. 1), South Dakota (p. 522) and Arizona (H. Con. Mem. No. 2) memorialize Congress for a Federal amendment on the same subject Nebraska (187) is a general prohibition law supplementing a constitutional amendment. After a spirited fight New York (624) passed a city local option law. Vermont (234) repeals an extraordinary prohibition act of 1915—a referendum act which, if approved, was to take effect May, 1916, and if disapproved was, nevertheless, to take effect May 1. 1927.

Georgia (No. 1) prohibits importation of any alcoholic compound or malt or liquors, whether intended for beverage purposes or not, which can be diluted and used as a beverage to produce intoxication. And the sale of preparations which contain in excess of one-half of one per centum of alcohol and which analysis by the State chemist shows "can be used as a beverage" is prohibited in Utah (2). Colorado (2) prohibits the importation, sale, or manufacture of "peyote," a Mexican drink. Missouri (p. 307) requires the inspector of beer to inspect all so-called "soft drinks." Montana (143), an act relating to the enforcement of the prohibition laws, applies to every liquid capable of use as a beverage which contains 2 per cent. in volume of alcohol, and (175) applies prohibition to "ardent spirits or any compound thereof capable of use as a beverage." North Dakota (62) includes in the definition of intoxicating liquors liquids or compounds "containing no alcohol, whether indicated or not, capable of being used as a beverage and having the appearance or flavor of beer or malt, unless such liquid is pasteurized and contained in hermetically sealed bottles."

Congress enacted prohibition of alcoholic liquors for the Territory of Alaska (39 Stat. L. 903, effective January 1, 1918), and for the District of Columbia (39 Stat. L. 1,123, effective November 1, 1917), and of intoxicating liquors and drugs for Porto Rico (39 Stat. L. 952, effective March 2, 1918). Congress (39 Stat. L. 1,069), in the so-called Reed amendment, punishes by fine or imprisonment, or both, any person who "shall order, purchase, or cause intoxicating liquors to be transported in interstate commerce, * * * into any State or Territory the laws of which State or Territory prohibit the manufacture or sale therein of intoxicating liquors for beverage purposes," and makes advertisements of intoxicating liquors non-mailable into any State or Territory in which it is unlawful to advertise or solicit orders for such liquors. All these acts of Congress contain the usual exceptions with regard to the use of liquors for medicinal, scientific or sacramental purposes. In the Food Control Bill the Sixty-fifth Congress (Pub. No. 41) prohibited the importation of distilled spirits, practically prohibited the production of such spirits, and gave the President broad powers to regulate or prohibit the production of malt or vinous liquors.

LABOR.

(A summary of this legislation will be found elsewhere under Workmen's Compensation, or under Labor Legislation.)

Connecticut (326) and New Hampshire (194) passed laws authorizing the Governor to suspend the labor laws at the request of the Council of National Defence, and the legislature of Vermont (172) to authorize its Commissioner of Industries, with the approval of the Governor, to do so while the United States is at war. Massachusetts (342), the Defence Act, authorizes the suspension of the labor law in individual instances after a hearing and under restrictions imposed by the board granting the suspension. The Governor of New York vetoed a measure with this object, on the ground chiefly that it was not yet shown to be necessary at this time, particularly as it affected almost wholly women and children. The President and the Council of National Defence strongly recommended that no backward step be taken in legislation for the protection of workers, consequently arresting the passage of like measures in other States. Ohio (H. 107) and Michigan (H. 66) seek to protect the employees of railroad companies against arbitrary discipline or discharge on the report of a company "spotter." This act requires that the employee be given an opportunity to be heard, to confront the "spotter" and to cross-examine him personally or by counsel. Illinois (S. 612) provides for an industrial survey commission to study conditions of women in industry Oregon (H. C. R. 15) creates a commission to study unemployment.

Highways and Motor Vehicles—The legislatures of thirty-five States have accepted the provisions of the Act of Congress of July 11, 1916, providing Federal aid in the construction of post roads, and a dozen States have this year created or reorganized State departments of highways. Michigan (S. 41) limits, by detailed schedules based on the kind and width of tires, the gross weight on any wheel, and limits the entire gross weight to fifteen tons. Connecticut (113) permits a person detained more than five minutes at a railroad crossing to recover $25 from the railroad. Maine (50), Massachusetts (246), New Hampshire (8) and Wisconsin (533) require warning signs to be erected at crossings, usually at some distance before the crossing is reached; and Maine, Massachusetts and New Hampshire also require a reduction of speed on or near a crossing. Drastic penalties for stealing automobiles are provided in a number of States. Ohio (43), for example, imposes the same penalty as for horse stealing, which may extend to fifteen years in prison. Laws which punish the removal of manufacturers' serial numbers and other marks of identification as a means of concealing the theft and of disposing of the stolen machine were passed in Colorado (218), Kansas (74), New York (708), Montana (48), Washington (60) and Wisconsin (100).

Property—The spread of the Torrens system for the registration of land titles is shown by the adoption of comprehensive acts in North Dakota (p. 132), South Dakota (p. 607) and Tennessee (63). Acts providing for short forms of deeds and mortgages were adopted in New York (681) and Colorado (53), in both cases the use of these forms being made permissible, but not required. The Colorado forms are very short, the various covenants being set forth in the statute. The New York forms, while much shorter than the ordinary deed, include various covenants and are considerably longer than the Colorado forms. The Illinois act (H 343) makes the filing of a bill in equity affecting real property constructive notice to any person subsequently acquiring an interest in or a lien upon such property

Michigan (H. 15) provides that when any leased building is destroyed or so injured as to be unten-

antable; the lessee or occupant may, in the absence of an express written agreement to the contrary, and if the destruction or injury was due to no fault of his, quit and surrender possession without liability for subsequently accruing rent; and Minnesota (428) provides that when a lessee for a term of more than twenty years defaults, the landlord cannot exercise any right of re-entry until the expiration of thirty days from the time when he gives notice that he will exercise such right unless the covenant is performed, and further provides that if within six months after any such termination of his occupancy the lessee or his successor pays the rent in arrears, he may reoccupy on the original terms of the lease.

Nevada (195 and 200) requires railroads to maintain fences on both sides of tracks and barriers at highway crossings, and in case of failure to comply makes them liable for the market value of animals injured or killed; and (223) prohibits the awarding of damages for trespass of live stock on cultivated land unless such land has been inclosed by a legal fence as defined by the act. Oregon (360) provides that the owner or occupant of premises need not fence against hogs, and further provides in detail for the seizure and disposition of hogs found trespassing. Delaware (242) makes it a misdemeanor for an owner not to trim his side of a division hedge.

Oregon (271) extends the right of eminent domain to corporations organized for the smelting or reduction of ores so that they may acquire land within a radius of four miles for use for the purpose of the discharge and natural distribution of smoke, fumes and dust. Utah (52) extends the principal of the statute of frauds by requiring leases for more than fifty horses, one hundred head of cattle or five hundred head of sheep to be in writing, acknowledged and recorded in the same manner as grants of real property.

The effect of the rule against perpetuities is being diminished by such statutes as those passed in Tennessee (137), providing that a trust having for its object the aid of the poor or the promotion of morality, education or religion shall not fail "because of an attempt to create it in perpetuity;" and in Texas (155), providing that a trust fund for keeping up cemetery lots, although to be held and administered forever, shall not be regarded or held to be a perpetuity, but rather "as a provision for the discharge of a duty from the party founding such trust to the persons interred and to the public."

Laws requiring the licensing of dogs and authorizing killing of unlicensed dogs or dogs annoying other domestic animals were passed in New York (800), Iowa (50) and Illinois (H. 86). Unlike the acts taxing dogs and using the resulting revenue to pay damage done to sheep, etc., the New York law authorizes the Commissioner of Agriculture to pay, on presentation of claims, the damage done to other animals by dogs and to bring an action against the owner of the dog to recover the amount so paid.

Commercial Regulations.—Legislation looking to the prevention of monopoly and unfair discrimination in the buying and selling of commodities, especially food products, was enacted in Delaware (213), Idaho (23), Minnesota (377 and 381), Montana (80), New Hampshire (177), North Dakota (p. 193), Tennessee (138), Vermont (No. 186) and Wisconsin (141). This legislation aims particularly at preventing different prices in different parts of the State. It relates especially to food products and in some instances only to dairy products. The Tennessee act relates only to a conspiracy to limit the output of coal for the purpose of raising the price. Utah (11) alone provides that prices may be different in different localities where it is necessary to meet competition. The New Hampshire act (160) requires the Attorney General, whenever the price of necessaries of life rises, on petition of one hundred registered voters to institute judicial proceedings—the act does not say against whom, though it further provides if the rise is found unreasonable the person responsible therefor may be fined or imprisoned. This act further provides that "labor of hand or brain performed in factories or elsewhere by persons who are proletarians or near-proletarians shall not be construed as a necessary of life, nor shall any attempt by an individual or combination of individuals who are primary wealth producers to raise the wages or compensation received in a gainful occupation or to better their conditions of employment, be construed as raising or attempting to raise the price of necessaries of life."

Arizona (17) provides that producers of food products on agricultural lands, farms and gardens in the State shall never under any pretext be denied or restricted in the right to sell and dispose of the same, except that it may be subject to uniform inspection by lawful authority.

Laws providing for the inspection of and regulating the sale of gasoline and similar products were passed in Idaho (124), North Carolina (166), Tennessee (33) and Wyoming (124). North Carolina (172) also enacted similar legislation with regard to linseed oil, and Massachusetts (153) makes unlawful the manufacture or sale, except for use by manufacturers or dealers of any inflammable stove polish which emits a gas whose flash point is less than 100 degrees Fahrenheit.

Illinois (H. B. 311) requires certain articles to be stamped with the grade, weight by ounce per yard, and a description of any filler, and makes it unlawful to misrepresent the true dimensions of awnings, tents and hay or wagon covers. The same State (H. B. 18) requires all containers for dairy products to be branded and the brands to be registered, and forbids the use of any such container for any other purpose. Oregon (149) regulates the sale of commodities in package form by requiring the net quantity to be marked in terms of weight, measure or numerical count; and Indiana (53) provides for the sale by weight, measure or numerical count of a long list of enumerated commodities. Colorado (105) requires a written memorandum to be kept by the vendor of ores, and Nevada (234) creates the office of State Assayer to assay ores on the request of the shipper.

Untrue, deceptive or misleading advertisements are penalized in Iowa (190), Michigan (H. Enrolled Act 183), Nevada (201), Oregon (91) adn Wyoming (63). North Carolina (19) also punishes any false statement regarding the curative or therapeutic effect of any alleged remedy and (27) prohibits the sale or advertisement of patent medicines to cure any disease for which no cure has been found or the sale of mechanical devices whose claims for the treatment of disease are false or fraudulent, or which have been declared valueless by the State Board of Health.

Laws making it a misdemeanor to issue trading stamps as an inducement to the purchase of goods of various sorts were enacted in Colorado (147), Idaho (122) and Wisconsin (480). Legislation of this sort already enacted in other States has encountered Constitutional difficulties, and an effort to put an end to the use of such stamps by another method has been made. Montana (17) requires the payment of a license of $6,000 for the giving of premiums or bonuses with the sale of merchandise. Nevada (225) requires merchants using trading stamps to procure a separate license for which the fee is $2,000. North Dakota (p. 60) imposes a license fee of $6,000 for the use of trading stamps, and in Kansas (331) the fee ranges from $4,000 to $7,000 according to the population of the county.

Utah (18) authorizes the owners of farms to register the names of their farms and thereupon prohibits the use of the same name by any other farm. North Dakota (p. 237) establishes a trade-mark to be used on North Dakota products of a standard grade. North Dakota now does what the United States was for many years mistakingly thought by the great majority of people to be doing under the Food and Drug Act of 1906—it guarantees the products which comply with the act. Indeed, the trade-mark itself bears the following legends: "Quality and measure." "North Dakota," "Standard" and "North Dakota backs it up."

Pennsylvania (No. 227) and West Virginia (53) make it a misdemeanor to carry on any business under an assumed or fictitious name without having first filed with the proper officials a certificate stating both the assumed and the business name. A Delaware act (222) regulating the sale of goods in bulk requires that an inventory be made and that the purchaser keep the inventory for at least six months after the sale.

"Blue sky" laws were enacted in California (532), Illinois (H. B. 864), Minnesota (429) and New Hampshire (202) and Oregon (418) creates a securities commission for the certification of bonds secured by mortgage on wooden or steel, steam or motor ships constructed and owned in the State.

Nebraska (202) makes it a misdemeanor for any contractor for the erection, repair or removal of a building who receives payment in whole or in part on such contract to fail to apply such payments to

the satisfaction of claims of laborers and material men who would otherwise have a lien. A similar act was passed in North Dakota (p. 64) making such action larceny.

A New York act (702) declares against public policy and void any contract between the owner, agent or employees of an apartment house and dealers in fuel, ice or food giving to the dealer the privilege of selling or delivering to tenants of the house. The giving or receiving any compensation for such privilege is made a misdemeanor, and any person occupying the house may also recover from the dealer a penalty of $250 in a civil action.

Insurance—In fifteen States laws authorizing fraternal benefit associations to insure children of members, popularly known as the fraternal "Whole Family Protection Plan" were adopted. Acts in California (666), Iowa (180), Nebraska (189) and Ohio (H. 325) authorize the exchange of reciprocal or interinsurance contracts among individuals, partnerships and corporations, for any form of insurance, except life insurance. The organization of subscribers is informal, but a reserve is required and the business is subjected to State regulation to much the same extent as other insurance. Revisions of the insurance laws were enacted in Michigan (S. 159) and Oregon (7). Ohio (H. 296) provides for the organization and supervision of fire insurance rate-making bureaus, consisting of one or more insurers, and Wisconsin (61) requires every fire, marine, or inland insurance company to be a member of a rating bureau. New York (440) requires the use of the new standard fire insurance policy recently adopted by the National Convention of Insurance Commissioners. Tennessee (7) makes it a misdemeanor for a life or industrial insurance company to misrepresent the terms of a policy, to receive premiums when insolvent, or to issue a policy to a person in uninsurable condition with intent to defraud. Massachusetts (156) authorizes title insurance companies to insure the insufficiency of a mortgage. Pennsylvania (70) exempts from all claims of creditors or legal process any insurance policy or annuity, not exceeding in income or return $100 monthly, hereafter issued to any solvent citizen of the State, whereof the insured or the purchaser of the annuity is the beneficiary or annuitant. Nebraska (72) authorizes the State Insurance Board to apply the same restrictions to insurance companies and agents from other States which are imposed in their home States upon Nebraska companies or agents, and Wisconsin (13) provides that whenever the insurance department of another State charges a per diem fee for the examination of Wisconsin companies, then insurance companies of such State shall be required to pay the same fee when examined by the insurance department of Wisconsin. Nebraska (188) creates a State fund to meet crop losses caused by hail. The fund is made up of "taxes" assessed and collected by tax officials from farmers who elect to be subject to the act and to have its insurance benefits. North Dakota (p. 252) and South Dakota (p 194) likewise propose a Constitutional amendment authorizing taxes to create a hail insurance fund.

Corporations—Legislation authorizing the issue of shares without par value was passed in California (701), Delaware (113), Maine (144) and New York (484). The Delaware law also permits cumulative voting, does away with the requirements that one director shall be a resident of the State and that each director shall own three shares of stock, and amends the corporation law of the State. A New Jersey act (195) regulates the purchase by one corporation of the stock of another, the general effect being to permit to freely purchase the stock or property of other corporations provided there is no lessening of competition.

Public Utilities—California (213) provides for the regulation of stages or automobiles operated as common carriers over fixed routes, and Nevada (222) accomplishes the same purpose by extending the definition of railroads to include automobiles carrying passengers for hire and also requiring such an automobile common carrier to keep on file an indemnity bond. New York (805) confers upon the Public Service Commission jurisdiction over common carriers by water. Pipe lines for the transportation of oil and gas are declared common carriers and placed under the control of the Railroad Commission in Nebraska (112) and Texas (30), and pipe lines for conveying salt are also similarly treated in Nebraska (175). In Oregon (128) corporations engaged in driving, booming or rafting timber are required to handle without discrimination all timber offered and their rates and service are subjected to regulation by the Public Service Commission.

New Jersey (94) repeals the full-crew law, but provides that no reduction in any train crew as constituted prior to such repeal shall be made without the authorization of the Public Utilities Commission, and gives the commission power to require any railroad to employ on its trains such number of employees as the commission deems necessary to offer safe, adequate and proper service. A Kansas act (263) makes it unlawful for any railroad of common carrier to receive live stock for shipment unless the shipper is identified by at least two responsible parties or is personally known to the railroad agent.

Conservation—Texas (S. J. R. 12, p. 500) proposes an amendment to Article 16 of the State Constitution by adding Section 59, which declares that the conservation and preservation of all the natural resources of the State are public rights and duties, and provides for the creation of conservation districts as bodies politic and corporate. South Dakota passed a number of acts and proposed Constitutional amendments which together constitute a general system of law relating to conservation and incidentally authorize, propose to authorize, or provide for investigating the advisability of the State's engaging in various forms of more or less socialistic activity, such as the development and sale of power, the production and sale of cement, and the operation of coal mines, terminal elevators and warehouses, flour mills and packing houses (pp. 152, 195, 197 and 475). California (513) places the title to all kelp and aquatic plants in the State, and in Chapter (759) declares that the people of the State have a primary and supreme interest in petroleum and natural gas. Three States have appointed commissions for the purpose of investigating the conservation and better utilization of water resources or of controlling waters in floods, Kansas (172), New Hampshire (256) and Utah (37). Washington (117) is a general codification of the existing law relating to waters, and Utah (126) makes special provision for the conservation of underground water with particular reference to artesian wells. Minnesota (441) creates a State drainage commission and amends the drainage laws. General enactments of extensive amendments are made in New Mexico (22), North Carolina (152), Oregon (414), Texas (87) and West Virginia (26) laws which provide for the formation of drainage districts and authorize them to act in co-operation with those of adjoining States were passed in North Dakota (p. 109), Minnesota (442) and South Dakota (p. 110). The South Dakota act disregards county lines, enabling land owners to form drainage districts on geographical lines. In four States provision is also made for the formation and regulation of irrigation districts—North Dakota (p. 18), Oregon (357), South Dakota (p. 425) and Utah (33). South Dakota permits the districts, as in the case of the drainage districts, to be formed regardless of county lines.

South Dakota (235) prohibits the taking of fish and game "in any manner prohibited by the laws of another of such bounding States." The concurrent jurisdiction of the courts and administrative officers of Minnesota, North Dakota and Iowa over all boundary waters between those States and South Dakota is recognized.

Taxation—Among the new laws are those imposing income taxes in Delaware (26), Missouri (p. 524) and North Carolina (231), and proposing a Constitutional amendment authorizing such a tax in South Dakota (p. 193). In Delaware the exemption allowed is $1,000, in North Carolina it is $1,250, and in Missouri it is $3,000 or $4,000, the same as in the Federal income tax law of 1916. New York (726) imposes a "franchise" tax of 3 per cent. upon the net income of manufacturing and mercantile corporations in lieu of the other corporation taxes. It is to be computed upon the same returns as those made for the Federal income tax. The proposed amendments to the Constitutions of two States, Montana (142) and North Carolina (119), are of interest. The former would exempt from taxation evidence of debt secured by mortgages of record on real or personal property. The latter would similarly exempt a mortgage or other evidence of indebtedness for the purchase price of a home if it runs for not less than five nor more than twenty years, if the interest does not exceed 5½ per cent.,

and if the purchase price does not exceed $3,000. A Vermont act (No. 38) authorizes towns to exempt from taxation for a period of five years homes erected after June 1, 1917, at a cost between $800 and $3,000.

An amendment to the Oregon Constitution Article XI, Section 11 (adopted November, 1916), provides that the State or any subdivision thereof shall not, unless specifically authorized by the voters, raise by taxation a sum greater than the amount raised in the preceding year plus 6 per cent. thereof. The effect is to establish a fixed scale of increase in cost of government unless a greater increase is temporarily authorized by popular vote. The tendency toward the creation of a State tax commission for the administration of the laws relating to State taxation and the supervision of local taxation is evidenced by the creation in Kentucky (1), Missouri (p. 542), Nevada (177) and North Carolina (234) of such commissions with varying powers, but all making for the centralization of tax administration. In Washington (54) the office of tax commissioner is created and the duties formerly performed by the State Board of Tax Commissioners are transferred to him. Montana (78) creates a temporary tax and license investigation commission; North Carolina (R. No. 46) creates a special tax commission to report a comprehensive tax plan and to make a study of the practicability of separation of sources of State and local revenue, and New Jersey (J. R. No. 10) reappoints the commission for the survey of municipal financing to study taxation, revenue and expenditures.

Miscellaneous Police Legislation—Mothers' pensions acts have been passed in Missouri (p. 151) applying to counties of less than 250,000, and in Texas (120), Arizona (70), Maine (222) and West Virginia (46) applying generally. The Missouri act provides for women about to become mothers as well as mothers with children. These acts do not require that the mother be a widow, but apply as well where the husband is in a State institution or has deserted her, or is unable to support his family.

Provision for the commitment and care of feeble-minded or criminally inclined persons is made by California (776), Delaware (172) and Oregon (354). North Dakota (p. 12) shows the advance in legislation on feeble-mindedness. Formerly only feeble-minded persons offensive to the public peace could be committed. Now the power is being extended to any feeble-minded person. The danger that such power may be misused is sought to be prevented by Minnesota (209) and California (776), which make the lawful confinement of the feeble-minded a misdemeanor. Segregation of the feeble-minded and insane by removal from other institutions is effected by California (776), Maine (88, 130) and Oregon (151).

Oregon (279) goes far in authorizing a sexualization, and legislation authorizing such an operation under certain conditions or extending the provisions of existing laws relating thereto was also passed in California (489, 776), Kansas (299), Minnesota (344), New Hampshire (181) and South Dakota (p. 277).

Colorado prohibits the growing of Indian hemp, used as a narcotic. Massachusetts (275) forbids the sale of narcotic drugs, except by prescriptions whose issuance and filing are carefully regulated. The same State (232) authorizes the superintendent of a proper hospital to hold a person addicted to the use of narcotics at the request of a police officer, a physician, a wife or husband. North Dakota (p. 201) prohibits the sale of habit-forming drugs and Pennsylvania (No. 282) regulates trade in opium, coca leaves or any derivatives.

The application of the law of nuisance as a means of suppressing an illegitimate use of property is resorted to in Connecticut (362), Montana (95), Ohio (H. 499), which are red-light abatement acts. This method fixes the responsibility on the premises and consequently affects not alone the person doing the objectionable act but also the owner, and provides a well-understood means of enforcement. Maine (155) makes proceedings against such nuisances easier by allowing them to be begun on the petition of seven voters in addition to the prior practice of information by the county attorney. Minnesota (8) adopts the nuisance method for stopping a different sort of abuse, by empowering cities to declare "dense smoke" a nuisance.

The superior right of the public and of the neighborhood over that of the individual owner to limit the use of a property is the basis of the city zoning laws which were passed in three States. New York (483) authorizes cities to district their territory, and to limit the height and size of buildings and the trades which may be carried on in the various districts. New Jersey (54) is substantially the same, but is limited to cities of the first class. California (734) suggests a comprehensive plan by requiring a recommendation of the city planning commission where one exists; (740) puts the resources of the State at the disposal of the cities by directing the State Commission on Housing and Immigration to study housing and city planning and consult with local boards, and (Res. 49) submits an amendment authorizing excess condemnation of real property. General housing codes were adopted in Minnesota (137) and Michigan (S. 70).

The loan shark received attention in six States. In Maine (298) and in Utah (41) the written consent of the wife is required to assignment of wages as security for a loan.

Illinois (H. 926) restricts the exhibition of pictures and books exciting race or religious prejudice, and New York (471) prohibits any act holding up to contempt or ridicule any race or citizen of the State. Discrimination in public places against members of any religious sect or persons of any nationality or public advertisements of such discrimination is forbidden and punished by Colorado (55) and Maine (225); South Carolina (20) requires circuses to have one door for white and one for colored people in their tents.

Michigan (S. 81) regulates the disbursing of gifts as well as soliciting, and authorizes the County Probate Court on the filing of a verified petition by a prosecuting attorney or any citizen to make an inquiry. The act does not apply to religious purposes. Connecticut (409) requires the approval of the Secretary of the State Board of Charities before solicitations for support for any religious or charitable cause may be made, and North Carolina (170) requires licenses from the Board of Charities and public welfare to authorize institutions to solicit funds.

Banking—North Dakota (p. 178) and Washington (81) have established depositors' guarantee funds, and South Dakota (p. 371) extends the benefit of its fund to holders of outstanding exchange. The drawing of checks with fraudulent intent when the drawer has not sufficeint funds or credit to make payment is made a criminal act, usually a misdemeanor, in Iowa (268), Connecticut (396), Maine (95), Illinois (H. B. 55) and Missouri (H. B. 726). Wisconsin (164) makes the same act a felony, and legislation relating to this matter was also enacted in Oregon (914), Nevada (9), New Hampshire (55) and South Dakota (152). Some dozen or more States have made Federal farm loan bonds issued by Federal land banks, and in some instances those issued by Federal joint-stock land banks, legal investments for banks and trust companies. New York (385) provides that trust companies acting in a fiduciary capacity may apportion to any trust which they hold a part of the interest in any bond or mortgage, the remaining interest of which is held by the company either individually or in its representative capacity. Vermont (No. 158) permits a bank to invest in municipal bonds that are legally authorized only thus putting the duty on the bank of determining the legality of the bonds before investing, and authorizes investment in limited amounts of British, French and Canadian bonds, as well as telephone company bonds, and bonds of public service companies secured by a mortgage on their physical property. South Dakota (p. 338) and Pennsylvania (No. 351) make valid all transactions by banks on Saturdays after 12 o'clock noon, but banks are not obliged to keep open.

Education—Two of the features of the legislation relating to education are the promotion of vocational training and the improvement and extension of educational opportunities in rural communities. The first has been stimulated by the Act of Congress of February 23, 1917, offering Federal aid to the States for vocational education. Twenty-nine States have already accepted the provisions of this act.

In the legislation relating to rural education there is a tendency to disregard district or county lines and to provide for such combinations of schools and school districts as will best serve the needs of the communities affected. Examples of such laws are found in Illinois (H. 709), New York (328), Maine

REVIEW OF AMERICAN LEGISLATION OF 1917—*Continued.*

(188), North Carolina (285), Nevada (87), South Dakota (p. 251) and Wisconsin (219). Provision for the free transportation of pupils living at any great distance from schools is made in Indiana (49) and Washington (21), and for part payment of the transportation expenses of normal school students from distant parts of the State in New Mexico (27). The general tendency in regard to school attendance is to make the requirements more strict. Rhode Island (1,492) increases the maximum age from fifteen to sixteen years, and North Carolina (208) increases the maximum age from twelve to fourteen years and the period of attendance from four to six months. The amount of schooling required is also increased in New York (563) and South Dakota (234). North Carolina (192) proposes a Constitutional amendment, increasing the school term from four months to six months. New Hampshire (152) provides that children above fourteen and under sixteen, who have not completed the prescribed course, may, if their educational welfare would be best served by withdrawal from school, be withdrawn upon recommendation of a superintendent of schools, approved by the superintendent of public instruction; and New York (689) provides for the suspension of the Compulsory Education Law in the discretion of the Commission of Education from April 1 to November 1 for the purpose of aiding the food production of farms and gardens. Provision is made for giving credit to pupils who perform the work satisfactorily.

New York (559) requires Boards of Education and School District Trustees within a year to ascertain the number of children under eighteen who are deaf, blind or so physically defective as to be unable to attend regular classes, and (553) makes similar provision in the case of children three years or more retarded in mental development. In each case in districts where there are ten or more such children special classes shall be established and maintained. Pennsylvania (118) authorizes the State Board of Education to provide readers for blind students upon attendance in higher institutions of learning. Oregon (242) authorizes the establishment of parental schools for the discipline and instruction of habitual truants, absentees or school offenders. North Carolina (224) requires the State Board of Education to appropriate annually for two years $25,000 for schools to teach adult illiterates, and New Mexico (88) provides night schools for illiterates when there are ten or more in a district. Connecticut (411) provides a teachers' retirement system, and Idaho (33) and Washington (163) make general provision for the establishment of teachers' retirement funds. New York (303) reorganizes on an actuarial basis the teachers' retirement fund of New York City. Utah (122) declares all public school houses to be civic centres where the citizens may meet and discuss any and all subjects or questions relating to the educational, economic, artistic and other interests of the citizens. The use of libraries is encouraged in North Carolina (149) where county commissioners and boards of education are authorized to co-operate with public libraries to extend library service to rural communities, and in Nevada (185) where provision is made for extending the use of the State library by requiring the publication of a catalogue and the sending prepaid of any book named therein to any resident of the State. Special commissions to make surveys of the educational system, to study the school laws, and to make recommendations for changes therein are provided for in Delaware (186), North Carolina (197) and South Dakota (p. 475).

Health—A deliberative body, a council to make rules, and a single executive, a commissioner, to carry them out are provided in the reorganization of health departments in Connecticut (391) and Maine (197). The latter act expressly provides that the council shall have no executive power. The law regulating vital statistics is amended in Texas (129) by providing that a uniform system of registration, set out in detail in the act, be observed in all counties, and in Iowa (326) the law is revised, an interesting change being that the vital statistics are to be kept in the form approved by the United States Census Bureau. Local sanitation is dealt with by two statutes in California. Chapter 123 changes the local board of health from a powerful body administering the health laws and making rules and regulations to a merely advisory body which the municipalities and counties may appoint at will. The legislative or rule-making power of the board is vested in the local legislative body, its administrative power in the health officer whom the local legislative body must appoint. Chapter 571 authorizes the creation of local health districts by referendum on petition of a specified number of the voters, and authorizes these districts in addition to their general duty of enforcing the health laws to employ nurses and to do whatever is necessary for the health of the people of the district.

The responsibility of the community for the prevention and cure of tuberculosis is recognized by statutes providing for the establishment of county tuberculosis sanitaria or hospitals in Michigan (H. 214), Oregon (82), North Carolina (99), Tennessee (121) and Vermont (96). New York (469) requires counties of a certain population to erect such hospitals. Indiana (149) requires physicians to report cases of tuberculosis to the local health officer and through him to the State Health Officer. In Oregon (142) all contagious diseases must be reported; Kansas (205) authorizes the State Board of Health to make rules for quarantining the communicable diseases which it designates. North Carolina (263) requires reports of certain specified communicable diseases and of others when required by the State Board of Health.

In New Jersey (232), after requiring reports from physicians and institutions treating and even from individuals selling remedies for certain diseases, a law authorizes the commission to quarantine and treat cases as it deems necessary to protect the public. Wisconsin (235) requires the board to commit a person so afflicted who refuses treatment, and to provide treatment. Both States provide bacteriological examinations and tests and authorize supplying remedies under State auspices. Maine (301) applies the principle to State and State-aided institutions, requiring cases to be reported and to be treated. Persons under treatment may even be held after the expiration of their sentence till discharge is possible without danger to the public health.

Fee-splitting is prohibited under penalty in Colorado (74), Minnesota (365), South Dakota (p. 204), Tennessee (110) and West Virginia (52).

A provision requiring the registration of persons or laboratories handling or cultivating live pathogenic germs and forbidding the sale or conveyance of such germs without permission of the State Health Commissioner is in New York (411). Hospital care organized by employers for their employees is regulated by two statutes in Oregon. Chapter 173 requires these funds to make a report to the Insurance Commissioner, who has a right to examine them. This act applies to any corporation or person agreeing with any other person or "employer" to furnish medical or burial service. Chapter 393 regulates hospital funds directly operated by the employer and gives to the commission a certain supervision over the medical service and the amount deducted from wages.

SCIENTIFIC PROGRESS IN 1917.

BY CHARLES H. HUGHES.

IN GENERAL.

The effect of the European War and the drawing of the United States into it, has largely curtailed progress in matters that do not bear directly on the war This applies to such subjects as archaeology, geology and astronomy, while many important chemical. mechanical and electrical inventions and discoveries have not been made public for military reasons In the chemical field, there has been an urgent need for securing of ample supplies of nitrogen, nitric acid and other materials that are required either directly or indirectly in the manufacture of explosives. Also the production of potash, which is extensively used as a fertilizer. Among the sources from which potash is obtained are seaweed, from distilleries using molasses and from feldspar. Satisfactory progress has been made in the manufacture of dyes, and in many cases the United States is now independent from foreign countries. In 1914 there were but five companies making aniline dyestuffs, while in 1917 there was reported upward of fifty. As to mechanical and electrical fields, in the former may be included inventions pertaining to submarines and flying machines, particularly the development of improved engines. From a purely business standpoint, the sinking of the large number of ships by submarines has lead to exceptional activity in shipbuilding and allied trades. It should also be noted that many waste or at one time useless products are now being utilized. For example, the use of horse chestnuts instead of maize was made the subject of a special appeal by the Food Committee of the Royal Society (Great Britain). It is estimated that one ton of chestnuts is equivalent to half a ton of maize. In the United States various societies and organizations have been formed for conserving the national resources and preventing waste in food, coal and other products.

ARCHAEOLOGY.

An archaeological survey of the American Virgin Islands was made by a member of the Museum of the American Indian. Excavations at pre-Columbian village sites showed that the Indian inhabitants of the Virgin group did not belong to the same race as the aboriginal inhabitants of Porto Rico

The excavation of one of the finest and best preserved examples of prehistoric Pueblo architecture was outlined in the American Museum Journal for February. The ruin is in Animas Valley, northwestern New Mexico, a few miles below the Colorado boundary.

The skeleton of a mammoth associated with flint implements was discovered near Bapaume, within the lines of the British Army in France.

Prof. V. C. Baur of Yale University completed a catalogue of the R. D. Stoddard collection of Greek and Italian vases.

A bell, which is believed to have been brought over from Spain more than 200 years ago, was unearthed on a farm at Yuma, Ariz.

An extraordinary find of historic pottery and relics was made by members of the American Museum of Natural History, at Aztec, New Mexico.

The E. B. Cox Jr. Expedition to Egypt continued excavating the palace of Merenptah. At the present rate of progress it is estimated that it will take about seven years before the palace is completely uncovered.

Dr. A. Hrdlicka of the United States National Museum completed his researches on the antiquity and origin of man in America. Geologically ancient man antedating the Indian has not as yet been found on the American continent, though often reported, and there is but little possibility that even the Indian has been on the American continent more than a few thousand years.

An expedition to the Far East, under the auspices of the University Museum, Philadelphia, Pa., left early in 1917 to pursue archaeological research in China. A special study will be made of Chinese art.

An ancient temple of the New Mexico Pueblo Indians was explored by Dr. J. W. Fewkes of the Smithsonian Institution, Washington, D. C.

Mr. N. M. Judd of the United States National Museum carried on extensive work for the Interior Department in repairing the Betatakin ruin on the Navaho National Monument in Arizona, and explored ruins in western Utah, ascertaining that there is a relationship between these ruins and those of other house building peoples in the southwest.

The most important work of the year undertaken by the Somerset Archaeological Society, Somerset, Eng., was the completion of the report on the excavation of the Lake Village at Glastonbury.

Dr. W. Hough of the United States National Museum completed researches on a remarkable ancient village near Luna, Socorro County, New Mexico. The village covered thirty-one acres and was found to consist of circular houses constructed underground. The results of the work seem to indicate doubt that the former inhabitants were affiliated with the Pueblo Indians.

While excavating at Horncastle, Eng., a human skeleton, an iron sword and two spears were discovered, which are believed to relate to an early Teutonic invasion of Lincolnshire.

The University of Pennsylvania issued as Volume VII., No. 1 of the series of anthropological publications, an account of the excavation of the cemetery of Pachyamnos, Crete

ASTRONOMY.

The Harvard College Observatory Bulletin announced that from an examination of photographs taken with the ten-inch Metcalf anastigmat the asteroid (129) Antigone was found to be variable, with a range of about .4 magnitude and period of two to three hours.

A new catalogue of stellar parallaxes was published by the British Astronomical Association. The stars are grouped according to spectral types.

Remarkable features of the eclipse of the sun took place on December 13th. The centre line of the eclipse passed through the south pole of the earth.

Lick Observatory acquired a new spectrograph for observations in the ultra-violet region of the spectrum. With the spectrograph a number of new ultra-violet lines have been found.

On July 4th there was a total lunar eclipse. Prof. E. C. Pickering announced an interesting discovery which followed from a series of photometric observations of the light of Uranus. The observations revealed a variation in the light of the planet amounting to about .15 magnitude in a period of .451 day, these figures being based upon 2,960 settings.

A new and rapid method of measuring stellar distances was devised at Mount Wilson Observatory. The method is based on the numerical relationship between the absolute magnitudes of stars and the relative intensities of certain lines of their spectra.

Novel arrangements were made for time signals at the Hector Observatory, New Zealand. The time signals are given by three electric lights mounted vertically on the observatory flagstaff.

The Nautical Almanac Office at the United States Naval Observatory, Washington, D. C., issued a supplement on the total eclipse of the sun that will take place June 8, 1918.

A catalogue of double stars discovered visually since 1905 was published by the Royal Astronomical Society.

New comets were discovered on March 20 by Mr. J. E. Mellish (1917 a Mellish), Leetonia, O., and on April 25 by M. Schaumasse (1917 b Schaumasse) at the Nice Observatory.

The fourth annual conference of the Society of Practical Astronomy was held August 16-18 at the University of Chicago.

A partial eclipse of the sun was visible on June 19 over nearly the whole of the western part of British America, the larger part of Russia and Siberia, and the entire north pole region.

The Smithsonian Institution, Washington, D. C., established a station for the study of solar radiation on Hump Mountain, near Elk Park, North Carolina.

The Yale tables of the moon's motion were completed by Prof. E. W. Brown.

An interesting paper by Dr. H. H. Clayton, based upon results of the Astrophysical Observatory, was published by the Smithsonian Institution. The author shows that the short interval solar variations discovered in Mount Wilson work, affect

terrestrial temperatures and pressures the world over in a well marked and predictable manner.

The long research on the absorption of terrestrial radiation by vapors of the atmosphere, which Mr. Fowle has been engaged on for several years will be continued in 1918.

The discovery of a new star on July 10 was announced by Prof. Pickering. The star is very faint being the 14th magnitude, and is situated in the nebula N G C 6 946.

On July 4, three remarkable meteor falls occurred. Two fell at Colby, Wis., and one about three miles from Cornell, Wis. The two at Colby have been recovered, one weighed eighty and the other two hundred pounds.

CHEMISTRY.

The estimation of toluene in crude petroleum was the subject of a paper read before the Institution of Petroleum Technologists in May. It was pointed out that while the process of cracking increases the percentage of aromatics in the oil, there is a serious loss of oil by carbonization.

Monomet, a new photographic developer, was described in the British Journal of Photography for January 5. Monomet takes the place of metol, formerly obtained from Germany.

The United States Bureau of Standards discovered the secret of making chemical porcelain commercially, thus the United States is now independent of foreign markets.

A plant for obtaining nitrogen from the air was erected in Manchester, Eng. Although electric means are used, yet the temperature and the amount of electric current required are less than in other methods heretofore tried in England.

The United States Bureau of Mines reports that by fusing radium barium sulphates having a considerable proportion of silica, with a mixture of caustic soda and sodium carbonate, all of the barium and sodium are converted into carbonates. The reaction takes place at a low temperature, and the difficulties of fusing with sodium carbonate alone are eliminated.

A new method of separating zinc from cadmium was outlined in a paper read before the American Chemical Society. The separation consists in crystallizing the zinc out as zinc sulphate or zinc ammonium sulphate.

Experiments on wood oils were conducted at the Forest Products Laboratory, Madison, Wis. It was found that by hydrogenation that wood oils could be improved and their color changed, yet by so doing there was no marked change in the physical or chemical properties of the oils.

A large plant for the manufacture of alcohol from calcium carbide was erected in Switzerland.

The Bureau of Chemistry, Department of Agriculture, Washington, D. C., perfected on a laboratory scale a process for the manufacture of phthalic acid and phthalic anhydride. The bureau also carried on important work on lead arsenates.

A new acid sodium phosphate was described by Dr. J. H. Smith in the Journal of the Society of Chemical Industry, Vol. XXXVI., No. 8, which is notable as having a very energetic corrosive action upon glass, porcelain, nickel, platinum and silica.

M. Vincent, Director of the Laboratory of Finistère, France, discovered an improved process for abstracting iodine direct from sea weed.

According to a bulletin of the Siberian Engineers' Society on the platinum fields of the Nizhni-Tagilsk Mining Circuit, the first experiments on the extraction of platinum from dunite were made in 1917.

Dr. A. Carrell, in conjunction with Dr. H. D. Dakin, has evolved an improved method for treating infected wounds, by using a definite hydrochlorite solution. The method has been further developed by the Electro Bleaching Gas Company, New York.

A paper on the Vapor Pressure and Volatility of Several High Boiling Metals was read at the fifty-fourth meeting of the American Chemical Society, Kansas City, Mo. Formulae were given by which the vapor pressure at any temperature can be calculated.

Satolite, a new celluloid product, was invented by Mr. S. Sato of the Sendai University. Satolite is a galalith made of glueine of soya bean coagulated by formaline.

An improved method for the recovery of salts of potassium and aluminum from mineral silicates was outlined in a paper presented at the Buffalo meeting of the American Institute of Chemical Engineers in June.

GEOLOGY.

South Georgia Island offers instructive evidence on the geological history of the South Atlantic. From a paper by Mr. D. Ferguson, published by the Geological Department of Glasgow University, it seems that the evidence is against rather than in favor of the view that South Georgia belongs to an Andean loop, for the igneous rocks are of the alkaline or Atlantic and not of the Pacific type.

The military geography of the United States is to be presented in a series of handbooks, which the United States Geological Survey will publish at the request of the National Research Council.

A report on the Thrall oil field of Texas was published by the Bureau of Economic Geology of the University of Texas. The field is unique for the United States, as the greater part of the production comes from a metamorphic chlorite derived from a basic igneous rock.

The corrosive action of certain brines in Manitoba, Canada, is discussed in Volume XXV., No. 5, of the Journal of Geology.

In July, Mr. E. Andersson of Upsala, Sweden, lead a geological expedition to Spitsbergen. The main object is to continue the investigation of the Trias and to collect saurians and fishes. The occurrence of phosphorite at Cape Thordsen will be investigated as well as the extent of the coal beds at Pyramid Hill and Bunsowland.

The United States Geological Survey reports that the following important papers were published: (1) Hydraulic Mining Debris in the Sierra Nevada, by G. C. Gilbert, a masterly exposition of an engineering nature and the bearing of geologic data on its solution. (2) The Inorganic Constituents of Marine Invertebrates, by F. W. Clarke and W. C. Wheeler, in which is found data shedding much light upon the chemistry of marine sediments. (3) The Coal Fields of the United States, by M. R. Campbell, with a map, wherein it appears that within 3,000 feet of the surface there are available 3,538,554,000,000 tons of coal.

A paper on The Age and Stratigraphic Relations of the Olentangy Shale of Central Ohio, with remarks on the prout limestone and so-called Olentangy Shales of Northern Ohio, was published in the Journal of Geology, Vol. XXV., No. 4.

The Italian Royal Geological Commission presented its report to the Government. The commission recommends that immediate steps be taken to enable the Reale Ufficio Geologico to accelerate the preparation and publication of the geological map of Italy.

A paper on the Geology of the Province of Yunnan in Western China was published in the records of the Geological Survey of India.

Dr. E. O. Hovey returned to the America Museum, New York, after an absence of two years in the Arctic with the Crocker Land Expedition. While in the North Dr. Hovey carried on a valuable series of observations on the action of glaciers and the sea ice, and on the geology of Parkersnow Bay and the vicinity of Cape Parry.

The origin of the deposits of sand found on the Island of Sansego and other islands off the Istrian Coast is discussed in Rendiconti del R. Instituto Lombardo.

Devil's Lake, Wisconsin, has long been used as a field of instruction in geology in the Middle West of the United States. A history of the lake basin, its past and present sources of supply, and outlets once established, but now abandoned, was published in Volume XXV., No. 4, of the Journal of Geology.

A report was issued by the Rhodesian Geological Survey on the geology and minerals of Rhodesia.

ENGINEERING.

The monumental portal at the New York end of the Manhattan Bridge over the East River was completed. The portal is one of the most elaborate and expensive in the United States, costing with the approaches nearly $1,000,000.

Lake Washington Canal, which is entirely within the city limits of Seattle, Wash., was officially opened on July 4. The canal is about eight miles long and extends from Puget Sound to the west shore of Lake Washington.

SCIENTIFIC PROGRESS IN 1917—*Continued.*

The building of the sixteen cantonments in the United States to house about 650,000 soldiers is worth noting.

Work was started on a large graving dock at Norfolk, Va., which will be 1,000 feet long, 110 feet wide, with a depth of water of 43 feet 6 inches over the sills This dock will not be as large as the one completed in 1917 at Levis, Quebec, Can which is the largest in the world, it being 1,150 feet long, 120 feet wide and 45 feet deep

The first section of the new Chesapeake and Ohio Northern Railroad was opened in August from Limeville, Ky., to Waverley, O., including the new bridge across the Ohio River The bridge is 3,450 feet long, the two principal spans being 775 feet each

In September the 640 feet by 88 feet wide center span of the Quebec Bridge over the St. Lawrence River was hoisted from barges into place The lifting was started on the 17th and the span was bolted to the other bridge members on the 20th

About $10,000,000 worth of work was placed under contract in November as part of the $25,000,000 flood prevention project of the Miami Conservation District, Dayton, O.

What is probably the largest task of reservoir bottom sealing ever attempted has been undertaken at Seattle, Wash. The reservoir to be sealed has an area of about 200 acres.

The foundation work for the new power station of the Union Gas and Electric Company, Cincinnati, Ohio, was completed. Upward of 50,000 cubic yards of concrete was placed, which included huge concrete cylinders weighing 6,000 to 7,000 tons apiece.

A large sewer 11,800 feet long was completed at Richmond, Va. The sewer will greatly improve the sanitary condition of the city, besides reclaiming a large area of waste land along the James River.

The Mississippi River lock at St. Paul and Minneapolis was opened for traffic July 3d, and the head of navigation extended from St. Paul to Washington Avenue Minneapolis, a distance of thirteen miles

The first concrete block, forming a part of a new breakwater, for the harbor of Valparaiso, Chile was placed in position in February. The breakwater and other harbor improvements call for an expenditure of $12,000,000, and the work will not be completed before 1919

In the erection of the 1,120-foot cantilever bridge across the Ohio River at Steubenville, O., locomotive cranes were used exclusively. This is the first time on record that a large cantilever bridge was erected entirely by locomotive cranes.

Two coal piers, both representing radical departures from any yet built, were put in operation in Baltimore, Md. One, a combination of four-ton cable cars and travelling loaders, has a capacity of 1,500 tons per hour, which can be increased by adding more cars, and the other consists of a system of belt conveyers and travelling towers, which have a total capacity of 7,000 tons per hour.

RELATION BETWEEN WEIGHT OF CLOTHING AND CHILDREN'S HEALTH.

(By Prof. J. P. Crozier, of the University of Pennsylvania, in the New York Medical Journal.)

I have had made a series of weighings of infants and young children up to the age of five years, dressed in what might properly be denominated average clothing. The weighings were conducted by Miss M. Morris, the nurse in charge in the out-patient department of the Children's Hospital, of Philadelphia. Each child was weighed with clothing, after the removal of hat, overcoat, and the like, and then was weighed again undressed, the difference giving the weight of the clothing worn. The average age at which the long clothes of early infancy were discarded appeared to be about three months, some retaining them until four or four and one-half months. This fact explains to a large extent the much higher ratio of the weight of the clothes to the gross weight observed before this period. The total number of subjects examined was 222. The season of the year was the autumn and winter, at which time the clothing would of necessity be somewhat heavier than that in summer, and a weighing at each season would have been of advantage. The difference, however, is not sufficient to affect the results very greatly. As average results were sought for, children who to the experienced eye were evidently much underdressed or overdressed were weighed, as were the others, and the results recorded, but placed in a separate list, and are not included in the calculations. The number of these thus excluded was twenty-eight, leaving a total of 194 upon whose weight the final estimations are based.

The children represent fairly the poorer and middle classes, and the weight of the clothing was probably much the same as in the large majority of the upper classes. The prevailing fashion among some of the latter of dressing their children very scantily even in winter would affect the average to some extent as applied to these. The children were for the greater part in fair physical condition. Yet they were not entirely well, or they would not have visited the hospital, and in many cases they were very decidedly under weight. This would, of course, influence the ratio between the weight of the clothing and the gross weight, but would not affect in any way the absolute weight of the clothes. I have calculated, therefore, not only the ratio which the average weight of the clothing bore to the average gross weight of the subjects examined, but, of much more importance for us, the ratio of the weight of the clothing to the gross weight of the normal child. These latter figures, involving the weight of the normal child, have been obtained in the following manner: Average net (nude) weights for the different months and years of infancy and early childhood were adopted after the comparative study of the statistics of various investigators upon the subject. The data need not be entered upon now. The mean gross weight for any given period was then obtained by adding the net weight for the beginning and end of the period and dividing it by two, and then adding to this the average weight of the clothing for this period as determined from my weighings. Thus, for example, for the period from nine to twelve months the mean gross weight would equal one-half of the sum of the net weight for nine and for twelve months, respectively, plus the average weight obtained for the clothing from nine to twelve months, but not including the latter. The following table gives in convenient form the number of cases of each age studied, the average gross weight of the subjects, the average weight of the clothing, the ratio between these, the gross weight of the normal dressed child, and the ratio of the weight of the clothing to this:

The mean weights as deduced in the first table for the normal, clothed children are assigned in this connection to the boys, although this is not strictly correct, and the girls are assumed, as is generally done, to be at this period about one pound lighter. The ratios are then determined by dividing the average weight of the clothing for the sex by the average net weight of the child plus the weight of the clothing. The results are shown in the following table:

CRIMES AND

COMPILED FROM THE CODES OR REVISED STATUTES OF THE

WITHIN the limits of the subjoined table showing the penalties prescribed by the respective States for the offences enumerated it is impossible to attain complete accuracy in comparing the several penalties, for the reason that the provisions of the several States defining these very familiar crimes are not identical. Especially is this true in regard to crimes classified in degrees, some States making but little attempt in that direction, leaving it to the discretion of the trial court to adapt the severity of the punishment to the gravity of the offence, while other States provide a minute classification into degrees, depending on the several possible circumstances attending the commission of the crime. Where no penalty is shown under a given degree of crime the State recognizes but one designation, namely, that of the crime committed.

Murder in the First Degree—in the table below—may be generally defined to be the unlawful intentional and premeditated killing of a human being, or such a killing resulting from the commission or attempt to commit one of the graver crimes, such as arson, burglary, rape, or robbery.

Murder in the Second Degree is such a killing without premeditation, or resulting from the attempt to commit some lesser crime.

Manslaughter may be defined as a killing either unintentionally resulting from the careless or unlawful doing of some otherwise lawful act or from the commission of some unlawful act of comparatively trivial character, or intentionally, in the heat of passion and without premeditation.

Arson—where classified in degrees—though the number and exact definition of degrees varies greatly—is in general classified with reference to two conditions. First, the character of the building burned, whether a dwelling house or structure likely to or containing a human being; and, second, whether the crime is perpetrated by day or night. Thus the most serious offence is the burning of an inhabited dwelling by night, and the least serious, the burning of an uninhabited structure by day. Often intermediate degrees are recognized, such as burning a dwelling by day or an uninhabited building by night.

THEIR PENALTIES.

SEVERAL STATES AS AMENDED BY SUBSEQUENT LEGISLATION.

Burglary—The classification of burglary or house breaking depends on substantially the same elements as that of arson—namely, the building entered, whether a dwelling or other building, and whether the offence was committed by day or night.

Robbery may be generally defined as the theft of property from the *person or immediate presence* of the victim, accomplished by force or fear. Where degrees of robbery are recognized, the distinction is generally determined by whether the thief be armed or unarmed, though some States also distinguish the second from the first degree, where the theft is accomplished by means of threats of future rather than immediate injury.

Grand Larceny is simple theft, of property above a fixed value, generally $25 to $50—most States also classify as grand larceny theft of property from the person of the victim, irrespective of value, though, of course, accomplished without the force or fear which constitute the crime of robbery.

Assault with intent to kill, bigamy, forgery, perjury and rape are not subdivided into degrees in the subjoined table.

Where crimes are divided into several degrees it is generally within the province of the jury, in convicting, to fix the degree of the crime, and in almost every case in which a crime is punishable by death or imprisonment it is the province of the jury to determine the punishment, except upon a plea of guilty, when the duty devolves upon the court.

Where the classification of a crime in a particular State does not approximately agree with the definitions given above, note is made of the fact.

NOTE—In the table below, after the figures given, "years" is understood, unless otherwise stated. Where two figures are given, separated by a dash, as 1—7, the provision should be understood as "not less than one year nor more than seven;" where a sum of money is given in the table the provision should be understood as meaning a fine of not exceeding the sum mentioned.

MARRIAGE AND DIVORCE LAWS—*Continued.*

(a) Marriage confers right to contract for necessaries. Female retains exclusive control of her separate property. (b) In Delaware there is no provision in the law fixing a minimum age below which marriage cannot be contracted even by parental consent, so that so far as the statutory law is concerned male minors under twenty-one and female minors under eighteen may be married with parental consent, no matter how young they be. The marriage of male under 18 years if not confirmed by him after that age is a ground for divorce at his suit; the marriage of a female under 16 years if not confirmed by her after that age is a ground for divorce at her suit. (c) Except for necessaries and contracts made by infant under authority of statute, as contracts under license to trade, bond of infant executor, contracts of apprenticeship in accordance with statute relating thereto. (d) Infants' contracts for necessaries are binding. (e) Either party may disavow a marriage contracted under sixteen years of age, on arriving at that age. (f) Under section 16 of the New York Domestic Relations Law, when the man is under twenty-one or the woman under eighteen the recording officer must require the written consent from both parents. Section 7 of the same law provides that a marriage is *voidable* if either party is under the age of *legal* consent, which is eighteen years. Section 1742 of the Code of Civil Procedure provides that a woman may bring an action to annul a marriage where, at the time she was married under the age of sixteen and has not cohabited with the spouse since she attained the age of sixteen years. Section 1743 of the code provides that a marriage may be annulled either as to the male or the female where at the time of the marriage they had not reached the age of legal consent. (g) In Pennsylvania persons of either sex who have not attained legal age, or twenty-one years, may obtain a marriage license upon the written consent of parents or legal guardians of such minor. The marital contract is a civil contract. It can be made at any age, but if a promise of marriage is made by a minor, whether male or female, under twenty-one years of age, it may be repudiated when the minor attains majority. Contracts made by minors cannot be enforced at law unless the minor when he attains his or her majority assumes the prior obligation. (h) A minor may contract for necessities. (j) No limit. (k) If husband an adult, in certain cases, generally 21 years, however. (m) Full contractural rights.

DIVORCE STATISTICS.

The number of divorced persons in the United States when the census was taken in 1910 was 156,176 men and 185,101 women—0.3 per cent. of the total male population and 0.4 per cent. of the total female population. There were fourteen boys and thirty-three girls less than fifteen years old who were divorced.

The statistics of the number of divorced persons fifteen years old and over in New York State are: Men—Native white of native parentage, 3,784; native white of foreign or mixed parentage, 1,692; foreign-born white, 1,775; negro, 164; total, 7,436. Women—Native white of native parentage, 4,950; native white of foreign or mixed parentage, 2,347; foreign-born white, 2,609; negro, 292; total, 10,227. The total figures for the males include 18 divorced Indians, 2 Chinamen and 1 Japanese; those for females include 28 divorced Indians and 1 Japanese.

ADMINISTRATION OF DECEASED PERSONS' ESTATES.

These statutes have been revised for THE ALMANAC by one of the largest law firms in New York City making a specialty in their practice of the inheritance laws. All the data has been carefully brought up to date.

INHERITANCE TAX LAWS.

THE following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person.

1. Who to Administer.—(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First—To the surviving husband or widow

Second—To one or more of the next of kin entitled to share in the estate.

Third—If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors.

In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.—The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details. Most of the States direct a final closing of the estate by the executor or administrator within a year or eighteen months after his appointment, though the time limit may be extended by the Probate Court if conditions require it.

3. The following table contains an analysis of the laws of the several States, covering:

(1) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States. In the great majority of the States no distinction as to tax is made between real estate and personal property.

(2) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE.

THE following is a synopsis of the laws of the various States providing for the distribution of the personal estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from $100 to $500, before the claims of creditors are paid. Aside from such exempt portion of the estate, the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ from those of a wife in the estate of her deceased husband, which will be shown in a separate table.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here.

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Jersey, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow nor descendants (given below); Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine, Maryland, Missouri, Montana, Nebraska, Nevada, North Carolina, Oklahoma, Rhode Island, Texas, Washington, West Virginia and Wisconsin.

(c) In Massachusetts, North Dakota, Pennsylvania and Utah the widow takes the entire estate up to $5,000 and one-half of the residue.

(d) In Connecticut the widow takes the entire estate up to $2,000 and one-half of the residue.

(e) In New York, if there be a father or mother of deceased surviving, the widow takes one-half; if there be no father or mother, but a brother or sister, nephew or niece surviving, the widow takes $2,000 and one-half residue; if there be no parent, brother, sister, nephew or niece, the widow takes all. The residue after the widow's share passes in each case in accordance with the provisions applying where no widow or issue survive.

(f) In New Hampshire the widow takes $1,500, and, if the estate exceeds $3,000, one-half of the residue.

(g) In Wyoming the widow takes the entire estate up to $20,000 and three-fourths of the residue (if brother, sister or parent survive, otherwise all to widow).

(i) In Michigan the widow takes the entire estate up to $3,000 and one-half of the residue (if brother, sister or parent survive, otherwise all to widow).

(j) In Vermont the widow takes entire estate if not exceeding $2,500; if more than $2,500, widow takes that sum and one-half of residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio (one-half if less than $400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia and West Virginia.

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho, Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky, Oregon, Washington and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Tennessee and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-third and the children the residue; if there are three or more children, the widow takes the same share as each of the children.

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

In Nebraska if widow is not the parent of all the children of the deceased and there be more than one child, widow takes one-fourth and children the residue. If widow is parent of all children of the deceased, she takes one-half if there be but one child and the child the residue; if there be more than one child the widow takes one-third and the children the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Colorado, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, North Carolina, Oklahoma, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally; and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, New York, Oregon, Rhode Island, South Dakota, Tennessee, Virginia, and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to

the mother, and if both parents are dead, then to the brothers and sisters of their descendants: Arkansas, District of Columbia and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally: Georgia, Illinois, Mississippi, Missouri, New Jersey and South Carolina.

(e) In Delaware, Ohio and Maryland (where the property did not descend to intestate from either parent), the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia, North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, if there are no children or descendants of children, the husband takes the entire estate.

(c) In Florida, Georgia, and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants, they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants, taking the residue.

(f) In North Carolina, where surviving husband is not also the father of all the children of decedent, if there be one child the husband takes one-half and the child one-half; if there be more than one child, husband takes child's share.

ACKNOWLEDGMENT OF DEEDS.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer. Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public, Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers, Masters in Chancery, Court Commissioners, Town Clerks, Mayor and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal. FORMS are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana. SEPARATE ACKNOWLEDGMENT by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas. ONE WITNESS to the execution of deeds is required in District of Columbia, Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. TWO WITNESSES to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana, Michigan, Minnesota, New Hampshire, Ohio, Oregon, South Carolina, Texas, Vermont, Wisconsin.

PROMISSORY NOTES AND CHECKS.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features. The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself.

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain.

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated, that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity.

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A bona-fide holder of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to

hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument Law: Alabama, Arizona, Colorado, Connecticut, Dist. of Columbia, Florida, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Virginia, Washington, and Wisconsin—and the same general rules apply in all the States.

LAW OF CONTRACTS.

A contract is an agreement of two or more parties by which reciprocal rights and obligations are created. One party acquires a right, enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration without fraud and for a lawful purpose, are enforceable at law.

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered.

2. There must be a consideration. Something of value must either be received by one party or given up by the other.

3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him unless ratified after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished. It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.

4. The party's consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.

5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto.

Contracts in general are equally valid whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable. Some of the provisions, which are adopted from the old **English Statute of Frauds**, vary in some States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof.

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage, except mutual promises to marry.

Promise of an executor or administrator to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value, unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from $30 to $200. In a number of the States no such provision exists.

In many of the States declarations or conveyances of trust estates.

In many States representations as to the character, credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain the parties may agree upon a sum to which either may be entitled as compensation for a breach, which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded.

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy, except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse.

ARREST IN CIVIL ACTION.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing in it actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander, or the like.

In the following States no civil arrest is allowed: Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, Tennessee, and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut: for fraud, libel, slander, or violent injury to person or property, Delaware; for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud, or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, and New York (also for fine or penalty or to recover property concealed from Sheriff).

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer, or remove his property to avoid plaintiff's claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky, Louisiana, New Hampshire, Utah, Virginia. In New Hampshire tax collector may also arrest person for non-payment of poll tax if not sufficient property upon which to make distress.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical: Arkansas (fraud only), California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey, North Carolina, North Dakota, Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin.

In Georgia arrest only allowed against attorneys, Sheriffs or other officers of the court for failure to pay over money collected and certain circumstances against defendant who conceals property from Sheriff. The drawer of a check on which, on presentation to the bank, payment is refused is guilty of a mis-

demeanor. Criminal prosecution cannot be instituted, however, until after an expiration of thirty days, and not then if the drawer makes good the invalid check.

In Wyoming (only after judgment) in actions for fraud, or money lost at gambling, or where defendant has removed or concealed property to avoid judgment.

In Rhode Island, allowed in all actions except to recover debt or taxes.

In Ohio, when an affidavit is filed showing: About to remove property to defraud creditors, convert property into money for same purpose, conceal property or rights in action fraudulently, assigned or disposed of property with intent to defraud creditors. Fraudulently contracted the debt, or incurred the obligation. Money or property sought to be recovered was in gambling on a bet or wager.

WILLS.

A WILL OR TESTAMENT is a final disposition of a person's property, to take effect after his death. A codicil is an addition or alteration in such disposition. All persons are competent to make a will except idiots, persons of unsound mind, and infants. In many States a will of an unmarried woman is deemed revoked by her subsequent marriage. A nuncupative or unwritten will is one made *orally* by a soldier in active service, or by a mariner while at sea.

In most of the States a will must be in writing, signed by the testator, or by some person in his presence, and by his direction, and attested by witnesses, who must subscribe their names thereto in the *presence* of the testator. The form of wording a will is immaterial as long as its intent is clear.

AGE at which persons may make wills is in most of the States 21 years. Males and females are competent to make wills at 18 years in the following States: California, Connecticut, Idaho, Montana, Nevada, North Dakota, Oklahoma, South Dakota, Utah and the Hawaiian Islands; and in the following States only females at 18 years: Colorado, District of Columbia, Illinois, Maryland, Missouri, Washington, Wisconsin.

In the following States persons of 18 years may dispose of personal property only: Alabama, Arkansas, Missouri, Oregon, Rhode Island, Virginia, West Virginia; in Georgia any one over 14 years and in Louisiana any one over 16 years is competent to make a will. In Colorado, persons of 17 years, and in New York males of 18 and females of 16 years may dispose of personalty. WITNESSES—Most of the States require two witnesses, except in Connecticut (3), Maine (3), Massachusetts (3), New Hampshire (3), South Carolina (3), Vermont (3).

THE BRITISH PARLIAMENT.—(See footnote.)

THE supreme legislative power of the British Empire is, by its Constitution, vested in Parliament. This body consists of two houses, the Lords and the Commons.

THE HOUSE OF LORDS.

The House of Lords is composed of the whole Peerage of England and of the United Kingdom, and of certain representative Peers of Scotland and Ireland, but many members of these latter have also English titles which give them seats in the House. The Duke of Buccleuch sits as Earl of Doncaster, and the Duke of Leinster as Viscount Leinster. The House at present consists of 3 Princes of the Blood, 2 Archbishops, 21 Dukes, 26 Marquises, 121 Earls, 46 Viscounts, 24 Bishops, 356 Barons, 16 Scottish Representative Peers elected for each Parliament, and 27 Irish Representative Peers elected for life.

The Lord Chancellor of England is the Speaker of the House of Lords.

The population returns are from the official census of Great Britain and Ireland taken in the Spring of 1911. The total population of the United Kingdom, a month before the outbreak of war, was officially estimated at 46,089,249. The number of persons to the square mile was in 1911: England, 618.0; Scotland, 156.5; Ireland, 135.6.

FOREIGN DIPLOMATS DISMISSED FROM UNITED STATES.

CITIZEN GENET, sent here in 1793, after the execution of Louis XVI. by the French Committee of Safety, tried to commission privateers here to prey on British commerce, besides making inflammatory speeches. Thomas Jefferson asked for his recall.

The Marquis of Casa Yrujo, Spanish Minister in 1805, attempted to bribe a Philadelphia editor to favor Spain in a controversy with the United States. He was handed his passports.

F. J. Jackson, British Minister, was recalled because he tried to arouse feeling against the United States by circularizing British Consuls, in which he accused the American Government of bad faith in 1809.

In 1849 M. Poussin, French Minister, because of insolence to the American Secretary of State, was recalled.

For enlisting soldiers for the Crimean War in 1855 British Minister Crampton was recalled and the exequaturs of three British Consuls were cancelled.

In 1888 passports were handed Lord Sackville-West, who, in response to a decoy letter, advised Americans of British birth to vote for Grover Cleveland for President.

The Spanish Minister, Dupuy de Lome, wrote disrespectfully of President McKinley to a friend in Cuba, for which he was dismissed in 1898.

During President Taft's term passports were handed to the Nicaraguan Chargé d'Affaires, Mr. Rodrigues, to protest against the judicial murder in Nicaragua of two Americans.

The Turkish Ambassador, Rustem Bey, whose criticisms of the United States aroused so much discussion in 1914, left this country in October of that year "on leave of absence."

Recall of Dr. Constantin Theodor Dumba, Austrian Ambassador, was requested by United States in September, 1915, as a result of his attempts to cripple American industries.

Formal announcement was made by Secretary of State Lansing on December 3, 1915, that Germany had been requested to immediately recall Captain Boy-Ed and Captain von Papen, the Naval and Military Attachés respectively, on account of what the United States Government considered improper activities in military and naval matters.

* Land and water included in area. †Alberta and Saskatchewan were erected into provinces in 1905. By the Extension Act of 1912, the area of Ontario was increased by 146,400 square miles, Quebec by 354,961, and Manitoba by 178,100.

High Commissioner in London, England, Sir George H. Perley.

The Dominion of Canada has an area of 3,729,665 square miles (excluding the Hudson Bay, the Gulf of St. Lawrence and all tidal waters) and comprises one-sixteenth of the land surface of the globe. It is the largest of all the British possessions, Australia, the next in size, containing 2,946,691 square miles. The Government of Canada is federal, centred at Ottawa, which city is the capital of the Dominion, while the provinces have their respective local Legislatures. The head of the Federal Government is the Governor-General, appointed by the King of Great Britain, and holding office for five years, his salary being paid by the Dominion Government.

The Lieutenant-Governors of the several provinces are appointed by the Federal Government for a term of five years. The Legislatures are elected by the people of each province. The highest court in the Dominion is the Supreme Court, composed of a Chief Justice and five Judges, each of whom receives a salary of $9,000 per annum, except the Chief Justice, who is paid an additional $1,000. From the decisions of this court the only tribunal to which appeal can be made is to the Judicial Committee of the Imperial Privy Council of Great Britain. The only other Federal court is the Exchequer Court, presided over by a single Judge, for trying cases connected with the revenue. Salary $8,000. All others are of a provincial character limited to jurisdiction in their respective provinces only.

CANADA'S PURCHASES OF AMERICAN AUTOMOBILES.

During the six years ended March, 1917, Canada's imports of automobiles from the United States amounted to more than $40,000,000. In 1912 the amount was $6,077,497; in 1913, $9,233,171; in 1914, $6,459,346; in 1915, $4,532,138; in 1916, $5,790,498; and in the year ended last March, $8,555,475. Canada's imports of automobile accessories from the United States during the same periods amounted to nearly $20,000,000, made up as follows: In 1912, $854,000; in 1913, $762,321; in 1914, $3,965,173; in 1915, $2,139,552; in 1916, $4,693,003; in 1917, $7,173,423. The imports of automobile tires amounted to about $7,000,000. The annual amounts were: In 1912, $666,411; in 1913, $1,507,916; in 1914, $1,263,382; in 1915, $1,044,592; in 1916, $1,389,400; in 1917, $1,217,332. The 1913 reports showed that the number of registered cars in Canada had increased by 16,780, or 38 per cent. over the 1912 registration, and in 1914 the increase was 22,070, or 36 per cent. over 1913. After three years of war it is estimated that Canada this year is purchasing 100,000 new motor cars, almost five times as many as in 1914.

RECENT CANADIAN IRON AND STEEL PRODUCTION.

(Consul Felix S. S. Johnson, Kingston, Ontario.)

The production of pig iron in Canada during the first six months of 1917 amounted to 586,998 net tons, compared with 562,097 tons during the corresponding period of 1916. Furnaces were in blast at Sydney and North Bay, Nova Scotia; Hamilton, Port Colborne, Sault Ste. Marie, and Deseronto, Ontario (in the consular district). The Deseronto furnace started in May, having been idle during the first four months. Small quantities of pig iron were also produced in electric furnaces from scrap steel at Orillia, Ontario, and Montreal, Quebec. The production of steel ingots and direct castings during the first six months of the year amounted to 836,149 net tons, compared with 589,553 tons during the first six months of 1916. The production of steel in electric furnaces was 18,797 tons during the first six months of 1917, and 19,639 tons throughout 1916.

EXPORTS FROM HALIFAX TO UNITED STATES.

(Consul General Evan E. Young, Halifax, Nova Scotia.)

The declared exports from the Halifax consular district to the United States and Porto Rico for the nine months ended September 30, 1917, show a marked increase in quantity and value as compared with the corresponding period in 1916. Omitting special shipments of gold bullion, the total value of the declared exports for the nine months amounted in value to $3,157,379, compared with $1,816,904 during the corresponding period of 1916. While increases in quantity and value occur in nearly all of the principal articles of export, shipments of fish and lumber show the more marked increases.

CROPS IN CANADA IN 1917.

(Consul-General John G. Foster, Ottawa, October 19.)

It is now estimated that the total yield of wheat for Canada will be 231,730,200 bushels, the average yield per acre being 15¾ bushels, as compared with 17 bushels for 1916. Of oats the total yield is 393,570,000 bushels as compared with 410,211,000 bushels in 1916, the average yield per acre being 29½ bushels in 1917 as compared with 37.30 bushels in 1916. The barley yield is 51,684,000 bushels as compared with 42,770,000 bushels in 1916. The yield of rye is 4,239,800 bushels; the pea crop is estimated at 2,786,600 bushels, an average of 18½ bushels per acre; beans are estimated at 635,700 bushels; buckwheat at 7,189,000 bushels; mixed grains, 15,741,000 bushels; and corn for husking, 6,193,000 bushels.

The value of the 1917 Canadian field crops will be more than $1,000,000,000, according to reports from Provincial and Government bureaus. This amount does not include pasture lands, fruit returns, tobacco, clover seed, hemp, and other smaller crops. The estimated values at current prices of some of the crops are: Oats, $232,280,000; barley, $58,620,000; rye, $6,059,000; peas, $5,488,000; beans, $6,366,000; buckwheat, $5,000,000; flax, $14,000,000; corn for huskers, $7,000,000; roots, $16,000,000; hay and clovers, $160,000,000; fodder corn, $10,000,000; sugar beets, $600,000.

CANADA PROHIBITS USE OF GRAIN FOR LIQUORS.

An order in council, published in the *Canada Gazette* for November 3, provides that "on and after December 1, 1917, and until the Governor-General in council has by order declared that the present abnormal conditions have ceased, no grain of any kind and no substance that can be used for food shall be used in Canada for the distillation of potable liquors. Any person violating the regulation shall be guilty of an offense and shall be liable on summary conviction to a fine not exceeding $5,000, or to imprisonment for a term not exceeding six months, or to both fine and imprisonment."

CONSULAR SERVICE.

C. G., Consul-General; C., Consul; V. C., Vice-Consul; D. C., Deputy Consul; C. A., Consular Assistant.

To insure prompt attention, letters upon consular business should be addressed "To the American Consul at ....." Such letters are opened and attended to by the person who happens to be in charge of the office. If addressed to the Consul by name they are forwarded to him unopened if he should be absent, and a delay thus intervenes; if he should in the mean time have gone out of office they may wholly escape attention.

Consuls at the principal places in the world are given here. Where there are a Consul and Vice or Deputy Consul at the same place only the Consul is given. Consular officers are *ex officio* notaries for all the States of the United States.

AMERICAN PEACE AND ARBITRATION LEAGUE.

31 Nassau Street New York City. *Honorary Presidents*—Woodrow Wilson, William Howard Taft, Theodore Roosevelt. *President*—Henry Clews. *First Vice-President*—William A. Clark. *Counsel*—Robert C. Morris. *Treasurer*—Cornelius A. Pugsley.

This summary is by the Executive Director Andrew B Humphrey: The league activities from 1909 to 1917 have consisted in conducting a continuous campaign for the principle of arbitration as an alternative for war in settling international differences. Under present world conditions this league has constantly advocated military preparedness for the United States to guarantee national security. The league has stood unequivocally by the President for the neutrality of the United States until war was officially declared. This was the first peace organization in the United States to support the President and the Congress for the essential war legislation. We have advocated and still advocate universal military training and service for the United States as long as necessary. We have supported and still support the selective draft. We have also supported the Liberty Loan and Red Cross campaigns. We advocate enforced freedom of the seas and respect for the sovereignty of all nations and their territory We believe emphatically in a safe peace through a sane preparedness sufficient to make the world safe for democracy. The cardinal principle of our charter is, "To promote adequate armament and effective arbitration as correlative agencies for national security and for international peace and justice."

HOLLAND'S INDUSTRIAL CONDITION.

THE total value of the exports from Amsterdam to the United States during the first six months of 1917, according to Consul Frank W. Mahin, Amsterdam, Netherlands, was $10,630,516.

	FIRST SIX MONTHS OF—				
	1913.	1914.	1915.	1916.	1917.
Total	$15,973,817	$12,772,059	$8,625,449	$21,522,542	$10,630,516
Diamonds	7,632,066	4,035,331	2,844,372	10,166,915	9,008,010
Tobacco	5,201,355	3,893,306	3,446,636	6,991,627	334,438

The declared value of the exports from the Amsterdam district to the United States during the quarter ended September 30, 1917, was $7,050,513. The principal articles were diamonds, $4,736,424, and tobacco, $1,620,313. During the corresponding quarter of 1916 the total was $8,661,164, of which diamonds represented $6,099,154, and tobacco, $1,306,845.

The total value of the exports during the first nine months of this year was $17,681,029, of which diamonds represented $13,744,434, and tobacco, $1,954,751. During the corresponding period of 1916 diamonds made up $16,266,069, and tobacco, $8,298,472 of the total exports of $30,183,706. This year's total is the smallest of any similar period in recent years, excepting 1915, when the first nine months' total was $13,284,800.

The Dutch Government received from its various sources of revenues in 1916 $12,760,501 more than in 1915. The post, telegraph, and telephone services yielded a larger amount than during 1915, but inheritance and property taxes produced less. Proceeds from the State lottery showed a decrease. There were the following increases in other forms of taxations: Taxes on households, $103,261; income taxes, $9,211,668; taxes on mines, $35,573; ground taxes, $30,788; customs duties, $606,583; excise taxes on sugar, $1,299,625; tax on wine, $15,411; taxes on distilled liquors, $753,111; salt taxes, $10,476; taxes on beer and vinegar, $26,182; and the revenue from slaughtered cattle, $435,044. The revenue received from the manufacture of gold and silver articles, stamp duties, mortgage dues, registration entries, use of the public domains, shooting and fishing licenses, all showed increases. The so-called war profit and defense taxes have yielded $2,054,400.

During 1916, 71 steamships and 1 motor schooner, with a total gross tonnage of 144,000, were launched in the Dutch shipbuilding yards, as compared with 44 vessels, of 103,000 tons, during 1915. Of the 71 vessels floated in 1916, 54, with a tonnage of 124,000, were built for Dutch interests, while only 17 vessels, of 20,000 tons, were built for foreign account. At the close of the year there were 117 steamships and 4 motor schooners, with a total tonnage of 254,500, either ordered or in the course of construction. This quantity can be favorably compared with the condition on December 31, 1915, when 70 ships, of 250,000 tons, were in the course of construction. About three-fourths of the ships constructed or in the course of construction in 1916 were ordered by domestic interests. For various reasons, such as accidents, &c., 33 vessels disappeared from the Dutch Register, by which the mercantile fleet was diminished by about 96,000 tons. About 25 accidents from mines and torpedoes occurred during the course of the year.

The exports to the United States from the Netherlands have been:

DISTRICTS.	1913.	1914.	1915.	1916.
Rotterdam	$8,178,045	$10,945,593	$5,903,140	$7,428,111

Generally more than seven-eighths of the breadstuffs consumed in Holland is imported from foreign countries. Local production has only slightly increased since the war began, and the difficulty of obtaining grain is one of the most serious problems which Holland has been called upon to face. During the first 11 months of 1916 only 11,725 tons of rye were imported, as compared with 55,032 tons for the same period of 1915. Approximately the same amount of wheat was imported in 1916 as in 1915, but the imports of barley showed a marked decline. The total amount of breadstuffs imported during the first 11 months of 1916 was 757,777 tons, as against 818,426 tons in 1915. The Government made arrangements during 1916 by which the Commission of Grain Dealers at Rotterdam and the Commission for the Grain Trade at Amsterdam should receive 100 tons weekly to be placed at the disposition of dealers. The demand was so great that this arrangement could not be carried out during the first month of the year. Persons needing grain for cattle feed were required to state the amount they used during the corresponding periods of 1915, this amount being used as a basis for the 1916 distributions. An average of 30 per cent. of the amounts asked for was granted. The Government finally attempted distribution through the various agencies for the grain trade which had formerly existed, the commissions being regulated by law.

THE DUTCH FISHERIES.

The total proceeds to the shipowners in the herring business were estimated at $14,800,000 in 1916, as against $12,000,000, $5,000,000, and $6,800,000 in 1915, 1914, and 1913, respectively. The major portion of all herring shipments is made from Scheveningen. An agreement was made between the British Government and the Netherlands Association of Vessel Owners, to take effect on September 1, whereby 20 per cent. of the landings of herring and 20 per cent. of the stock on hand might be sold to Germany, 20 per cent. might be bought by the Dutch Government, and 60 per cent. might be sold and forwarded to neutral or belligerent countries approved of by the British Government, which agreed to pay a bonus of 30s. on each land-packed barrel of herring weighing 115 kilos exported to such countries.

CHIEF NEW YORK STATE LEGISLATION IN 1917.

Here is a brief summary of the principal acts of the New York State Legislature in 1917, not including liquor legislation (see below) and the new Drug Addict law (see page 133).

Extra Session—Law creating a commission to control during the war the production, distribution and transportation of food and to stop the forcing up of prices by hoarding. George W. Perkins was slated for the chairmanship of this commission, having been appointed by Governor Whitman, but after a fight of nearly two months the Senate refused to confirm him. State Industrial Commissioner John Mitchell was then appointed and confirmed. The two other members of the commission are Jacob Gould Schurman of Cornell and former State Agricultural Commissioner Charles A. Weiting, a farmer of Cobleskill.

Regular Session—Creating a State Food Supply Commission, to encourage the production of food. This commission will be taken over by the new Food Control Commission.

Creating a State Council of Farms and Markets. This is to be a permanent body.

To permit school children to work on farms from April 1 to November 1, and to provide credits for them, if engaged in military, agricultural and industrial services.

Providing compulsory military training for boys between the ages of 16 and 19.

Providing for the taking of a census and inventory of the military resources of the State. This census was taken in June.

Prohibiting boxing.

Providing for local option on the sale of intoxicating drinks in cities.

The new laws affecting public health work are:

Adding new sections 200, 201 and 202, General Corporation law, providing for revocation of charter or authority to do business in this State, of corporations which conduct their business in another State in such manner as to create a nuisance in this State by discharge of dust, smoke, gas, steam or offensive odors or fumes. Upon complaint, the State Commissioner of Health is to determine whether a nuisance is being committed. Railroads and steamboat lines are excepted. This law provides a remedy for the abatement of the nuisance caused by the offensive fumes arising from manufacturing plants located in New Jersey, opposite Riverside Drive, and opposite Staten Island.

Permitting the sale of skimmed milk, in New York City, if sold for and as skimmed milk.

Requiring laboratories and places where live pathogenic germs are handled or cultivated to be licensed by the State Health Department. The fee is one dollar. Each culture sent out by such laboratory must be labelled to show the laboratory license number, name of person obtaining it, and destination of the germs.

Providing for the education of children with retarded mental development. It requires local school authorities to ascertain the number and provide classes for such children.

Amending the sections of the Public Health law which regulate the sale and distribution of habit-forming drugs, particularly opium or any of its salts, alkaloids or derivatives or any compound or preparation of any of them. (See page 133, the ALMANAC, for an extended summary of this law.)

Amending Section 1,167, Greater New York Charter, by providing that if the office of Health Officer of the Port is abolished the Board of Estimate shall designate a physician to be a member of the Board of Health in place of such Health Officer.

Amending Sections 157, 160, State Charities law, by requiring the Superintendent of the State Hospital at Ray Brook to give superintendents of county tuberculosis hospitals courses in the diagnosis and treatment of tuberculosis and in the hospital administration and regulating the receipt of free patients at the hospital.

Amending Sections 75, 166, Labor law, by requiring the health authorities of the locality and the Commissioner of Labor to transmit to the school authorities in the locality a list of the children to whom employment certificates have been refused and a list of children under sixteen found working illegally in factories or other places.

Providing that children twelve years of age or over may be relieved from school attendance between April 1 and November 1 for employment in the production and care of food products. They are to be under the supervision of the school authorities while so engaged. School moneys may be provided for the expense of such supervision. Credit on their school course is to be given such pupils without examination.

Amending Sections 621, 623, 630 and 635, Education law, relative to compulsory education, by increasing from 160 to 180 days the minimum school period, relative to attendance at other than public schools, school record certificates, truancy, and commitment to truant schools.

Amending Section 245 of the Military law of the State, relative to compensation of State and municipal officers and employes while absent on military or naval duty and assignments of members of the National Guard or Naval Militia to certain services. It provides that such officer or employe, providing the conditions imposed in the said law are fully complied with, shall receive such part of his salary or compensation as equals the excess, if any, of such salary or compensation over the compensation paid to him for the performance of military duty, but such payment by the State or city during such absence shall not be less than twenty-five dollars per month.

Amending Section 1,556, Greater New York Charter, providing that all courts of justice in the city shall take judicial notice of city ordinances.

Amending Section 37, Agricultural law, providing that standardized, evaporated or condensed milk must contain milk solids not less than twenty-five and five-tenths per cent. and not less than seven and eight-tenths per cent. milk fats. Sweetened condensed milk must contain not less than twenty-eight per cent. milk solids and not less than eight per cent. of milk fats.

LAW EXAMINATIONS IN NEW YORK STATE.

To entitle an applicant to an examination as an attorney and counsellor he shall pay to the examiners a fee of $25, and he must prove (15 days in advance) to the satisfaction of the State Board of Law Examiners: 1. That he is a citizen of the State, twenty-one years of age, and that his residence for six months prior to the examination is actual and not constructive, which proof must be made by his own affidavit. 2. That he has studied law in the manner and according to the conditions prescribed for a period of four years, except that if the applicant is a graduate of any college or university his period of study may be three years instead of four, and except also that persons who have been admitted as attorneys in the highest court of original jurisdiction of another State or country, and have remained therein as practising attorneys for at least three years, may be admitted to such examination after a period of law study of one year within this State, and except also that a non-college graduate may be admitted to the bar examinations upon proof of three years of law study. 3. That the applicant, if not a college graduate, has passed the regents' examination or its equivalent must be proved by the production of a certified copy of the regents' certificate filed in the office of the Clerk of the Court of Appeals.

Address communications concerning law examinations to F. M. Danaher, Secretary, Albany, N. Y.

NATIONAL INSTITUTE OF SOCIAL SCIENCES.

Founded 1912 under the charter of the American Social Science Association. Office of Secretary, 225 Fifth Avenue, New York City. Officers: *Honorary President*—William H. Taft. *President*—Irving Fisher. *Treasurer*—Henry P. Davison. *Executive Secretary*—Erla Rodakiewicz.

New Possessions.—A government for Porto Rico was established by the Fifty-sixth Congress. The Philippines are under a provisional civil government, Guam, Tutuila, and the Isthmian Canal Zone under Governors, all appointed by the President. Porto Rico is represented in the Congress of the United States by a Commissioner, and the Philippines by two Commissioners elected respectively by the people thereof.

The Virgin Islands (formerly Danish West Indies), bought for $25,000,000 in 1917, contain 142 square miles and 32,000 population.

MAYORS OF THE CITY OF NEW YORK.

Before the Revolution the Mayor was appointed by the Governor of the Province; and from 1784 to 1820 by the Appointing Board of the State of New York, of which the Governor was the chief member. From 1820 to the amendment of the Charter, in 1830, the Mayor was appointed by the Common Council. In 1898 the term of the first Mayor of Greater New York (Van Wyck) began.

DISTRICT OF COLUMBIA.

The Government of the District of Columbia is a municipality whose principal administrative agency is a board of three Commissioners, two of whom are appointed from civil life by the President of the United States and must be citizens of the District of Columbia and have resided there for three years immediately preceding their appointment as such, and during that period have claimed residence nowhere else. Their appointments must be confirmed by the Senate. The other Commissioner is an officer of the Corps of Engineers of the United States Army, whose lineal rank is senior to that of Captain, or who is a Captain who has served at least fifteen years in the Corps of Engineers of the army. He is detailed for duty as such for an indefinite term by the President of the United States, subject to assignment to other duty at the President's pleasure. The term of the other Commissioners is three years.

The personnel of the Board of Commissioners and the dates of expiration of their appointments and the personnel of the principal offices of the Government of the District and of the Judiciary is as follows:

Commissioners W. J. Gardiner and Louis Brownlow, whose terms expire July 19, 1919, and July 13, 1919, respectively, and Gen. J. G. D. Knight, Corps of Engineers, United States Army; Secretary, Daniel J. Donovan, $2,400 per annum. Offices of Commissioners' District Building, Washington, D. C.

The Judiciary—Court of Appeals: Chief Justice, Constantine J. Smith; Associate Justices Charles H. Robb, J. A. Van Orsdel. Supreme Court. Chief Justice, J. Harry Covington; Associate Justices, Ashley M. Gould, Wendell P. Stafford, Walter I. McCoy, Frederick L. Siddons.

Prohibition vote for President—1900, 1,692; 1904, 4,413; 1908, 5,139; 1912, 4,534.

* Hughes received 7 electoral votes, Wilson 1. Depue, Democratic elector, defeated Scott, Republican elector, the latter's name having been omitted from the ballots in several counties. Scott was chosen to succeed another elector, who withdrew just before the election, and a number of counties failed to make provision in the ballot for the change.

NOTES TO THE TABLES OF THE PRESIDENTS.

* Monroe abandoned the profession of law when a young man, and was afterward, and until his election, always holding public office. † Jackson called himself a South Carolinian, and his biographer, Kendall, recorded his birthplace in Lancaster Co., S. C.; but Parton has published documentary evidence to show that Jackson was born in Union Co., N. C., less than a quarter mile from the South Carolina line. ‡ Or of departure from college.

§ Widows. Their maiden names are in parentheses. ¶ She was the divorced wife of Captain Robards. (*a*) The Democratic party of to-day claims lineal descent from the first Republican party, and President Jefferson as its founder. (*b*) Political parties were disorganized at the time of the election of John Quincy Adams. He claimed to be a Republican, but his doctrines were decidedly Federalistic. The opposition to his administration took the name of Democrats, and elected Jackson President.

(*c*) Randall, the biographer of Jefferson, declares that he was a believer in Christianity, although not a sectarian. (*d*) While President Johnson was not a church-member, he was a Christian believer. His wife was a Methodist.

Washington's first inauguration was in New York, and his second in Philadelphia. Adams was inaugurated in Philadelphia, and Jefferson and the Presidents following elected by the people, in the city of Washington. Arthur took the Presidential oath of office first in New York City. John Adams and Jefferson died on the same day, the Fourth of July, 1826, and Monroe died on the Fourth of July five years later. John Quincy Adams was a Representative and Andrew Johnson a Senator in Congress after the expiration of their Presidential terms, and both died while holding those offices. Tyler was a Representative in the Confederate Congress from Virginia, and died in office.

Lincoln, Garfield and McKinley were assassinated while in office. Lincoln at Ford's Theatre, Washington, D. C., April 14, 1865, from a pistol shot fired by John Wilkes Booth, who was killed near Fredericksburg, Va., April 26, 1865, by Sergeant Boston Corbett. Garfield was shot in the Pennsylvania Railroad Depot, Washington, D. C., July 2, 1881, and died at Elberon, Long Branch, N. J., September 19, 1881. The assassin was Charles Jules Guiteau, who was hanged at Washington, D. C., June 30, 1882. McKinley was shot twice September 6, 1901, while in the Temple of Music of the Pan-American Exposition, Buffalo, N. Y., and died from his wounds at the home of John G. Milburn, Buffalo, September 14, 1901. The assassin was Louis Czolgosz, who was electrocuted at Auburn State Prison, New York, October 29, 1901.

Jackson was shot at in the Capitol at Washington, D. C., January 29, 1835, by a house painter named Richard Lawrence, escaping because the pistol of the assassin missed fire. Ex-President Roosevelt was shot and wounded by John Schrank, an insane man, at Milwaukee, Wis., October 14, 1912.

Cleveland after taking the oath as President, kissed the open Bible, his lips touching Psalm cxii., verses 5-10, inclusive. Garfield's first act after taking the oath was to kiss his mother.

The sixth President was the son of the second President, and the twenty-third President was the grandson of the ninth President. William Henry Harrison was the eighth and Benjamin Harrison the tenth in descent from Pocahontas and John Rolfe. Lincoln was the first President wearing a full beard. Grant the first wearing a mustache. Buchanan and Cleveland were bachelors when they entered the White House as Presidents, but Cleveland surrendered during his first term. Washington, Monroe, Pierce and Hayes were born on Friday. J. Q. Adams, Pierce and Garfield were inaugurated on Friday. Tyler, Polk and Pierce died on Friday. Lincoln was assassinated on Friday.

There were remarkable coincidences in the lives of Abraham Lincoln and Jefferson Davis. Both were born in Kentucky; Lincoln in 1809, Davis in 1808. Both removed from their native state in childhood, Lincoln to the Northwest, Davis to the Southwest. Lincoln was a Captain of Volunteers and Davis a Second Lieutenant of Regulars in the Black Hawk war of 1832. They began their political careers the same year, 1844, Lincoln being a Presidential Elector for Clay, and Davis for Polk. They were elected to Congress about the same time, 1845 and 1846. They were called to preside over their respective governments the same year and within a few days; Davis, February 8, 1861; Lincoln, March 4, 1861.

Washington, Monroe, and Jackson were soldiers in the Revolutionary war; Jackson, W. H. Harrison, Tyler, Taylor, and Buchanan in the war of 1812-15; Lincoln in the Black Hawk war; Taylor, Pierce, and Grant in the Mexican war; Grant, Hayes, Garfield, Arthur, B. Harrison, and McKinley in the Civil War, and Roosevelt was in the war with Spain. Adams and Jefferson were signers of the Declaration of Independence, and Washington and Madison of the Constitution.

Grant was christened Hiram Ulysses and Cleveland, Stephen Grover. W. H. Harrison was the oldest man elected to the Presidency, and Roosevelt the youngest, Grant being the next youngest by six months. Cleveland was the only President married in the White House, and his second daughter the only President's child born therein. Monroe's daughter (Mrs. Gouverneur), Tyler's daughter (Mrs. Waller), Grant's daughter (Mrs. Sartoris), Roosevelt's daughter (Mrs. Longworth) and Wilson's daughters, Jessie (Mrs. Sayre) and Eleanor (Mrs. McAdoo) were the only children of Presidents married therein. Wives of Tyler, Benjamin Harrison, and Wilson died in the White House. W. H. Harrison was father of the largest family, six sons and four daughters. Eight Presidents: Washington, Jefferson, Madison, Monroe, W. H. Harrison, Tyler, Taylor, and Wilson were Virginians by birth. Six Presidents: Grant, Hayes, Garfield, B. Harrison, McKinley, and Taft, were Ohioans by birth.

SALARY OF THE PRESIDENT.

THE salary of the President of the United States was the cause of discussion in the First Congress, in view of the fact that the Constitution declared that the President should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in Congress ranged from $15,000 to $70,000. The salary was finally placed at $25,000, and this remained the compensation until President Grant's second term (March 3, 1873), when it was increased to $50,000. Chapter 2918 of the Laws of the Second Session of the Fifty-ninth Congress, approved March 4, 1907, appropriated "for travelling expenses of the President of the United States, to be expended at his discretion and accounted for by his certificate solely, $25,000." In the Second Session of the Sixtieth Congress the President's salary was fixed at $75,000 a year.

REFERENCE NOTES TO THE TWO FOLLOWING PAGES.

* THE candidates starred were elected. (a) The first Republican Party is claimed by the present Democratic Party as its progenitor. (b) No candidate having a majority of the electoral vote, the House of Representatives elected Adams. (d) There being no choice, the Senate elected Johnson. (e) Eleven Southern States, being within the belligerent territory, did not vote. (f) Three Southern States disfranchised. (g) Horace Greeley died after the election, and Democratic electors scattered their votes. (h) There being a dispute over the electoral vote of Florida, Louisiana, Oregon, and South Carolina, they were referred by Congress to an electoral commission composed of eight Republicans and seven Democrats, which, by a strict party vote, awarded 185 electoral votes to Hayes and 184 to Tilden. (i) Free Democrat. (j) Free Silver Prohibition Party. (k) In Massachusetts. There was also a Native American ticket in that State, which received 184 votes. (m) Middle of the Road or Anti-Fusion People's Party. (n) United Christian Party. (o) Union Reform Party.

PRESIDENTIAL ELECTIONS.

NOTE.—There is, properly speaking, no popular vote for President and Vice-President: the people vote for electors, and those chosen in each State meet therein and vote for the candidates for President and Vice-President. The record of any popular vote for electors prior to 1828 is so meagre and imperfect that a compilation would be useless. In most of the States, for more than a quarter century following the establishment of the Government, the State Legislatures "appointed" the Presidential electors, and the people therefore voted only indirectly for them, their choice being expressed by their votes for members of the Legislature.

THE MEANING OF "ONE INCH OF RAIN."

On every daily weather bulletin or chart the amount of rainfall at various places during the preceding twenty-four hours is printed in inches and hundredths of inches. In a general way the public understands that a rainfall of two inches in one day is heavy, and that one of a tenth of an inch is light, but no attempt is made to associate the linear measurement of the water with its equivalents in weight or bulk.

An acre of ground contains 43,560 square feet. Consequently a rainfall of one inch over one acre of ground would mean a total of $43,560 \times 144$, or 6,272,640 cubic inches of water. This is equivalent to 3,630 cubic feet. As a cubic foot of pure water weighs about 62.4 pounds, the exact amount varying slightly with the density, it follows that the weight of a uniform coating of one inch of rain over one acre of surface would be $3,630 \times 62.4 = 226,512$ pounds, or 113¼ short tons.

The weight of one United States gallon of pure water is 8.345 pounds. Consequently a rainfall of one inch over one acre of ground would mean $226,512 \div 8.345 = 27,143$ gallons of water on the acre. This is equivalent to 603 barrels of forty-five gallons each, and would be sufficient to fill a tank or pool about twenty feet square and nine feet in depth. Should a farmer desire to build a cistern to be supplied by rainwater from a roof, he can, if he knows the annual rainfall of his locality, so construct his cistern as to make the best possible use of the rainfall. For instance, a rainfall of one inch on a roof of 3,000 square feet capacity would mean a total volume of 432,000 cubic inches, or 250 cubic feet, available for the cistern (loss from splashing, etc., not considered). This is equal to 1,870 United States gallons, or about 41.5 barrels of forty-five gallons each, enough to fill a cistern eight feet in diameter to a depth of 4.97 feet.

NATIONAL ASSEMBLY OF CIVIL SERVICE COMMISSIONS.

President—Harvey M. Shepherd, Boston, Mass. *Secretary-Treasurer*—John T. Doyle, 1724 F Street N. W., Washington, D. C.

The assembly was organized in 1906. The objects are to enable all those charged with the administration of civil service laws to become acquainted and exchange ideas. To promote co-operation, uniformity and perfection of methods of the different commissions. To enable the commissions to profit by exchange of ideas with officers who are directing departments and to give such officers broader opportunity to inform themselves on the methods of the merit system.

NATIONAL ASSOCIATION OPPOSED TO WOMAN SUFFRAGE PLATFORM.

At a special meeting of the National Association Opposed to Woman Suffrage, held at Washington Novembber 22, 1917, the following preamble and national platform was adopted:

"Be it resolved, by the Board of Directors of the National Association Opposed to Woman Suffrage,

"That the oath administered to all members of Congress and officers of the United States Government, 'to uphold and defend the Constitution of the United States against all foreign and domestic enemies,' morally and truly applies to the present Constitution and to the proposed Federal Suffrage Amendment;

"That this association, in harmony with its past principles and present ideals, adopt and take appropriate action to defend the following national platform:

"The National Association Opposed to Woman Suffrage: Stands for home and national defense against Woman Suffrage, feminism and Socialism. For man-power in Government, believing that democracy must be strong to be safe. For the preservation of the established foundation of the American Republic as a model for the world. For the enf rcement of the constitutional right of each State to settle the question of Woman Suffrage for itself. For efficiency and progress, without waste and duplication in Government. For the conservation of the best womanhood of all conditions and stations of life:

"For the ultimate union of women of all classes and creeds along non-partisan lines, so that the interests of womanhood, childhood and civilization may be advanced free from the strife and division of politics, factions and parties. For the retention of the best ideals of the past adapted to the advantages and opportunities given to women under modern conditions. So that the fundamental principles of morality, of patriotism and of world progress may be more firmly established in the present and future generations."

THE HALL OF FAME.

March 5, 1900, the Council of New York University accepted a gift of $100,000, afterward increased to $250,000, from a donor, whose name was withheld, for the erection and completion on University Heights, New York City, of a building to be called "The Hall of Fame for Great Americans." A structure was built in the form of a terrace with superimposed colonnade connecting the University Hall of Philosophy with the Hall of Languages. On the ground floor is a museum 200 feet long by 40 feet wide, consisting of a corridor and six halls to contain mementos of the names that are inscribed above. The colonnade over this is 600 feet long with provision for 150 panels, each about 2 feet by 6 feet, each to bear the name of a famous American.

Only persons who shall have been dead ten or more years are eligible to be chosen. Fifteen classes of citizens were recommended for consideration, to wit: Authors and editors, business men, educators, inventors, missionaries and explorers, philanthropists and reformers, preachers and theologians, scientists, engineers and architects, lawyers and judges, musicians, painters and sculptors, physicians and surgeons, rulers and statesmen, soldiers and sailors, distinguished men and women outside the above classes. Fifty names were to be inscribed on the tablets at the beginning, and five additional names every fifth year thereafter, until the year 2000, when the 150 inscriptions will be completed. In case of failure to fill all the panels allotted, the vacancies are to be filled in a following year.

In February, 1904, the plan was announced of a Hall of Fame for Women near the former, with places for 50 tablets. Its foundation has been begun.

The rules prescribed that the council should invite nominations from the public. Every nomination seconded by a member of the University Senate should be submitted to an electorate of one hundred eminent citizens selected by the council. Chancellor Emeritus MacCracken, who is "committeeman" of the hall, presides in the Senate when the Hall of Fame is considered. Address University Heights, New York City.

In October, 1900, the University Senate received the ballots of the electors. Of the one hundred judges selected ninety-seven voted. The number of names which had been submitted to them was 252. Of these each judge returned a vote for fifty. The rule required that no candidate receiving less than fifty-one votes could be accepted. The returns showed that but twenty-nine candidates received the required number and were chosen. These were as follows: George Washington, Abraham Lincoln, Daniel Webster, Benjamin Franklin, Ulysses S. Grant, John Marshall, Thomas Jefferson, Ralph Waldo Emerson, Henry W. Longfellow, Robert Fulton, Washington Irving, Jonathan Edwards, Samuel F. B. Morse, David G. Farragut, Henry Clay, Nathaniel Hawthorne, George Peabody, Robert E. Lee, Peter Cooper, Eli Whitney, John J. Audubon, Horace Mann, Henry Ward Beecher, James Kent, Joseph Story, John Adams, William E. Channing, Gilbert Stuart and Asa Gray.

In October, 1905, under the rules named above, the Senate received the ballots of 95 electors out of 101 appointed, of whom only 85 undertook to consider the names of women. A majority of 51 was demanded, but in the case of the names of women, a majority of only 47. The following eight persons were found to be duly chosen: John Quincy Adams, 59; James Russell Lowell, 58; William Tecumseh Sherman, 58; James Madison, 56; John Greenleaf Whittier, 53; Mary Lyon, 58; Emma Willard, 50, and Maria Mitchell, 48.

The hall was dedicated May 30, 1901, when twenty-five or more National associations each unveiled one of the bronze tablets in the colonnade, and on May 30, 1907, eleven new tablets were unveiled, orations being given by the Governors of New York and Massachusetts.

In October, 1910, the next ballot was taken, the number cast being 97 and the number required for a choice being 51. The following ten persons had the requisite number of votes: Harriet Beecher Stowe, 74; Oliver Wendell Holmes, 69; Edgar Allan Poe, 69; James Fenimore Cooper, 62; Phillips Brooks, 60; William Cullen Bryant, 59; Frances E. Willard, 56; Andrew Jackson, 53; George Bancroft, 53; John Lothrop Motley, 51. There were 211 nominees.

The fourth quinquennial election in 1915 secured the ballots of ninety-seven electors, three electors having died within the year. Nine names were admitted, viz., Alexander Hamilton, 70 votes; Mark Hopkins, 69; Francis Parkman, 68; Agassiz, 64; Elias Howe, 61; Joseph Henry, 56, Rufus Choate, 52; Daniel Boone, 52; with one woman, Charlotte Cushman, 53. Of these Hamilton and Agassiz had been elected in 1905 to the separate hall proposed for famous foreign-born Americans. When the Constitution was amended in 1914, to do away with the line of discrimination between native-born and foreign-born, it was required that the four foreign-born, already chosen, be re-elected in competition with the native-born put in nomination. The two above named were approved, while John Paul Jones and Roger Williams lacked a majority, but remain in nomination for the year 1920. The total names admitted in the four quinquennial elections is 50 men and 6 women.

MILITARY ORDER OF THE LOYAL LEGION OF THE UNITED STATES.

Commander-in-Chief—Lieut.-Gen. Samuel B. M. Young, U. S. A. *Recorder-in-Chief*—Brevet Lieut.-Col. John P. Nicholson.

The Military Order of the Loyal Legion of the United States was organized by officers and ex-officers of the Army, Navy and Marine Corps of the United States who took part in the war of 1861-65. Total membership of the Loyal Legion is 6,598.

ELIGIBILITY TO MEMBERSHIP AS FOLLOWS:

Original companions of the first class—Commissioned officers and honorably discharged commissioned officers of the United States Army, Navy and Marine Corps, regular or volunteer, including officers of assimilated or corresponding rank by appointment of the Secretary of War or Navy, who were actually engaged in the suppression of the Rebellion prior to the 15th day of April, 1865, or who served under the President's call of the 15th day of April, 1861; or who, having served as non-commissioned officers, warrant officers or enlisted men, during the War of the Rebellion, have since been or may hereafter be commissioned as officers in the United States Regular or Volunteer Army, Navy or Marine Corps. All midshipmen in the United States Navy and all cadets of the United States Army, who, while pursuing their course in the United States Naval Academy or the United States Military Academy at West Point, actually rendered service.

Hereditary companions of the first class—The direct male lineal descendants, who shall have attained the age of 21 years, of deceased original companions of the first class, and of deceased officers not members of the order, but who were eligible as such, and whose direct descent shall in every case be traced anew from the original founder of the membership in the order, or from the deceased eligible officer, and not otherwise.

Any original companion having no direct lineal male descendant, may, by writing, filed with the Recorder of his Commandery, nominate a companion of the second class from among the collateral male members of his family, descending only from his own brother or sister, and the person so nominated when he shall have attained the age of 21 years shall become eligible to membership for life in the second class.

Second class—The sons, and if there be no sons, the grandsons, of living companions of the first class, whether original, in succession, or by inheritance, who shall have attained the age of 21 years, shall be eligible to membership.

Third class—Companions of the third class are those gentlemen who in civil life during the Rebellion were specially distinguished for conspicuous and consistent loyalty to the National Government and were active and eminent in maintaining the supremacy of the same; and who, prior to the 15th day of April, 1890, were elected members of the order pursuant to the then existing provisions of the Constitution, the power to elect such having ceased at that date.

Pursuant to the provisions of section 790, Greater New York Charter, all uniformed members of the Fire Department are entitled to retire at the expiration of twenty years' continuous service on a pension equal to not less than one-half of the salary they may be receiving at the time of their application. The Fire Commissioner also has the power to retire members of the department who, from any cause, are found to be unable to perform active duty in the department. If the disability occurs from injuries while in the discharge of duty, the pension must equal one-half of the salary; if from natural causes, the Fire Commissioner can decide upon the amount of the pension.

N. B.—The total appropriations in 1916 for interest on and redemption of the city debt, for education, health and sanitation, protection of life and property and for charitable purposes were $164,261,201.21, or 84.24 per cent. of the total budget appropriations for said year. For 1917 the appropriations for these purposes aggregate $175,027,036.89, or 84.92 per cent. of the budget for city and county purposes. In other words, of every $1,000 provided in the budget of 1917, $849.20 is for these five functions or general purposes.

The notable increases in the budget of 1917 over that of 1916 are for debt service, $6,531,358.84; educational purposes, $1,697,312.31; protection of life and property, $1,154,372.98; charitable purposes, $1,375,707.94, and deficiencies in taxes, $1,000,000.00.

The notable decreases in the budget of 1917 as compared with 1916 include a reduction of $181,607.00 in the total for Board of Elections and $145,583.17 in taxes and rents.

There were no direct State taxes included in the budget of 1917.

The Federal Bureau of the Census estimated the city's population for 1916 as 5,602,841, and the Health Department gives as its estimate of the population at the mid-period of 1917 as 5,737,492. This estimate by the Health Department is based on the 1916 estimate of the Federal Census Bureau.

INFORMATION FOR TAXPAYERS—Property for the purpose of taxation is described according to section (or ward) block and lot numbers. To be certain that they are paying taxes on their own property, taxpayers should compare carefully the description as given on the face of their bill with the section (or ward) lot and block numbers given on previous bills, and if possible have their deeds compared with the maps in the office of the Commissioners of Taxes and Assessments. Taxes may be paid by mail. This method is easier and quicker. Use of money order, draft or certified check is recommended. If an uncertified check is used a delay of seven days in sending a receipt will result. Enclose a self-addressed stamped envelope for the return of receipted bill. Make checks or money orders payable to the Receiver of Taxes. Cash payments made in person must be presented before 2 o'clock P. M. Such payments to be legal must be made to the cashier at his window.

LAFAYETTE STATUE UNVEILED BY MARSHAL JOFFRE.

In Brooklyn the unveiling of a bronze panel of Lafayette on May 10, 1917, was a historical occasion. Marshal Joffre, hero of the Marne, unveiled the statue, which was accepted for the city by Mayor Mitchel. Former Premier Viviani, who headed the French Commission to the United States, spoke briefly, as did Marquis de Chambrun, great-grandson of Lafayette. Others of note present were Vice-Admiral Chocheprat, George T. Wilson, Frederic R. Coudert, Frank L. Polk, Ambassador Jusserand, R. A. C. Smith, and H. A. Watkins. The work cost $35,000, the gift of the Henry Marteau estate. The sculptor was Daniel Chester French. The monument consists of a panel of bronze about 12 feet long and 10 feet high, against which is a figure of Lafayette in the uniform of a General in the Continental Army, with a negro holding his horse's head. The panel rests against a structure of granite of Italian Renaissance design.

Woodhead—Between Manchester and Sheffield, England, 3 miles.

TUNNELS IN OPERATION IN AND ABOUT NEW YORK CITY.

PENNSYLVANIA RAILROAD SYSTEM—Tunnels under Hudson River extend from Pennsylvania Railroad Station, New York, to Weehawken, N. J. There is no station at Weehawken, the electric trains from the Pennsylvania Station run to Manhattan Transfer, near Newark, N. J., without a stop. Work started April 1, 1904; completed in 1910. Two tubes of cast iron rings, 23 feet outside diameter and 21 feet 2 inches inside diameter; subaqueous portion 6,118 feet long.

Manhattan cross-town tunnels from the Pennsylvania Railroad Station, mentioned above, across New York under 32d and 33d Sts. to First Ave. Started July, 1905, completed in 1910. There are two tunnels, each with two tracks. The tunnels are built of concrete with the crown about 60 feet below the surface of the street.

East River Tunnels connect with the cross-town tunnels and extend under the East River to Long Island City. Started September, 1904; completed in 1910. Four separate tubes with rings 23 feet outside diameter, each tube from the Manhattan shaft to the Long Island City shaft, 3,900 feet long.

HUDSON AND MANHATTAN RAILROAD SYSTEM—North tunnels under the Hudson River from Jersey City to Morton St., New York. Started November, 1874; the first in New York, officially opened February 25, 1908. Two single track tubes, with a minimum inside diameter of 15 feet 3 inches, and approximately 5,700 feet long.

Up-town tunnels connect with north tunnels at Morton St. and extend to Christopher St. thence to Sixth Ave. and up Sixth Ave. to 33d St. Started March, 1904, completed in 1910. Section from Morton to 12th St. shield construction, remainder cut and cover.

South tunnels under Hudson River from Jersey City to the Church St. Terminal Buildings (Cortlandt, Church and Fulton Sts.), New York. Started May, 1905; opened for traffic July, 1909. Two tubes about 5,950 feet long with cast iron rings, 16 feet 7 inches outside diameter and 15 feet 3 inches inside diameter.

Tunnels (consisting of two single track tubes) extend from the Hoboken terminal of the Lackawanna Railroad to Washington St., Jersey City, with connections to the north tunnels and to the Erie Railroad Station. At Washington St. a branch runs to the Pennsylvania Railroad Station at Jersey City, where connections are made with the south tunnels. West from Washington St. to a point east of Summit Ave. is a double track concrete tunnel with a centre wall dividing the tracks. Work started March, 1906; completed in July, 1911.

BELMONT TUNNEL under the East River from 42d St., New York, to Long Island City. Subaqueous portion two single track tubes with cast-iron rings 16 feet 10 inches outside diameter, and a clear inside diameter of 15 feet 6 inches. Through rock a horseshoe shaped concrete section is used and in other places a rectangular double track cross section with reinforced concrete lining. Construction started by New York and Long Island Railroad, July 12, 1905; practically completed January 1, 1908. (Commonly known as the Steinway Tunnel).

RAPID TRANSIT TUNNEL under the East River from the Battery, New York, to Joralemon St., Brooklyn, connecting the New York and Brooklyn subways. Started April, 1903; trains running January 9, 1908. Two tubes, 6,784 feet long, with a finished inside diameter of 15 feet 6 inches.

BERGEN CUT of Erie Railroad through Bergen Hill, Jersey City, parallel to the present tunnel, which is 4,700 feet long. The Bergen cut was started March, 1906, and completed July 1, 1910. It has five four-track tunnels, with open cuts between the tunnels, making a total length of 4,300 feet. Tunnel sections 58 feet wide at the bottom and 21 feet high.

LACKAWANNA RAILROAD TUNNEL through Bergen Hill, Jersey City. Started February 28, 1906; completed February 14, 1909. Parallel to and 24 feet away from old tunnel and of the same length, viz., 4,283 feet. New tunnel is double tracked, lined with concrete, having inside dimensions 23 feet high by 30 feet wide. Bush track construction used.

Tunnels from Whitehall St., Manhattan, to Montague St., Brooklyn, from Old Slip, Manhattan, to Clark St., Brooklyn, and from 14th St., Manhattan, to North 7th St., Brooklyn, are under construction, all of which are part of the new subway system in New York. They are nearly finished.

SUBWAY SYSTEMS IN NEW YORK CITY.

(Compiled Under the Direction of Frank N. Robinson of the Public Service Commission of the First District.)

THE DUAL SYSTEM OF RAPID TRANSIT.

Under the Dual System of rapid transit for New York City all of the rapid transit lines operated by the Interborough Rapid Transit Company and the New York Consolidated Railroad Company (the latter a B. R. T subsidiary), including the first subway and the elevated lines of the two systems are combined in two great operating units, covering four of the five boroughs. Each company has lines which operate through the so-called community centre of the city, namely, the section of Manhattan Island below Fifty-ninth Street.

As stated above, New York's original subway, operated by the Interborough Rapid Transit Company and now denoted the First Subway, is an integral part of the Dual System. But under the operating conditions scheduled for the new lines, it will lose its identity and be merged for operating purposes with other lines assigned under the dual agreements to the Interborough.

The dual system was created when the city, through the Public Service Commission, on March 19, 1913, entered into an agreement (the dual contracts) with the Interborough Rapid Transit Company and the New York Municipal Railway Corporation (the latter a B. R. T. subsidiary), providing for the construction and operation of new subway lines, elevated and subway extensions of existing subways and third tracking and extensions of elevated railroads.

The city and the two companies contributed large sums for the construction of subway lines, while cost of equipment, plus the cost of construction of elevated extensions and elevated third tracking and other improvements was met by the two companies on the respective systems. Despite the substantial contributions by the companies to the expense of subway construction, all subways and elevated extensions of subways are owned by the city, while elevated railroad extensions and third tracking on elevated railroads remain the property of the companies. The dual agreements included leases to the companies of the lines to be operated by them and their subsidiaries.

The contracts called for the construction of forty-four and 55 1-100 miles of new subways; 53 10-100 miles of new elevated railroads and 19 8-10 miles of third tracking and other additional track on the existing elevated railroads. The whole system, which will consist of about 330 miles of single track made up of 260 miles of subway; 45 miles of elevated and 25 miles of new third track on existing elevated structures, constitutes a mileage which will exceed not only that of all the other rapid transit systems in the United States, but, according to the best statistics at hand, of the entire world. In addition, it will be the most modern and the best equipped rapid transit system on the globe and will carry passengers further for a fixed fare than any other transportation line. One ride of about twenty-three miles for a 5c fare will be possible.

GREATEST RAPID TRANSIT ADVANCEMENT.

The year 1917 saw the greatest rapid transit advance—in view of the number of new facilities placed in service and the transportation relief provided—in the history of the city. A number of the new lines included in the dual system were placed in operation previous to 1917, but the latter year found most of the principal trunk lines in complete or partial service, with only a few lines remaining to be opened in 1918 and 1919. Included in the lines which remain to be finished, are those providing new routes between Brooklyn and Queens and Manhattan by tunnels underneath the East River.

These tunnels are difficult engineering feats and require a longer time than does ordinary subway or elevated railroad construction. The past year, in addition, represented an altogether new era in transportation, in that it saw the Brooklyn company operating a line extending far into the heart of Manhattan Island. Previously the Brooklyn company barely skirted the eastern fringe of Manhattan, while the Interborough Company reached for only a short distance into Brooklyn. At the end of the new year both companies will reach far into the territory previously exclusively occupied by the other. What this means in joining and unifying the several boroughs can be readily foreseen.

Less than half a dozen general construction contracts for the city owned work yet remain to be awarded, and but very few more for station finish and track installation. The end of the year 1918 will probably see practically all construction contracts awarded and substantially completed.

When the dual system contracts were signed the first subway had been in operation for nine years. It consisted, first, of a four-track trunk line from City Hall Park through Lafayette Street, Fourth Avenue, Forty-second Street and Broadway, to Ninety-sixth Street, where it forked; one branch extending north on Broadway to Van Cortlandt Park and the other branch to West Farms. The major portion of the above lines were placed in operation in 1904. The work included in the above was known as Contract No. 1, Contract No. 2 was subsequently awarded and provided for an extension of the subway from City Hall to the Battery and underneath the East River by various thoroughfares to a terminus at Atlantic and Flatbush Avenues, Brooklyn.

The dual system contract with the Interborough Company was known as Contract No. 3, and with the Brooklyn Company as Contract No. 4. Subsequent to the completion of the first subway the city determined to build certain additional lines, including the so-called triborough route in Manhattan and the Bronx; the Centre Street Loop in Manhattan and the Fourth Avenue Subway in Brooklyn. All of these lines later were included in the dual system.

Of the dual system lines, there were opened previous to 1917, exclusive of the first, or old subway, a portion of the Queensboro Subway, the new third tracks on the Second, Third and Ninth Avenue elevated railroads in Manhattan, operated by the Interborough Company; the Fourth Avenue subway in Brooklyn, its Eighty-sixth Street extension; its Sea Beach branch to Coney Island; a part of its New Utrecht Avenue branch; the Liberty Avenue extension of the Fulton Street elevated lines; the Lutheran Cemetery line and large portions of the third tracking on the Brooklyn elevated lines, operated by the New York Consolidated Railroad Company.

NEW LINES OPENED IN 1917.

During the early part of 1917 new lines, equivalent to about twenty-two miles of new subways, elevated extensions of subways and elevated railroads, a total of nearly seventy-five track miles, were placed in service, with a number of other lines nearing completion and likely to be placed in operation before the end of the year. While the work of finishing the latter was delayed somewhat by conditions arising out of the European war, there was every prospect that the two lines offering the greatest hope of transit relief of any part of the whole dual system, namely, the Lexington Avenue-Seventh Avenue lines in Manhattan, would be ready about January 1, 1918. If these and certain other lines well on the way are completed, the end of the year will witness a total of about forty-two linear miles of new lines and 145 track miles placed in operation for the year, thereby ranking 1917 as probably the greatest year for transportation improvements ever witnessed in New York City.

All save one or two of the other remaining lines of the dual system will be in operation by the end of 1918, which year should witness the completion of operation of the One Hundred and Sixty-second Street connection between the Ninth Avenue elevated railroad and the Jerome Avenue branch of the Lexington Avenue subway; of the Webster Avenue extension of the Third Avenue elevated railroad connecting that road with the White Plains

Road extension of the first subway; of the Eastern Parkway line with its Nostrand Avenue and Livonia Avenue branches in Brooklyn; the principal portion of the Culver Line in Brooklyn, and in all probability the reconstructed Brighton Beach line with its connection with the Fourth Avenue subway in Brooklyn.

The old subway is the nucleus of the Interborough's underground lines. It is being extended up Lexington Avenue from Forty-first Street, with branches in the Bronx, leading to Woodlawn and to Pelham Bay Park. It is also being extended down Seventh Avenue from Forty-second Street, with one branch leading to the Battery and another to Brooklyn by way of Park Place, Beekman and William Streets, in Manhattan, under river tunnel and Clark Street, in Brooklyn. It will connect with the present Interborough line near Borough Hall, Brooklyn. The Lexington Avenue line, with the First Subway below Forty-second Street, forms the new East Trunk Line in Manhattan, while the Seventh Avenue line with the First Subway at the north of Forty-second Street forms the West Trunk Line, so that when the new operation begins the present use of the four tracks under Forty-second Street will be abandoned, two being utilized for a transfer shuttle service between the East and West Trunk lines and the two others being used to provide an extension of the Queensboro Subway (formerly the Steinway tunnel) from Park Avenue, west to Times Square. Extensions of the Interborough subway system in Brooklyn include a subway along Eastern Parkway, with an elevated extension on Livonia Avenue and a subway branch in Nostrand Avenue.

Another important new Interborough line is the White Plains Road extension of the West Farms branch of the First Subway, extending from One Hundred and Seventy-ninth Street to Two Hundred and Forty-first Street. In Queens the Interborough now operates,—and later will operate in common with the B. R. T., which has trackage rights,—the Astoria and Corona extensions. By the Interborough these are operated for subway service in connection with the Queensboro subway and as extensions of the Second Avenue elevated railroad in Manhattan, branch tracks from that line extending across the Queensboro Bridge. Another Interborough extension is an addition to the Third Avenue elevated railroad along Webster Avenue, from Pelham Avenue to Gunhill Road, where a junction is made with the White Plains Road subway extension above referred to.

EXTENSION INTO THE BRONX.

The Interborough Company is also constructing an extension of its Ninth Avenue elevated line across the Harlem River and through One Hundred and Sixty-second Street to connect with the Jerome Avenue branch of the Lexington Avenue subway.

Under the dual contracts the B. R. T. organized two companies, the New York Municipal Railway Corporation, for construction and holding purposes, and the New York Consolidated Railroad Company, for operating purposes.

The Fourth Avenue subway in Brooklyn is the great trunk line of the Brooklyn company's underground system. The West End Line, the Sea Beach Line and the Culver Line, all formerly operated as surface railroad connections of the elevated system have been rebuilt as elevated extensions, the two first named to be operated in connection with the Fourth Avenue subway. Later the Brighton Beach Line will be connected with the Fourth Avenue system. In Manhattan the Brooklyn Company will operate the new Broadway subway, extending from Whitehall Street to Fifty-ninth Street with a tunnel connection to the Fourth Avenue subway in Brooklyn and another connection with the same line in Brooklyn via the Manhattan Bridge. At Fifty-ninth Street the Broadway subway connects with the Fifty-ninth Street subway, which in turn, by East River tunnel, will give the B. R. T. company a connection with the Queens line, where it may exercise the trackage rights referred to above. Another subway line under construction and for operation by the Brooklyn company is the so-called Fourteenth Street-Eastern Line, extending from Fourteenth Street, Manhattan, partly as subway and partly as an elevated railroad, under the East River and by various streets and avenues and private right-of-way to a connection with the Broadway elevated line near Eastern Parkway.

Other dual system lines in Brooklyn are the Liberty Avenue extension of the Fulton Street elevated line; the Jamaica Avenue extension of the Broadway line and a rebuilt portion of the Lutheran Cemetery.

In addition to the above, additional improvements are now being arranged for, viz.: a connection between the Fulton Street elevated line and the Fourth Avenue subway at Ashland Place and the diversion of the Fulton Street elevated tracks at Borough Hall into Adams Street, and in Queens an extension of the Corona line by lease of the Long Island Railroad tracks to Little Neck and to Whitestone. Both the Interborough Company and the Brooklyn company have made numerous improvements in their existing elevated railroads, including many miles of new third tracking in addition to the extensions enumerated above.

TWELVE NEW RIVER TUBES.

More subaqueous tunnel work is under construction for dual system lines than has ever been attempted before. This work represents an expenditure of some $30,000,000, and includes four new tunnels of two tubes each and one tunnel of four tubes. The last named connects the Lexington Avenue line in Manhattan with its Bronx branch. The other tunnels mentioned are the Sixtieth Street tunnel connecting the Fifty-ninth Street subway with the Queens line; the tunnel for the Fourteenth Street Eastern line; the new Interborough tunnel between Manhattan and Brooklyn and the tunnel connection between the Broadway subway in Manhattan and the Fourth Avenue subway in Brooklyn.

When the South Brooklyn rapid transit lines, operated by the Brooklyn company, are entirely reconstructed, a 5c fare will be given to Coney Island, thus standardizing the fare charged over all portions of the B. R. T. lines. Transfers will be freely given between the elevated and subway portions of this line, so that it will be possible for a passenger to reach any particular station on any one of the lines from any other particular station for one fare. Many new transfer points between elevated and subway lines will be added under the Brooklyn company's operation.

While practically no new transfer points will be added between elevated and subway lines on the Interborough system, the length of ride for a 5c fare on both Interborough elevated and subway lines will be vastly extended. Under Interborough operation it will be possible as a maximum ride for a passenger to go from the Two Hundred and Forty-first Street station on the White Plains Road line, near the Mount Vernon line, to New Lots Avenue on the Livonia Avenue extension, near the shore of Jamaica Bay.

As stated above, the city is to furnish most of the money for the building of the new subway lines and subway extensions, with contributions from each company toward the cost of construction, and with the total cost of equipment met by the companies. This equipment is to become the property of the City of New York when placed in operation and the cost is to be amortized out of earnings.

The total cost of the dual system, including equipment, real estate, power house construction and changes, interest during construction, etc., will be in the neighborhood of $400,000,000, and in excess of the cost of any other engineering operation, according to engineering authorities. Of the above sum about $60,000,000 will be contributed by the Brooklyn company; about $146,000,000 by the Interborough Rapid Transit Company, and the remainder, approximately $194,000,000, by the City of New York.

HUDSON AND MANHATTAN RAILROAD SUBWAY.

Apart from the above systems the Hudson and Manhattan Railroad operates a system of tunnels and subways sometimes called the McAdoo system. The tunnels connect the business section of New York with the Pennsylvania Railroad, the Lehigh Valley Railroad, the New York, Susquehanna and Western Railroad, the Erie Railroad, and the Delaware, Lackawanna and Western Railroad on the New Jersey side, and in addition operate to a station at Summit Avenue, Jersey City, and thence over the tracks of the Pennsylvania Railroad to Manhattan Transfer and over its own tracks to Park Place, Newark. There are two sets of tunnels under the Hudson River. On the New York side the downtown tunnel terminates in the Hudson Terminal Building at Church, Cortlandt and Fulton Streets. The uptown tunnel terminates at Christopher Street where it becomes a part of a subway running up Sixth Avenue to Thirty-third Street.

STATIONS IN NEW YORK.

THE OLD SUBWAY.

THE subway operated by the Interborough Rapid Transit Company comprises:

A four-track trunk line from City Hall Park through Lafayette Street, Fourth Avenue, Forty-second Street and Broadway to Ninety-sixth Street.

A two-track southern extension from City Hall, down Broadway to the Battery, there connected by the Rapid Transit Tunnel under the East River to the Brooklyn subway, which extends along Joralemon and Fulton Streets to Atlantic Avenue.

Two northern branches from Ninety-sixth Street, viz. (*a*) the Broadway and (*b*) the Lenox Avenue.

(*a*) The Broadway or West Side branch extends along Broadway, St. Nicholas and Amsterdam Avenues, and Broadway to 242d Street (Van Cortlandt Park). It has three tracks from Ninety-sixth Street to 137th Street and two beyond. Part of it is an elevated structure.

(*b*) The Lenox Avenue branch has two tracks (portions of which are carried on an elevated structure) with a terminal at Bronx Park. The Lenox Avenue branch leaves the trunk line at about 103d Street, runs eastwardly to and under the northwest corner of Central Park, thence north through Lenox Avenue to about 141st Street, where it branches off to the eastward and runs through various streets to Westchester Avenue, through Westchester Avenue to Southern Boulevard, and through Southern Boulevard to the terminus of the line at Bronx Park, or 180th Street.

Total length of all the above routes, 26.3 miles, having 85.2 miles of track. Standard four-track cross section (two for express trains and two for local) 54 feet 8½ inches wide over all and 16 feet 7 inches high, with roof supported by steel columns. 97,500 tons of structural steel and 725,000 cubic yards of concrete used. The contract for the subway in New York north of City Hall was awarded January 15, 1900, to John B. McDonald and completed by him October 27, 1904, as far as 145th Street. The Bronx extensions were not completed until some time later. The contracts for subways south of City Hall and in Brooklyn were awarded after the one in New York, to the Rapid Transit Subway Construction Company, and were completed in 1908. Total cost about $75,000,000, of which $50,000,000 was expended on the construction of the subway, and $25,000,000 on the equipment: viz., power house, rolling stock, signals, etc.

BRIDGES IN AND ABOUT THE CITY OF NEW YORK.

BROOKLYN BRIDGE.

THE bridge connecting Manhattan and Brooklyn over the East River from Park Row, Manhattan, to Sands and Washington Streets, Brooklyn, was begun January 3, 1870, and opened to traffic May 24, 1883. Total cost of the bridge to date about $25,090,000.

The tolls are: For foot passengers, free; railway fare, 3 cents, or 2 tickets for 5 cents. Roadway tolls for vehicles abolished July 18, 1911. On August 23, 1897, the bridge railway was leased to the elevated railroad companies (now operated by the Brooklyn Rapid Transit), paying therefor 10 cents per car; trolley cars, 5 cents per round trip. About 250,000 people cross the bridge in a day.

The following are the statistics of the structure: Width of bridge, 86 feet. Length of river span, 1,595 feet 6 inches. Length of each land span, 930 feet. Length of Brooklyn approach, 998 feet. Length of New York approach, 1,562 feet 6 inches. Total length of carriageway, 6,016 feet. Total length of the bridge, with extensions, 7,580 feet.

Size of Manhattan caisson, 172 x 102 feet. Size of Brooklyn caisson, 168 x 102 feet. Timber and iron in caisson, 5,253 cubic yards. Concrete in well holes, chambers, etc., 5,669 cubic feet. Weight of Manhattan caisson, about 7,000 tons. Weight of concrete filling, about 8,000 tons.

Manhattan tower contains 46,945 cubic yards masonry. Brooklyn tower contains 38,214 cubic yards masonry. Depth of tower foundation below high water, Brooklyn, 45 feet. Depth of tower foundation below high water, Manhattan, 78 feet. Size of Manhattan tower at high water line, 140 x 59 feet. Size of Manhattan tower at roof course, 136 x 53 feet. Total height of towers above high water, 272 feet.

Clear height of bridge in centre of river span above high water at 90° F., 135 feet. Height of floor at towers above high water, 119 feet 3 inches.

Grade of roadway, 3¼ feet in 100 feet. Height of towers above roadway, 153 feet. Size of anchorages at base, 129 x 119 feet. Size of anchorages at top, 117 x 104 feet. Size of anchorages, 89 feet front, 85 feet rear. Weight of each anchor plate, 23 tons.

Number of cables, 4. Diameter of each cable, 15¾ inches. Length of each single wire in cables, 3,578 feet 6 inches. Ultimate strength of each cable, 12,000 tons. Weight of wire, 11 feet per pound. Each cable contains 5,296 parallel (not twisted) galvanized steel, oil-coated wires, closely wrapped to a solid cylinder, 15¾ inches in diameter. Permanent weight suspended from cables, 13,820 tons.

MANHATTAN BRIDGE.

Manhattan terminal, Bowery and Canal St.; Brooklyn terminal, Nassau, near Bridge St. Total cost to date, $31,080,000; of which $16,700,000 is for structure and $14,380,000 for land.

Width of bridge, 122 feet 6 inches. Length of river span, 1,470 feet. Length of each land span, 725 feet. Length of Manhattan approach, 2,067 feet. Length of Brooklyn approach, 1,868 feet. Total length of roadway, 6,855 feet. Bridge is of double-deck design, first deck to have one 35-foot roadway in centre and two subway tracks on each side and one 11-foot footwalk on each side, top deck to have four trolley tracks. Approximately 40,000 cubic yards excavation for each anchor pier; approximately 115,000 cubic yards masonry and concrete in each anchor pier.

Height of cables at top of tower above mean high water mark, 322 feet 3 inches. Height of roadway at centre of bridge above mean high water mark, 149 feet. Grade of roadway 3⅛ feet in 100 feet. Number of cables, four, 37 strands in each cable; 256 wires in each strand; 9,472 wires in each cable; 37,888 wires in four cables. Size of wire, 0.192 inches in diameter. Size of cable completed, 21¼ inches in diameter. Length of each wire, 3,223 feet 6 inches (anchor to anchor). Ultimate strength of each cable, 26,600 tons.

Weight of steel in cables and suspenders, 7,800 tons. Weight of steel in other parts main bridge, 33,900 tons. Weight of steel in approaches, 18,300 tons.

Work of construction of tower foundation in Brooklyn commenced October 1, 1901. Roadway opened for traffic December 31, 1909. East footwalk opened to pedestrians July 18, 1910. West footwalk opened May 11, 1911.

WILLIAMSBURG BRIDGE.

The tower foundations for the bridge in Manhattan are at the foot of Delancey Street, and in Brooklyn at a point between South Fifth and South Sixth Streets. The bridge ends at Clinton Street in Manhattan, and at Havemeyer Street in Brooklyn. Construction commenced November 7, 1896. Size of Manhattan caissons (2), 76 x 60 feet; Brooklyn caissons (2), 79 x 63 feet. Depth of tower foundations in Manhattan, north caisson 55 feet, south caisson 66 feet below mean high water; in Brooklyn, north caisson 107 feet 5 inches, south caisson 91 feet 9 inches below mean high water. Height of masonry in Manhattan and Brooklyn towers, 23 feet above mean high water. Total height of towers above mean high water, 332 feet 9 inches. Size of both anchorages at top, 149 feet x 127 feet 5 inches. Length of main span, 1,600 feet; each side span, 596 feet 6 inches; Manhattan approach, 2,650 feet; Brooklyn approach, 1,865 feet. Total length from Clinton Street, Manhattan, to New Street, Brooklyn, 7,308 feet. Width over all, 118 feet. Two roadways, each 20 feet wide, two footwalks, each 17 feet 8 inches wide. Height of roadways at towers, 125 feet 8 inches above mean high water. Height of roadways at centre of bridge, 145 feet 6 inches above mean high water. Clear height of bridge for channel width of 400 feet, 135 feet above mean high water. Number of supporting cables, 4. Diameter of each cable, 18¾ inches. Length of each single wire in cables, 2,985 feet. Total length of wire in four cables, 17,404 miles. Weight of four cables, including suspenders, 4,900 tons. Weight of structural steel and iron in main bridge, 26,300 tons; in approaches, 16,600 tons; total, 47,800 tons. Bridge opened for pedestrians and vehicles December 19, 1903. Surface railway for Brooklyn lines began operation November 3, 1904. Surface railway for Manhattan lines began operation February 9, 1905. Elevated railway began operation September 16, 1908. Cost of construction, including station in Manhattan, $15,090,000. Cost of land, $9,100,000.

QUEENSBORO BRIDGE.

Plans approved by the War Department, February 23, 1901. Main bridge is a continuous cantilever. Bridge with approaches, extends from Second Avenue, between Fifty-ninth and Sixtieth Streets, Manhattan, to Crescent Street, Queens. Construction commenced June, 1901. Height of highest masonry piers, 124 feet above mean high water. Length of Manhattan approach, 1,052 feet; west channel span, 1,182 feet; island span, 630 feet; east channel span, 984 feet; length of Queens approach, 2,672 feet 6 inches. Total length, from Second Avenue to Crescent Street, 7,449 feet. In addition, the Queens plaza has a length of 1,152 feet, extending from Crescent Street to Jackson Avenue. Width over all, 89 feet 6 inches. Width of roadway, 52 feet 3 inches. Two sidewalks, each 16 feet wide. Height of roadway in central portion of bridge, 143 feet above mean high water. Height of footwalks in central portion of bridge, 165 feet above mean high water. Height of lower balconies on towers on Blackwell's Island, 202 feet 6 inches above mean high water. Height of upper balconies on towers on Blackwell's Island, 333 feet above mean high water. Clear height of bridge for channel width of 400 feet for both east and west channels, 135 feet above mean

high water: Weight of steel and iron in main bridge, 52,600 tons; in approaches, 20,066 tons. Total, 72,666 tons. Bridge opened for pedestrians and vehicles, March 30, 1909. Surface railway began operation September 19, 1909. Cost of bridge construction, $12 870,000; cost of land, $4,720,000; total, $17,590,000.

HELL GATE ARCH BRIDGE.

The bridge spans the East River at Hell Gate, between Ward's Island and Astoria, Long Island. Designed and built by Gustav Lindenthal for the New York Connecting Railroad to connect the Pennsylvania and New York, New Haven systems, at a cost, including approaches, of $25,000,000. It is the longest arch in the world. The span is 1,016 feet 10 inches between tower faces. The upper chord of the arch is 300 feet above mean high water at the centre and 180 feet at the ends of the span; the lower chord is 260 feet above mean high water at the centre and 40 feet at the ends; the roadway is 140 feet above mean high water.

The arch carries four railway tracks (two passenger and two freight) on a solid concrete deck. It is the heaviest bridge in the world, weighing 52,000 pounds per lineal foot and carrying a loading of 24,000 pounds per lineal foot, making a total carrying capacity of 76,000 pounds per lineal foot. The steel work weighs 19,000 tons and the flooring and track weigh 7,000 tons. The heaviest single member weighs 185 tons and has a cross section of 1,384 square inches. The width of the bridge is 93 feet between railings and 60 feet between centres of trusses.

The Long Island tower is 104 by 140 feet at the base and is founded on rock in open cut at 20 feet depth. The Ward's Island tower is 119 by 140 feet at the base and rests on 21 pneumatic concrete caissons, founded on rock varying from 58 to 120 feet below the ground surface. Height of towers, 240 feet. Total concrete in towers, 110,000 cubic yards. Total concrete in bridge towers and approaches, 500,000 cubic yards.

Construction of arch commenced November, 1914. Arch was erected by cantilevering out from the towers, each half being held by connection to temporary backstays built behind the towers. The two halves were joined October 1, 1915. Entire steel work completed January, 1916. Was opened to traffic April 1, 1917.

HACK AND CAB FARES IN MANHATTAN BOROUGH.

THE legal rate of fare, of which an official copy shall be furnished by the Bureau of Licenses, and carried by every licensed hackman, shall be as follows:

Mileage rates charged for general driving:
Maximum rates of fare shall be as follows:

Motor Vehicles (Except Sight-Seeing Cars)—For not more than two passengers: For the first half-mile, or any fraction thereof, 30 cents; for each succeeding one-quarter mile, or any fraction thereof, 10 cents. For three or more passengers: For the first half-mile, or any fraction thereof, 40 cents; for each succeeding one-sixth mile, or any fraction thereof, 10 cents.

Sight-Seeing Cars—No rates are hereby established for sight-seeing cars, but a schedule of the rates charged for each trip shall, before the trip, be prominently displayed upon the car, and a charge greater, or attempt to charge any passenger a sum greater than that set forth in said schedule shall be deemed a violation of this article.

Horse-Drawn Vehicles—For cabs: For the first mile, or any fraction thereof, 50 cents; for each succeeding one-half mile, or any fraction thereof, 20 cents. For coaches: For the first mile, or any fraction thereof, 70 cents; for each succeeding one-half mile, or any fraction thereof, 30 cents. Hourly rates (applying only to horse-drawn vehicles when shopping or calling, and not including park or road driving, nor driving more than five miles from starting point): For the first hour, or any part thereof, $1.50; for each additional one-half hour, 50 cents. In case of public hacks on which taximeters are not affixed, when driving on the numbered streets or numbered and lettered avenues in the Borough of Manhattan, twenty blocks north and south, and seven blocks between the numbered and lettered avenues constitute a mile for the purpose of this ordinance. The rate card, as provided for hereafter, shall state the number of blocks constituting a mile in the Borough of Manhattan.

Applying Both to Motor-Driven and Horse-Drawn Vehicles: For waiting time at the rate of $1.50 per hour. For each piece of luggage carried outside, 20 cents. No charge shall, however, be made for hang bags and suit cases. Ferriage and tolls in all cases to be paid by the party using the vehicle.

Any violation of the provisions of this article, or any charge or any attempt to charge any passenger a greater rate of fare than that to which the public hack is entitled under the provisions of this article, shall render the offender liable, upon conviction thereof before any City Magistrate, to a fine of not exceeding $10, or in default of payment thereof to imprisonment in the City Prison for a period not exceeding ten days.

Every driver of a public hack, immediately after the termination of any hiring or employment must carefully search such hack for any property lost or left therein, and any such property, unless sooner claimed or delivered to the owner, must be taken to the nearest police station and deposited with the officer in charge within twenty-four hours after the finding thereof, and the Captain of the precinct to which such report shall be made shall forward a written notice to the Bureau of Licenses with brief particulars and description of the property.

Every driver of a public hack shall have the right to demand payment of the legal fare in advance, and may refuse employment unless so prepaid, but no driver of a public hack shall otherwise refuse or neglect to convey any orderly person or persons upon request anywhere in the city, unless previously engaged or unable to do so. No driver of a licensed hack shall carry any other person than the passenger first employing a hack without the consent of said passenger.

All disputes as to the lawful rate of fare shall be determined by the police officer in charge of the police station nearest to the place where such dispute is had; failure to comply with such determination shall subject the offending party to a charge of disorderly conduct, punishable by a fine of not exceeding $10, or in default thereof, imprisonment for not more than ten days.

THE MERCHANTS' ASSOCIATION OF NEW YORK.

The Merchants' Association of New York is a commercial and civic organization whose object it is "to foster the trade and welfare of New York," to develop its industries, and to protect and promote its interests. The association was founded in 1897. Headquarters, Woolworth Building, 233 Broadway. It has about 5,000 members, representing every trade, industry, and profession, doing business in all the five boroughs of the city. *President*—William Fellowes Morgan. *Secretary*—S. C. Mead.

PUBLIC SCHOOLS OF NEW YORK CITY.

Under an act of the Legislature (Chapter 786 of the Laws of 1917) a new Board of Education, to consist of seven members as against forty-six formerly constituting that body, will be appointed by the Mayor January 2, 1918, the term of office in each instance being seven years.

PUBLIC education in New York City began with the founding of the Free School Society (after 1826 the Public School Society) in 1805. The society started in a small way, depending upon private subscriptions, but soon received aid from the city. It gradually expanded, and until 1842 had control of the moneys supplied for educational purposes by the city and the common school fund of the State. This condition of affairs was unique. The society, being under the direction of high-minded citizens, enjoyed a large degree of public confidence. So anomalous a system could not last, however, and by an act of the Legislature, passed in 1842, the Board of Education was established. The Public School Society continued to conduct its schools until 1853, when, by mutual consent, they were all taken over by the board. The society at that time had more than a hundred schools; the value of the property it transferred to the city was estimated at $450,000, and during its existence it educated some 600,000 children. The Board of Education was an elective body from 1842 to 1871, the members being chosen first by wards, and from 1863 by school districts; since 1871 they have been appointed by the Mayor. In Brooklyn a Board of Education was created in 1843; the members were chosen by the Common Council until 1862, in which year the appointing power was vested in the Mayor. When consolidation took effect, in 1898, separate school boards were provided for the several boroughs (Manhattan and the Bronx being united), with a central Board of Education (composed of delegates from the four school boards, 19 in all) having charge of the finances, the erection and repair of buildings, the acquiring of sites, the purchase and distribution of supplies, etc. This system was dropped on the revision of the Charter in 1901, and since 1902 there has been one Board of Education for the city.

The Board of Superintendents, consisting of the superintendent of schools and eight associate superintendents, has large powers in the nomination, promotion, and transfer of teachers, the recommendation of text-books and scholastic supplies, the determination of courses of study, the fixing of qualifications for teachers' licenses, etc. Its important acts require the approval of the Board of Education. There are twenty-six district superintendents, whose duties are to visit schools and observe the work of teachers. The Board of Examiners (consisting of four examiners) conducts all examinations for would-be teachers, and prepares eligible lists. The school superintendents and examiners, as well as the supervisor of free lectures, the superintendent of school buildings, the superintendent of school supplies, and the director of attendance (whose duties are indicated by their titles), have terms of six years each. The Board of Education appoints all these officials and also a secretary, an auditor, and a director of reference and research, having no fixed term. Principals and teachers are appointed by the Board of Education on the recommendation of the Board of Superintendents. The merit system is in full operation, and teachers are appointed in order of standing on eligible lists. Beginners are on probation for three years, their licenses being renewable from year to year; when permanently licensed, their tenure is assured, and they cannot be removed except on charges. New teachers are appointed only after pursuing a training school course, or after five years' experience elsewhere.

The regular school day is five hours in length, but in September, 1913, it was decided that four hours should be considered full time for classes of the first-year grades; the kindergarten session is three hours in length.

Early in 1915 the duplicate school plan (practically the Gary system) was adopted in two schools, Public School 45, the Bronx, and Public School 89, Brooklyn. It has since been adopted in eleven other schools in the Bronx, two in Manhattan and fifteen in Brooklyn. One hundred and six additional schools have been selected for reorganization on the duplicate plan. Funds to the amount of $13,525,986 have been authorized by the financial authorities of the city for additions to and alterations in buildings, acquisition of sites, playgrounds, the installation of equipment, etc., covering the schools already organized on the duplicate school plan and for its further extension.

The budget appropriation of the Department of Education for 1917 was $41,430,447.49, of which $35,067,922.97 constituted the general school fund (for teachers' salaries). For 1918 the appropriation requested is $49,599,834.79, ($6,000,000.00 of this amount is for new buildings, additions and extensions), the general school fund being $36,091,634.26. Under the so-called Equal Pay law (Chapter 902, laws of 1911) teachers (men and women) in elementary schools serve three years at $726; they then advance, with yearly increments of $60, to $1,500. This applies to the great majority. In the upper grades the maximum salaries are $1,820 and $2,260. Assistants to principals (heads of departments) receive $2,400, and principals $3,500. In high schools salaries range from $900 to $3,150; in training schools from $1,000 to $3,250. Principals of high schools and training schools are paid $5,000, and $5,000 is the salary of district superintendents. Examiners and the director of attendance receive $6,000. Associate superintendents and the director of reference and research receive $6,500. The salary of the city superintendent is $10,000. The number of elementary schools is 515—154 in Manhattan, 179 in Brooklyn, 56 in the Bronx, 95 in Queens, and 34 in Richmond. The number of high schools is 24. There are also three training schools for teachers, four vocational schools and three truant schools. In the elementary schools there are 1,207 men and 16,272 women class teachers; in the high schools 1,147 men and 1,167 women. In the evening schools (high and elementary) there are 1,734 teachers. One hundred and fifty-five attendance officers enforce the Compulsory Education law. The latest available figures show the average attendance as follows:

	Elementary Schools. (Kindergarten, Primary, Grammar.)	High Schools.		Elementary Schools. (Kindergarten, Primary, Grammar.)	High Schools.
Manhattan	243,328	18,538	Queens	56,605	5,288
Brooklyn	256,195	20,632	Richmond	14,223	1,091
The Bronx	94,534	5,829			
			Total	664,885	51,378

Number on part time, elementary schools:

Manhattan	9,236	Queens	2,955
Brooklyn	11,931	Richmond	
The Bronx	10,309		
		Total	34,431

Decrease in the number of part-time pupils has been 6,822.

Teachers incapacitated after thirty years' service are retired on pensions (half pay); the number of retired teachers September 1, 1917, was 1,437.

School buildings and sites are paid for with the proceeds of city bonds (corporate stock); the amount issued since consolidation has been $123,803,001.39, computed to July 1, 1917.

BIG BROTHER MOVEMENT.

The Big Brother movement was founded in 1904 in New York City. Since that time the work has been taken up in over one hundred cities, on lines laid down by this office. There is a staff of paid workers, supplemented by volunteers—lawyers, physicians, merchants, executives, teachers—all busy men selected because of their good will and natural ability to do effective work. The Little Brothers are boys referred by parents, hospitals, police, courts, etc. They are the sons of widows, inebriates, prisoners, of careless or ignorant parents—boys who are largely the victims of their environment. The task is to ascertain the cause of the boys' trouble—whether it be truancy, stealing, lying, running away from home, etc.; then, with the co-operation of parents, through the mediation of the Big Brothers, to build up within the boy a sense of honor and good citizenship. Every possible agency is employed to secure results—hospitals for examination or operation, the Y. M. C. A., church and settlement gymnasiums, industrial classes and boys' clubs, Boy Scouts, trade-schools, camps and farm schools.

BROOKLYN FEDERATION OF JEWISH CHARITIES.

President—Edward Lazansky. *First Vice-President*—Simon F. Rothschild. *Second Vice-President*—Benjamin H. Namm. *Treasurer*—Julius Dahlman. *Honorary Secretary*—Nathan S. Jonas. *Executive Secretary*—Max Abelman. *President of the Brooklyn Hebrew Orphan Asylum*—Louis L. Firuski. *President of the Jewish Hospital*—Edward C. Blum. *President of the United Jewish Aid Societies*—Adolf Berigida. *President of the Hebrew Educational Society*—Aaron William Levy. *President of the Young Men's Hebrew Association*—Grover M. Moscowitz. *President of the Training School for Nurses*—Philip H. Lustig. *President of the Council of Jewish Women and Council Home for Jewish Girls*—Miss Rose Brenner. *President of the Women's Auxiliary of the Brooklyn Hebrew Orphan Asylum*—Mrs. Otto Kempner. *President of the Women's Auxiliary of the Jewish Hospital*—Mrs. Nathaniel H. Levi. *President of the Young Men's and Women's Social Service Auxiliary of the Brooklyn Federation of Jewish Charities*—Algernon I. Nova.

The Brooklyn Federation of Jewish Charities is the central organization for the collection and distribution of the funds for the maintenance, in whole or in part, of the following institutions: Brooklyn Hebrew Orphan Asylum, The Jewish Hospital of Brooklyn, United Jewish Aid Societies, Hebrew Educational Society, Training School for Nurses, Young Men's Hebrew Association, Women's Auxiliary Brooklyn Hebrew Orphan Asylum, Women's Auxiliary the Jewish Hospital, Council of Jewish Women (Brooklyn Section), Council Home for Jewish Girls (Amalie Seidner Memorial), Young Men's and Women's Social Service Auxiliary. Other affiliated societies to which allotments are made: Montefiore Home for Chronic Invalids of New York City, Jewish Protectory and Aid Society (Brooklyn Cottage), Hawthorne, N. Y.; National Jewish Hospital for Consumptives, Denver, Colo.; Jewish Consumptives' Relief Society, Denver, Colo.

The Brooklyn Federation of Jewish Charities was formed to concentrate the Jewish communal activities, both orthodox and reformed. Every effort has been made to create a general interest throughout the city in charitable affairs. Its purposes are to lighten the burdens of the helpless, and by educational facilities to raise the standard of citizenship among the unenlightened.

The Secret of Fast Typewriting

80 to 100 Words a Minute Easy for Any One

Now, for the first time, has an idea been discovered which puts speed—great speed and accuracy—within the reach of every typewriter user. Almost overnight it has revolutionized the whole typewriting situation.

Stenographers who formerly never exceeded 30 to 40 words a minute are writing 80 to 100 words with less effort and with far greater accuracy than ever before. And their salaries have jumped from a meagre $8 to $15 per week to $30, $35 and even $40.

Typewrite the New Way

European music teachers, when training their pupils for the piano, invariably give special finger exercises. This is because the untrained way is not the right way. The best results cannot be obtained—the fingers simply cannot be used correctly—unless the student develops and strengthens the proper muscles.

This training is even more essential to expert typewriting. The reason that so few people can write no more than 30 to 40 words a minute is because their fingers are not flexible or nimble enough. The new, easy method overcomes this at once—develops finger strength and flexibility by simple, easy exercises **away from the machine**—trains the fingers beforehand for their work and with a minimum of machine practice brings results that border on the miraculous.

Learn at Home—Only 10 Easy Lessons

No matter how low your present speed, no matter how labored your efforts, no matter how weak or clumsy your fingers now seem to be, no matter how little or how much experience you have had, no matter what other courses you have taken, this new method will positively bring you the desired results, as thousands of stenographers—and ministers, lawyers, reporters and writers as well—have already proven. There are only 10 lessons, amazingly easy and fascinating. A few short weeks of spare time study is all that is required.

Write for Particulars

If you are ambitious to get ahead—if you want to make your work easier—if you want to get more money in your pay envelope—don't wait a single moment before sending for full particulars about The New Way in Typewriting.

This new method is bringing such marvelous results to others—is proving itself to be so sure a means of quickly increasing salaries—that you will be doing yourself a big injustice if you fail to write **at once.** Tear off the coupon **now,** or write a postal or letter **before you turn the page.**

BROWN'S BRONCHIAL TROCHES

were first introduced to the public in the year 1850 and are known over the entire world as a preparation of unsurpassed effectiveness for the relief of throat ailments.

They remedy throat irritation caused by coughing spells, which always accompany Bronchitis, Asthma and Lung Troubles, and thereby immediately bring relief to the sufferer.

Of great worth to singers, speakers, preachers and teachers, as a means to clear the voice, remove hoarseness and all irritations which are caused by straining the voice.

As they contain no opiates, BROWN'S BRONCHIAL TROCHES may be used in all cases where ordinary coughing or throat lozenges are employed, without the least danger.

Look for the signature on the wrapper. Not sold by weight.

A sample package sent to any address on request.

MAN'S HEALTH FORTIFIED

By living a healthful, active life, and assisting nature in obviating the strains due to severe physical exercises and with the assistance of a celebrated "SCHNOTER'S" Army and Navy Suspensory, which will give and keep you in better bodily vigor than all the patent medicines that were ever introduced to the public. Ask your physician about this.

Remember these words.

"A walk of a mile in the open air
Will save you more than your nickel fare.
For in God's out-doors the air is good,
It will clear your brain and redden your blood,
And bring you more vigor and health by far
Than you can possibly get in any old car."

What 15 cts. Will Bring You From the Nation's Capital

Washington, the home of the Pathfinder, is the nerve-center of civilization: history is being made at this world capital. The Pathfinder's illustrated weekly review gives you a clear, impartial and correct diagnosis of public affairs during these strenuous, epoch-making days.

The little matter of 15c in stamps or coin will bring you the Pathfinder 13 weeks on trial. The Pathfinder is an illustrated weekly, published at the Nation's center, for the Nation: a paper that prints all the news of the world and tells the truth and only the truth; now in its 24th year. This paper fills the bill without emptying the purse: it costs but $1 a year. If you want to keep posted on what is going on in the world, at the least expense of time or money, this is your means. If you want a paper in your home which is sincere, reliable, entertaining, wholesome, the Pathfinder is yours. If you would appreciate a paper which puts everything clearly, fairly, briefly—here it is. A dollar bill mailed at our risk will bring you the Pathfinder for a full year, or simply send 15c to show that you might like such a paper, and we will send the Pathfinder on probation 13 weeks. This does not repay us but we are glad to invest in new friends. **Pathfinder, Box 69, Washington, D. C.**

ECZEMA

Also called Tetter, Salt Rheum, Pruritus, Milk Crust, Water Poison, Weeping Skin, etc.

DR. CANNADAY
Eczema Specialist for 15 Years

For fifteen years I have been treating one disease alone, ECZEMA. I have handled over one million cases. I do not pretend to know it all, but I am convinced the disease is due to an excess of acid in the blood, and closely related to rheumatism and cancer. **This acid must be removed.**

Eczema is called by some people Itch, Tetter, Salt Rheum, Pruritus, Milk Crust, Weeping Skin, etc. I am fully convinced Eczema is a curable disease, and when I say it can be CURED, I mean just what I say—C-U-R-E-D, and not merely patched up for a while to return worse than before. It makes no difference what other doctors have told you, or what all you have tried, all I ask is just a chance to prove to you that this vast experience has taught me a great deal that would be of help to you. If you will write me to-day I will send you a free trial of my mild, soothing, guaranteed treatment that will do more to convince you than I or anyone else could in a month's preaching. It's all up to you. If you suffer any more with eczema and refuse to merely write to me for free trial, just blame yourself. No matter where you live, I have treated your neighbors. Merely dropping me a postal today is likely to give you more real comfort in a week than you ever expected to enjoy again. Do it right now; your very life may be at stake.

TOBACCO HABIT

A very interesting book has been published on tobacco habit—how to conquer it quickly and easily. It tells the dangers of excessive smoking, chewing, snuff using, etc., explains how nervousness, irritability, sleeplessness, weak eyes, stomach troubles and numerous other disorders may be eliminated through stopping self-poisoning by tobacco. The man who has written this book wants genuinely to help all who have become addicted to tobacco habit and says there's no need to suffer that awful craving or restlessness which comes when one tries to quit voluntarily. This is no mind-cure or temperance sermon tract, but plain, common sense, clearly set forth. The author will send the book free, postpaid, in plain wrapper. Write, giving name and full address—a postcard will do. Address: Edw. J. Woods, 657 S, Station E, New York City.

Cured His Piles

Now 88 Years Old, But Works at Trade of Blacksmith and Feels Younger Since Piles Are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for curing piles.

Mr. Jacob Lyon, Homer, Mich.

I wish that you could hear him tell of his many experiences with ointments, suppositories, etc., before he tried my method. Here is a letter just received from him:

Homer, Mich., June 27, 1917.

Mr. E. R. Page, Marshall, Mich.

Dear Sir: I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy.

Yours truly, J. L. LYON.

Don't let a doctor cut you and don't waste money on foolish salves and suppositories, but send today for a Free Trial of my internal method for the Permanent Cure of Piles.

I especially want to send it to those apparently hopeless cases where all forms of salves, suppositories, etc., have failed.

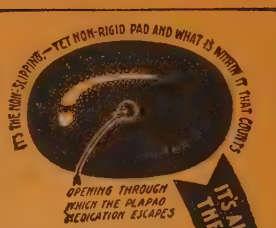
Stop Using a Truss

Yes, STOP IT, I say! You KNOW by your own experience that it is only a makeshift—a false prop against a collapsing wall, and that it is undermining your health. Why, then, continue to wear it? Let me point out a better way.



FREE TO THE RUPTURED

I want to send to every RUPTURED SUFFERER, absolutely FREE TRIAL OF PLAPAO and my interesting, instructive 48-page book on Rupture—explains what rupture is and why trusses and similar MERE MECHANICAL supports cannot be relied upon.

The PLAPAO-PADS are nature's way. This simple, inexpensive home treatment gives quick relief, strengthens weakened muscles. Does away with steel and rubber bands that chafe and pinch. Close the hernial opening as nature intended, so the rupture CAN'T come down. Hundreds have testified under oath that the PLAPAO-PADS positively and permanently cured their rupture—some of them most aggravated cases and of long standing. Awarded Gold Medal and Grand Prix.

FREE

TRIAL OF PLAPAO

Soft as Velvet—Easy to Apply—Inexpensive

There is no metal about the PLAPAO-PADS—no straps, buckles or springs attached—soft as velvet. Easy to wear. No delay from work. Easy to apply and require no readjusting. Process of recovery is natural, so afterward no use for trusses. Ask me to prove what I say by sending Trial PLAPAO and a most convincing mass of evidence FREE—no charge for it, now or ever—nothing to be returned. Don't wait. Write today—NOW.

DRINK HABIT

For the good of those who are victims, directly or indirectly, of the drink habit, I have written and published a very interesting illustrated book which describes how I was **freed completely** from the craving and for several years I have not had any desire to touch a drop of anything alcoholic. My book contains information by following which thousands of drinkers have **admittedly been saved.**

Many men who do not want to be freed of drink curse have been **secretly saved by wives, mothers or sisters.** They did not realize what was happening until they found **all desire had left** them—they could not drink any more whisky or beer—then they rejoiced at having been saved. My book has been proven many times worth its weight in gold to a multitude of families. **Praised** by physicians, judges, editors clergymen and legions of others. Don't lose this notice; it may not appear again. Simply write **Edward J. Woods, 657 T, Station E, New York, N. Y.,** and you will soon receive the FREE book of valuable information in plain wrapper, and **happiness** may soon be yours. Correspondence confidential.

TRY MAGNESIA FOR YOUR STOMACH TROUBLE

Most Indigestion Comes From "Acid Stomach." Bisurated Magnesia Neutralizes Stomach Acids.

If you suffer from dyspepsia or indigestion, drop pepsin, bismuth, charcoal, soda and artificial digestive aids for awhile. Instead, try neutralizing the acids in your stomach with a little Bisurated Magnesia and see how fine your stomach feels and acts. Relieved of excess acid your stomach can probably digest anything a healthy normal stomach should digest. You'll need no help from drugs.

BISURATED MAGNESIA

For Dyspepsia, Indigestion

Heartburn, Belching, Sour Acid Stomach, Gas in Stomach, etc., take a teaspoonful of Bisurated Magnesia in a half glass of hot water after eating. Is safe, pleasant and harmless to use and gives almost instant relief. It neutralizes stomach acidity and sweetens the food contents so that digestion is easy and painless. Sold by druggists everywhere.

Relief for Catarrh Sufferers Now FREE

You Can Now Treat This Trouble in Your Own Home and Get Relief at Once.

By the new method the nose and throat are treated by an effective local remedy applied directly to the afflicted membranes.

The Elixir, taken into the stomach, has a direct influence upon the mucous membranes of the body and cures the disease by removing the cause.

How the Remedy for Catarrh Was Discovered

THIS terrible disease has raged unchecked for years simply because *symptoms* have been treated while the cause of the trouble has been left to circulate in the blood and bring the disease back as fast as local treatments could relieve it.

C. E. Gauss, who experimented for years on a treatment for Catarrh, found that after perfecting a balm that relieved the nose and throat troubles quickly he could not prevent the trouble beginning all over again.

On test cases he could completely remove all signs of Catarrh from nose and throat, but in a few weeks they were back.

Careful experiments and investigations have shown that as the troubles were expelled from the nose and throat the real cause of the disease was overlooked, and in a short time the Catarrh would return stronger than ever. Mr. Gauss has gone way ahead of the ordinary methods of treatment and has provided a remedy that

Removes the Cause

and Immediately Gives Relief to the Nose and Throat

Reese Jones, of Scranton, Penn., says that after trying many other treatments, he used this new method and—"My nose is now entirely clear and free and I am not bothered by the disease any more. The New Combined Treatment is worth its weight in gold."

Temporary relief from catarrh may be obtained in other ways, but the New Combined Treatment must inevitably be accepted for *permanent* results.

Sarah J. Cape, Mount Pelia, Tenn., says: "I suffered the pains and distress of catarrh for thirteen years and, needless to state, tried nearly every method. But by your new method I was *completely* cured, and you cannot imagine the joy that has come over me."

Goes to the Root of

- Stopped-up noses
- Constant "frog-in-the-throat"
- Nasal discharges
- Hawking and spitting
- Snoring at night
- Bad breath
- Frequent colds
- Difficult breathing
- Smothering sensation in dreams
- Sudden fits of sneezing
- Dry mucus in nose

and any of the other symptoms that indicate approaching or present catarrh.

Trial Treatment FREE

This new method is so important to the welfare of humanity, so vital to every person suffering from any form of catarrh, that the opportunity to actually *test* it and *prove* its results will be gladly extended without one cent of cost.

A large trial treatment, with complete, minute directions, will be sent free to any catarrh sufferer.

Send no money, take no risks, make no promises. Simply clip, sign and mail the coupon and the test package of the New Combined Treatment will be sent, fully prepaid, together with the valuable book on Catarrh.

Send the Test Treatment FREE

Immediate Results

Trying to quit the tobacco habit unaided is a losing fight against heavy odds, and means a serious shock to your nervous system. So don't try it! Make the tobacco habit quit you. It will quit you if you will just take Tobacco Redeemer according to directions.

It doesn't make a particle of difference whether you have been a user of tobacco for a single month or for 50 years, or how much you use, or in what form you use it. Whether you smoke cigars, cigarettes, pipe, chew plug or fine cut or use snuff Tobacco Redeemer will positively remove all craving for tobacco in any form in from 48 to 72 hours. Your tobacco craving will begin to decrease after the very first dose—there's no waiting for results.

Tobacco Redeemer is absolutely harmless and contains no habit-forming drugs of any kind—the most marvelously quick, thoroughly reliable remedy for the tobacco habit the world has ever known.

Not a Substitute

Tobacco Redeemer is in no sense a substitute for tobacco, but is a radical, efficient treatment. After finishing the treatment you have absolutely no desire to use tobacco again or to continue the use of the remedy. It quiets the nerves, and will make you feel better in every way. If you really want to quit the tobacco habit—get rid of it so completely that when you see others using it, it will not awaken the slightest desire in you—you should at once begin a course of Tobacco Redeemer treatment for the habit.

Results Absolutely Guaranteed

A single trial will convince the most skeptical. Our legal, binding, money-back guarantee goes with each full treatment. If Tobacco Redeemer fails to banish the tobacco habit when taken according to the plain and easy directions, your money will be cheerfully refunded upon demand.

Let Us Send You Convincing Proof

If you're a slave of the tobacco habit and want to find a sure, quick way of quitting "for keeps" you owe it to yourself and your family to mail the coupon below or send your name and address on a postal and receive our free booklet on the deadly effect of tobacco on the human system, and positive proof that Tobacco Redeemer will quickly free you from the habit.
